NEWPARK DRILLING FLUIDS

# SAFETY DATA SHEET

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

### 1.1 Product identifier

**Product name** **BARITE POWDER**

**Synonyms** BARITE (API 13A SECTION 7) ● NEWBAR ● RHEOBAR

### 1.2 Uses and uses advised against

**Uses** DRILLING FLUID ADDITIVE ● WEIGHTING AGENT

### 1.3 Details of the supplier of the product

**Supplier name** **NEWPARK DRILLING FLUIDS (AUSTRALIA) LTD**

**Address** 11 Alacrity Place, Henderson, WA, 6166, AUSTRALIA

**Telephone** +61 8 9410 8200

**Fax** +61 8 9410 8299

**Website** www.newpark.com

### 1.4 Emergency telephone numbers

**Emergency** 1800 127 406 (Australia); +64 4 917 9888 (International)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA

### 2.2 GHS Label elements

No signal word, pictograms, hazard or precautionary statements have been allocated.

### 2.3 Other hazards

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 3. COMPOSITION/ INFORMATION ON INGREDIENTS

### 3.1 Substances / Mixtures

| Ingredient | CAS Number | EC Number | Content |
|---|---|---|---|
| BARIUM SULPHATE | 7727-43-7 | 231-784-4 | >89% |
| QUARTZ (CRYSTALLINE SILICA) | 14808-60-7 | 238-878-4 | <3% |

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

**Eye** If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation** If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.

**Skin** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Continue flushing with water until advised to stop by a Poisons Information Centre or a doctor.

**Ingestion** For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once).

**First aid facilities** Eye wash facilities should be available.

### 4.2 Most important symptoms and effects, both acute and delayed

Repeated exposure to crystalline silica may result in lung fibrosis (silicosis). Principal symptoms of silicosis are coughing and breathlessness. Crystalline silica is classified as carcinogenic to humans (IARC Group 1).

### 4.3 Immediate medical attention and special treatment needed

Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### 5.1 Extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

### 5.2 Special hazards arising from the substance or mixture

Non flammable. May evolve toxic gases (sulphur oxides) when heated to decomposition.

### 5.3 Advice for firefighters

Evacuate area and contact emergency services. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.

### 5.4 Hazchem code

None allocated.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear Personal Protective Equipment (PPE) as detailed in section 8 of the SDS.

### 6.2 Environmental precautions

Prevent product from entering drains and waterways.

### 6.3 Methods of cleaning up

Contain spillage, then cover / absorb spill with non-combustible absorbent material (vermiculite, sand, or similar), collect and place in suitable containers for disposal.

### 6.4 Reference to other sections

See Sections 8 and 13 for exposure controls and disposal.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well ventilated area, removed from incompatible substances and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use.

### 7.3 Specific end uses

No information provided.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters

**Exposure standards**

| Ingredient | Reference | TWA | | STEL | |
|---|---|---|---|---|---|
| | | ppm | mg/m³ | ppm | mg/m³ |
| Barium sulphate | SWA [AUS] | -- | 10 | -- | -- |
| Barium sulphate (inhalable) | SWA [Proposed] | -- | 4 | -- | -- |
| Barium sulphate (respirable) | SWA [Proposed] | -- | 1.35 | -- | -- |
| Quartz (respirable dust) | SWA [AUS] | -- | 0.1 | -- | -- |
| Quartz (respirable dust) | SWA [Proposed] | -- | 0.05 | -- | -- |
| Quartz (respirable dust) | WorkSafe VIC | -- | 0.05 | -- | -- |

**Biological limits** No Biological Limit Value allocated.

### 8.2 Exposure controls

**Engineering controls** Avoid inhalation. Use in well ventilated areas. Where an inhalation risk exists, mechanical extraction ventilation is recommended.

**PPE**

**Eye / Face** Wear dust-proof goggles.

**Hands** Wear PVC or rubber gloves.

**Body** When using large quantities or where heavy contamination is likely, wear coveralls.

**Respiratory** Where an inhalation risk exists, wear a Class P1 (Particulate) respirator.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | OFF-WHITE POWDER |
| **Odour** | ODOURLESS |
| **Flammability** | NON FLAMMABLE |
| **Flash point** | NOT RELEVANT |
| **Boiling point** | NOT RELEVANT |
| **Melting point** | > 1300°C |
| **Evaporation rate** | NOT RELEVANT |
| **pH** | 8.2 (20% Slurry) |
| **Vapour density** | NOT RELEVANT |
| **Specific gravity** | 4.20 |
| **Solubility (water)** | INSOLUBLE |
| **Vapour pressure** | NOT RELEVANT |
| **Upper explosion limit** | NOT RELEVANT |
| **Lower explosion limit** | NOT RELEVANT |
| **Partition coefficient** | NOT RELEVANT |
| **Autoignition temperature** | NOT RELEVANT |
| **Decomposition temperature** | NOT RELEVANT |
| **Viscosity** | NOT RELEVANT |
| **Explosive properties** | NOT EXPLOSIVE |
| **Oxidising properties** | NON OXIDISING |
| **Odour threshold** | NOT RELEVANT |

### 9.2 Other information

| | |
|---|---|
| **Bulk density** | ~1.5 kg/L |

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity
Carefully review all information provided in sections 10.2 to 10.6.

### 10.2 Chemical stability
Stable under recommended conditions of storage.

### 10.3 Possibility of hazardous reactions
Polymerization is not expected to occur.

### 10.4 Conditions to avoid
Avoid heat, sparks, open flames and other ignition sources.

### 10.5 Incompatible materials
Incompatible with oxidising agents (e.g. hypochlorites), acids (e.g. nitric acid), alkalis (e.g. sodium hydroxide), heat and ignition sources.

### 10.6 Hazardous decomposition products
May evolve toxic gases (sulphur oxides) when heated to decomposition.

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects
**Acute toxicity** Based on available data, the classification criteria are not met.

**Information available for the ingredients:**

| Ingredient | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|---|---|---|---|
| BARIUM SULPHATE | > 5000 mg/kg (rat) | > 2000 mg/kg (rat) | -- |

**Skin** Contact may result in irritation, redness, pain and rash.

**Eye** Contact may result in irritation, lacrimation, pain, redness and blurring or dimness of vision.

**Sensitisation** Not classified as causing skin or respiratory sensitisation.

**Mutagenicity** Not classified as a mutagen.

**Carcinogenicity** Crystalline silica is classified as carcinogenic to humans (IARC Group 1). However, there is a body of evidence supporting the fact that increased cancer risk would be limited to people already suffering from silicosis.

**Reproductive** Not classified as a reproductive toxin.

**STOT - single exposure** Over exposure may result in irritation of the nose and throat, coughing, dizziness, drowsiness and headache.

**STOT - repeated exposure** Repeated exposure to respirable silica may result in pulmonary fibrosis (silicosis). Silicosis is a fibronodular lung disease caused by deposition in the lungs of fine respirable particles of crystalline silica. Principal symptoms of silicosis are coughing and breathlessness.

**Aspiration** Not classified as causing aspiration.

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity
Fish Toxicity: LC50 (Rainbow trout) > 7500 ppm/96hrs; LC50 (Fresh Water Trout) > 21,000 ppm/96hrs; LC50 (Salt Water Stickel Back) > 56,000 ppm/96hrs.

### 12.2 Persistence and degradability
Barium sulphate (major ingredient of barite (60-100%)) is insoluble in water and not biodegradable.

### 12.3 Bioaccumulative potential
Not expected to bioaccumulate.

### 12.4 Mobility in soil
No information provided.

### 12.5 Other adverse effects
This product is not anticipated to cause adverse effects to animal or plant life if released to the environment in small quantities.

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Waste disposal** Dispose of to an approved landfill or waste processing site. Contact the manufacturer/supplier for additional information (if required).

**Legislation** Dispose of in accordance with relevant local legislation.

## 14. TRANSPORT INFORMATION

**NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA**

| | LAND TRANSPORT (ADG) | SEA TRANSPORT (IMDG / IMO) | AIR TRANSPORT (IATA / ICAO) |
|---|---|---|---|
| **14.1 UN Number** | None allocated. | None allocated. | None allocated. |
| **14.2 Proper Shipping Name** | None allocated. | None allocated. | None allocated. |
| **14.3 Transport hazard class** | None allocated. | None allocated. | None allocated. |
| **14.4 Packing Group** | None allocated. | None allocated. | None allocated. |

### 14.5 Environmental hazards

No information provided.

### 14.6 Special precautions for user

**Hazchem code** None allocated.

## 15. REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**Poison schedule** A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

**Classifications** Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

**Inventory listings** **AUSTRALIA: AICS (Australian Inventory of Chemical Substances)**
All components are listed on AICS, or are exempt.

## 16. OTHER INFORMATION

**Additional information**

RESPIRATORS: In general the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered or air supplied respirators should be considered where prolonged or repeated use is necessary.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:
The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as form of product, method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE:
It should be noted that the effects from exposure to this product will depend on several factors including: form of product; frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

NEWPARK DRILLING FLUIDS

# SAFETY DATA SHEET

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

### 1.1 Product identifier

**Product name** **NEWZAN D**

**Synonyms** NEWZAN D ● XANTHAN GUM (BIOPOLYMER) ● XANTHAN GUM (P)

### 1.2 Uses and uses advised against

**Uses** DRILLING FLUID ADDITIVE ● VISCOSITY MODIFIER

### 1.3 Details of the supplier of the product

**Supplier name** **NEWPARK DRILLING FLUIDS (NEW ZEALAND) LTD**

**Address** PO BOX 6092, Moturoa, New Plymouth, TARANAKI, 4310, NEW ZEALAND

**Telephone** 0204 0234 734

**Fax** +61 8941 08299

**Website** www.newpark.com

### 1.4 Emergency telephone numbers

**Emergency** 0800 243 622 (New Zealand); +64 4 917 9888 (International)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

NON HAZARDOUS ACCORDING TO NZ ENVIRONMENTAL PROTECTION AUTHORITY CRITERIA

### 2.2 GHS Label elements

No signal word, pictograms, hazard or precautionary statements have been allocated.

### 2.3 Other hazards

No information provided.

## 3. COMPOSITION/ INFORMATION ON INGREDIENTS

### 3.1 Substances / Mixtures

| Ingredient | CAS Number | EC Number | Content |
|---|---|---|---|
| XANTHAN GUM | 11138-66-2 | 234-394-2 | >90% |

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

**Eye** If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation** If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.

**Skin** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Continue flushing with water until advised to stop by a Poisons Information Centre or a doctor.

**Ingestion** For advice, contact the National Poisons Centre on 0800 764 766 (0800 POISON) or +643 479 7248 or a doctor (at once). If swallowed, do not induce vomiting. Ingestion is considered unlikely due to product form.

**First aid facilities** Eye wash facilities and safety shower should be available.

### 4.2 Most important symptoms and effects, both acute and delayed

Adverse effects not expected from this product under normal conditions of use.

### 4.3 Immediate medical attention and special treatment needed
Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### 5.1 Extinguishing media
Dry agent, carbon dioxide, foam or water fog. Prevent contamination of drains or waterways.

### 5.2 Special hazards arising from the substance or mixture
Combustible. May evolve toxic gases (carbon oxides, hydrocarbons) when heated to decomposition. Finely divided dust may form explosive mixtures with air.

### 5.3 Advice for firefighters
Evacuate area and contact emergency services. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.

### 5.4 Hazchem code
None allocated.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures
Wear Personal Protective Equipment (PPE) as detailed in section 8 of the SDS. Clear area of all unprotected personnel. Contact emergency services where appropriate.

### 6.2 Environmental precautions
Prevent product from entering drains and waterways.

### 6.3 Methods of cleaning up
Contain spillage, then collect and place in suitable containers for reuse or disposal. Avoid generating dust.

### 6.4 Reference to other sections
See Sections 8 and 13 for exposure controls and disposal.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling
Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

### 7.2 Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well ventilated area, removed from incompatible substances and foodstuffs. Ensure containers are adequately labelled and tightly closed when not in use.

### 7.3 Specific end uses
No information provided.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters
**Exposure standards**

No exposure standards have been entered for this product.

**Biological limits**

No biological limit values have been entered for this product.

### 8.2 Exposure controls
**Engineering controls** Avoid inhalation. Use in well ventilated areas.

**PPE**

| | |
|---|---|
| **Eye / Face** | Wear dust-proof goggles. |
| **Hands** | Wear PVC or rubber gloves. |
| **Body** | When using large quantities or where heavy contamination is likely, wear coveralls. |
| **Respiratory** | Wear a Class P1 (Particulate) respirator. Where an inhalation risk exists, wear a Class P1 (Particulate) respirator. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | LIGHT BEIGE POWDER |
| **Odour** | SLIGHT ODOUR |
| **Flammability** | COMBUSTIBLE |
| **Flash point** | NOT RELEVANT |
| **Boiling point** | NOT AVAILABLE |
| **Melting point** | NOT AVAILABLE |
| **Evaporation rate** | NOT AVAILABLE |
| **pH** | NOT AVAILABLE |
| **Vapour density** | NOT AVAILABLE |
| **Specific gravity** | 1.5 |
| **Solubility (water)** | MISCIBLE |
| **Vapour pressure** | NOT AVAILABLE |
| **Upper explosion limit** | NOT RELEVANT |
| **Lower explosion limit** | NOT RELEVANT |
| **Partition coefficient** | NOT AVAILABLE |
| **Autoignition temperature** | NOT AVAILABLE |
| **Decomposition temperature** | NOT AVAILABLE |
| **Viscosity** | NOT AVAILABLE |
| **Explosive properties** | NOT AVAILABLE |
| **Oxidising properties** | NOT AVAILABLE |
| **Odour threshold** | NOT AVAILABLE |

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

Carefully review all information provided in sections 10.2 to 10.6.

### 10.2 Chemical stability

Stable under recommended conditions of storage.

### 10.3 Possibility of hazardous reactions

Polymerization is not expected to occur.

### 10.4 Conditions to avoid

Avoid heat, sparks, open flames and other ignition sources.

### 10.5 Incompatible materials

Incompatible with oxidising agents (e.g. hypochlorites) and acids (e.g. nitric acid).

### 10.6 Hazardous decomposition products

May evolve toxic gases (carbon oxides, hydrocarbons) when heated to decomposition.

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

| | |
|---|---|
| **Acute toxicity** | This product is expected to be of low acute toxicity. Under normal conditions of use, adverse health effects are not anticipated. |
| **Skin** | Not classified as a skin irritant. Contact may result in mild irritation. |
| **Eye** | Not classified as an eye irritant. Contact may cause discomfort, lacrimation and redness. |
| **Sensitisation** | Not classified as causing skin or respiratory sensitisation. |
| **Mutagenicity** | No evidence of mutagenic effects. |
| **Carcinogenicity** | No evidence of carcinogenic effects. |
| **Reproductive** | No relevant or reliable studies were identified. |
| **STOT - single exposure** | Not classified as causing organ damage from single exposure. |
| **STOT - repeated exposure** | Not classified as causing organ damage from repeated exposure. |
| **Aspiration** | This product does not present an aspiration hazard. |

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity
No information provided.

### 12.2 Persistence and degradability
No information provided.

### 12.3 Bioaccumulative potential
No information provided.

### 12.4 Mobility in soil
No information provided.

### 12.5 Other adverse effects
No information provided.

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste disposal** | Ensure product is covered with moist soil to prevent dust generation and dispose of to approved Council landfill. Contact the manufacturer/supplier for additional information (if required). |
| **Legislation** | Dispose of in accordance with relevant local legislation. |

## 14. TRANSPORT INFORMATION

**NOT CLASSIFIED AS A DANGEROUS GOOD ACCORDING TO LAND TRANSPORT RULE: DANGEROUS GOODS 2005; NZS 5433:2012, UN, IMDG OR IATA**

| | LAND TRANSPORT (NZS 5433) | SEA TRANSPORT (IMDG / IMO) | AIR TRANSPORT (IATA / ICAO) |

NEWPARK DRILLING FLUIDS

# SAFETY DATA SHEET

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

### 1.1 Product identifier

**Product name** **BENTONITE POWDER**

**Synonyms** AVAGEL ● BENTONIL HR ● HISWELL ● MAXIGEL ● NATURALGEL ● NEWGEL ● RHEOBEN ● RHEOBEN NT ● SODIUM BENTONITE ● SODIUM MONTMORILLONITE

### 1.2 Uses and uses advised against

**Uses** DRILLING FLUID

### 1.3 Details of the supplier of the product

**Supplier name** **NEWPARK DRILLING FLUIDS (AUSTRALIA) LTD**

**Address** 11 Alacrity Place, Henderson, WA, 6166, AUSTRALIA

**Telephone** +61 8 9410 8200

**Fax** +61 8 9410 8299

**Website** www.newpark.com

### 1.4 Emergency telephone numbers

**Emergency** 1800 127 406 (Australia); +64 4 917 9888 (International)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA

**Physical Hazards**

Not classified as a Physical Hazard

**Health Hazards**

Specific Target Organ Toxicity (Repeated Exposure): Category 2

**Environmental Hazards**

Not classified as an Environmental Hazard

### 2.2 GHS Label elements

**Signal word** **WARNING**

**Pictograms**

**Hazard statements**

H373 May cause damage to organs through prolonged or repeated exposure.

**Prevention statements**

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

**Response statements**

P314 Get medical advice/attention if you feel unwell.

**Storage statements**

None allocated.

**Disposal statements**

P501 Dispose of contents/container in accordance with relevant regulations.

### 2.3 Other hazards

No information provided.

## 3. COMPOSITION/ INFORMATION ON INGREDIENTS

### 3.1 Substances / Mixtures

| Ingredient | CAS Number | EC Number | Content |
|---|---|---|---|
| BENTONITE | 1302-78-9 | 215-108-5 | 90 to 98% |
| QUARTZ (CRYSTALLINE SILICA) | 14808-60-7 | 238-878-4 | 2 to 10% |
| SODA ASH | - | - | 2 to 4% |

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

**Eye** If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation** If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.

**Skin** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

**Ingestion** For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once). Due to product form and application, ingestion is considered unlikely.

**First aid facilities** Eye wash facilities and safety shower should be available.

### 4.2 Most important symptoms and effects, both acute and delayed

Repeated exposure to crystalline silica may result in lung fibrosis (silicosis). Principal symptoms of silicosis are coughing and breathlessness. Crystalline silica is classified as carcinogenic to humans (IARC Group 1).

### 4.3 Immediate medical attention and special treatment needed

Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### 5.1 Extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

### 5.2 Special hazards arising from the substance or mixture

Non flammable. May evolve toxic gases if strongly heated.

### 5.3 Advice for firefighters

Treat as per requirements for surrounding fires. Evacuate area and contact emergency services. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.

### 5.4 Hazchem code

None allocated.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear Personal Protective Equipment (PPE) as detailed in section 8 of the SDS.

### 6.2 Environmental precautions

Prevent product from entering drains and waterways.

### 6.3 Methods of cleaning up

Moisten with water to prevent a dust hazard and place in sealable containers for disposal.

### 6.4 Reference to other sections
See Sections 8 and 13 for exposure controls and disposal.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling
Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

### 7.2 Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well ventilated area, removed from incompatible substances and foodstuffs. Ensure packaging are adequately labelled, protected from physical damage and sealed when not in use. Check regularly for leaks or spills.

### 7.3 Specific end uses
No information provided.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters
**Exposure standards**

| Ingredient | Reference | TWA | | STEL | |
|---|---|---|---|---|---|
| | | ppm | mg/m³ | ppm | mg/m³ |
| Quartz (respirable dust) | SWA [AUS] | -- | 0.05 | -- | -- |
| Quartz (respirable dust) | WorkSafe VIC | -- | 0.05 | -- | -- |

**Biological limits** No Biological Limit Value allocated.

### 8.2 Exposure controls
**Engineering controls** Avoid inhalation. Use in well ventilated areas. Where an inhalation risk exists, mechanical extraction ventilation is recommended.

**PPE**

| | |
|---|---|
| **Eye / Face** | Wear dust-proof goggles. |
| **Hands** | Wear PVC or rubber gloves. |
| **Body** | When using large quantities or where heavy contamination is likely, wear coveralls. |
| **Respiratory** | Where an inhalation risk exists, wear a Class P1 (Particulate) respirator. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | BROWN POWDER |
| **Odour** | SLIGHT ODOUR |
| **Flammability** | NON FLAMMABLE |
| **Flash point** | NOT RELEVANT |
| **Boiling point** | NOT AVAILABLE |
| **Melting point** | 1100°C to 1200°C (Fusion Point) |
| **Evaporation rate** | NOT AVAILABLE |
| **pH** | NOT AVAILABLE |
| **Vapour density** | NOT AVAILABLE |
| **Specific gravity** | 2.7 |
| **Solubility (water)** | INSOLUBLE |
| **Vapour pressure** | NOT AVAILABLE |
| **Upper explosion limit** | NOT RELEVANT |
| **Lower explosion limit** | NOT RELEVANT |

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Partition coefficient** | NOT AVAILABLE |
| **Autoignition temperature** | NOT AVAILABLE |
| **Decomposition temperature** | NOT AVAILABLE |
| **Viscosity** | NOT AVAILABLE |
| **Explosive properties** | NOT EXPLOSIVE |
| **Oxidising properties** | NON OXIDISING |
| **Odour threshold** | NOT AVAILABLE |

### 9.2 Other information

| | |
|---|---|
| **Bulk density** | ~ 0.9 kg/L |

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

Carefully review all information provided in sections 10.2 to 10.6.

### 10.2 Chemical stability

Stable under recommended conditions of storage.

### 10.3 Possibility of hazardous reactions

Polymerization is not expected to occur.

### 10.4 Conditions to avoid

Avoid heat, sparks, open flames and other ignition sources.

### 10.5 Incompatible materials

Incompatible with acids (e.g. nitric acid) and alkalis (e.g. sodium hydroxide).

### 10.6 Hazardous decomposition products

May evolve toxic gases if heated to decomposition.

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

**Acute toxicity**

Toxicity Data available for the ingredients:
QUARTZ (SILICA CRYSTALLINE) (14808-60-7):
LCLo (inhalation) = 300 ug/m³/10 years (human)
TCLo (inhalation) = 16 000 000 particles/ft3/8 hours/17.9 years (human-fibrosis)
BENTONITE (1302-78-9):
LD50 (intravenous) = 35 mg/kg (rat)
LD50 (oral): > 2000mg/kg (rat)
LDLo (intravenous) = 10 mg/kg (dog)
Inhalation LC 50: > 5.27 mg/L, 4hr (rat)

**Additional ingredient toxicity values:**

BENTONITE (1302-78-9)

| | |
|---|---|
| LD50 (intravenous) | 35 mg/kg (rat) |
| LDLo (intravenous) | 10 mg/kg (dog) |

**Skin**

Not classified as a skin irritant. Contact may result in mild irritation and dermatitis.

**Eye**

Not classified as an eye irritant. Contact may cause discomfort, lacrimation and redness.

**Sensitisation**

Not classified as causing skin or respiratory sensitisation.

**Mutagenicity**

Insufficient data available to classify as a mutagen.

**Carcinogenicity**

This product contains crystalline silica which is classified as carcinogenic to humans (IARC Group 1). However, there is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis. Therefore, preventing the onset of silicosis will also reduce the cancer risk.

**Reproductive**

Insufficient data available to classify as a reproductive toxin.

**STOT - single exposure**

Not classified as causing organ damage from single exposure.

**STOT - repeated exposure**

Repeated exposure to respirable silica may result in pulmonary fibrosis (silicosis). Silicosis is a fibronodular lung disease caused by deposition in the lungs of fine respirable particles of crystalline silica. Principal symptoms of silicosis are coughing and breathlessness.

**Aspiration**

Not expected to present an aspiration hazard.

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity

Bentonite (1302-78-9):
EC50 Daphnia > 100 mg/l, 48 hours
EC50 Freshwater algae > 100 mg/l, 72 hours
LC50 Freshwater fish = 16000 mg/l, 96 hours
LC50 Marine water fish = 2800 - 3200 mg/l, 24 hours
EC50 Coon stripe shrimp (Pandalus danae) = 24.8 mg/l, 96 hours
EC50 Dungeness or edible crab (Cancer magister) = 81.6 mg/l, 96 hours
LC50 Rainbow trout, donaldson trout (Oncorhynchus mykiss) = 19000 mg/l, 96 hours

### 12.2 Persistence and degradability

Not relevant for inorganic substances.

### 12.3 Bioaccumulative potential

Will not bioaccumulate.

### 12.4 Mobility in soil

Low water solubility, expected to sink and migrate into the sediment. Expected to partition to sediment and wastewater solids.

### 12.5 Other adverse effects

The main component/s of this product are not anticipated to cause any adverse effects to plants or animals.

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Waste disposal** Reuse where possible. No special precautions are normally required when handling this product.

**Legislation** Dispose of in accordance with relevant local legislation.

## 14. TRANSPORT INFORMATION

**NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA**

| | LAND TRANSPORT (ADG) | SEA TRANSPORT (IMDG / IMO) | AIR TRANSPORT (IATA / ICAO) |
|---|---|---|---|
| **14.1 UN Number** | None allocated. | None allocated. | None allocated. |
| **14.2 Proper Shipping Name** | None allocated. | None allocated. | None allocated. |
| **14.3 Transport hazard class** | None allocated. | None allocated. | None allocated. |
| **14.4 Packing Group** | None allocated. | None allocated. | None allocated. |

### 14.5 Environmental hazards

No information provided.

### 14.6 Special precautions for user

**Hazchem code** None allocated.

## 15. REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**Poison schedule** A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

**Classifications** Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

**Inventory listings** **AUSTRALIA: AIIC (Australian Inventory of Industrial Chemicals)**
All components are listed on AIIC, or are exempt.

## 16. OTHER INFORMATION

**Additional information**

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:
The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as form of product, method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE:
It should be noted that the effects from exposure to this product will depend on several factors including: form of product; frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

**Abbreviations**

| | |
|---|---|
| ACGIH | American Conference of Governmental Industrial Hygienists |
| CAS # | Chemical Abstract Service number - used to uniquely identify chemical compounds |
| CNS | Central Nervous System |
| EC No. | EC No - European Community Number |

**Report status**

This document has been compiled by RMT on behalf of the manufacturer, importer or supplier of the product and serves as their Safety Data Sheet ('SDS').

It is based on information concerning the product which has been provided to RMT by the manufacturer, importer or supplier or obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer, importer or supplier.

While RMT has taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, RMT accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS.

**Supersedes Date:** 28-Oct-2015

# Safety Data Sheet
## AccuSET D197

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** AccuSET D197
**Product code** D197

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Silicic acid, sodium salt

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Silicic acid, sodium salt | 215-687-4 | 1344-09-8 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Ensure adequate ventilation. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Store away from incompatibles, Metals Aluminum Copper alloys Copper Zinc

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Silicic acid, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Silicic acid, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Silicic acid, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Silicic acid, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Silicic acid, sodium salt | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**

Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness > 0.4 mm |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 11.44 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.13 | @20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |

| | |
|---|---|
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Contact with metals may evolve flammable hydrogen gas.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid excessive heat for prolonged periods of time.

**10.5 Incompatible materials**

Metals. Aluminum. Copper. Copper alloys. Zinc.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Silicic acid, sodium salt | = 1960 mg/kg ( Rat ) | > 4640 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Silicic acid, sodium salt | = 3185 mg/L LC50 Brachydanio rerio 96 h 301 - 478 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 216 mg/L EC50 Daphnia magna 96 h |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |

| | |
|---|---|
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Silicic acid, sodium salt
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Antifoam Agent D47

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Antifoam Agent D47
**Product code** D047

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Antifoam in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Seek medical attention if irritation occurs. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Avoid contact with: Strong acids Strong bases Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Repeated or prolonged contact Use protective gloves made of: Butyl Gloves-Neoprene, Nitrile Unless Specified Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, |

respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No data available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -35 °C / -31 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | 229 °C / 444.2 °F | ASTM D-93 |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1 | |
| **Bulk density** | No information available | |
| **Relative density** | 1 | @ 21.1°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 414 - 496 cst | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | <0°C/32°F |
| **Molecular weight** | No information available |

| | |
|---|---|
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid excessive heat for prolonged periods of time.

### 10.5 Incompatible materials

Strong acids. Strong bases. Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Readily biodegradable.

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

### 12.4 Mobility

**Mobility**
The product is insoluble and floats on water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## Antifoam Agent D175A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Antifoam Agent D175A
**Product code** D175A

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Non-crystalline silica

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Non-crystalline silica | Listed | Proprietary | 1 - 5 |

**Comments**
No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Extinguish with carbon dioxide, dry chemical, foam or waterspray.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Solutions extremely slippery when spilled.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep at a temperature not exceeding 25 °C Store away from incompatibles, Strong oxidizing agents UV or Ionising Radiation. Steel

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Non-crystalline silica | Not determined | 2mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Non-crystalline silica | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Non-crystalline silica | 1 mg/m³ MAC<br>2 mg/m³ MAC | 6.0 mg/m³ TWA | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Non-crystalline silica | Not determined | Not determined | 3 mg/m³ STEL<br>6 mg/m³ STEL<br>1 mg/m³ TWA<br>2 mg/m³ TWA<br>Fibrogenic substance also vitreous, in the form of disintegration aerosol 1177<br>Fibrogenic substance in the form of condensation aerosol, containing >=10% Silicon dioxide 1175, 1176 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Non-crystalline silica | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Neoprene Nitrile Butyl Rubber<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapor/particulate Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Slight |
| **Color** | Milky white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | ~ 5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | ~ 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2.3 kPa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | ~ 1 | @ 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | ~ 100 mPa s | @ 25 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition.

**10.5 Incompatible materials**

Strong oxidizing agents. UV or Ionising Radiation. Steel.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Non-crystalline silica | = 7900 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.2 mg/L ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Inhalation. Ingestion. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae. See component information below.

**Toxicity to fish**
This product is not considered toxic to fish. See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates. See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other |
|---|---|---|---|

| | | | |
|---|---|---|---|
| | | | **aquatic invertebrates** |
| Non-crystalline silica | = 5000 mg/L LC50 Brachydanio rerio 96 h | = 440 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 7600 mg/L EC50 Ceriodaphnia dubia 48 h |

### 12.2 Persistence and degradability

The product is not expected to be biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Non-crystalline silica | No information available |

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Non-crystalline silica | Not likely to bioaccumulate |

### 12.4 Mobility

**Mobility**
Dispersible in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required

**Group number** Not required

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Antifoaming Agent D206

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Antifoaming Agent D206
**Product code** D206

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Defoamer

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Dry chemical, $CO_2$, water spray or regular foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing. Do not eat, drink or smoke when using this product.

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from freezing Store below 86F (30C). Incompatible with oxidizing agents. Incompatible with materials which react with water. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. Coated (epoxy phenolic) steel drum or high density polyethylene (HDPE) can Stainless steel Plastic container |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes It is good practice to wear goggles when handling any chemical Tightly fitting safety goggles |
| **Hand protection** | Wear chemical resistant gloves such as nitrile or neoprene.<br>Break through time >480 minutes<br>Glove thickness 0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) |
| **Skin and body protection** | Wear appropriate personal protective clothing to prevent skin contact. Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing |

before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | None |
| **Color** | Milky white. |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7-8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | ~ 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2.3 kPa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.0 | @ 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | 0.97-1.01 kg/cm3 | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 500-1100 mPa s (@ 20 °C) | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | 2-4°C |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Stable under recommended storage conditions.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from freezing. Store below 86F (30C).

### 10.5 Incompatible materials

Strong oxidizing agents. Incompatible with materials which react with water.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Product information** | Product does not present an acute toxicity hazard based on known or supplied information. |
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | None known. |
| **Routes of entry** | No route of entry noted. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | No hazard from product as supplied. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Unknown aquatic toxicity**

### 12.2 Persistence and degradability

The product contains substances which are not expected to be biodegradable.

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

| | |

# Safety Data Sheet
## Anti-Settling Agent D153

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Anti-Settling Agent D153
**Product code** D153

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Quartz, Crystalline silica

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Quartz, Crystalline silica | 238-878-4 | 14808-60-7 | 60 - 100 |

**Comments**
IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn.

Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Carbon oxides (COx), React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Material becomes slippery when wet. Use caution if wet. Avoid dust formation. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Product is slippery if wet. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. Material becomes extremely slippery when wet. See Section 8.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture Avoid heat, flames and other sources of ignition. Avoid contact with: Hydrofluoric acid (HF) Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Quartz, Crystalline silica | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| | | | |
|---|---|---|---|
| Quartz, Crystalline silica | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance glass;regulated under Quartz 1123, 1124 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Quartz, Crystalline silica | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene gloves Nitrile
Break through time >0.4 minutes
Glove thickness >480 mm
Frequent change is advisable

**Respiratory protection** — In case of inadequate ventilation wear respiratory protection Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear appropriate personal protective clothing to prevent skin contact. Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6-9 | @20g/l |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.65 | |
| **Bulk density** | 1100 - 1600 kg/m$^3$ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4). Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Protect from moisture. Avoid dust formation. Take precautionary measures against static charges. Keep away from open flames, hot surfaces and sources of ignition.

**10.5 Incompatible materials**

Hydrofluoric acid (HF). Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause respiratory irritation. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Dust contact with the eyes can lead to mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Quartz, Crystalline silica | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Quartz, Crystalline silica | No information available | No information available | No information available |

## 12.2 Persistence and degradability

No product level data available.

## 12.3 Bioaccumulative potential

No product level data available.

## 12.4 Mobility

**Mobility**
The product is insoluble and sinks in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |
| **Supersedes Date:** | 30-Jul-2015 |
| **Revision date** | 28-Mar-2018 |
| **Version** | 3 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. |

# Safety Data Sheet
## ASPHASOL* SUPREME

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ASPHASOL* SUPREME
**Product code** PID2443
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale inhibitor. / Fluid loss reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <3 |

### 3.2 Mixtures

Not applicable

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Material becomes slippery when wet. Use caution if wet. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Suspended dust may present a dust explosion hazard Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance<br>glass;regulated under Quartz 1123, |

| | | | 1124 |
|---|---|---|---|
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Mild Sulfur |
| **Color** | Gray - Black |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 7 - 10 | @ 2% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | Not applicable | |

| | |
|---|---|
| **Flammability (solid, gas)** | Not applicable |
| **Flammability Limit in Air** | |
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | No information available |
| **Vapor density** | No information available |
| **Specific gravity** | 1.40 - 1.65 |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Partly soluble |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | 190 °C / 374 °F |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

This product contains an ingredient that is classified, according to European regulations, as "harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment".
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**

This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Partly soluble. See component information below.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Barite

Crystalline silica (impurity)

**2.3 Other hazards**

Thermal decomposition can lead to release of irritating gases and vapors
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Barite | 236-664-5 | 13462-86-7 | 60 - 100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 5 - <10 |

**3.2 Mixtures**

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid wet and humid conditions.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Barite | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene PVC Nitrile Frequent change is advisable

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Tan - Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 1580 °C / 2876 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |

| | | |
|---|---|---|
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 4.10 - 4.25 | @ 20 °C |
| **Bulk density** | 1920 - 2400 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Avoid wet and humid conditions.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

Respirable quartz <0.3% . Report number: N0600517.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Barite | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Barite | Inorganic compound |
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Barite | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Barite | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Barite | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

CAS Number 7727-43-7 can be used to identify the substance mentioned in Section 3 for the International Inventories.

# Safety Data Sheet
## BARITE 4,1 D31

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** BARITE 4,1 D31
**Product code** D031

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Weighting agent. Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <5 |

**3.2 Mixtures**

Not applicable

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid generating or breathing dust. Take up mechanically and collect in suitable container for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid dust formation. Do not breathe dust. Avoid contact with skin and eyes.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Provide appropriate exhaust ventilation at places where dust is formed.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid extreme temperatures Store away from incompatibles, Hydrofluoric acid (HF) Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Rubber Nitrile Neoprene gloves Frequent change is advisable |
| **Respiratory protection** | Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Light tan - Light gray |
| **Odor threshold** | Not applicable |

| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid extreme temperatures. Avoid dust formation.

**10.5 Incompatible materials**

Hydrofluoric acid (HF). Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

# Safety Data Sheet
## Bentonite Extender D20

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Bentonite Extender D20
**Product code** D020

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Product dust may be irritating to eyes, skin and respiratory system

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

**3.2 Mixtures**

Not applicable

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 1-5 |

**Comments**
Naturally occuring mineral.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid wet and humid conditions.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance glass;regulated under Quartz 1123, 1124 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Cream - Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9-10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | > 450 °C / 842 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |

| | | |
|---|---|---|
| **Specific gravity** | 2.3 - 2.6 | 20 °C |
| **Bulk density** | 750 – 950 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 500 °C / 932°F | |
| **Kinematic viscosity** | Not applicable | |
| **Dynamic viscosity** | . Not applicable | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid wet and humid conditions. Avoid dust formation.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Product information** | This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. |

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other |
|---|---|---|---|

| | | | aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

# Safety Data Sheet
## BENTONITE SPUD SYSTEM

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** BENTONITE SPUD SYSTEM
**Product code** PID15482

**Synonyms** BENTONITE SPUD SYSTEM (PUMP AND DUMP FORMULATION)

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

### 2.3 Other hazards

Thermal decomposition can lead to release of irritating gases and vapors
Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <2 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance<br>glass;regulated under Quartz 1123, |

| | | | 1124 |
|---|---|---|---|
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

#### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Mild |
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |

| | | |
|---|---|---|
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.67 - 2.04 g/cm³ | @ 20°C. |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

**Inhalation** Vapors may irritate throat and respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
BENTONITE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** BENTONITE
**Product code** PID211

**Synonyms** API BENTONITE, OCMA BENTONITE, WYOMING BENTONITE

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Product dust may be irritating to eyes, skin and respiratory system

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 1-5 |

### 3.2 Mixtures

Not applicable

**Comments**
Naturally occuring mineral.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid wet and humid conditions.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance<br>glass;regulated under Quartz 1123, |

| | | | 1124 |
|---|---|---|---|
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts<br>Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders<br>Use protective gloves made of: Neoprene Nitrile<br>Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Cream - Gray |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 9-10 | |
| **Melting / freezing point** | > 450 °C / 842 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | Not applicable | |

| | | |
|---|---|---|
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.3 - 2.6 | 20 °C |
| **Bulk density** | 750 – 950 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Negligible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 500 °C / 932°F | |
| **Kinematic viscosity** | Not applicable | |
| **Dynamic viscosity** | . Not applicable | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid wet and humid conditions. Avoid dust formation.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## CAL-Acid 50%

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CAL-Acid 50%
**Product code** PID11786

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Scale dissolver

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1B |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P391 - Collect spillage

**Contains**
Formic acid

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Formic acid | 200-579-1 | 64-18-6 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Keep at rest. Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person. Immediate medical attention is required.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Get immediate medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet, Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** •2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Avoid contact with: High temperatures. Oxidizing agents Bases Acids Amines Powdered metal Metals

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Eye protection must conform to standard EN 166 Chemical splash goggles and/or face shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Butyl rubber
Break through time >480 minutes
Glove thickness 0.7 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Type A/P3. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Strong |
| **Color** | Light yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 2 - 3 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | < 10 cPs | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.01 - 1.04 g/ml @ 25°C |

**Comments**

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive. Contact with metals may evolve flammable hydrogen gas.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
May release hydrogen gas (explosive) on contact with metals.

### 10.4 Conditions to avoid

Keep away from direct sunlight. High temperatures.

### 10.5 Incompatible materials

Oxidizing agents. Bases. Acids. Amines. Powdered metal. Metals.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapours are corrosive. After 24-36 hours, injured persons may develop serious shortness of breath and lung oedema. Vapours irritate the respiratory system, and may cause coughing and difficulties in breathing.

**Eye contact** Causes burns. May cause irreversible damage to eyes.

**Skin contact** Causes burns.

**Ingestion** Causes burns. Can burn mouth, throat, and stomach. Corrosive to the respiratory tract.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Formic acid | = 1100 mg/kg ( Rat ) | No data available | = 15 g/m³ ( Rat ) 15 min |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Ingestion. Inhalation. |
| **Routes of entry** | Skin contact. Eye contact. Ingestion. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Formic acid | = 175 mg/L LC50 Lepomis macrochirus 24 h | = 26.9 mg/L EC50 Desmodesmus subspicatus 72 h = 25 mg/L EC50 Desmodesmus subspicatus 96 h | 138 - 165.6 mg/L EC50 Daphnia magna 48 h = 120 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of as hazardous waste in compliance with local and national regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN3412 |
| **UN No. (IMDG/ANTAQ)** | UN3412 |
| **UN No. (ICAO/ANAC)** | UN3412 |

**14.2. UN proper shipping name**
FORMIC ACID,

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | II |
| **IMDG/ANTAQ Packing group** | II |
| **ICAO/ANAC Packing group** | II |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | •2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | •2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Formic acid
Schedule 5

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002491 - Additives, Process Chemicals and Raw Materials (Corrosive) Group Standard 2017 |
| **Group number** | 8.2B |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P391 - Collect spillage

**Contains**
Formic acid

Citric acid monohydrate

Amines, tallow alkyl, ethoxylated

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Formic acid | 200-579-1 | 64-18-6 | 10-30 |
| Citric acid monohydrate | 611-842-9 | 5949-29-1 | 1-<3 |
| Amines, tallow alkyl, ethoxylated | 500-153-8 | 61791-26-2 | 0.1-<1 |

**Comments**

The product contains other ingredients which do not contribute to the overall classification.
Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Keep at rest. Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person. Immediate medical attention is required.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Get immediate medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet, Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**

Contact with metals may evolve flammable hydrogen gas.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Avoid contact with: High temperatures. Oxidizing agents Bases Acids Amines Powdered metal Metals

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Chemical splash goggles and/or face shield |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Butyl rubber<br>Break through time >480 minutes<br>Glove thickness 0.7 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Type A/P3. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Strong |
| **Color** | Light amber |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 2.0 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |

| | | |
|---|---|---|
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | < 2 cPs | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | 0°C / 32°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.06 - 1.08 g/ml @ 20°C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Corrosive. Contact with metals may evolve flammable hydrogen gas.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
May release hydrogen gas (explosive) on contact with metals.

**10.4 Conditions to avoid**

Keep away from direct sunlight. High temperatures.

**10.5 Incompatible materials**

Oxidizing agents. Bases. Acids. Amines. Powdered metal. Metals.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Vapours are corrosive. After 24-36 hours, injured persons may develop serious shortness of breath and lung oedema. Vapours irritate the respiratory system, and may cause coughing and difficulties in breathing. |
| **Eye contact** | Causes burns. May cause irreversible damage to eyes. |

**Skin contact** Causes burns.

**Ingestion** Causes burns. Can burn mouth, throat, and stomach. Corrosive to the respiratory tract.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Formic acid | = 1100 mg/kg ( Rat ) | No data available | = 15 g/m³ ( Rat ) 15 min |
| Citric acid monohydrate | No data available | No data available | No data available |
| Amines, tallow alkyl, ethoxylated | > 300 - 2000 mg/kg(Rat) | > 10 g/kg ( Rat ) | 0.473 mg/l (Rat) dust/mist OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Ingestion. Inhalation.

**Routes of entry** Skin contact. Eye contact. Ingestion. Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other |
|---|---|---|---|

| | | | aquatic invertebrates |
|---|---|---|---|
| Formic acid | = 175 mg/L LC50 Lepomis macrochirus 24 h | = 26.9 mg/L EC50 Desmodesmus subspicatus 72 h = 25 mg/L EC50 Desmodesmus subspicatus 96 h | 138 - 165.6 mg/L EC50 Daphnia magna 48 h = 120 mg/L EC50 Daphnia magna 48 h |
| Citric acid monohydrate | = 1516 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 120 mg/L EC50 Daphnia magna 72 h |
| Amines, tallow alkyl, ethoxylated | 1 - 10 mg/L LC50(Oncorhynchus mykiss) 96h | 1- 10 mg/L EC50(Phaeodactylum tricornutum - Algae) 72h | 1 - 10 mg/L EC50(Daphnia magna, Water flea) 48h |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of as hazardous waste in compliance with local and national regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN3412 |
| **UN No. (IMDG/ANTAQ)** | UN3412 |
| **UN No. (ICAO/ANAC)** | UN3412 |

**14.2. UN proper shipping name**
FORMIC ACID,

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | II |
| **IMDG/ANTAQ Packing group** | II |
| **ICAO/ANAC Packing group** | II |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | •2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Formic acid
Schedule 5
Amines, tallow alkyl, ethoxylated
Schedule 5

**New Zealand Hazard Classification** Classified

| | |
|---|---|
| **HSNO approval no.** | HSR002491 - Additives, Process Chemicals and Raw Materials (Corrosive) Group Standard 2017 |
| **Group number** | 8.2B |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Does not comply |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

# Safety Data Sheet
## CALCIUM BROMIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CALCIUM BROMIDE BRINE
**Product code** PID2468

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Clear-brine workover and completion fluid.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Calcium bromide

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium bromide | 232-164-6 | 7789-41-5 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Hydrogen bromide, Bromine.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Avoid contact with: Strong oxidizing agents Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Calcium bromide | Not determined | Not determined | Not determined |

| Chemical Name | Kazakhstan | Kuwait | New Zealand |
|---|---|---|---|
| Calcium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Calcium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Calcium bromide | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -7 °C / < 19.4 °F | |
| **Boiling point/range** | 119 °C / 246.2 °F | 760 mm Hg |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2333 Pa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.40 - 1.75 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | >700°C / > 1292°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Not applicable
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid excessive heat for prolonged periods of time.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged skin contact may cause skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium bromide | = 4100 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium bromide | No information available | No information available | No information available |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium bromide | Inorganic compound |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium bromide | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium bromide | Easily soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium bromide | No information available |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Z. Proper Shipping Name: Drilling Brines (containing Calcium Bromide)

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Calcium bromide
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## CALCIUM CHLORIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CALCIUM CHLORIDE BRINE
**Product code** PID218

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

_

**Contains**
Calcium chloride

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium chloride | 233-140-8 | 10043-52-4 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

| | |
|---|---|
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Chlorine, chlorine oxides, hydrogen chloride.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

**Advice for emergency responders**
Evacuate personnel to safe areas. Use non-slip safety shoes in areas where spills or leaks can occur. Wear respiratory protection. Keep people away from and upwind of spill/leak.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Strong reducing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply. |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Calcium chloride | Not determined | Not determined | 2 mg/m³ MAC (aerosol) |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Calcium chloride | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene Nitrile rubber
Break through time >480 minutes
Glove thickness 0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type B/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6.5 - 7.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -14 °C / 7 °F | |
| **Boiling point/range** | > 100 °C / >212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 9 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.01 - 1.41 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong reducing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium chloride | = 1000 mg/kg ( Rat ) | > 5000 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium chloride | = 10650 mg/L LC50 Lepomis macrochirus 96 h | No information available | 2,400 mg/L EC50 (Daphnia magna) = 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium chloride | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium chloride | Inorganic compound |

### 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium chloride | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium chloride | After release, disperses through ground water |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Proper Shipping Name : Calcium Chloride Solution (less than 35%) Ship Type:- 3. Pollution Category:- Z.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | Calcium Chloride - HSR003389<br>Calcium chloride, >25% in a non hazardous diluent - HSR006565 |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk (IBC Code) with amendments.MARPOL 73/78; Marine Environmental Protection Committee (MEPC) Circulars.**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |

# Safety Data Sheet
## Caustic Soda M2

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Caustic Soda M2
**Product code** M002

**CAS No** 1310-73-2
**EC No** 215-185-5

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1A |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P406 - Store in corrosion resistant container with a resistant inner liner

**Supplementary precautionary statements**
P234 - Keep only in original container
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P390 - Absorb spillage to prevent material damage
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Sodium hydroxide

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium hydroxide | 215-185-5 | 1310-73-2 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Immediate medical attention is required.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas. The product reacts with water and will generate heat.

**Hazardous combustion products**
Thermal decomposition can lead to release of toxic and corrosive gases/vapors Sodium oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Avoid breathing dust; if exposed to high dust concentration, leave area immediately. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid dust formation. Do not breathe dust. Never add water directly to this product - may cause vigorous reaction/boiling. Always dilute by carefully pouring the product into the water.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Store in original container. Protect from moisture High temperatures. Avoid contact with: Acids Water Oxidizing agents Metals Halogenated hydrocarbons Ammonium salts |
| **Storage class** | Corrosive storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium hydroxide | Not determined | 2 mg/m³ Peak | 2 mg/m³ Ceiling |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ Ceiling | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium hydroxide | Not determined | 2.0 mg/m³ STEL | 2 mg/m³ Ceiling |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ TWA | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium hydroxide | 2 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Chemical splash goggles and/or face shield

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders
Impervious gloves made of: Nitrile Rubber
Break through time >480 minutes
Glove thickness 0.35-0.4 mm
PVC Butyl rubber Break through time >480 minutes
Glove thickness >0.5 mm
Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type B/P2 Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more

information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Flakes |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | >14 | 10 g/ 100ml |
| **Melting / freezing point** | 323 °C / 613.4 °F | |
| **Boiling point/range** | 1388 °C / 2530.4 °F | |
| **Flash point** | | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 0.1 kPa | @ 739 °C |
| **Vapor density** | >1 (air = 1) | |
| **Specific gravity** | 2.1 | @ 20 °C |
| **Bulk density** | 1.1 - 2.13 g/cm³ | |
| **Relative density** | 2.1 | @ 20°C. |
| **Water solubility** | Soluble in water 42g/ 100ml | |
| **Solubility in other solvents** | Ethanol Methanol | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 0.997 - 2.228 mPa.s | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Corrosive to Metals. Contact with metals may evolve flammable hydrogen gas. Reacts violently with water.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. High temperatures.

### 10.5 Incompatible materials

Acids. Metals. Water. Oxidizing agents. Halogenated hydrocarbons. Ammonium salts.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Contact with moist mucous membranes of the respiratory system can cause caustic condition resulting in burns. Inhaled corrosive substances can lead to a toxic edema of the lungs.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes severe skin burns.

**Ingestion** Ingestion causes burns of the upper digestive and respiratory tracts.

**Unknown acute toxicity** Not applicable.

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium hydroxide | No data available | 1350 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Eye contact. Inhalation. Ingestion.

**Routes of entry** Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium hydroxide | = 45.4 mg/L LC50 Oncorhynchus mykiss 96 h | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Sodium hydroxide | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Sodium hydroxide | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| Sodium hydroxide | Soluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Sodium hydroxide | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN1823 |
| **UN No. (IMDG/ANTAQ)** | UN1823 |
| **UN No. (ICAO/ANAC)** | UN1823 |

### 14.2. UN proper shipping name

SODIUM HYDROXIDE, SOLID,

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | II |
| **IMDG/ANTAQ Packing group** | II |
| **ICAO/ANAC Packing group** | II |

### 14.5 Environmental hazard

No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2W |
| **Tunnel restriction code** | (E) |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium hydroxide
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Cement Class A D901

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Cement Class A D901
**Product code** D901

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Category 1B |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary statements**
P271 - Use only outdoors or in a well-ventilated area
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P272 - Contaminated work clothing should not be allowed out of the workplace
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Portland cement

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Portland cement | 266-043-4 | 65997-15-1 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**

As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with the skin and the eyes. Avoid dust formation. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Pick up and transfer to properly labeled containers. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Persons susceptible to allergic reactions should not handle this product. May produce an allergic reaction.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Provide appropriate exhaust ventilation at places where dust is formed. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Oxidizing agents Strong acids Aluminum Hydrofluoric acid (HF) |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

## 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Portland cement | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Portland cement | 10 mg/m³ TWA | 10 mg/m³ TWA | 4 mg/m³ OEL<br>1 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Portland cement | Not determined | 10.0 mg/m³ TWA<br>5.0 mg/m³ TWA | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Portland cement | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Portland cement | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: PVC disposable gloves Rubber gloves Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Gray or White |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 11 - 13 | @10% sol |
| **Melting / freezing point** | > 1250 °C / 2282 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 0.9 - 1.5 g/cm³ | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | 2.75 - 3.20 | |
| **Explosive properties** | Not applicable | |
| **Oxidizing properties** | Not applicable | |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Avoid dust formation. Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Oxidizing agents. Hydrofluoric acid (HF). Strong acids. Aluminium.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Contact with moist mucous membranes of the respiratory system can cause caustic condition resulting in burns.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. May cause an allergic skin reaction.

**Ingestion** Ingestion may cause irritation to mucous membranes.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Portland cement | No data available | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Inhalation. Eye contact.

**Routes of entry** Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Category 3

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Portland cement | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Portland cement
Schedule 4
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

**USA (TSCA)** Complies

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

# Safety Data Sheet
## Cement Class G D907

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Cement Class G D907
**Product code** D907
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Sub-Category 1B |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P362 - Take off contaminated clothing and wash before reuse
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Portland Cement Clinker

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Portland Cement Clinker | 266-043-4 | 65997-15-1 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Avoid dust formation. Avoid breathing dust; if exposed to high dust concentration, leave area immediately. Avoid contact with the skin and the eyes.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Pick up and transfer to properly labeled containers. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not breathe vapors/dust. Avoid contact with skin and eyes. Avoid handling causing generation of dust. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Store away from incompatibles, Powdered aluminum Acids Oxidizing agents Hydrofluoric acid (HF) |

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Portland Cement Clinker | 10 mg/m³ TWA | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Portland Cement Clinker | 10 mg/m³ TWA | 10 mg/m³ TWA | 4 mg/m³ OEL<br>1 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Portland Cement Clinker | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Portland Cement Clinker | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Portland Cement Clinker | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: PVC disposable gloves Rubber gloves Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Effective dust mask. Type P2/P3 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Gray or White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 11 - 13 | @10% sol |
| **Melting / freezing point** | > 1250 °C / 2282 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | ~ 3 | |
| **Bulk density** | 0.9 - 1.5 g/cm³ | |
| **Relative density** | 2.75 - 3.20 | |
| **Water solubility** | 0.1-1.5 g/L @ 20 °C | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | Not applicable |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Acids. Powdered aluminum. Strong oxidizing agents. Hydrofluoric acid (HF).

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Contact with moist mucous membranes of the respiratory system can cause caustic condition resulting in burns.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. May cause an allergic skin reaction.

**Ingestion** Ingestion may cause irritation to mucous membranes.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Portland Cement Clinker | No data available | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Inhalation. Eye contact.

**Routes of entry** Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Category 3

**Specific target organ toxicity -** Not classified.

**Repeated exposure**

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Portland Cement Clinker | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Portland Cement Clinker | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Portland Cement Clinker | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

None

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Portland Cement Clinker

# Safety Data Sheet
## Cement Liquid Dispersant D80

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Cement Liquid Dispersant D80
**Product code** D080

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 2 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
H411 - Toxic to aquatic life with long lasting effects

**Precautionary statements**
P273 - Avoid release to the environment
P391 - Collect spillage
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

_

**Contains**
Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.
Classified as Hazardous according to the criteria of NOHSC.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Polymer | 9008-63-3 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 3Z

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13). After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Do not eat, drink or smoke when using this product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Do not freeze Store above 0°C Avoid contact with: Oxidizing agents Acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Not determined | Not determined | Not determined |

| Chemical Name | Kazakhstan | Kuwait | New Zealand |
|---|---|---|---|
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation, especially in confined areas

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Wear chemical resistant gloves such as nitrile or neoprene.
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

**Physical state** Liquid
**Appearance** Opaque
**Odor** Pungent

| | |
|---|---|
| **Color** | Dark brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6 - 8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | - 2 °C/ 28 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | > 1 (air = 1) | |
| **Specific gravity** | 1.2 g/cm$^3$ | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 60 mPa s | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Do not freeze. Store above 0°C.

### 10.5 Incompatible materials

Oxidizing agents. Acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

Toxic to aquatic life with long lasting effects

**Toxicity to algae**
EC50 1.46 mg/l Skeletonema Costatum 48 h.

**Toxicity to fish**
Not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
LC50 > 100 mg/l Acartia tonsa 48 h.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Naphthalenesulfonic acid, sodium salt, polymer with formaldehyde | No information available | No information available | No information available |

## 12.2 Persistence and degradability

Product is not biodegradable.

## 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**

**UN/ID No. (ADR/RID/ADN/ADG)** UN3082
**UN No. (IMDG/ANTAQ)** UN3082
**UN No. (ICAO/ANAC)** UN3082

**14.2. UN proper shipping name**
ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Sodium polynaphthalene sulfonate)

**14.3 Hazard class(es)**
**ADR/RID/ADN/ADG Hazard class** 9
**IMDG/ANTAQ Hazard class** 9
**ICAO/ANAC Hazard class/division** 9

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** III
**IMDG/ANTAQ Packing group** III
**ICAO/ANAC Packing group** III

**14.5 Environmental hazard**
Yes

**14.6 Special precautions**
**Hazard identification no (ADR)** 90
**EmS (IMDG)** F-A, S-F
**Emergency Action Code (EAC)** 3Z
**Tunnel restriction code** (-)
**Hazchem code ADG** 3Z

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Construction Products (Subsidiary Hazard) Group Standard 2020 |
| **HSNO approval no.** | HSR002544 |
| **Group number** | 9.1B |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

# Safety Data Sheet
## Cement Retarder D110

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Cement Retarder D110
**Product code** D110

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium chloride (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium chloride (impurity) | 231-598-3 | 7647-14-5 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Do not freeze Store above 0°C Store away from incompatibles, Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium chloride (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium chloride (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium chloride (impurity) | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium chloride (impurity) | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium chloride (impurity) | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Rubber<br>Break through time >480 minutes<br>Glove thickness 0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 In case of insufficient ventilation, wear suitable respiratory equipment |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Opaque |
| **Odor** | Sweet |
| **Color** | Brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 6 - 9 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -4 °C / 24.8 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.13 | |
| **Bulk density** | No information available | |
| **Relative density** | 1.128 - 1.144 | @ 25°C. |
| **Water solubility** | Soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | >242°C / >467.6 °F | |

| | | |
|---|---|---|
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 1.5cst | @ 40 °C |
| **log Pow** | Does not bioaccumulate | |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Do not freeze. Store above 0°C.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium chloride (impurity) | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium chloride (impurity) | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Does not comply |

| | |
|---|---|
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## CemPLUS Geo D178

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CemPLUS Geo D178
**Product code** D178

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Carcinogenicity | Category 1A |
| Specific target organ toxicity - Repeated exposure | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H350 - May cause cancer if inhaled
H372 - Causes damage to organs through prolonged or repeated exposure

**Precautionary statements**
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P201 - Obtain special instructions before use
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product

**Contains**
Quartz, Crystalline silica

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Quartz, Crystalline silica | 238-878-4 | 14808-60-7 | 60-100 |
| Respirable Crystalline Silica (Quartz) | 238-878-4 | 14808-60-7 | >10 |

### 3.2 Mixtures

Not applicable

**Comments**
IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation

develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Avoid breathing dust; if exposed to high dust concentration, leave area immediately.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. For personal protection see section 8.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store away from incompatibles, React with hydrofluoric acid (HF) forming toxic gas (SiF4) Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| | | | |
|---|---|---|---|
| Quartz, Crystalline silica | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Quartz, Crystalline silica | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Quartz, Crystalline silica | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Provide appropriate exhaust ventilation at places where dust is formed Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Rubber Frequent change is advisable

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Tan or White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |

| | | |
|---|---|---|
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 1100 -1600 kg/m$^3$ | |
| **Relative density** | 2.5-2.7 | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation.

**10.5 Incompatible materials**

Hydrofluoric acid (HF). Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause respiratory irritation. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Quartz, Crystalline silica | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 1.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Quartz, Crystalline silica | No information available | No information available | No information available |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Quartz, Crystalline silica | Inorganic compound |

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Quartz, Crystalline silica | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Quartz, Crystalline silica | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Quartz, Crystalline silica | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not applicable

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR003125

| | |
|---|---|
| **Group number** | 6.7A, 6.9A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

# Safety Data Sheet
## Chelating Agent U42

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Chelating Agent U42
**Product code** U042

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Iron control agent in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

| | |
|---|---|
| **Croatia** | 01-23-48-342( for medical information) -Center for Poison |

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H318 - Causes serious eye damage
H332 - Harmful if inhaled
H373 - May cause damage to organs through prolonged or repeated exposure
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves and eye/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P280 - Wear protective gloves
P280 - Wear eye protection/ face protection
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P210 - Keep away from heat. - No smoking
P314 - Get medical advice/attention if you feel unwell
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse

**Contains**
Tetrasodium ethylenediaminetetraacetate

Sodium hydroxide

Trisodium nitrilotriacetate (impurity)

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

# 3. Composition/information on Ingredients

## 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Tetrasodium ethylenediaminetetraacetate | 200-573-9 | 64-02-8 | 30 - 60 |
| Sodium hydroxide | 215-185-5 | 1310-73-2 | <=1 |
| Trisodium nitrilotriacetate (impurity) | 225-768-6 | 5064-31-3 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Get immediate medical attention. Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray or fog is preferred; if water not available use dry chemical, $CO_2$ or regular foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Heating or fire can release toxic gas Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or

spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store at ambient conditions Store away from incompatibles, Zinc Aluminum Copper Copper alloys Nickel Steel Oxidizing agents

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Tetrasodium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| Sodium hydroxide | Not determined | 2 mg/m³ Peak | 2 mg/m³ Ceiling |
| Trisodium nitrilotriacetate (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Tetrasodium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ Ceiling | Not determined |
| Trisodium nitrilotriacetate (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Tetrasodium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| Sodium hydroxide | Not determined | 2.0 mg/m³ STEL | 2 mg/m³ Ceiling |
| Trisodium nitrilotriacetate (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Tetrasodium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ TWA | Not determined |
| Trisodium nitrilotriacetate (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Tetrasodium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| Sodium hydroxide | 2 mg/m³ TWA | Not determined | Not determined |
| Trisodium nitrilotriacetate (impurity) | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Chemical splash goggles and/or face shield Eye protection must conform to standard EN 166 |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Use protective gloves made of:<br>Butyl rubber Break through time >30 minutes<br>Glove thickness 0.7 mm<br>or<br>Nitrile rubber Glove thickness >30 mm<br>Break through time 0.4 minutes<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight Ammoniacal |
| **Color** | Yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 12 | (@1%w/w) |
| **Melting / freezing point** | -31 °C / -24 °F | |
| **Boiling point/range** | 106 °C / 223 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 | 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.31 | @ 25°C. |

| | |
|---|---|
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | 10 cSt @ 20 °C |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Corrosive.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Store at ambient conditions.

**10.5 Incompatible materials**

Zinc. Aluminum. Copper. Copper alloys. Nickel. Steel. Incompatible with oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Harmful by inhalation. Inhalation of corrosive fumes/gases may cause coughing, choking, headache, dizziness, and weakness for several hours. Pulmonary edema may occur with tightness in the chest, shortness of breath, bluish skin, decreased blood pressure, and increased heart rate. May cause damage to organs through prolonged or repeated exposure. |
| **Eye contact** | Causes serious eye damage. May cause irreversible damage to eyes. |

**Skin contact** Causes skin irritation. Prolonged skin contact may cause burns.

**Ingestion** Ingestion may cause irritation to mucous membranes. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Tetrasodium ethylenediaminetetraacetate | = 10,000 mg/kg ( Rat ) | No data available | No data available |
| Sodium hydroxide | No data available | 1350 mg/kg ( Rabbit ) | No data available |
| Trisodium nitrilotriacetate (impurity) | = 1100 mg/kg ( Rat ) | No data available | > 5 mg/L ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Skin contact. Eye contact. Ingestion.

**Routes of entry** Ingestion. Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Tetrasodium ethylenediaminetetraacetate | = 59.8 mg/L LC50 Pimephales promelas 96 h = 41 mg/L LC50 Lepomis macrochirus 96 h | = 1.01 mg/L EC50 Desmodesmus subspicatus 72 h | = 610 mg/L EC50 Daphnia magna 24 h |
| Sodium hydroxide | = 45.4 mg/L LC50 Oncorhynchus mykiss 96 h | No information available | No information available |
| Trisodium nitrilotriacetate (impurity) | = 114 mg/L LC50 Pimephales promelas 96 h 560 - 1000 mg/L LC50 Poecilia reticulata 96 h 72 - 133 mg/L LC50 Oncorhynchus mykiss 96 h 560 - 1000 mg/L LC50 Oryzias latipes 96 h = 470 mg/L LC50 Pimephales promelas 96 h = 252 mg/L LC50 Lepomis macrochirus 96 h 93 - 170 mg/L LC50 Pimephales promelas 96 h 175 - 225 mg/L LC50 Lepomis macrochirus 96 h | 560 - 1000 mg/L EC50 Chlorella vulgaris 96 h | 560 - 1000 mg/L LC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

Not readily biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Tetrasodium ethylenediaminetetraacetate | Not readily biodegradable |
| Sodium hydroxide | Inorganic compound |
| Trisodium nitrilotriacetate (impurity) | Readily biodegradable |

## 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

| Chemical Name | Bioaccumulation |
|---|---|
| Tetrasodium ethylenediaminetetraacetate | No bioaccumulation potential |
| Sodium hydroxide | No bioaccumulation potential |
| Trisodium nitrilotriacetate (impurity) | Not likely to bioaccumulate |

**log Pow**
<3

## 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

| Chemical Name | Mobility |
|---|---|
| Tetrasodium ethylenediaminetetraacetate | Soluble in water |
| Sodium hydroxide | Easily soluble |
| Trisodium nitrilotriacetate (impurity) | Soluble in water |

**Mobility in soil**
Not expected to adsorb on soil.

| Chemical Name | Mobility in soil |
|---|---|

| | |
|---|---|
| Tetrasodium ethylenediaminetetraacetate | Henry's Law Constant : 1.19E-18 Pa*m3/mol @ 25°C |
| Sodium hydroxide | Not expected to adsorb on soil |
| Trisodium nitrilotriacetate (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN3267
**UN No. (IMDG/ANTAQ)** UN3267
**UN No. (ICAO/ANAC)** UN3267

### 14.2. UN proper shipping name

CORROSIVE LIQUID, BASIC, ORGANIC, N.O.S. (contains sodium hydroxide), tetrasodium ethylenediaminetetra acetic acid),

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** 8
**IMDG/ANTAQ Hazard class** 8
**ICAO/ANAC Hazard class/division** 8

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** III
**IMDG/ANTAQ Packing group** III
**ICAO/ANAC Packing group** III

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium hydroxide
Schedule 6
Schedule 5
Trisodium nitrilotriacetate (impurity)
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Chemical Extender D79

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Chemical Extender D79
**Product code** D079

**CAS No** 6834-92-0
**EC No** 229-912-9

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 B |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage
H335 - May cause respiratory irritation
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves and eye/face protection
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P310 - Immediately call a POISON CENTER or doctor/physician
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

**Contains**
Disodium metasilicate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Disodium metasilicate | 229-912-9 | 6834-92-0 | 60 - 100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Avoid dust formation. Do not breathe dust. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Prevent dust cloud. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid dust formation. Do not breathe dust.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Protect from moisture Store away from incompatibles, See Section 10 |
| **Storage class** | Corrosive storage. |
| **Packaging materials** | Use specially constructed containers only. |

**Packaging materials to be avoided** Aluminium

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Disodium metasilicate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Disodium metasilicate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Disodium metasilicate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Disodium metasilicate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Disodium metasilicate | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation, especially in confined areas

**Personal protective equipment**

**Eye protection** Tightly fitting safety goggles Face-shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Repeated or prolonged contact Impervious gloves made of: PVC or Nitrile rubber
Always ensure that gloves are free from defects and that they are stored and used correctly
Frequent change is advisable

**Respiratory protection** Use only with adequate ventilation Effective dust mask. P2

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Crystals |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 12.6 | |
| **pH @ dilution** | 10 g/l | |
| **Melting / freezing point** | 1088 °C / 1990 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.4 g/mL | @22 °C |
| **Bulk density** | No information available | |
| **Relative density** | 2.4 | @ 22°C. |
| **Water solubility** | Soluble in water 270 g/L @ 30 °C | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Does not bioaccumulate | |

| | |
|---|---|
| **Explosive properties** | None |
| **Oxidizing properties** | None |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive to aluminum when wet. Gives off hydrogen by reaction with metals. Reacts violently with acids.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Excessive heat. Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Aluminum. Metals. Alkalis. Strong acids. Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** May cause respiratory irritation.

**Eye contact** Causes burns. Causes serious eye damage.

**Skin contact** Causes severe skin burns.

**Ingestion** Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Disodium metasilicate | = 1153 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Inhalation. Eye contact.

**Routes of entry** Skin contact. Inhalation. Eye contact.

**Specific target organ toxicity - Single exposure** Category 3

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Disodium metasilicate | = 210 mg/L LC50 Brachydanio rerio 96 h | No information available | = 216 mg/L EC50 Daphnia magna 96 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN3253
**UN No. (IMDG/ANTAQ)** UN3253
**UN No. (ICAO/ANAC)** UN3253

### 14.2. UN proper shipping name
DISODIUM TRIOXOSILICATE,

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** 8
**IMDG/ANTAQ Hazard class** 8
**ICAO/ANAC Hazard class/division** 8

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** PG III
**IMDG/ANTAQ Packing group** PG III
**ICAO/ANAC Packing group** PG III

### 14.5 Environmental hazard

**Marine pollutant**
No

### 14.6 Special precautions
**Hazard identification no (ADR)** 80
**EmS (IMDG)** F-A, S-B
**Emergency Action Code (EAC)** 2X
**Tunnel restriction code** E

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

# Safety Data Sheet
## Class G - Silica Blend D956

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Class G - Silica Blend D956
**Product code** D956

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Category 1B |
| Specific target organ toxicity - Single exposure | Category 3 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Portland cement

Quartz, Crystalline silica

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Portland cement | 266-043-4 | 65997-15-1 | 60 - 80 |
| Quartz, Crystalline silica | 238-878-4 | 14808-60-7 | 10-30 |

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**

None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Avoid dust formation. Do not breathe dust. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Prevent dust cloud. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Pick up and transfer to properly labeled containers. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not breathe vapors/dust. Avoid contact with skin and eyes. Avoid handling causing generation of dust. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Do not eat, drink or smoke when using this product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Store away from incompatibles, Powdered aluminum Oxidizing agents Hydrofluoric acid (HF) Strong bases Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| **Chemical Name** | **Arabic** | **Australia** | **Egypt** |
|---|---|---|---|
| Portland cement | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| Quartz, Crystalline silica | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Portland cement | Not determined | Not determined | 10 mg/m³ TWA |
| Quartz, Crystalline silica | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Portland cement | 10 mg/m³ TWA | Not determined | Not determined |
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance glass;regulated under Quartz 1123, 1124 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Portland cement | Not determined | Not determined | Not determined |
| Quartz, Crystalline silica | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Butyl Neoprene Nitrile Rubber Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 11.0 - 13.5 | |
| **Melting / freezing point** | > 1250 °C/ 2282 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 2.75-3.20 | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture.

### 10.5 Incompatible materials

Powdered aluminum. Strong oxidizing agents. Hydrofluoric acid (HF). Strong acids. Strong bases.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause respiratory irritation. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. Contact with moist skin may cause skin burns. May cause an allergic skin reaction.

**Ingestion** Ingestion may cause irritation to mucous membranes.

**Unknown acute toxicity** Not applicable.

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Portland cement | No data available | No data available | No data available |
| Quartz, Crystalline silica | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Ingestion. Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Category 3 |
| **Specific target organ toxicity - Repeated exposure** | Category 2. |
| **Target organ effects** | Respiratory system. Lungs. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Portland cement | No information available | No information available | No information available |
| Quartz, Crystalline silica | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available.

| Chemical Name | Persistence and degradability |
|---|---|
| Quartz, Crystalline silica | Inorganic compound |

### 12.3 Bioaccumulative potential

No product level data available.

| Chemical Name | Bioaccumulation |
|---|---|
| Quartz, Crystalline silica | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Portland cement
Schedule 4
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## CO2 Swellable Particles D282

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CO2 Swellable Particles D282
**Product code** D282

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P273 - Avoid release to the environment
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

_

**Contains**
2,6-di-tert-butyl-p-cresol

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2,6-di-tert-butyl-p-cresol | 204-881-4 | 128-37-0 | 1-<3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke), Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2,6-di-tert-butyl-p-cresol | 10 mg/m³ TWA | 10mg/m³TWA | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 2,6-di-tert-butyl-p-cresol | Not determined | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 2,6-di-tert-butyl-p-cresol | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 2,6-di-tert-butyl-p-cresol | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 2,6-di-tert-butyl-p-cresol | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will

vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Butyl Rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.0 | @ 25°C. |
| **Water solubility** | Insoluble | |
| **Solubility in other solvents** | Partly soluble Ketone Aromatic solvents | |
| **Autoignition temperature** | No information available | |

| | |
|---|---|
| **Decomposition temperature** | > 200 °C/ 392 °F |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2,6-di-tert-butyl-p-cresol | > 2930 mg/kg ( Rat ) | > 2000 mg/kg ( Rat ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2,6-di-tert-butyl-p-cresol | = 5 mg/L LC50 Oryzias latipes 48 h | > 0.42 mg/L EC50 Desmodesmus subspicatus 72 h = 6 mg/L EC50 Pseudokirchneriella subcapitata 72 h | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2,6-di-tert-butyl-p-cresol | Not readily biodegradable |

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated

**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

**Prepared by** Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Sandra McWilliam

**Revision date** 02-Mar-2021

| | |
|---|---|
| **Version** | 1 |
| **This SDS has been revised in the following section(s)** | New issue. |

**Key literature references and sources for data**

# Safety Data Sheet
## CONQOR* 303A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** CONQOR* 303A
**Product code** PID402

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Corrosion inhibitor

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Water | 231-791-2 | 7732-18-5 | 60-100 |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | 272-712-1 | 68909-77-3 | 30-60 |

**Comments**
Based on test data – Skin corrosion/irritation (OECD 404 Skin Rabbit), this product is not corrosive or irritant.
Based on test data – Serious eye damage/irritation (EPA OPPTS: 870.2400 Eye Rabbit), this product is irritant.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid frost. Store at room temperature Avoid contact with: Acids Nitrites |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene PVC Nitrile rubber
Break through time >480 minutes
Glove thickness 0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing and gloves, including the inside, before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Dark amber |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Approximately 11.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | 151.6 °C / 305 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.10 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 4 cP | @ 25 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | < -12°C / 11°F ) |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal conditions.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Store at room temperature. Avoid frost.

### 10.5 Incompatible materials

Acids. Do not add nitrites or other nitrosating agents to this product. May cause formation of nitrosamine.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | 5000 mg/kg (Rat) | >2000 mg/kg (Rat) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | OECD; Acute LC50; 96 hours Semi-static; Fish > 45 g/l | OECD; Acute ErC50 (growth rate); 72 hours Static; Algae; 45 mg/kg OECD 201 Algae, Growth Inhibitor Test; Chronic NOECr; 72 hours Static; Algae; 3.2 mg/l | OECD; Acute EC50; 48 hours Static, Daphnia; > 100 g/l |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

No bioaccumulation expected due to high molecular weight.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |

| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR003599

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## D095 Cement Additive

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D095 Cement Additive
**Product code** D095

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Thermal decomposition can lead to release of irritating gases and vapors

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures Not applicable**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment identified in Section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid generating or breathing dust. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid dust formation |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Use protective gloves made of: PVC Neoprene Nitrile Rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Effective dust mask. Type P1 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Fibers |
| **Odor** | None |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | > 500 °C / 932 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.6 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not applicable.

### 12.3 Bioaccumulative potential

Not applicable.

### 12.4 Mobility

**Mobility**
The product is insoluble and sinks in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Does not comply |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Does not comply |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Ingrid Helland |
| **Supersedes Date:** | 09-May-2016 |

# Safety Data Sheet
## D600G GASBLOK* Gas Migration Control Additive

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D600G GASBLOK* Gas Migration Control Additive
**Product code** D600G

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Gas control agent Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

_

**Contains**
C12-15 alcohol ethyoxylated

Sodium dodecyl sulphate

1,4-Dioxane (Impurity)

5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| C12-15 alcohol ethyoxylated | 500-195-7 | 68131-39-5 | 1-<5 |
| Sodium dodecyl sulphate | 205-788-1 | 151-21-3 | >= 0.1 - <0.3 |
| 1,4-Dioxane (Impurity) | 204-661-8 | 123-91-1 | <=0.1 |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | mixture | 55965-84-9 | < 0.0015 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Heating of containers may cause pressure rise, with risk of bursting.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulphur oxides, Sodium oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**

Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Repeated or prolonged contact may cause allergic reactions in very susceptible persons. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store away from heat and sources of ignition Avoid frost. Incompatible with materials which react with water. Avoid contact with: Strong acids Strong bases Strong oxidizing agents Strong reducing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Neoprene Nitrile PVC
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Do not freeze. Store away from heat and sources of ignition.

### 10.5 Incompatible materials

Incompatible with materials which react with water. Strong acids. Strong bases. Strong oxidizing agents. Strong reducing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| C12-15 alcohol ethyoxylated | 2.500- 5.000 mg/kg | = 2500 mg/kg ( Rabbit ) | No data available |
| Sodium dodecyl sulphate | = 1288 mg/kg ( Rat ) | = 200 mg/kg ( Rabbit ) | > 3900 mg/m³ ( Rat ) 1 h |
| 1,4-Dioxane (Impurity) | = 4200 mg/kg ( Rat ) = 5170 mg/kg ( Rat ) | = 7600 mg/kg ( Rabbit ) | = 46 mg/L ( Rat ) 2 h |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | = 53 mg/kg ( Rat ) | No data available | = 1.23 mg/L ( Rat ) 4 h = 0.11 mg/L ( Rat ) 4 h |

**Sensitization** EUH208 - Contains ( 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one ). May produce an allergic reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| C12-15 alcohol ethyoxylated | 3.1 mg/L LC50 (Scophthalmus maximus) = 96 h | 1 - 3.2 mg/L EC50 (Skeletonema costatum) = 72 h | 0.88 mg/L LC50 (Acartia tonsa) = 48 h |
| Sodium dodecyl sulphate | = 1.31 mg/L LC50 Cyprinus carpio 96 h 10.8 - 16.6 mg/L LC50 Poecilia reticulata 96 h 13.5 - 18.3 mg/L LC50 Poecilia reticulata 96 h 6.2 - 9.6 mg/L LC50 Pimephales promelas 96 h 10.2 - 22.5 mg/L LC50 Pimephales promelas 96 h 5.8 - 7.5 mg/L LC50 Pimephales promelas 96 h = 4.5 mg/L LC50 Lepomis macrochirus 96 h 4.2 - 4.8 mg/L LC50 Lepomis macrochirus 96 h 4.06 - 5.75 mg/L LC50 Lepomis macrochirus 96 h 9.9 - 20.1 mg/L LC50 Brachydanio rerio 96 h = 7.97 mg/L LC50 Brachydanio rerio 96 h = 4.2 mg/L LC50 Oncorhynchus mykiss 96 h = 4.62 mg/L LC50 Oncorhynchus mykiss 96 h 4.3 - 8.5 | = 42 mg/L EC50 Desmodesmus subspicatus 96 h = 117 mg/L EC50 Pseudokirchneriella subcapitata 96 h = 53 mg/L EC50 Desmodesmus subspicatus 72 h 30 - 100 mg/L EC50 Desmodesmus subspicatus 96 h 3.59 - 15.6 mg/L EC50 Pseudokirchneriella subcapitata 96 h | = 1.8 mg/L EC50 Daphnia magna 48 h = 21.2 mg/L EC50 Daphnia magna 24 h |

| | | | |
|---|---|---|---|
| | mg/L LC50 Oncorhynchus mykiss 96 h 22.1 - 22.8 mg/L LC50 Pimephales promelas 96 h 15 - 18.9 mg/L LC50 Pimephales promelas 96 h 8 - 12.5 mg/L LC50 Pimephales promelas 96 h = 4.1 mg/L LC50 Leuciscus idus 48 h | | |
| 1,4-Dioxane (Impurity) | = 9850 mg/L LC50 Pimephales promelas 96 h 10306 - 14742 mg/L LC50 Pimephales promelas 96 h > 10000 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 163 mg/L EC50 water flea 48 h |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | = 1.6 mg/L LC50 Oncorhynchus mykiss 96 h | 0.11 - 0.16 mg/L EC50 Pseudokirchneriella subcapitata 72 h 0.03 - 0.13 mg/L EC50 Pseudokirchneriella subcapitata 96 h = 0.31 mg/L EC50 Anabaena flos-aquae 120 h | 0.12 - 0.3 mg/L EC50 Daphnia magna 48 h 0.71 - 0.99 mg/L EC50 Daphnia magna 48 h = 4.71 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| C12-15 alcohol ethyoxylated | Readily degradable in marine screening test |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| C12-15 alcohol ethyoxylated | Not likely to bioaccumulate |

### 12.4 Mobility

**Mobility**
Dispersible in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| C12-15 alcohol ethyoxylated | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| C12-15 alcohol ethyoxylated | No information available |

### 12.5 Other adverse effects

None known. Check for additional information in sect. 7.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

1,4-Dioxane (Impurity)
Schedule 6
5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one
Schedule 6

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required

**Group number** Not required

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

# Safety Data Sheet
## DEFOAM EXTREME*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DEFOAM EXTREME*
**Product code** PID20095

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Defoamer

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** , No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
May cause slight irritation

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Silicon oxide, Formaldehyde.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. If spilled, take caution, as material can cause surfaces to become very slippery. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**

Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists. Avoid spills and splashing during use. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Keep at 2 - 26°C Protect from freezing Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Contains no substances with occupational exposure limit values No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile<br>Break through time >480 minutes |

| | |
|---|---|
| | Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing and gloves Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Opaque |
| **Odor** | Mild |
| **Color** | Milky white |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | > 100 °C / > 212 °F | estimated |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | < 20 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.01 g/cm³ | @ 20°C. |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** No information available

| | |
|---|---|
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | -6.66°C / 20°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Not chemically reactive.**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Protect from freezing. Keep at 2 - 26°C.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. May cause skin irritation and/or dermatitis. Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

This product is expected to be readily biodegradable.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Dispersible in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**
**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

| | |

# Safety Data Sheet
## DEFOAM PLUS* NS

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DEFOAM PLUS* NS
**Product code** PID18960

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Defoamer

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.95 - 0.97 kg/l | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

| | |
|---|---|
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **LD50 Oral** | > 2000 mg/kg (rat) (based on components) (MIXTURE) |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae. (LC50 > 100 mg/l - aquatic species (MIXTURE)).

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

The product contains potentially bioaccumulating substances.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 09-Oct-2015 |
| **Revision date** | 28-Jan-2019 |
| **Version** | 4 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## DEFOAM*-A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DEFOAM*-A
**Product code** PID150
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Defoamer

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2A |
| Reproductive toxicity | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation
H361 - Suspected of damaging fertility or the unborn child

**Precautionary statements**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Contains**
2,2,4-trimethyl-1,3-pentanediol diisobutyrate

1,3-pentanediol, 2,2,4-trimethyl-

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | 229-934-9 | 6846-50-0 | 10-30 |
| 1,3-pentanediol, 2,2,4-trimethyl- | 205-619-1 | 144-19-4 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**

As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Not to be used by pregnant workers and workers who have recently given birth or who are breastfeeding.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | Not determined | Not determined | Not determined |
| 1,3-pentanediol, 2,2,4-trimethyl- | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | Not determined | Not determined | Not determined |
| 1,3-pentanediol, 2,2,4-trimethyl- | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | Not determined | Not determined | Not determined |
| 1,3-pentanediol, 2,2,4-trimethyl- | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | Not determined | Not determined | Not determined |
| 1,3-pentanediol, 2,2,4-trimethyl- | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | Not determined | Not determined | Not determined |
| 1,3-pentanediol, 2,2,4-trimethyl- | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -50 °C / -58 °F | |
| **Boiling point/range** | 255 °C / 491 °F | |
| **Flash point** | 110 °C / 230 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.95 | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | > 3200 mg/kg ( Rat ) | > 2000 mg/kg (rabbit) - Literature data | > 5.3 mg/L ( Rat ) 6 h |
| 1,3-pentanediol, 2,2,4-trimethyl- | = 2 g/kg ( Rat ) | = 6300 µL/kg ( Rabbit ) | > 4.5 mg/L ( Rat ) 6 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** Suspected of damaging fertility or the unborn child.

**Routes of Exposure** Eye contact.

**Routes of entry** None known.

**Specific target organ toxicity -** Not classified

**Single exposure**
**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2,2,4-trimethyl-1,3-pentanediol diisobutyrate | > 1.55 mg/L LC50 Pimephales promelas 96 h | > 7.49 mg/l EC50 - 72 h - Literature data | > 1.46 mg/L EC50 Daphnia magna 48 h |
| 1,3-pentanediol, 2,2,4-trimethyl- | > 700 mg/L LC50 Lepomis macrochirus 96 h | > 100 mg/l EC50 - 72 h - Literature data | > 100 mg/l EC50 - 48 h - Literature data |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002503 |
| **Group number** | 6.4A, 6.8A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## DI-BALANCE*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DI-BALANCE*
**Product code** PID3378

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Magnesium oxide

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Magnesium oxide | 215-171-9 | 1309-48-4 | 60-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Avoid generating or

breathing dust.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Interhalogens. Acids Water

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Magnesium oxide | 10 mg/m³ TWA | 10mg/m³TWAfume | 10 mg/m³ TWA |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Magnesium oxide | Not determined | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Magnesium oxide | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Magnesium oxide | 10 mg/m³ TWA | 15 mg/m³ TWA | 4 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Magnesium oxide | Not determined | 5 mg/m³ TWA<br>10 mg/m³ STEL | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

| | |
|---|---|
| **Personal protective equipment** | |
| **Eye protection** | Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Nitrile Neoprene PVC Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 10.0 - 11.0 | @ 10% |
| **Melting / freezing point** | 2100 °C / 3800 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | n/a | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 30-40 lb/ft3 | |
| **Relative density** | 3.56 sg | @ 25°C. |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

The product reacts with water and will generate heat.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Interhalogens. Acids. Water.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Magnesium oxide | = 3990 mg/kg ( Rat ) = 3870 | No data available | No data available |

| | | | |
|---|---|---|---|
| | mg/kg ( Rat ) | | |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Magnesium oxide | No information available | No information available | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Magnesium oxide | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Magnesium oxide | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Magnesium oxide | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Magnesium oxide | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Driscal® D Polymer

Version 1.14 Revision Date 2021-09-29

According to Regulation (EC) No. 1907/2006, Regulation (EC) No. 2015/830

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

**1.1**

**Product information**

Product Name : Driscal® D Polymer
Material : 1112534, 1016818

**EC-No.Registration number**

| Chemical name | CAS-No.<br>EC-No.<br>Index No. | Legal Entity<br>Registration number |
|---|---|---|
| 2-Acrylamido-2-Methylpropane Sulfonic Acid, Sodium Salt | 5165-97-9<br>225-948-4 | Chevron Phillips Chemicals International NV<br>01-2119495270-39-0016 |
| 2-Pyrrolidinone, 1-ethenyl- | 88-12-0<br>201-800-4<br>613-168-00-0 | Chevron Phillips Chemicals International NV<br>01-2119498301-39-XXXX |

**1.3**

**Details of the supplier of the safety data sheet**

**Company** : Chevron Phillips Chemical Company LP
Drilling Specialties Company LLC
10001 Six Pines Drive
The Woodlands, TX 77380

Local : Chevron Phillips Chemicals International N.V.
Airport Plaza (Stockholm Building)

## SECTION 2: Hazards identification

**2.1**

**Classification of the substance or mixture**
**REGULATION (EC) No 1272/2008**

Not a hazardous substance or mixture.

**2.2**

**Labeling (REGULATION (EC) No 1272/2008)**

Not a hazardous substance or mixture.

## SECTION 3: Composition/information on ingredients

**3.1 - 3.2**
**Substance or Mixture**

| | | |
|---|---|---|
| Synonyms | : | High Temperature Polymer |

Contains no hazardous ingredients according to GHS. :

| | | |
|---|---|---|
| Remarks | : | Contains no hazardous ingredients according to GHS. |

## SECTION 4: First aid measures

**4.1**

**Description of first-aid measures**

| | | |
|---|---|---|
| General advice | : | No hazards which require special first aid measures. |
| If inhaled | : | If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician. |
| In case of eye contact | : | Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist. |
| If swallowed | : | Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious |

person. If symptoms persist, call a physician.

## SECTION 5: Firefighting measures

| | | |
|---|---|---|
| Flash point | : | Not applicable |
| Autoignition temperature | : | No data available |

**5.1 Extinguishing media**

| | | |
|---|---|---|
| Unsuitable extinguishing media | : | High volume water jet. |

**5.2 Special hazards arising from the substance or mixture**

| | | |
|---|---|---|
| Specific hazards during fire fighting | : | Risks of ignition followed by flame propagation or secondary explosions can be caused by the accumulation of dust, e.g. on floors and ledges. |

**5.3 Advice for firefighters**

| | | |
|---|---|---|
| Special protective equipment for fire-fighters | : | Wear self-contained breathing apparatus for firefighting if necessary. |
| Further information | : | Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Fire and explosion protection | : | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed. |

## SECTION 6: Accidental release measures

**6.1 Personal precautions, protective equipment and emergency procedures**

| | | |
|---|---|---|
| Personal precautions | : | Avoid dust formation. |

**6.2 Environmental precautions**

| | | |
|---|---|---|
| Environmental precautions | : | No special environmental precautions required. |

**6.3 Methods and materials for containment and cleaning up**

| | | |
|---|---|---|
| Methods for cleaning up | : | Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal. |
| Additional advice | : | Contaminated surfaces will be extremely slippery. Avoid spillage on floor as the product can become very slippery when wet. Sweep up to prevent slipping hazard. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). |

**6.4**

**Reference to other sections**

| | | |
|---|---|---|
| Reference to other sections | : | For personal protection see section 8. For disposal considerations see section 13. |

## SECTION 7: Handling and storage

**7.1**

**Precautions for safe handling**
**Handling**

| | | |
|---|---|---|
| Advice on safe handling | : | For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. |
| Advice on protection against fire and explosion | : | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed. |

**7.2**

**Conditions for safe storage, including any incompatibilities**

**Storage**

| | | |
|---|---|---|
| Requirements for storage areas and containers | : | Electrical installations / working materials must comply with the technological safety standards. |
| Advice on common storage | : | No materials to be especially mentioned. |

## SECTION 8: Exposure controls/personal protection

**8.2**

**Exposure controls**
**Engineering measures**

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**Personal protective equipment**

| | | |
|---|---|---|
| Respiratory protection | : | Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Air-Purifying Respirator for Dusts and Mists / P100. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, aerosolization, exposure |

levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

| | | |
|---|---|---|
| Hand protection | : | The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. |
| Eye protection | : | Eye wash bottle with pure water. Safety glasses. |
| Skin and body protection | : | Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Protective suit. Safety shoes. |
| Hygiene measures | : | General industrial hygiene practice. |

## SECTION 9: Physical and chemical properties

**9.1**

**Information on basic physical and chemical properties**

**Appearance**

| | | |
|---|---|---|
| Form | : | Powder |
| Physical state | : | solid |
| Color | : | White |
| Odor | : | no odor |
| Odor Threshold | : | No data available |

**Safety data**

| | | |
|---|---|---|
| Flash point | : | Not applicable |
| Lower explosion limit | : | No data available |
| Upper explosion limit | : | No data available |
| Oxidizing properties | : | No |
| Autoignition temperature | : | No data available |
| Thermal decomposition | : | No data available |
| Molecular weight | : | Not applicable |
| pH | : | Not applicable |
| Pour point | : | No data available |
| Boiling point/boiling range | : | No data available |

| | | |
|---|---|---|
| Vapor pressure | : | No data available |
| Relative density | : | 1,44 |
| Density | : | No data available |
| Water solubility | : | soluble |
| Partition coefficient: n-octanol/water | : | Pow: < 3 |
| Viscosity, kinematic | : | No data available |
| Relative vapor density | : | No data available |
| Evaporation rate | : | No data available |

## SECTION 10: Stability and reactivity

**10.1**

**Reactivity** : Stable at normal ambient temperature and pressure.

**10.2**

**Chemical stability** : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

**10.3**

**Possibility of hazardous reactions**

**Hazardous reactions** : Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.

**10.4**

**Conditions to avoid** : No data available.

**10.5**

**Materials to avoid** : No data available.

**Thermal decomposition** : No data available

**10.6**

**Other data** : No decomposition if stored and applied as directed.

## SECTION 11: Toxicological information

**11.1**

**Information on toxicological effects**

**Driscal® D Polymer**

**Further information** : The product contains no substances classified as hazardous to health in concentrations which should be taken into account.

## SECTION 12: Ecological information

**12.1**
**Toxicity**

**Ecotoxicity effects**

**Toxicity to fish** : LC50: > 1.800 mg/l
Exposure time: 96 h
Species: Scophthalmus maximus (Flatfish, Flounder)
static test Method: PARCOM Protocol Part B

**Toxicity to daphnia and other aquatic invertebrates** : LC50: 599 mg/l
Exposure time: 48 h
Species: Acartia tonsa (Marine Copepod)
static test Method: ISO TC147/SC5/WG2

**Toxicity to algae** : EC50: 2.693 mg/l
Exposure time: 72 h
Species: Skeletonema costatum (marine diatom)
static test Method: ISO 10253

**12.2**
**Persistence and degradability**

Biodegradability : This material is not expected to be readily biodegradable.

**12.3**
**Bioaccumulative potential**
Elimination information (persistence and degradability)

Bioaccumulation : Accumulation in aquatic organisms is unlikely.
The polymer is too large to be bioavailable.

**12.4**
**Mobility in soil**

Mobility : No data available

**12.5**
**Results of PBT and vPvB assessment**
Results of PBT assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

**12.6**
**Other adverse effects**
Additional ecological information : This material is not expected to be harmful to aquatic organisms.

**Ecotoxicology Assessment**

| | | |
|---|---|---|
| Short-term (acute) aquatic hazard | : | This material is not expected to be harmful to aquatic organisms. |
| Long-term (chronic) aquatic hazard | : | This material is not expected to be harmful to aquatic organisms. |

## SECTION 13: Disposal considerations

**13.1**

**Waste treatment methods**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

| | | |
|---|---|---|
| Contaminated packaging | : | Empty containers should be taken to an approved waste handling site for recycling or disposal. |

## SECTION 14: Transport information

**14.1 - 14.7**

**Transport information**

**The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).**

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

**US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)**
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

**Maritime transport in bulk according to IMO instruments**

## SECTION 15: Regulatory information

**15.1**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**
**National legislation**

Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

**Water contaminating class (Germany)** : nwg not water endangering

**15.2**

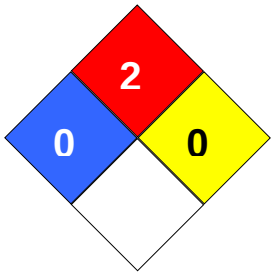
**Major Accident Hazard Legislation** : ZEU_SEVES3 Update:
Not applicable

**Notification status**

| | | |
|---|---|---|
| Europe REACH | : | On the inventory, or in compliance with the inventory |
| Switzerland CH INV | : | On the inventory, or in compliance with the inventory |
| United States of America (USA) TSCA | : | All substances listed as active on the TSCA inventory |
| Canada DSL | : | All components of this product are on the Canadian DSL |
| Other AIIC | : | On the inventory, or in compliance with the inventory |
| New Zealand NZIoC | : | On the inventory, or in compliance with the inventory |
| Japan ENCS | : | On the inventory, or in compliance with the inventory |
| Taiwan TCSI | : | Not in compliance with the inventory |
| Korea KECI | : | Not in compliance with the inventory |
| Philippines PICCS | : | Not in compliance with the inventory |
| China IECSC | : | This product contains one or more substances that have been notified under New Substances Notification laws. However, only CPChem and other independent notifiers are approved to be the importers of record. |

## SECTION 16: Other information

**NFPA Classification** : Health Hazard: 0
Fire Hazard: 2
Reactivity Hazard: 0



**Further information**

Legacy SDS Number : 244990

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

| Key or legend to abbreviations and acronyms used in the safety data sheet | | | |
|---|---|---|---|
| ACGIH | American Conference of Government Industrial Hygienists | LD50 | Lethal Dose 50% |
| AICS | Australia, Inventory of Chemical Substances | LOAEL | Lowest Observed Adverse Effect Level |

**Supersedes Date:** 23-Feb-2017

# Safety Data Sheet
## D-SOLVER 7*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D-SOLVER 7*
**Product code** PID18257
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Chelating agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H332 - Harmful if inhaled
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P271 - Use only outdoors or in a well-ventilated area
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Tripotassium hydrogen 2,2',2'',2'''-(ethane-1,2-diyldinitrilo)tetraacetate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Tripotassium hydrogen 2,2',2'',2'''-(ethane-1,2-diyldinitrilo)tetraacetate | 241-543-5 | 17572-97-3 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel

should) give oxygen. Obtain medical attention.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits**
The product does not contain any hazardous materials with occupational exposure limits established.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Tripotassium hydrogen 2,2',2",2'"-(ethane-1,2-diyldinitrilo)tetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Tripotassium hydrogen 2,2',2",2'"-(ethane-1,2-diyldinitrilo)tetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Tripotassium hydrogen 2,2',2",2'"-(ethane-1,2-diyldinitrilo)tetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Tripotassium hydrogen 2,2',2",2'"-(ethane-1,2-diyldinitrilo)tetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Tripotassium hydrogen 2,2',2",2'"-(ethane-1,2-diyldinitrilo)tetraacetate | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown)

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight Ammoniacal |
| **Color** | Light yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7.7 - 8.1 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 105 - 110 °C / 221 - 230 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.30 - 1.32 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Harmful by inhalation. May cause damage to organs through prolonged or repeated exposure.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Tripotassium hydrogen 2,2',2'',2'''-(ethane-1,2-diyldinitrilo)tetraacetate | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Tripotassium hydrogen 2,2',2'',2'''-(ethane-1,2-diyldinitrilo)tetraacetate | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
< 0

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

## 16. Other Information

# Safety Data Sheet
## D-SOLVER EXTRA*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D-SOLVER EXTRA*
**Product code** PID18883

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Chelating agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H315 - Causes skin irritation
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse

**Contains**
N-(2-Hydroxyethyl)ethylenediaminetriacetic acid

Trisodium [{ 2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate

2,2",2"-nitrilotriacetic acid

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | 205-759-3 | 150-39-0 | 10-30 |
| Trisodium [{ 2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | 205-381-9 | 139-89-9 | 10-30 |
| 2,2",2"-nitrilotriacetic acid | 205-355-7 | 139-13-9 | <5 |

**Comments**
H318 do not apply. The overall product classification is H319 due to pH.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**

Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Not determined | Not determined | Not determined |
| Trisodium [{2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | Not determined | Not determined | Not determined |
| 2,2",2"-nitrilotriacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Not determined | Not determined | Not determined |
| Trisodium [{2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | Not determined | Not determined | Not determined |
| 2,2",2"-nitrilotriacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Not determined | Not determined | Not determined |
| Trisodium [{2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | Not determined | Not determined | Not determined |
| 2,2",2"-nitrilotriacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Not determined | Not determined | Not determined |
| Trisodium [{2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | Not determined | Not determined | Not determined |
| 2,2",2"-nitrilotriacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Not determined | Not determined | Not determined |
| Trisodium [{2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | Not determined | Not determined | Not determined |
| 2,2",2"-nitrilotriacetic acid | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Nitrile Neoprene PVC<br>Break through time >480 minutes<br>Glove thickness =>0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight Ammoniacal |
| **Color** | Clear - Dark |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 4.4 - 5.0 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 105 - 110 °C / 221 - 230 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.15 - 1.25 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |

| | |
|---|---|
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | <0 |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Causes serious eye irritation. |
| **Skin contact** | Causes skin irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**LD50 Oral** > 2000 mg/kg Calculated (PRODUCT)

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | No data available | No data available | No data available |
| Trisodium [{ 2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | = 10000 mg/kg ( Rat ) | No data available | No data available |
| 2,2'',2''-nitrilotriacetic acid | = 1100 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact. Skin contact.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | No information available | No information available | No information available |
| Trisodium [{ | No information available | No information available | No information available |

| | | | |
|---|---|---|---|
| 2-[bis(carboxylatomethyl)amino]ethyl} (2-hydroxyethyl)amino]acetate | | | |
| 2,2'',2''-nitrilotriacetic acid | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Moderate biodegradation |
| 2,2'',2''-nitrilotriacetic acid | Moderate biodegradation |

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| N-(2-Hydroxyethyl)ethylenediaminetriacetic acid | Does not bioaccumulate |
| 2,2'',2''-nitrilotriacetic acid | Not likely to bioaccumulate |

**log Pow**
<0

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

P362 - Take off contaminated clothing and wash before reuse

**Contains**
N,N-Bis(carboxymethyl)-L-glutamic acid

Nitrilotriacetic acid

Glycolic acid (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| N,N-Bis(carboxymethyl)-L-glutamic acid | 261-530-8 | 58976-65-1 | 10-30 |
| Glycolic acid (impurity) | 201-180-5 | 79-14-1 | <3 |
| Nitrilotriacetic acid | 205-355-7 | 139-13-9 | <3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits**

Contains no substances with occupational exposure limit values
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| N,N-Bis(carboxymethyl)-L-glutamic acid | Not determined | Not determined | Not determined |
| Nitrilotriacetic acid | Not determined | Not determined | Not determined |
| Glycolic acid (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| N,N-Bis(carboxymethyl)-L-glutamic acid | Not determined | Not determined | Not determined |
| Nitrilotriacetic acid | Not determined | Not determined | Not determined |
| Glycolic acid (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| N,N-Bis(carboxymethyl)-L-glutamic acid | Not determined | Not determined | Not determined |
| Nitrilotriacetic acid | Not determined | Not determined | Not determined |
| Glycolic acid (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| N,N-Bis(carboxymethyl)-L-glutamic acid | Not determined | Not determined | Not determined |
| Nitrilotriacetic acid | Not determined | Not determined | Not determined |
| Glycolic acid (impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| N,N-Bis(carboxymethyl)-L-glutamic acid | Not determined | Not determined | Not determined |
| Nitrilotriacetic acid | Not determined | Not determined | Not determined |
| Glycolic acid (impurity) | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Viton Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight Ammoniacal |
| **Color** | Dark amber - Clear Yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 3.4 - 3.8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Non-flammable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1150 - 1380 kg/m³ | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Causes skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| N,N-Bis(carboxymethyl)-L-glutamic acid | No data available | No data available | No data available |
| Nitrilotriacetic acid | = 1100 mg/kg ( Rat ) | No data available | No data available |
| Glycolic acid (impurity) | = 1950 mg/kg ( Rat ) | No data available | = 3.6 mg/L ( Rat ) 4 h > 5.2 mg/L ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

| | |
|---|---|
| **Routes of Exposure** | Skin contact. Eye contact. |
| **Routes of entry** | Skin contact. Eye contact. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| N,N-Bis(carboxymethyl)-L-glutamic acid | No information available | No information available | No information available |
| Nitrilotriacetic acid | EC50: >100mg/l (24h, Daphnia magna) | No information available | No information available |
| Glycolic acid (impurity) | > 5000 mg/L LC50 Brachydanio rerio 96 h | No information available | No information available |

### 12.2 Persistence and degradability

Readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
<0

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Glycolic acid (impurity)
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |

# Safety Data Sheet
## D-SOLVER* D

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D-SOLVER* D
**Product code** PID17038

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Chelating agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 |
| Serious eye damage/eye irritation | Category 2 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation
H332 - Harmful if inhaled
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P312 - Call a POISON CENTER or doctor/physician if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P314 - Get medical advice/attention if you feel unwell
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Contains**
Ethylenediaminetetraacetic acid

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ethylenediaminetetraacetic acid | 200-449-4 | 60-00-4 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. Obtain medical attention.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**

As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Protect from moisture Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Ethylenediaminetetraacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Ethylenediaminetetraacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Ethylenediaminetetraacetic acid | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Ethylenediaminetetraacetic acid | Not determined | Not determined | 2 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Ethylenediaminetetraacetic acid | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Use protective gloves made of: Neoprene Nitrile PVC Frequent change is advisable

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

**Physical state** — Solid
**Appearance** — Powder Dust

| | |
|---|---|
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 2-3 | Conc. solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | >= 40 g/m³ | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.6 - 0.8 | |
| **Bulk density** | ~800 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | slightly soluble | ~0.2 (g/100g H2O@20°C) |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | > 200 °C / > 392 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | < 0 | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges. Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Harmful by inhalation. May cause damage to organs through prolonged or repeated exposure.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethylenediaminetetraacetic acid | 4500 mg/kg (Rat)<br>OECD 401<br>ECHA Data | No data available | > 1 - 5 mg/l 4h dust/mist<br>OECD 412<br>Vendor Data |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethylenediaminetetraacetic acid | > 100 mg/l 96h LC50<br>Lepomis macrochirus (Bluegill sunfish)<br>Vendor data | > 300 mg/L 72h EC50<br>Pseudokirchneriella subcapitata (green algae)<br>Vendor Data | 140 mg/L 48h EC50<br>Daphnia magna<br>Vendor Data |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
< 0

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ethylenediaminetetraacetic acid
Schedule 4

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |

# Safety Data Sheet
## D-SOLVER*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D-SOLVER*
**Product code** PID11926
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Corrosion inhibitor Scale dissolver

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Dipotassium ethylenediaminetetraacetate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Dipotassium ethylenediaminetetraacetate | 217-895-0 | 2001-94-7 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Excessive heat Strong oxidizing agents Bases Aluminum Nickel Copper Zinc

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Dipotassium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Dipotassium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Dipotassium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Dipotassium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Dipotassium ethylenediaminetetraacetate | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Butyl PVC<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight Ammoniacal |
| **Color** | Yellow |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 4.5 - 5.0 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 105 - 110 °C / 221 - 230 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |

| | |
|---|---|
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | Similar to water |
| **Vapor density** | Similar to water. |
| **Specific gravity** | 1.1 - 1.2 |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Stable under recommended storage conditions.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Excessive heat.

**10.5 Incompatible materials**

Strong oxidizing agents. Aluminum. Nickel. Copper. Zinc. Bases.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Dipotassium ethylenediaminetetraacetate | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Dipotassium ethylenediaminetetraacetate | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |

| | |
|---|---|
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## D-STRUCTOR*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** D-STRUCTOR*
**Product code** PID14578
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filter cake remover.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H318 - Causes serious eye damage

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P270 - Do not eat, drink or smoke when using this product
P330 - Rinse mouth

**Contains**
2-(formyloxy)ethyl formate

Ethylene Glycol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-(formyloxy)ethyl formate | 211-077-7 | 629-15-2 | 10-30 |
| Ethylene Glycol | 203-473-3 | 107-21-1 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**

As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong oxidizing agents Strong acids Strong alkalies. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness 0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No personal respiratory protective equipment normally required When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with a vapor filter (EN 141) Type ABEKP At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing

before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Pungent |
| **Color** | Colorless - Pale yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 4.0 - 4.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | 93 °C / 200 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.15 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids. Strong alkalies.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Harmful if swallowed.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-(formyloxy)ethyl formate | = 1510 mg/kg ( Rat ) | No data available | No data available |
| Ethylene Glycol | = 4700 mg/kg ( Rat ) | = 9530 µL/kg ( Rabbit ) = 10600 mg/kg ( Rat ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Eye contact. Ingestion. |
| **Routes of entry** | Eye contact. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-(formyloxy)ethyl formate | No information available | No information available | No information available |
| Ethylene Glycol | = 16000 mg/L LC50 Poecilia reticulata 96 h 40000 - 60000 mg/L LC50 Pimephales promelas 96 h = 40761 mg/L LC50 Oncorhynchus mykiss 96 h = 27540 mg/L LC50 Lepomis macrochirus 96 h 14 - 18 mL/L LC50 Oncorhynchus mykiss 96 h = 41000 mg/L LC50 Oncorhynchus mykiss 96 h | 6500 - 13000 mg/L EC50 Pseudokirchneriella subcapitata 96 h | = 46300 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-(formyloxy)ethyl formate | Rapidly biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2-(formyloxy)ethyl formate | Not likely to bioaccumulate log Kow <3 |

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ethylene Glycol
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Does not comply |

This SDS is not for use in the European Union (EU).

## 16. Other Information

# Safety Data Sheet
## DUAL-FLO* HT

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DUAL-FLO* HT
**Product code** PID552

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtration-control.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Starch

**2.3 Other hazards**

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Starch | 232-679-6 | 9005-25-8 | 60-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Starch | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Starch | Not determined | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Starch | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Starch | 10 mg/m³ TWA | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Starch | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical

hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required. See section 7 for more information

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Mild |
| **Color** | White - Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5.0 - 8.0 | @4% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | @ 20 °C |
| **Bulk density** | 30 - 45 lb/ft³ | |
| **Relative density** | No information available | |

| | |
|---|---|
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Starch | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Starch | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

# Safety Data Sheet
## DUAL-FLO*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DUAL-FLO*
**Product code** PID2035

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtration-control.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components
**2.3 Other hazards**

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust

formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Protect from moisture Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient |

| | |
|---|---|
| | ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Slight |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 9.0 - 10.5 | @4% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | 20 °C |
| **Bulk density** | 30-40 lb/lb/ft³ | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## DUO-TEC*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DUO-TEC*
**Product code** PID2112

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Glyoxal

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Glyoxal | 203-474-9 | 107-22-2 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to

hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Suspended dust may present a dust explosion hazard. Avoid breathing dust; if exposed to high dust concentration, leave area immediately. Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Use non-sparking tools and equipment. Take precautionary measures against static discharges.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Persons susceptible to allergic reactions should not handle this product. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. Use spark-proof tools and explosion-proof equipment.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Glyoxal | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Butyl Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Mild |
| **Color** | Cream - Tan |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 7 | @ 1% sol. |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |

| | | |
|---|---|---|
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | 20 °C |
| **Bulk density** | 50 lb/ft³ (800 kg/m³) | |
| **Relative density** | No information available | |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | > 200 °C / > 392 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition. Protect from moisture.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Glyoxal | = 200 mg/kg ( Rat ) | = 12700 mg/kg ( Rabbit ) | = 2410 mg/m³, 3-4 hrs |

**Sensitization** EUH208 - Contains ( Glyoxal ). May produce an allergic reaction.

**Mutagenic effects** Contains an known or suspected mutagen.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact.

**Routes of entry** Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Glyoxal | > 1000 mg/l LC50 Scophthalmus Maximus 96h SLB data | 207 mg/l EC50 Skeletonema 72h SLB data | 259 mg/L LC50 Acartia 48h SLB Data |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Glyoxal | Not biodegradable (<60% 28 days) |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Glyoxal | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Dispersible in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused** Dispose of in accordance with local regulations.

**products**

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated
**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the**

**occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## DUO-VIS*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** DUO-VIS*
**Product code** PID510

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Glyoxal

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Product dust may be irritating to eyes, skin and respiratory system
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Glyoxal | 203-474-9 | 107-22-2 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Glyoxal | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Butyl Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Mild |
| **Color** | Cream - Tan |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 7 | @ 1% sol. |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |

| | | |
|---|---|---|
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | 20 °C |
| **Bulk density** | 50 lb/ft³ (800 kg/m³) | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | > 200 °C / > 392 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Avoid dust formation. Heat, flames and sparks. Protect from moisture.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Glyoxal | = 200 mg/kg ( Rat ) | = 12700 mg/kg ( Rabbit ) | = 2410 mg/m³, 3-4 hrs |

**Sensitization** EUH208 - Contains ( Glyoxal ). May produce an allergic reaction.

**Mutagenic effects** Contains an known or suspected mutagen.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Glyoxal | = 215 mg/L LC50 Pimephales | <= 348.59 mg/L EC50 | = 404 mg/L EC50 Daphnia magna |

| | | | |
|---|---|---|---|
| | promelas 96 h 460 - 680 mg/L LC50 Leuciscus idus 96 h | Pseudokirchneriella subcapitata 96 h > 500 mg/L EC50 Desmodesmus subspicatus 96 h > 500 mg/L EC50 Desmodesmus subspicatus 72 h | 48 h |

### 12.2 Persistence and degradability

The product contains substances which are not expected to be biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Glyoxal | Readily biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Glyoxal | Not likely to bioaccumulate - Bioconcentration factor (BCF) 2.155 |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Glyoxal | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Glyoxal | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |

# Safety Data Sheet
## Dye D247

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Dye D247
**Product code** D247

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H373 - May cause damage to organs through prolonged or repeated exposure if swallowed

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Ethylene Glycol

Acetic acid

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ethylene Glycol | 203-473-3 | 107-21-1 | 10 < 25 |
| Acetic acid | 200-580-7 | 64-19-7 | 1 - 5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating and toxic gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Rubber Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No protective equipment is needed under normal use conditions In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit Respirator with a vapor filter (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Pungent |
| **Color** | Dark Purple |
| **Odor threshold** | No information available |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 3 - 4 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -17 °C / 1.4 °F | |
| **Boiling point/range** | 103 °C / 217.4 °F | |
| **Flash point** | > 93 °C / 199.4 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.02 - 1.06 | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation. Components of the product may be absorbed into the body through the skin.

**Ingestion** May cause damage to organs through prolonged or repeated exposure.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethylene Glycol | = 4700 mg/kg ( Rat ) | = 9530 µL/kg ( Rabbit ) = 10600 mg/kg ( Rat ) | No data available |
| Acetic acid | = 3310 mg/kg ( Rat ) | = 1060 mg/kg ( Rabbit ) | = 11.4 mg/L ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Inhalation. Ingestion. Eye contact. |
| **Routes of entry** | Ingestion. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Category 2. |
| **Target organ effects** | Kidney. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethylene Glycol | = 16000 mg/L LC50 Poecilia reticulata 96 h 40000 - 60000 mg/L LC50 Pimephales promelas 96 h = 40761 mg/L LC50 Oncorhynchus mykiss 96 h = 27540 mg/L LC50 Lepomis macrochirus 96 h 14 - 18 mL/L LC50 Oncorhynchus mykiss 96 h = 41000 mg/L LC50 Oncorhynchus mykiss 96 h | 6500 - 13000 mg/L EC50 Pseudokirchneriella subcapitata 96 h | = 46300 mg/L EC50 Daphnia magna 48 h |
| Acetic acid | = 75 mg/L LC50 Lepomis macrochirus 96 h = 79 mg/L LC50 Pimephales promelas 96 h | 300.82 mg/l EC50 (Algae) = 72h 73,400 µg/l EC50 (Algae - Navicula seminulum) = 96h | = 47 mg/L EC50 Daphnia magna 24 h = 65 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Acetic acid | Readily biodegradable |

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

| Chemical Name | Bioaccumulation |
|---|---|
| Acetic acid | Bioconcentration factor (BCF) : 3.16 Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| Acetic acid | Soluble in water |

**Mobility in soil**
No product level data available. See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Acetic acid | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated

**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ethylene Glycol
Schedule 6
Schedule 5
Acetic acid
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |

| | |
|---|---|
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |
| **Supersedes Date:** | 17-Dec-2015 |
| **Revision date** | 02-Dec-2019 |
| **Version** | 2 |
| **This SDS has been revised in the following section(s)** | All sections There have been changes with regard to classification. |

# Safety Data Sheet
ECF-1868

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ECF-1868
**Product code** 141633

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
May form combustible dust concentrations in air

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-methylpropan-2-ol (impurity) | 200-889-7 | 75-65-0 | 5-<10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically. Keep victim under observation.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Sulphur oxides, Ammonia, Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**

Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents Strong acids |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene PVC Frequent change is advisable |
| **Respiratory protection** | No protective equipment is needed under normal use conditions In case of insufficient |

| | |
|---|---|
| | ventilation, wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Remove and wash contaminated clothing before re-use |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 2 - 5 | @ 5 g/l |
| **Melting / freezing point** | > 150 °C / > 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.265 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150 °C / > 302 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | ~ 0 | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |

| | |
|---|---|
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
Oxidizing agents may cause exothermic reactions.

### 10.4 Conditions to avoid

Take precautionary measures against static charges. Protect from moisture. Avoid dust formation. Avoid contact with heat, sparks, open flame, and static discharge.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
~ 0

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

# Safety Data Sheet
ECF-2928

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ECF-2928
**Product code** PID18940

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Cleaning compound

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Aspiration toxicity | Category 1 |
| Acute toxicity - Dermal | Category 4 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H304 - May be fatal if swallowed and enters airways
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P331 - Do NOT induce vomiting
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P309 + P311 - IF exposed or if you feel unwell: Call a POISON CENTER or doctor/physician
P330 - Rinse mouth
P362 - Take off contaminated clothing and wash before reuse

**Contains**
2-butoxyethanol

Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics*

D-Glucopyranose, oligomeric, C8-10 glycosides

1-Butoxypropan-2-ol

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

# 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-butoxyethanol | 203-905-0 | 111-76-2 | 10-<30 |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | 926-141-6 | RM1004246 | 10-30 |
| D-Glucopyranose, oligomeric, C8-10 glycosides | 500-220-1 | 68515-73-1 | 10-30 |
| 1-Butoxypropan-2-ol | 225-878-4 | 5131-66-8 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Risk of product entering the lungs on vomiting after ingestion. If vomiting occurs spontaneously, minimize the risk of aspiration by properly positioning the affected person. Never give anything by mouth to an unconscious person. Immediate medical attention is required.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get immediate medical attention.

**Eye Contact** — Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Get immediate medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Prevent the formation of vapors, mists and aerosols. Do not breathe vapors or spray mist.

**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Oil mist (mineral) workplace exposure limits are currently under review by legislative authorities. This workplace exposure limit (WEL) standard is applicable to highly refined mineral oils and is provided as a guidance limit only LT. EXP = 5mg/m³ and ST. EXP = 10mg/m³.
No biological limit allocated

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile Rubber
Break through time >60 minutes
Glove thickness 0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more

information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Characteristic |
| **Color** | Clear - Yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 68 °C / 154 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Emulsifies | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 0.910 g/cm3 @ 20°C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Take precautionary measures against static charges.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system. May cause additional affects as listed under "Ingestion".

**Eye contact** Causes serious eye damage.

**Skin contact** Harmful in contact with skin. Causes skin irritation. Components of the product may be absorbed into the body through the skin. Repeated exposure may cause skin dryness or cracking.

**Ingestion** May be fatal if swallowed and enters airways. Potential for aspiration if swallowed. Aspiration may cause pulmonary edema and pneumonitis.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-butoxyethanol | 1200 mg/kg (Guinea pigs) | > 2000 mg/kg (Rat) | 400 ppm ( Rabbit) |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | > 5000 mg/kg (Rat) | > 2000 mg/kg (Rabbit) | > 5.2 mg/L (Rat) 4 h |
| D-Glucopyranose, oligomeric, C8-10 glycosides | > 2000 mg/kg bw (Rat) ECHA Data | > 2000 mg/kg (Rabbit) ECHA Data | No data available |
| 1-Butoxypropan-2-ol | = 1900 mg/kg ( Rat ) = 5660 µL/kg ( Rat ) | = 3100 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Ingestion. Eye contact. Skin contact.

| | |
|---|---|
| **Routes of entry** | Ingestion. Eye contact. Skin contact. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | May be fatal if swallowed and enters airways. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-butoxyethanol | = 2950 mg/L LC50 Lepomis macrochirus 96 h = 1490 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 1698 - 1940 mg/L (LC50; Daphnia magna)<br>= 1720 mg/L (EC50; water flea) |

| 1-Butoxypropan-2-ol | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-butoxyethanol | Readily biodegradable |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Inherently biodegradable OECD 301F : 58.6% Duration 28 days |
| D-Glucopyranose, oligomeric, C8-10 glycosides | OECD 301 Readily biodegradable |

| | |
|---|---|
| 1-Butoxypropan-2-ol | Readily biodegradable |

### 12.3 Bioaccumulative potential

No product level data available. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2-butoxyethanol | Not likely to bioaccumulate |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Does not bioaccumulate |
| D-Glucopyranose, oligomeric, C8-10 glycosides | Not likely to bioaccumulate |
| 1-Butoxypropan-2-ol | Not likely to bioaccumulate log Kow =1.15 |

### 12.4 Mobility

**Mobility**
emulsifiable. See component information below.

| Chemical Name | Mobility |
|---|---|
| 2-butoxyethanol | Soluble in water |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Insoluble in water |
| D-Glucopyranose, oligomeric, C8-10 glycosides | Partially soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| 2-butoxyethanol | No information available |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |
| D-Glucopyranose, oligomeric, C8-10 glycosides | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused** Dispose of in accordance with local regulations.

**products**

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-butoxyethanol
Schedule 6

**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR002525

**Group number** 6.1E, 6.1D, 6.3A, 8.3A

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

CAS Number 64742-47-8 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

## 16. Other Information

# Safety Data Sheet
## ECF-3998

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ECF-3998
**Product code** 142822
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtrate reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

| | |
|---|---|
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Do not breathe dust. Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Provide appropriate exhaust ventilation at places where dust is formed. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee |

| | |
|---|---|
| | training Repeated or prolonged contact Use protective gloves made of: Neoprene Nitrile PVC Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | No information available |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6 - 8 | @ 25% aqueous solution |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 0.35 - 0.65 g/cc | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |

**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Not known.

**10.4 Conditions to avoid**

Avoid dust formation. Suspended dust may present a dust explosion hazard. Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Ingestion. |
| **Routes of entry** | Inhalation. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

This SDS is not for use in the European Union (EU).

## 16. Other Information

# Safety Data Sheet
## EMI-1950

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** EMI-1950
**Product code** 142523
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

Glyoxal

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

Contact with eyes may cause irritation

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <5 |
| Glyoxal | 203-474-9 | 107-22-2 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
This product contains a small quantity of quartz, crystalline silica. Repeated or prolonged inhalation of crystalline silica dust, exceeding the occupational exposure limits, can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL |

| | | | |
|---|---|---|---|
| | | | 1 mg/m³ TWA<br>Fibrogenic substance glass;regulated under Quartz 1123, 1124 |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |
| Glyoxal | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits See section 7 for more information

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Light tan - Gray Green |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 9-10 | |
| **pH @ dilution** | | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.3 - 2.6 | 20 °C |
| **Bulk density** | 48-52 lb/ft³ / 769-833 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Not applicable
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |
| Glyoxal | = 200 mg/kg ( Rat ) | = 12700 mg/kg ( Rabbit ) | = 2410 mg/m³, 3-4 hrs |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** This product contains one or more substances which are classified in the EU as carcinogenic, mutagenic and/or reprotoxic.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | No information available | No information available | No information available |
| Glyoxal | = 215 mg/L LC50 Pimephales promelas 96 h 460 - 680 mg/L LC50 Leuciscus idus 96 h | <= 348.59 mg/L EC50 Pseudokirchneriella subcapitata 96 h > 500 mg/L EC50 Desmodesmus subspicatus 96 h > 500 mg/L EC50 Desmodesmus subspicatus 72 h | = 404 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

## 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Ingrid Helland |
| **Revision date** | 15-Feb-2018 |
| **Version** | 1 |
| **This SDS has been revised in the following section(s)** | New |

**Classification procedure:**
Classification is based on mixture calculation methods based on component data

**Key literature references and sources for data**
www.ChemADVISOR.com
Supplier
National Chemical Inventories
National regulatory information
National occupational exposure limits

**Training advice:**
It is a good industrial hygiene practice to minimize skin contact

*A mark of M-I L.L.C., a Schlumberger Company

# Safety Data Sheet
EMI-2755

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** EMI-2755
**Product code** PID18233
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Hydrocarbon.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away

traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from freezing Avoid extreme temperatures Keep away from direct sunlight. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Use protective gloves made of: Nitrile Neoprene<br>Break through time >480 minutes |

| | |
|---|---|
| | Glove thickness 0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Milky |
| **Odor** | Mild |
| **Color** | White |
| **Odor threshold** | No information available |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 5 - 8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 93 °C / 200 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 17.5 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.03 | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from freezing. Avoid extreme temperatures. Keep away from direct sunlight.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## Environmentally Friendly EXTENDER Express D239

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Environmentally Friendly EXTENDER Express D239
**Product code** D239

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Dry chemical, $CO_2$, water spray or regular foam.

**Extinguishing media which must not be used for safety reasons**
Do not use halon type extinguisher.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Oxides of phosphorus, Carbon oxides (COx), Potassium oxide.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing When using do not eat, drink, smoke, sniff

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from freezing Protect from moisture Keep away from direct sunlight. Incompatible with strong acids and bases Oxidizing agents Heavy metals |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes It is good practice to wear goggles when handling any chemical Tightly fitting safety goggles |
| **Hand protection** | Use protective gloves made of: polyvinyl alcohol or nitrile-butyl rubber gloves<br>Break through time >480 minutes<br>Glove thickness 0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Mild |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.25 - 1.35 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 1000 mPa.s | @ 25 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from freezing. Protect from moisture. Keep away from direct sunlight.

### 10.5 Incompatible materials

Incompatible with strong acids and bases. Oxidizing agents. Heavy metals.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |

| | |
|---|---|
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | No hazard from product as supplied. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by**

**Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## Expanding Cement Additive D174

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Expanding Cement Additive D174
**Product code** D174

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P271 - Use only outdoors or in a well-ventilated area
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P312 - Call a POISON CENTER or doctor/physician if you feel unwell
P362 - Take off contaminated clothing and wash before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium magnesium oxide | 253-425-0 | 37247-91-9 | 90-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Material becomes slippery when wet. Use caution if wet. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture Reacts violently with water Avoid contact with: Strong oxidizing agents Strong acids. Strong bases |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.

**Component Information**

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Tan |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 12.4 | 1385.2 mg/l @ 20°C |
| **Melting / freezing point** | > 450 °C / 842 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |

| | | |
|---|---|---|
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 3.41 | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | Not applicable |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Exothermic reaction with:. Acids. Water.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids. Strong bases. Water.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | May cause irritation of respiratory tract. |
| **Eye contact** | Causes serious eye damage. |
| **Skin contact** | Causes skin irritation. |
| **Ingestion** | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Skin contact. Eye contact. Inhalation. |
| **Routes of entry** | Skin contact. Eye contact. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Category 3 |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Target organ effects** | Respiratory system. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

**UN No. (ICAO/ANAC)** UN1910

**14.2. UN proper shipping name**
Calcium Oxide (regulated only if transported by aircraft)

**14.3 Hazard class(es)**
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** 8

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** III

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No Poison Schedule number allocated
**New Zealand hazard classification** Classified

**HSNO approval no.** HSR002544

**Group number** 6.3A, 8.3A

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Ammonia, Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |

| | |
|---|---|
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Chemical respirator with ammonia and amines cartridge (K/P2, green filter). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7.4 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 93 °C / > 200 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.011 | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 43 - 53 cP | @ 48.8 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **LD50 Oral** | > 2000 mg/kg (rat) (MIXTURE) |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae. IC 50, 72 Hrs, mg/l: >100.

**Toxicity to fish**
This product is not considered toxic to fish. LC 50, 96 Hrs, mg/l >100.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates. EC 50, 48 Hrs, mg/l: >100.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 02-Aug-2015 |
| **Revision date** | 31-May-2019 |
| **Version** | 5 |
| **This SDS has been revised in the following section(s)** | All sections Product Code change No changes with regard to classification have been made. Updated according to GHS/CLP. |

**Key literature references and sources for data**

# Safety Data Sheet
## Fine Cement D189A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Fine Cement D189A
**Product code** D189A

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Sub-Category 1B |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary statements**
P271 - Use only outdoors or in a well-ventilated area
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P272 - Contaminated work clothing should not be allowed out of the workplace
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Portland Cement Clinker

Blast furnace slag

Flue dust from production of clinker

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Portland Cement Clinker | 266-043-4 | 65997-15-1 | 60-100 |

| | | | |
|---|---|---|---|
| Blast furnace slag | 266-002-0 | 65996-69-2 | 60-100 |
| Flue dust from production of clinker | 270-659-9 | 68475-76-3 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with the skin and the eyes. Avoid dust formation. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Pick up and transfer to properly labeled containers. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Provide appropriate exhaust ventilation at places where dust is formed.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Oxidizing agents Strong acids Aluminum Hydrofluoric acid (HF)

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| **Chemical Name** | **Arabic** | **Australia** | **Egypt** |
|---|---|---|---|
| Portland Cement Clinker | 10 mg/m³ TWA | 10 mg/m³ TWA | Not determined |
| Blast furnace slag | Not determined | Not determined | Not determined |
| Flue dust from production of clinker | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**
**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles
**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious

| | |
|---|---|
| | gloves made of: PVC disposable gloves Nitrile Neoprene Rubber gloves Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Dark gray |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 11.0 - 13.5 | |
| **Melting / freezing point** | > 1250 °C / 2282 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | 2.75 - 3.20 g/cm$^3$ | |
| **Bulk density** | 0.9 - 1.5 g/cm$^3$ | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |
| **Explosive properties** | Not applicable | |
| **Oxidizing properties** | Not applicable | |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Avoid dust formation. Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Oxidizing agents. Hydrofluoric acid (HF). Strong acids. Aluminum.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Contact with moist mucous membranes of the respiratory system can cause caustic condition resulting in burns.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. May cause an allergic skin reaction.

**Ingestion** Ingestion may cause irritation to mucous membranes.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Portland Cement Clinker | No data available | No data available | No data available |
| Blast furnace slag | No data available | No data available | No data available |

| | | | |
|---|---|---|---|
| Flue dust from production of clinker | No data available | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled. Risk of cancer depends on duration and level of exposure.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Inhalation. Eye contact.

**Routes of entry** Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Category 3

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Portland Cement Clinker | No information available | No information available | No information available |
| Blast furnace slag | No information available | No information available | No information available |
| Flue dust from production of clinker | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Portland Cement Clinker | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Portland Cement Clinker | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

### 14.5 Environmental hazard
No

**14.6 Special precautions**
None

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Portland Cement Clinker
Schedule 4
Schedule 6
Schedule 5
Blast furnace slag
Schedule 4
Schedule 6
Schedule 5
Flue dust from production of clinker
Schedule 4
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

# Safety Data Sheet
## FLAC* D59 FLUID-LOSS ADDITIVE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLAC* D59 FLUID-LOSS ADDITIVE
**Product code** D059

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material, Water spray mist or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Wear suitable protective equipment. See also section 8. Use personal protective equipment.

Material can create slippery conditions.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Clean up promptly by sweeping or vacuum. Keep in suitable, closed containers for disposal. After cleaning, flush away traces with water. Material becomes slippery when wet. Use caution if wet.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Ensure all equipment is electrically grounded before beginning transfer operations. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded Avoid heat, flames and other sources of ignition. Keep away from direct sunlight. Avoid handling causing generation of dust. Store away from incompatibles, Acids Bases Strong oxidizing agents Hydrofluoric acid (HF) |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Control the source

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use tight-fitting safety goggles, if not available use safety glasses with side-shields |
| **Hand protection** | Repeated or prolonged contact Use protective gloves made of: Neoprene gloves PVC disposable gloves Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) |
| **Skin and body protection** | Clean, body-covering clothing Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before breaks and immediately after handling the product

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules Powder |
| **Odor** | No information available |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 6 - 8.5 | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | 30 g/m³ | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 460 °C / 860 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.38 g/cm3 |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Heat, flames and sparks. Avoid handling causing generation of dust. Keep away from direct sunlight. Take precautionary measures against static charges.

### 10.5 Incompatible materials

Acids. Bases. Hydrofluoric acid (HF). Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Target organ effects** | No information available. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

The product is expected to be slowly biodegradable.

### 12.3 Bioaccumulative potential

No data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

# Safety Data Sheet
## FLOPRO NT* PREMIX

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLOPRO NT* PREMIX
**Product code** SYS00014
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Pre-mix for Drilling Fluid.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

_

**Contains**
Calcium carbonate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 10-30 |

**Comments**
Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium carbonate | Not determined | 10mg/m³TWAinhalable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Calcium carbonate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Calcium carbonate | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Calcium carbonate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Calcium carbonate | Not determined | 10 mg/m³ TWA | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness >=0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | No information available |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 9.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |

| | |
|---|---|
| **Vapor density** | No information available |
| **Specific gravity** | No information available |
| **Bulk density** | No information available |
| **Relative density** | 1.24 sg |
| **Water solubility** | Miscible with water. |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium carbonate | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |

### 12.3 Bioaccumulative potential

No product level data available. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |

| | |
|---|---|
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 04-Aug-2016 |
| **Revision date** | 21-Jun-2017 |
| **Version** | 2 |
| **This SDS has been revised in the following section(s)** | 1, 8, 9, 15, 16 No changes with regard to classification have been made. |

# Safety Data Sheet
## FLOPRO NT*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLOPRO NT*
**Product code** PID3327

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 67 009 214 162
Level 5
10 Telethon Avenue
Perth
WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Sodium chloride

Potassium chloride

Calcium carbonate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium chloride | 231-598-3 | 7647-14-5 | 0-30 |
| Potassium chloride | 231-211-8 | 7447-40-7 | 0-10 |
| Calcium carbonate | 207-439-9 | 471-34-1 | 5-60 |

**Comments**
Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium chloride | Not determined | Not determined | Not determined |
| Potassium chloride | Not determined | Not determined | Not determined |
| Calcium carbonate | Not determined | 10mg/m³TWAinhalable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium chloride | Not determined | Not determined | Not determined |
| Potassium chloride | Not determined | Not determined | Not determined |
| Calcium carbonate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium chloride | 5 mg/m³ MAC | Not determined | Not determined |
| Potassium chloride | 5 mg/m³ MAC | Not determined | Not determined |

| | | | |
|---|---|---|---|
| Calcium carbonate | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium chloride | Not determined | Not determined | 5 mg/m³ MAC |
| Potassium chloride | Not determined | Not determined | 5 mg/m³ MAC |
| Calcium carbonate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium chloride | Not determined | Not determined | Not determined |
| Potassium chloride | Not determined | Not determined | Not determined |
| Calcium carbonate | Not determined | 10 mg/m³ TWA | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Mild |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 5.0 - 9.5 | Cons. solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.0 - 2.2 sg | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |
| Potassium chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |
| Potassium chloride | 750 - 1020 mg/L LC50 Pimephales promelas 96 h = 1060 mg/L LC50 Lepomis macrochirus 96 h | = 2500 mg/L EC50 Desmodesmus subspicatus 72 h | = 83 mg/L EC50 Daphnia magna 48 h = 825 mg/L EC50 Daphnia magna 48 h |
| Calcium carbonate | No information available | No information available | No information available |

## 12.2 Persistence and degradability

No product level data available. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |

## 12.3 Bioaccumulative potential

No product level data available. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium chloride
Schedule 4

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |

# Safety Data Sheet
## FLO-TROL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLO-TROL*
**Product code** PID620

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtration-control.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away

traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Protect from moisture Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, |

respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 7.0 - 8.0 | @1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | |
| **Bulk density** | 30-37 lb/ft3 | |
| **Relative density** | No information available | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 380 °C / 716 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** None known.

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |

| | |
|---|---|
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 24-Sep-2014 |
| **Revision date** | 28-Apr-2017 |
| **Version** | 6 |

**This SDS has been revised in the following section(s)** All sections No changes with regard to classification have been made.

# Safety Data Sheet
## FLO-VIS* L

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLO-VIS* L
**Product code** PID625
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
(2-methoxymethylethoxy)propanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| (2-methoxymethylethoxy)propanol | 252-104-2 | 34590-94-8 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Material becomes extremely slippery when wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Transparent |
| **Odor** | Slight Ether |
| **Color** | Tan - Cream |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 149 °C / > 300 °F | |
| **Flash point** | 99 °C / 211 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 0.4 | @ 25 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition.

**10.5 Incompatible materials**

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation. May be absorbed through the skin in harmful amounts.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| (2-methoxymethylethoxy)propanol | = 5.35 g/kg ( Rat ) | = 9500 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact.

**Routes of entry** Inhalation. Skin absorption.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| (2-methoxymethylethoxy)propanol | > 10000 mg/L LC50 Pimephales promelas 96 h | No information available | = 1919 mg/L LC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| (2-methoxymethylethoxy)propanol | Inherently biodegradable |

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## FLO-VIS* PLUS

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FLO-VIS* PLUS
**Product code** PID627

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Overseas Limited
Sonils Base Luanda Port
6460, Luanda Angola

+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains**
Glyoxal

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Glyoxal | 203-474-9 | 107-22-2 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**

Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Glyoxal | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Glyoxal | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Butyl Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | White - Tan |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 7 | @ 1% sol. |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |

| | |
|---|---|
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition. Protect from moisture. Take precautionary measures against static charges.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Glyoxal | = 200 mg/kg ( Rat ) | = 12700 mg/kg ( Rabbit ) | = 2410 mg/m³, 3-4 hrs |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** Contains an known or suspected mutagen.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Glyoxal | 460 - 680 mg/L LC50 Leuciscus idus 96 h = 215 mg/L LC50 Pimephales promelas 96 h | <= 348.59 mg/L EC50 Pseudokirchneriella subcapitata 96 h > 500 mg/L EC50 Desmodesmus subspicatus 96 h > 500 mg/L EC50 Desmodesmus subspicatus 72 h | = 404 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

The product contains substances which are not expected to be biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Glyoxal | Readily biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Glyoxal | Not likely to bioaccumulate - Bioconcentration factor (BCF) 2.155 |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Glyoxal | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Glyoxal | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## Foamed Cement Stabilizer D139

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Foamed Cement Stabilizer D139
**Product code** D139
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Specific target organ toxicity - Single exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Flammable Liquids | Category 3 |

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H302 - Harmful if swallowed
H371 - May cause damage to organs
H226 - Flammable liquid and vapor

**Precautionary statements**
P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P270 - Do not eat, drink or smoke when using this product
P309 + P311 - IF exposed or if you feel unwell: Call a POISON CENTER or doctor/physician
P370 + P378 - In case of fire: Use dry sodium carbonate to extinguish
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P233 - Keep container tightly closed
P240 - Ground/bond container and receiving equipment
P241 - Use explosion-proof electrical/ ventilating/ lighting/ equipment
P242 - Use only non-sparking tools
P243 - Take precautionary measures against static discharge
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing and eye/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P330 - Rinse mouth
P403 + P235 - Store in a well-ventilated place. Keep cool

**Contains**
Methanol

2-(2-Butoxyethoxy)ethanol

Ethylene Glycol

**2.3 Other hazards**

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT)

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Methanol | 200-659-6 | 67-56-1 | 1-5 |
| 2-(2-Butoxyethoxy)ethanol | 203-961-6 | 112-34-5 | 0.1-1.0 |
| Ethylene Glycol | 203-473-3 | 107-21-1 | 0.1-1.0 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult give oxygen. Get immediate medical attention.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention.

**Skin contact** Wash skin thoroughly with soap and water. Remove contaminated clothing and launder before reuse. Get medical attention if irritation persists.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists.

### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Ethanol may be administered in an IV solution to counteract the adverse effects of methanol ingestion. Fomepizole (Antizol) may also be used for treatment of methanol poisoning.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
FLAMMABLE.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Sulphur oxides, Ammonia, Harmful organic

chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG**
•3Y

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition - No smoking. Evacuate and ventilate the area. For personal protection see section 8.

### 6.2 Environmental precautions

Prevent further leakage or spillage. Do not allow spilled material to enter sewers, storm drains or surface waters.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). After cleaning, flush away traces with water. Ground and bond containers when transferring material. Take precautionary measures against static discharges.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Keep away from heat, sparks and open flame. No smoking. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists. Wash thoroughly after handling.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing. When using do not eat, drink, smoke, sniff

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Keep away from heat, sparks, and flame. Ensure adequate ventilation. |
| **Storage precautions** | Keep away from open flames, hot surfaces and sources of ignition. Keep containers tightly closed in a dry, cool and well-ventilated place. Follow safe warehousing practices regarding |

palletizing, banding, shrink-wrapping and/or stacking.

**Storage class** Flammable liquid storage.

**Packaging materials** Steel or high density polyethylene (HDPE) container approved for flammables

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 resistant to the solvent(s) in use<br>Repeated or prolonged contact Nitrile or Neoprene™<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No special protective equipment required. In case of insufficient ventilation: Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing and gloves Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Keep airborne concentrations below exposure limits Avoid contact with skin, eyes and clothing |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Transparent |
| **Odor** | Sweet Alcohol |
| **Color** | Clear Pale yellow |
| **Odor threshold** | No information available |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7.6 | |
| **pH @ dilution** | | |
| **Melting / freezing point** | < -29 °C / -20 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | 54 °C / 129 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |

| | | |
|---|---|---|
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 8.1 kPa | @ 38 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.1 | @ 20°C. |
| **Water solubility** | Soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | ~5 |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Flammable liquid and vapor.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid contact with heat, sparks, open flame, and static discharge.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Vapors inhaled in high concentration have a narcotic effect on the central nervous system.

**Eye contact** Contact with eyes may cause irritation. May cause pain, redness, discomfort.

**Skin contact** Components of the product may be absorbed into the body through the skin. Repeated exposure may cause skin dryness or cracking.

**Ingestion** Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. May cause adverse cardiac effects, blood disturbances, and metabolic acidosis. Intoxication can lead to a coma with metabolic acidosis that may be fatal.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Methanol | = 2528 mg/kg ( Rat ) | = 15800 mg/kg ( Rabbit ) | = 128.2 mg/L ( Rat ) 4 h |
| 2-(2-Butoxyethoxy)ethanol | = 5660 mg/kg ( Rat ) | = 2700 mg/kg ( Rabbit ) | No data available |
| Ethylene Glycol | = 7712 mg/kg ( Rat ) | > 3500 mg/kg (Mouse) | > 2.5 mg/l (Rat) 6 hour |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Ingestion. Skin contact. Eye contact.

**Routes of entry** Skin absorption. Eye contact. Ingestion. Inhalation.

**Specific target organ toxicity - Single exposure** Category 2

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Optic nerve (nervus opticus). Central nervous system.

**Aspiration hazard** Not classified.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Methanol | = 15400 mg/L (LC50; Lepomis macrochirus) | =22000 mg/l 96 h | >10000 mg/l 48 h |
| 2-(2-Butoxyethoxy)ethanol | = 1300 mg/L LC50 Lepomis macrochirus 96 h | > 100 mg/L EC50 Desmodesmus subspicatus 96 h | = 2850 mg/L EC50 Daphnia magna 24 h > 100 mg/L EC50 Daphnia magna 48 h |
| Ethylene Glycol | 40000 - 60000 mg/L LC50 (Pimephales promelas) = 96 h<br><br>40761 mg/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>27540 mg/L LC50 (Lepomis macrochirus) = 96 h<br><br>14 - 18 mL/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>16000 mg/L LC50 (Poecilia reticulata) = 96 h<br><br>41000 mg/L LC50 (Oncorhynchus mykiss) = 96 h | 6500 - 13000 mg/L EC50 (Pseudokirchneriella subcapitata) = 96 h | 46300 mg/L EC50 (Daphnia magna) = 48 h |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Methanol | Readily biodegradable |
| 2-(2-Butoxyethoxy)ethanol | Readily biodegradable |
| Ethylene Glycol | Readily biodegradable |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Methanol | Does not bioaccumulate |
| 2-(2-Butoxyethoxy)ethanol | Not likely to bioaccumulate |
| Ethylene Glycol | log Pow -1.36(Calculated) Not likely to bioaccumulate |

## 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

| Chemical Name | Mobility |
|---|---|

| | |
|---|---|
| Methanol | Easily soluble |
| 2-(2-Butoxyethoxy)ethanol | Completely soluble |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Methanol | Adsorbs on soil Test Koc: 1 Notes: Calculated data (in silico) |
| 2-(2-Butoxyethoxy)ethanol | Henry's Law Constant H = 15.2E-9 atm.m3/mol at 25C (estimated) |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues / unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal. Empty containers may contain flammable or explosive vapors. Dispose of in accordance with local regulations.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN1993
**UN No. (IMDG/ANTAQ)** UN1993
**UN No. (ICAO/ANAC)** UN1993

### 14.2. UN proper shipping name
FLAMMABLE LIQUID, N.O.S. (contains methanol),

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** 3
**IMDG/ANTAQ Hazard class** 3
**ICAO/ANAC Hazard class/division** 3

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** III
**IMDG/ANTAQ Packing group** III
**ICAO/ANAC Packing group** III

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 30 |
| **EmS (IMDG)** | F-E, S-E |
| **Emergency Action Code (EAC)** | 3Y |
| **Tunnel restriction code** | (D/E) |
| **Hazchem code ADG** | •3Y |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Methanol
Schedule 6
Schedule 5
2-(2-Butoxyethoxy)ethanol
Schedule 5
Ethylene Glycol
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Ingrid Helland |
| **Supersedes date** | 01-Jun-2011 |
| **Revision date** | 05-Sep-2017 |
| **Version** | 3 |
| **This SDS has been revised in the following section(s)** | This SDS has been made in a new database and therefore a new layout. There have been changes with regard to classification. Updated according to GHS/CLP. |

# Safety Data Sheet
## FORM-A-BLOK*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FORM-A-BLOK*
**Product code** PID16796

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd / ALPINE
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Wollastonite (Ca(SiO3))

Cellulose

Kaolin

Polyvinyl alcohol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Wollastonite (Ca(SiO3)) | 237-772-5 | 13983-17-0 | 30-60 |
| Cellulose | 232-674-9 | 9004-34-6 | 10-30 |
| Kaolin | 310-194-1 | 1332-58-7 | 5-10 |
| Polyvinyl alcohol | polymer | 9002-89-5 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

| | |
|---|---|
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Suspended dust may present a dust explosion hazard Protect from moisture Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Gray |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Wollastonite (Ca(SiO3)) | No data available | No data available | No data available |

| | | | |
|---|---|---|---|
| Cellulose | > 5 g/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |
| Kaolin | No data available | No data available | No data available |
| Polyvinyl alcohol | = 23854 mg/kg ( Rat ) > 20 g/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Wollastonite (Ca(SiO3)) | No information available | No information available | No information available |
| Cellulose | No information available | No information available | No information available |
| Kaolin | No information available | No information available | No information available |
| Polyvinyl alcohol | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## FORM-A-BLOK* AS

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FORM-A-BLOK* AS
**Product code** PID20006

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Magnesium oxide, Sulphur oxides, Silicon oxide.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Avoid dust formation. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning,

flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong acids Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No protective equipment is needed under normal use conditions In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 |

(European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid powder |
| **Appearance** | Opaque |
| **Odor** | Slight Aromatic |
| **Color** | Gray - White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.5 - 2.6 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available

| | |
|---|---|
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Not known.

### 10.4 Conditions to avoid

Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong acids. Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**

No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Magnesium oxide

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Magnesium oxide | 215-171-9 | 1309-48-4 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
The product reacts with water and will generate heat.

**Hazardous combustion products**
Fire or high temperatures create: Magnesium oxide, Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Reacts with water.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with water and moist air - product is hygroscopic. Reacts with water Avoid contact with: Acids Oxidizing agents Interhalogens. Phosphorus pentachloride

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Magnesium oxide | 10 mg/m³ TWA | 10mg/m³TWAfume | 10 mg/m³ TWA |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Magnesium oxide | Not determined | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Magnesium oxide | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Magnesium oxide | 10 mg/m³ TWA | 15 mg/m³ TWA | 4 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Magnesium oxide | Not determined | 5 mg/m³ TWA<br>10 mg/m³ STEL | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may

be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Neoprene Nitrile PVC Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 10.5 | @ 1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.0 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |

| | |
|---|---|
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | Not determined |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Avoid contact with water and moist air - product is hygroscopic.

**10.5 Incompatible materials**

Water. Acids. Oxidizing agents. Interhalogens. Phosphorus pentachloride.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

**Unknown acute toxicity** Not applicable.

| | |
|---|---|
| **LD50 Oral** | 4287 mg/kg (rat) estimated |
| **LD50 Dermal** | 14290 mg/kg (rat) estimated |
| **LC50 Inhalation** | 25110 mg/l (mist) (dust) mg/m³ estimated |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Magnesium oxide | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Magnesium oxide | No information available | No information available | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Magnesium oxide | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Magnesium oxide | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Slightly soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Magnesium oxide | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Magnesium oxide | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |

| | |
|---|---|
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## FORM-A-SET* RET

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FORM-A-SET* RET
**Product code** PID650
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |

| | |
|---|---|
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 6.95 - 7.05 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 105 °C / 221 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.31 - 1.34 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

# Safety Data Sheet
## FybeCarb*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** FybeCarb*
**Product code** PID20057
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Calcium carbonate

Cellulose

Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 60-100 |
| Cellulose | 232-674-9 | 9004-34-6 | 1-5 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth

to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Ammonia, Silicon oxide.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Do not breathe dust. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture
Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium carbonate | Not determined | 10mg/m$^3$TWAinhalable dust | Not determined |
| Cellulose | 10 mg/m$^3$ TWA | 10mg/m$^3$TWAinhalable dust | Not determined |

| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required. Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against powders and dusts
Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear gloves according to EN 374 to protect against skin effects from powders
Use protective gloves made of: Nitrile Neoprene
Frequent change is advisable

**Respiratory protection**
No personal respiratory protective equipment normally required Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more

information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules - Fibers |
| **Odor** | Odorless |
| **Color** | White - Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.55 - 2.70 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Not known.

### 10.4 Conditions to avoid

Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust contact with the eyes can lead to mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Cellulose | > 5 g/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

| | |
|---|---|
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium carbonate | No information available | No information available | No information available |
| Cellulose | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## GASBLOK* Gas Migration Control Additive D620

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** GASBLOK* Gas Migration Control Additive D620
**Product code** D620

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin sensitization | Category 1A |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H317 - May cause an allergic skin reaction

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
Propane-1,2-diol

2-methyl-2h-isothiazol-3-one

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Propane-1,2-diol | 200-338-0 | 57-55-6 | 1-5 |
| 2-methyl-2h-isothiazol-3-one | 220-239-6 | 2682-20-4 | >0.0015 - <0.01 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

| | |
|---|---|
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if symptoms occur. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use water spray, fog, Carbon dioxide ($CO_2$), foam or dry chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
When heated strongly or burned, oxides of carbon and harmful organic chemical fumes are released

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep at (23°F - 122°F) -5°C - 50°C Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong oxidizing agents Strong acids Strong bases

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Neoprene Rubber Nitrile
Break through time >480 minutes
Glove thickness >0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Opaque |
| **Odor** | Characteristic |
| **Color** | Milky white |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 8.2 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 98 °C / 208 °F | |
| **Flash point** | > 98 °C / > 208 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 23.28 hPa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.03 | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 15.7 mPa s | @ 23 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep at (23°F - 122°F) -5°C - 50°C. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids. Strong bases.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** May cause an allergic skin reaction.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Propane-1,2-diol | = 20 g/kg ( Rat ) | = 20800 mg/kg ( Rabbit ) | No data available |
| 2-methyl-2h-isothiazol-3-one | 232 - 249 mg/kg ( Rat ) = 120 mg/kg ( Rat ) | = 200 mg/kg ( Rabbit ) | = 0.11 mg/L ( Rat ) 4 h |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Inhalation.

**Routes of entry** Skin contact. Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Propane-1,2-diol | = 710 mg/L LC50 Pimephales promelas 96 h = 51400 mg/L LC50 Pimephales promelas 96 h 41 - 47 mL/L LC50 Oncorhynchus mykiss 96 h = 51600 mg/L LC50 Oncorhynchus mykiss 96 h | = 19000 mg/L EC50 Pseudokirchneriella subcapitata 96 h | > 10000 mg/L EC50 Daphnia magna 24 h > 1000 mg/L EC50 Daphnia magna 48 h |
| 2-methyl-2h-isothiazol-3-one | No information available | No information available | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Propane-1,2-diol | Readily biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Propane-1,2-diol | Not likely to bioaccumulate log Kow =-1.07 |

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-methyl-2h-isothiazol-3-one
Schedule 6

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | This product contains chemical(s) which is/are not listed on DSL but is/are listed on the NDSL. |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## GASBLOK* LT D500

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** GASBLOK* LT D500
**Product code** D500

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Gas control agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin sensitization | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H317 - May cause an allergic skin reaction

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P272 - Contaminated work clothing should not be allowed out of the workplace
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol

Methanol (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

Prevent the formation of aerosols.

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | 225-208-0 | 4719-04-4 | 0.1-<1 |
| Methanol (impurity) | 200-659-6 | 67-56-1 | 0.1-<1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention. |
| **Eye Contact** | Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. If spilled, take caution, as material can cause surfaces to become very slippery. Persons susceptible to allergic reactions should not handle this product. Prevent the formation of vapors, mists and aerosols.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Keep away from direct sunlight. Protect from freezing Keep at 41 - 131°F / 5 - 55°C |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment

**Personal protective equipment**

**Eye protection** Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Impervious gloves made of: Nitrile Neoprene Butyl rubber
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. If there are conditions in which this triazine containing product produces a vapor, a chemical

| | |
|---|---|
| | respirator with A1 + Formaldehyde and P3 particulate pre-filter combination would be required. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Yellow |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7 - 9.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -5 °C / 23 °F | |
| **Boiling point/range** | > 100 °C / 212 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | 2.3 kPa | |
| **Relative Vapor Density** | >1 (air = 1) | |
| **Specific gravity** | 1 | @ 20 °C |
| **Bulk density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | <= 2000 mPa s | @ 23 °C |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |

**Molecular weight** No information available
**VOC content(%)** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition. Keep away from direct sunlight. Protect from freezing. Keep at 41 - 131°F / 5 - 55°C.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** Methanol is more toxic to humans and primates than to most experimental animals, due to differences in how it is metabolized. Non-primates do not appear to experience the acidosis or vision effects observed in humans and primates.

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** May cause an allergic skin reaction.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | 1000 mg/kg (Rat) (BASF AG, 1997) | > 4000 mg/kg (Rat) (BASF AG,1997) | 0.371 mg/L (Aerosol) (Rat) (Triazine Taskforce, 2011) |
| Methanol (impurity) | = 6200 mg/kg ( Rat ) | = 15840 mg/kg ( Rabbit ) = 15800 mg/kg ( Rabbit ) | = 22500 ppm ( Rat ) 8 h = 64000 ppm ( Rat ) 4 h |

| | |
|---|---|
| **Sensitization** | May cause allergic skin reaction. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Inhalation. Ingestion. |
| **Routes of entry** | Skin absorption. Inhalation. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | > 168 mg/l LC50 96h Sheepshead Minnow (SLB data) | 1.624 mg/l EC50 72h Skeletonema (SLB data) | 99.68 mg/l KC50 48h Acartia (SLB data) |
| Methanol (impurity) | 13500 - 17600 mg/L LC50 Lepomis macrochirus 96 h 18 - 20 mL/L LC50 Oncorhynchus mykiss 96 h 19500 - 20700 mg/L LC50 Oncorhynchus mykiss 96 h > 100 mg/L LC50 Pimephales promelas 96 h = 28200 mg/L LC50 Pimephales promelas 96 h | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available.

| Chemical Name | Persistence and degradability |
|---|---|

| | |
|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Readily biodegradable |
| Methanol (impurity) | Readily biodegradable |

### 12.3 Bioaccumulative potential

No product level data available.

| Chemical Name | Bioaccumulation |
|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Not likely to bioaccumulate log Kow <=3 |
| Methanol (impurity) | Not likely to bioaccumulate Bioconcentration factor (BCF) 1-4.5 |

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Soluble in water |
| Methanol (impurity) | Soluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Study does not need to be conducted because the substance is readily biodegradable |
| Methanol (impurity) | Not expected to adsorb on soil |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Methanol (impurity)
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies Volume restriction. |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## Gelling Agent U28 - 30% Active

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Gelling Agent U28 - 30% Active
**Product code** U028

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a gelling agent in oilfield applications

**Uses advised against** No information available

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1A |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves and eye/face protection
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

**Supplementary precautionary statements**
P234 - Keep only in original container
P264 - Wash face, hands and any exposed skin thoroughly after handling
P363 - Wash contaminated clothing before reuse
P310 - Immediately call a POISON CENTER or doctor/physician
P390 - Absorb spillage to prevent material damage
P220 - Keep/Store away from combustible materials

Sodium hydroxide

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium hydroxide | 215-185-5 | 1310-73-2 | 30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Do NOT induce vomiting. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person. Immediate medical attention is required. |
| **Skin contact** | Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician. |
| **Eye Contact** | Get immediate medical attention. Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas.

**Hazardous combustion products**
Fire or high temperatures create: Heating or fire can release toxic gas.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2R

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Store between 15-25 deg. C (59-77 deg. F) Avoid extreme temperatures Store away from incompatibles, Strong acids Halogenated compounds Metals |
| **Storage class** | Corrosive storage. |
| **Packaging materials** | High density polyethylene (HDPE) drum or can |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.

**, Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium hydroxide | Not determined | 2 mg/m³ Peak | 2 mg/m³ Ceiling |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ Ceiling | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium hydroxide | Not determined | 2.0 mg/m³ STEL | 2 mg/m³ Ceiling |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ TWA | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium hydroxide | 2 mg/m³ TWA | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles / Face-shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Wear protective nitrile rubber gloves
Break through time >480 minutes
Glove thickness 0.35-0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 13.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 8 °C / 46 °F | |
| **Boiling point/range** | 115 °C / 239 °F | |
| **Flash point** | | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 | @20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 75 mPa s | @ 20 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid extreme temperatures. Store at ambient conditions.

### 10.5 Incompatible materials

Strong acids. Halogenated compounds. Metals. Gives off hydrogen by reaction with metals.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** Causes severe skin burns and eye damage.

**Inhalation** Inhalation of corrosive fumes/gases may cause coughing, choking, headache, dizziness, and weakness for several hours. Pulmonary edema may occur with tightness in the chest, shortness of breath, bluish skin, decreased blood pressure, and increased heart rate.

**Eye contact** Causes burns. Causes serious eye damage.

**Skin contact** Corrosive. Causes burns.

**Ingestion** Can burn mouth, throat, and stomach.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium hydroxide | No data available | 1350 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium hydroxide | = 45.4 mg/L LC50 Oncorhynchus mykiss 96 h | No information available | No information available |

### 12.2 Persistence and degradability

This product is expected to be readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of as special waste in compliance with local and national regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN1824 |
| **UN No. (IMDG/ANTAQ)** | UN1824 |
| **UN No. (ICAO/ANAC)** | UN1824 |

**14.2. UN proper shipping name**
SODIUM HYDROXIDE SOLUTION,

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | PG II |
| **IMDG/ANTAQ Packing group** | PG II |
| **ICAO/ANAC Packing group** | PG II |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |

| | |
|---|---|
| **Emergency Action Code (EAC)** | 2R |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2R |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium hydroxide
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|

# Safety Data Sheet
GELPLEX*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** GELPLEX*
**Product code** PID11404

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

Silica - crystalline, tridymite (impurity)

Gypsum (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 5-10 |
| Silica - crystalline, tridymite (impurity) | 239-487-1 | 15468-32-3 | 1-5 |
| Gypsum (impurity) | 603-783-2 | 13397-24-5 | 1-5 |

**3.2 Mixtures**

Not applicable

**Comments**
Naturally occuring mineral.

The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

| | |
|---|---|
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| Silica - crystalline, tridymite (impurity) | 0.05 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| Gypsum (impurity) | Not determined | 10mg/m³TWAinhalable dust | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

#### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Light tan |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 8-10 | @ 6% slurry |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.3 - 2.65 | |
| **Bulk density** | 769-833 kg/m³ / 48-52 lb/ft³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | No data available | No data available | No data available |
| Silica - crystalline, tridymite (impurity) | No data available | No data available | No data available |
| Gypsum (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |
| Silica - crystalline, tridymite (impurity) | No information available | No information available | No information available |
| Gypsum (impurity) | > 1970 mg/L LC50 Pimephales promelas 96 h = 2980 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 3200 mg/L EC50 Nitscheria linearis 120 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## GLYDRIL* MC

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** GLYDRIL* MC
**Product code** PID729

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale control agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 500-012-0 | 9004-77-7 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Take precautionary measures against static discharges. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| | | | |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Butyl Neoprene Nitrile
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** No information available
**Odor** Mild
**Color** Straw Yellow - Opaque Brown

**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | 7 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -35 °C / -31 °F | |
| **Boiling point/range** | 270 - 355 °C / 518 - 671 °F | |
| **Flash point** | 110 °C / 230 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 0.0033 hPa | @ 25 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.012 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 7.3 cSt | @ 40 °C |
| **Dynamic viscosity** | 9.2 - 9.4 mPa s | @ 20 °C |
| **log Pow** | Not determined | |

**Explosive properties** Not applicable
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition.

**10.5 Incompatible materials**

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. May cause central nervous system depression.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 2630 mg/kg (Rat) | 3540 mg/kg bw (Rabbit) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** None known.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | LC50 >1800 mg/l, 96h Scophthalmus maximus OECD 203 | EC50: 2490 mg/l, 72h Selenastrum capricornutum OECD 201 | EC50 >3200 mg/l, 48h Daphnia magna OECD 202 |

## 12.2 Persistence and degradability

Readily biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | OECD 301D 76% |

## 12.3 Bioaccumulative potential

Does not bioaccumulate.

| Chemical Name | Bioaccumulation |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | log Kow 0.44@20°C |

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Z. Proper Shipping Name: Poly(2-8)alkylene glycol monoalkyl(C1-C6) ether
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated
**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR003673

**Group number** 8.3A

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## GLYDRIL* LC

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** GLYDRIL* LC
**Product code** PID727

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale control agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Repeated or prolonged contact Neoprene Nitrile rubber PVC<br>Break through time >30 minutes<br>Glove thickness 0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |

| | |
|---|---|
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Characteristic / Slight |
| **Color** | Colorless - Pale yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5-7 | 50 gl/ water |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | 155-165 °C / 311-329 °F | Closed cup |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.98 - 1.1 sg | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 15.5 - 21.0 cSt | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **LD50 Oral** | > 2000 mg/kg (rat) By analogy to product with similar composition |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Water

Water

Potassium Chloride

Calcium carbonate

Barite

Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy

Starch

Polyanionic cellulose

Xanthan Gum

Crystalline silica (impurity)

Sodium hydroxide

Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine

Sodium carbonate

Glyoxal

2-aminoethanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 0-30 |
| Barite | 236-664-5 | 13462-86-7 | 5-10 |

| | | | |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 500-012-0 | 9004-77-7 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**

None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply. No biological limit allocated

**Component Information**

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Mild |
| **Color** | Light gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 8.0 - 9.5 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 - 1.4 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Water | > 90 mL/kg ( Rat ) | No data available | No data available |
| Water | > 90 mL/kg ( Rat ) | No data available | No data available |
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 2630 mg/kg (Rat) | 3540 mg/kg bw (Rabbit) | No data available |
| Starch | No data available | No data available | No data available |
| Polyanionic cellulose | = 27000 mg/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |
| Xanthan Gum | No data available | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |
| Sodium hydroxide | = 325 mg/kg ( Rat ) | 1350 mg/kg ( Rabbit ) | No data available |
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | 1000 mg/kg (Rat) (BASF AG, 1997) | > 4000 mg/kg (Rat) (BASF AG,1997) | 0.371 mg/L (Aerosol) (Rat) (Triazine Taskforce, 2011) |
| Sodium carbonate | = 4090 mg/kg ( Rat ) | No data available | No data available |
| Glyoxal | = 200 mg/kg ( Rat ) | = 12700 mg/kg ( Rabbit ) | = 2410 mg/m³, 3-4 hrs |
| 2-aminoethanol | = 1720 mg/kg ( Rat ) | = 1000 mg/kg ( Rabbit ) = 1 mL/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Water | No information available | No information available | No information available |
| Water | No information available | No information available | No information available |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Barite | Inorganic compound |

| | |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | OECD 301D 76% |
| Crystalline silica (impurity) | Inorganic compound |
| Sodium hydroxide | Inorganic compound |
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Readily biodegradable |
| Glyoxal | Readily biodegradable |
| 2-aminoethanol | Readily biodegradable |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |
| Barite | Product/Substance is inorganic |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | log Kow 0.44@20°C |
| Crystalline silica (impurity) | Product/Substance is inorganic |
| Sodium hydroxide | Product/Substance is inorganic |
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Not likely to bioaccumulate log Kow <=3 |
| Glyoxal | Not likely to bioaccumulate - Bioconcentration factor (BCF) 2.155 |
| 2-aminoethanol | Product does not bioaccumulate due to reaction with water |

## 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |
| Barite | Insoluble in water |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Soluble in water |
| Crystalline silica (impurity) | Insoluble in water |
| Sodium hydroxide | Soluble in water |
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Soluble in water |
| Glyoxal | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |
| Barite | Not expected to adsorb on soil |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |
| Sodium hydroxide | Not expected to adsorb on soil |
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Study does not need to be conducted because the substance is readily biodegradable |
| Glyoxal | Not expected to adsorb on soil |
| 2-aminoethanol | Study does not need to be conducted because the substance is readily biodegradable |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium Chloride
Schedule 4
Sodium hydroxide
Schedule 6
Schedule 5
Sodium carbonate
Schedule 6
Schedule 5
2-aminoethanol
Schedule 4
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 07-Jul-2015 |
| **Revision date** | 13-Jun-2019 |
| **Version** | 7 |
| **This SDS has been revised in the following section(s)** | All sections Product Code change No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## Granulated Salt D44

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Granulated Salt D44
**Product code** D044

Molecular weight 58.44

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Clay control agent in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium chloride

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium chloride | 231-598-3 | 7647-14-5 | 60-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Hydrogen chloride, Heating or fire can release toxic gas.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid excessive heat for prolonged periods of time. Avoid contact with: Acids Alkali metals Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Rubber Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Half mask with a

| | |
|---|---|
| | particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 6 - 8 | @ 5 g/l |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 801 °C / 1474 °F | |
| **Boiling point/range** | 1413 °C / 2575 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.0-2.3 g/cm3 | |
| **Bulk density** | 1050 - 1300 kg/m$^3$ | |
| **Relative density** | 2.16 g/cm3 | @ 20°C. |
| **Water solubility** | 360 g/l | @ 20 °C |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | 58.44 |

| | |
|---|---|
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid excessive heat for prolonged periods of time. Protect from moisture.

### 10.5 Incompatible materials

Acids. Alkali metals. Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. Eye contact. Skin contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## G-SEAL* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** G-SEAL* (All Grades)
**Product code** PID686

**Synonyms** G-SEAL* FINE

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Plugging agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Graphite

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Graphite | 231-955-3 | 7782-42-5 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Take precautionary measures against static discharges. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Suspended dust may present a dust explosion hazard Protect from moisture Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Graphite | 2 mg/m³ TWA | 3mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Graphite | Not determined | 2 mg/m³ TWA | 2 mg/m³ OEL<br>0.5 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Graphite | Not determined | Not determined | 3 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Graphite | 2 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Graphite | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may

be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. No personal respiratory protective equipment normally required |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Gray - Black |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 3652 °C / 6605.6 °F | |
| **Boiling point/range** | 4827 °C / 8720.6 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.19 - 2.26 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |

| | |
|---|---|
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | > 500 °C / 932 °F |
| **Decomposition temperature** | > 400 °C / 752°F |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Keep away from open flames, hot surfaces and sources of ignition. Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Graphite | > 2000 mg/kg Rat OECD 423 | No data available | > 2000 mg/m³ Rat OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Graphite | LC50 > 100 mg/l, 96h OECD 203 | EC50 > 100 mg/l 72h OECD 201 | EC50 > 100 mg/l 48h202 |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 11-Dec-2018 |
| **Revision date** | 24-Sep-2019 |
| **Version** | 10 |
| **This SDS has been revised in the following section(s)** | 1, 15, 16 No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## G-SEAL* PLUS COARSE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** G-SEAL* PLUS COARSE
**Product code** PID16789

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Plugging agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Graphite

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Graphite | Listed | Proprietary | 10-30 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 0.1 - 1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very

slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Oxidizing agents Acids Alkalis

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Graphite | 2 mg/m³ TWA | 3mg/m³TWArespirable dust | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| | | | |
|---|---|---|---|
| Graphite | Not determined | 2 mg/m³ TWA | 2 mg/m³ OEL<br>0.5 mg/m³ OEL |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Graphite | Not determined | Not determined | 3 mg/m³ TWA |
| Crystalline silica (impurity) | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Graphite | 2 mg/m³ TWA | Not determined | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Graphite | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** — Solid
**Appearance** — Powder Dust

| | |
|---|---|
| **Odor** | Odorless |
| **Color** | Gray - Black |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | n/a | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.9 - 2.1 sg | @ 20 °C |
| **Bulk density** | 17.5245 lbs/gal | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Oxidizing agents. Acids. Alkalis.

### 10.6 Hazardous decomposition products

See Section 5.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Graphite | No data available | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Graphite | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**

See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Graphite

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
May cause slight irritation
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Graphite | 231-955-3 | 7782-42-5 | 5-10 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | < 1 |

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Suspended dust may present a dust explosion hazard Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** — Solid
**Appearance** — Powder
**Odor** — Odorless
**Color** — Gray - Black
**Odor threshold** — Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6 - 8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 3652 °C / 6605.6 °F | |
| **Boiling point/range** | 4827 °C / 8720.6 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | Not applicable |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.9 - 2.1 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | > 500 °C / >932 °F | |
| **Decomposition temperature** | > 400°C / >752°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Avoid dust formation. Heat, flames and sparks.

**10.5 Incompatible materials**

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Graphite | No data available | No data available | No data available |
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Graphite | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 19-Feb-2016 |
| **Revision date** | 08-Jul-2018 |
| **Version** | 5 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. Updated according to GHS/CLP. |

HALLIBURTON

# SAFETY DATA SHEET

# STARCIDE®

**Revision Date:** 15-Nov-2018 **Revision Number:** 7

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** STARCIDE®

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HB003388

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Bactericide

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute Oral Toxicity | Category 4 - H302 |
| Acute inhalation toxicity - vapor | Category 4 - H332 |
| Acute inhalation toxicity - dust/mist | Category 4 - H332 |
| Skin Corrosion/Irritation | Category 1 - H314 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Skin Sensitization | Category 1 - H317 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 2 - H373 |
| Acute Aquatic Toxicity | Category 2 - H401 |
| Chronic Aquatic Toxicity | Category 3 - H412 |

- H251

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H302 - Harmful if swallowed
H314 - Causes severe skin burns and eye damage
H332 - Harmful if inhaled
H317 - May cause an allergic skin reaction
H373 - May cause damage to organs through prolonged or repeated exposure
H401 - Toxic to aquatic life
H412 - Harmful to aquatic life with long lasting effects

**Precautionary Statements**

**Prevention**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection

**Response**
P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P363 - Wash contaminated clothing before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P391 - Collect spillage

**Storage**
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|

| | | | |
|---|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | 60 - 100% | Acute Tox. 4 (H302)<br>Acute Tox. 4 (H332)<br>Skin Corr. 1C (H314)<br>Eye Corr. 1 (H318)<br>Skin Sens. 1 (H317)<br>STOT RE 2 (H373)<br>Aquatic Acute 2 (H401)<br>Aquatic Chronic 3 (H412) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, move victim to fresh air and seek medical attention.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 30 minutes and remove contaminated clothing, shoes and leather goods immediately. Get medical attention immediately.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. Harmful if swallowed. Harmful if inhaled. May cause damage to organs through prolonged or repeated exposure.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation. Evacuate all persons from the area.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas. Consult local authorities.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

### 7.1. Precautions for safe handling

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Avoid breathing mist. Ensure adequate ventilation. Do NOT consume food, drink, or tobacco in contaminated areas. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**

Store in original container. Store away from oxidizers. Store away from acids. Store in a cool well ventilated area. Keep container closed when not in use. Product has a shelf life of 12 months. Keep Away From Food

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

### Control parameters - exposure standards, biological monitoring

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Not applicable | Not applicable |

### Appropriate engineering controls

**Engineering Controls** Use in a well ventilated area.

### Personal protective equipment (PPE)

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.
Organic vapor respirator.

**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. Butyl rubber gloves. (>= 0.7 mm thickness)
This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not flush into surface water or sanitary sewer system Avoid subsoil penetration

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Colorless to slight yellow |
| **Odor:** | Sweet amine | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 10 (0.15%) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | < -35 °C / -31 °F |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 204 °C / 399.2 °F |
| **Flash Point** | > 100 °C / > 212 °F (PMCC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | 0.014 hPa |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.049 - 1.069 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | benzene heptane |
| **Partition coefficient: n-octanol/water** | 1.89 |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | 21 mPas @ 20°C |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 186.25 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers. Strong acids. Reducing agents.
**10.6. Hazardous decomposition products**
Formaldehyde. Oxides of nitrogen. Oxides of sulfur.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. Harmful if swallowed. Harmful if inhaled. May cause damage to organs through prolonged or repeated exposure.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | 900 mg/kg (Rat) | - | 2 mg/L (Rat, 4 hr, aerosol) |

**Immediate, delayed and chronic health effects from exposure**

| | |
|---|---|
| **Inhalation** | Harmful if inhaled. Causes severe respiratory irritation. |
| **Eye Contact** | Causes eye burns |
| **Skin Contact** | Causes severe burns. May cause an allergic skin reaction. |

**Ingestion** Harmful if swallowed. Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** Prolonged or repeated exposure may cause damage to the upper respiratory tract. Formaldehyde, a suspected carcinogen, is released when heated.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Eye ailments.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Causes severe irritation and or burns (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Causes severe irritation and or burns (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | May cause sensitization by skin contact (guinea pig) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | In vivo tests did not show mutagenic effects. In vitro tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Did not show carcinogenic effects in animal experiments |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Causes damage to organs through prolonged or repeated exposure: Gastrointestinal tract (GI) Respiratory system |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**
**Product Ecotoxicity Data**
Product is not classified as hazardous to the environment.

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to | Toxicity to Invertebrates |
|---|---|---|---|---|---|

| | | | | Microorganisms | |
|---|---|---|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | EC50(72 h)=5.7 mg/L (Desmodesmus subspicatus) EC50()=3.35 mg/L (Skeletonema costatum) | LC50(96 h)=135.21 mg/L (Scophthalmus maximus) | EC50: 44 mg/L (activated sludge) | EC50(48 h)=37.9 mg/L (Daphnia magna) EC50(48 h)=4.1 mg/L (Acartia tonsa) NOEC(21 d)=1.3 mg/L (Daphnia magna) |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Readily biodegradable (69.4% @ 28d) |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | Log Pow=-0.11 |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| 3, 3'-Methylene bis (5-methyl oxazolidine) | 66204-44-2 | No information available |

### 12.6. Other adverse effects

Does not contain any organically bound halogen. May not increase the AOX value when discharged from treatment plants or into natural waters.

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

### Safe handling and disposal methods

Disposal should be made in accordance with federal, state, and local regulations. Incineration recommended in approved incinerator according to federal, state, and local regulations. Substance should NOT be deposited into a sewage facility.

### Disposal of any contaminated packaging

Follow all applicable national or local regulations.

### Environmental regulations

Not applicable

## 14. Transport Information

### Transportation Information

**Australia ADG**

**Packing Group:** III
**Environmental Hazards:** Not applicable
**EMS:** EmS F-A, S-B

**IATA/ICAO**

**UN Number** UN2735

| | |
|---|---|
| **UN proper shipping name:** | Amines, Liquid, Corrosive, N.O.S. (Contains N, N' -Methylenebis[5-methyl oxazolidine]) |
| **Transport Hazard Class(es):** | 8 |
| **Packing Group:** | III |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
2X

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 15-Nov-2018

**Revision Note**

**Full text of H-Statements referred to under sections 2 and 3**
H302 - Harmful if swallowed
H311 - Toxic in contact with skin
H314 - Causes severe skin burns and eye damage
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H332 - Harmful if inhaled
H341 - Suspected of causing genetic defects
H350 - May cause cancer
H411 - Toxic to aquatic life with long lasting effects

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight

CAS – Chemical Abstracts Service
CLP – REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on Classification, Labelling and Packaging of substances and mixtures
EC – European Commission
EC10 – Effective Concentration 10%
EC50 – Effective Concentration 50%
EEC – European Economic Community
ErC50 – Effective Concentration growth rate 50%
IBC Code – International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL0 – Lethal Loading 0%
LL50 – Lethal Loading 50%
MARPOL – International Convention for the Prevention of Pollution from Ships
mg/kg – milligram/kilogram
mg/L – milligram/liter
NIOSH – National Institute for Occupational Safety and Health
NOEC – No Observed Effect Concentration
NTP – National Toxicology Program
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
PC – Chemical Product category
PEL – Permissible Exposure Limit
ppm – parts per million
PROC – Process category
REACH – REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals
STEL – Short Term Exposure Limit
SU – Sector of Use category
TWA – Time-Weighted Average
UN – United Nations
VOC – Volatile Organic Carbon
vPvB – very Persistent and very Bioaccumulative
VLA-ED - time-weighted average values for a whole work shift [Spain valores límite ambientales para la exposición diaria]
NDS - najwyisze dopuszczalne stkienie na stanowisku pracy
SZW - Netherlands Ministry of Social Affairs and Employment
ADR - The European Agreement concerning the International Carriage of Dangerous Goods by Road
AS/NZS 1715 - New Zeland Standard on Selection, use and maintenance of respiratory protective equipment
C - Celsius
EN 149 - European standard on filtering halfmasks to protect against particles
EN 374 - European standard on Protective gloves against chemicals and micro-organisms
FFP - Filtering Facepieces
h - hour
IATA/ICAO - International Air Transport Association / International Civil Aviation Organization
IMDG/IMO - International Maritime Dangerous Goods / International Maritime Organization
$mg/m^3$ - milligram/cubic meter

# SAFETY DATA SHEET

# ALDACIDE® G ANTIMICROBIAL

**Revision Date:** 06-Apr-2021 **Revision Number:** 11

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 7th Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** ALDACIDE® G ANTIMICROBIAL

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HB003462

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Biocide

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 7th Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute Oral Toxicity | Category 4 - H302 |
| Acute inhalation toxicity - vapor | Category 3 - H331 |
| Skin Corrosion/Irritation | Category 1 - H314 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Respiratory Sensitization | Category 1 - H334 |
| Skin Sensitization | Category 1 - H317 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 3 - H335 |
| Acute Aquatic Toxicity | Category 1 - H400 |

| | |
|---|---|
| Chronic Aquatic Toxicity | Category 3 - H412 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H302 - Harmful if swallowed
H314 - Causes severe skin burns and eye damage
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H331 - Toxic if inhaled
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled
H335 - May cause respiratory irritation
H400 - Very toxic to aquatic life
H412 - Harmful to aquatic life with long lasting effects

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P281 - Use personal protective equipment as required
P285 - In case of inadequate ventilation wear respiratory protection

**Response**
P301+ P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P363 - Wash contaminated clothing before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P391 - Collect spillage

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

| **Contains Substances** | **CAS Number** |
|---|---|
| Glutaraldehyde | 111-30-8 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 10 - 30% | Acute Tox. 3 (H301)<br>Acute Tox. 2 (H330)<br>Skin Corr. 1B (H314)<br>Eye Corr. 1 (H318)<br>Resp. Sens. 1 (H334)<br>Skin Sens. 1 (H317)<br>STOT SE 3 (H335)<br>Aquatic Acute 1 (H400)<br>Aquatic Chronic 2 (H411) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 30 minutes and remove contaminated clothing, shoes and leather goods immediately. Get medical attention immediately.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. May cause allergic respiratory reaction. May cause respiratory irritation. Harmful if swallowed. Toxic if inhaled.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Ensure adequate ventilation. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Evacuate all persons from the area. Use only competent persons for cleanup.

### 6.2. Environmental precautions

Prevent from entering sewers, waterways, or low areas.

### 6.3. Methods and material for containment and cleaning up

Dike far ahead of liquid spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

## 7. Handling and storage

### 7.1. Precautions for safe handling

**Handling Precautions**

Use appropriate protective equipment. Ensure adequate ventilation. Avoid breathing vapors. Avoid breathing mist. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**

Store away from acids. Store away from alkalis. Store in a well ventilated area. Keep container closed when not in use. Store locked up. Product has a shelf life of 36 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

### Control parameters - exposure standards, biological monitoring

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable | Ceiling: 0.05 ppm |

### Appropriate engineering controls

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation. If vapors are strong enough to be irritating to the nose or eyes, the TLV is probably being exceeded and special ventilation or respiratory protection maybe required.

### Personal protective equipment (PPE)

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Organic vapor respirator.

**Hand Protection** Impervious gloves Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Clear light yellow |
| **Odor:** | Sharp | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 3.1-4.5 |
| **Freezing Point / Range** | (-5) - (-10) °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100.5 °C / 213 °F |
| **Flash Point** | No data available |
| **Evaporation rate** | 0.9 |
| **Vapor Pressure** | 0.2 mmHg |
| **Vapor Density** | 0.8 |
| **Specific Gravity** | 1.064 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | -0.333 |
| **Autoignition Temperature** | > 275 °C / > 527 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

Keep away from heat, sparks and flame.

**10.5. Incompatible materials**

Strong acids. Strong alkalis.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation; Ingestion.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. May cause allergic respiratory reaction. May cause respiratory irritation. Harmful if swallowed. Toxic if inhaled.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 50 mg/kg (Guinea Pig) | 560 µL/kg (Rabbit) | 0.28-0.5 mg/L (Rat) 4h |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Toxic if inhaled. Causes severe respiratory irritation. May cause allergic respiratory reaction. Inhalation of vapors may result in skin sensitization.

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Causes severe burns. May cause an allergic skin reaction.

**Ingestion** Harmful if swallowed. Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Lung disorders. Liver disorders.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe skin irritation with tissue destruction. (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe eye irritation which may damage tissue. (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Skin sensitizer in guinea pig. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause sensitization by inhalation |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Did not show carcinogenic effects in animal experiments |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not a confirmed teratogen or embryotoxin. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Glutaraldehyde | 111-30-8 | No information available |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause disorder and damage to the Kidney |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | EC50(72h): 0.61 mg/L (Desmodesmus subspicatus)<br>EC50(72h): 0.5 mg/L (Skeletonema costatum) | LC50(96h): 10 mg/L (Lepomis macrochirus)<br>NOEC(97d): 1.6 mg/L (Oncorhynchus mykiss)<br>LC50(96h): 3.5 mg/L (Oncorhynchus mykiss) | EC50 (17h) 6.65 mg/L (Pseudomonas putida) | EC50(48h): 0.35 mg/L (Daphnia magna)<br>EC50(48h): 0.7 mg/L (Acartia tonsa)<br>NOEC(21d): 0.13 mg/L (Daphnia magna) |

| | | | | | |
|---|---|---|---|---|---|
| | | | LC50(96h): 60 mg/L (Scophthalmus maximus) | | EC50(48h): 0.1 mg/L (Acartia tonsa) |

**12.2. Persistence and degradability**

Readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Readily biodegradable (75% @ 28d) |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | -0.36 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Potential for mobility in soil is high (Koc between 50 and 150). Given its very low Henry'sconstant (3.3E-08 atm*m3/mole; 25 °C Measured), volatilization from natural bodies of water or moist soil is not expected to be an important fate process. |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** UN3265
**UN proper shipping name:** Corrosive Liquid, Acidic, Organic, N.O.S. (Contains Glutaraldehyde)
**Transport Hazard Class(es):** 8
**Packing Group:** II
**Environmental Hazards:** Marine Pollutant

**IMDG/IMO**

**UN Number** UN3265
**UN proper shipping name:** Corrosive Liquid, Acidic, Organic, N.O.S. (Contains Glutaraldehyde)
**Transport Hazard Class(es):** 8
**Packing Group:** II
**Environmental Hazards:** Marine Pollutant
**EMS:** EmS F-A, S-B

P285 - In case of inadequate ventilation wear respiratory protection

**Response**
P301+ P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P363 - Wash contaminated clothing before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P391 - Collect spillage

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

| **Contains Substances** | **CAS Number** |
|---|---|
| Glutaraldehyde | 111-30-8 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 10 - 30% | Acute Tox. 3 (H301)<br>Acute Tox. 2 (H330)<br>Skin Corr. 1B (H314)<br>Eye Corr. 1 (H318)<br>Resp. Sens. 1 (H334)<br>Skin Sens. 1 (H317)<br>STOT SE 3 (H335)<br>Aquatic Acute 1 (H400)<br>Aquatic Chronic 2 (H411) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 30 minutes and remove contaminated clothing, shoes and leather goods immediately. Get medical attention immediately.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. May cause allergic respiratory reaction. May cause respiratory irritation. Harmful if swallowed. Toxic if inhaled.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Ensure adequate ventilation. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Evacuate all persons from the area. Use only competent persons for cleanup.

### 6.2. Environmental precautions

Prevent from entering sewers, waterways, or low areas.

### 6.3. Methods and material for containment and cleaning up

Dike far ahead of liquid spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.

## 7. Handling and storage

### 7.1. Precautions for safe handling

**Handling Precautions**

Use appropriate protective equipment. Ensure adequate ventilation. Avoid breathing vapors. Avoid breathing mist. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**

Store away from acids. Store away from alkalis. Store in a well ventilated area. Keep container closed when not in use. Store locked up. Product has a shelf life of 36 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

### Control parameters - exposure standards, biological monitoring

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable | Ceiling: 0.05 ppm |

### Appropriate engineering controls

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation. If vapors are strong enough to be irritating to the nose or eyes, the TLV is probably being exceeded and special ventilation or respiratory protection maybe required.

### Personal protective equipment (PPE)

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Organic vapor respirator.

**Hand Protection** Impervious gloves Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Clear light yellow |
| **Odor:** | Sharp | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 3.1-4.5 |
| **Freezing Point / Range** | (-5) - (-10) °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100.5 °C / 213 °F |
| **Flash Point** | No data available |
| **Evaporation rate** | 0.9 |
| **Vapor Pressure** | 0.2 mmHg |
| **Vapor Density** | 0.8 |
| **Specific Gravity** | 1.064 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | -0.333 |
| **Autoignition Temperature** | > 275 °C / > 527 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

Keep away from heat, sparks and flame.

**10.5. Incompatible materials**

Strong acids. Strong alkalis.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation; Ingestion.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause allergic skin reaction. May cause allergic respiratory reaction. May cause respiratory irritation. Harmful if swallowed. Toxic if inhaled.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 50 mg/kg (Guinea Pig) | 560 µL/kg (Rabbit) | 0.28-0.5 mg/L (Rat) 4h |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Toxic if inhaled. Causes severe respiratory irritation. May cause allergic respiratory reaction. Inhalation of vapors may result in skin sensitization.

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Causes severe burns. May cause an allergic skin reaction.

**Ingestion** Harmful if swallowed. Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Lung disorders. Liver disorders.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe skin irritation with tissue destruction. (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe eye irritation which may damage tissue. (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Skin sensitizer in guinea pig. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause sensitization by inhalation |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Did not show carcinogenic effects in animal experiments |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not a confirmed teratogen or embryotoxin. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Glutaraldehyde | 111-30-8 | No information available |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause disorder and damage to the Kidney |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | EC50(72h): 0.61 mg/L (Desmodesmus subspicatus)<br>EC50(72h): 0.5 mg/L (Skeletonema costatum) | LC50(96h): 10 mg/L (Lepomis macrochirus)<br>NOEC(97d): 1.6 mg/L (Oncorhynchus mykiss)<br>LC50(96h): 3.5 mg/L (Oncorhynchus mykiss) | EC50 (17h) 6.65 mg/L (Pseudomonas putida) | EC50(48h): 0.35 mg/L (Daphnia magna)<br>EC50(48h): 0.7 mg/L (Acartia tonsa)<br>NOEC(21d): 0.13 mg/L (Daphnia magna) |

| | | | | | |
|---|---|---|---|---|---|
| | | | LC50(96h): 60 mg/L (Scophthalmus maximus) | | EC50(48h): 0.1 mg/L (Acartia tonsa) |

**12.2. Persistence and degradability**

Readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Readily biodegradable (75% @ 28d) |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | -0.36 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Potential for mobility in soil is high (Koc between 50 and 150). Given its very low Henry'sconstant (3.3E-08 atm*m3/mole; 25 °C Measured), volatilization from natural bodies of water or moist soil is not expected to be an important fate process. |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** UN3265
**UN proper shipping name:** Corrosive Liquid, Acidic, Organic, N.O.S. (Contains Glutaraldehyde)
**Transport Hazard Class(es):** 8
**Packing Group:** II
**Environmental Hazards:** Marine Pollutant

**IMDG/IMO**

**UN Number** UN3265
**UN proper shipping name:** Corrosive Liquid, Acidic, Organic, N.O.S. (Contains Glutaraldehyde)
**Transport Hazard Class(es):** 8
**Packing Group:** II
**Environmental Hazards:** Marine Pollutant
**EMS:** EmS F-A, S-B

**IATA/ICAO**

**UN Number** UN3265
**UN proper shipping name:** Corrosive Liquid, Acidic, Organic, N.O.S. (Contains Glutaraldehyde)
**Transport Hazard Class(es):** 8
**Packing Group:** II
**Environmental Hazards:** Marine Pollutant

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not applicable

**Special precautions during transport**
None

**HazChem Code**
2X

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
S6

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 06-Apr-2021

**Revision Note**
SDS sections updated:
2
3
4
11
14

**Full text of H-Statements referred to under sections 2 and 3**
H301 - Toxic if swallowed
H302 - Harmful if swallowed
H314 - Causes severe skin burns and eye damage
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H330 - Fatal if inhaled
H331 - Toxic if inhaled
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled
H335 - May cause respiratory irritation
H400 - Very toxic to aquatic life
H411 - Toxic to aquatic life with long lasting effects
H412 - Harmful to aquatic life with long lasting effects

**Additional information** For additional information on the use of this product, contact your local Halliburton

representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# Safety Data Sheet
## Hematite Weighting Agent D76

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Hematite Weighting Agent D76
**Product code** D076

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Hematite (diiron trioxide)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hematite (diiron trioxide) | 215-168-2 | 1309-37-1 | 60-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Seek medical attention if irritation occurs.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid generating or breathing dust. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Do not eat, drink or smoke when using this product.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Hematite (diiron trioxide) | 5 mg/m³ TWA | 5mg/m³TWAfume<br>10mg/m³TWAinhalable dust | 5 mg/m³ TWA |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Hematite (diiron trioxide) | 5 mg/m³ TWA | 5 mg/m³ TWA<br>10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Hematite (diiron trioxide) | Not determined | Not determined | 10 mg/m³ TWA<br>5 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |

| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Hematite (diiron trioxide) | Not determined | 5 mg/m³ TWA<br>10 mg/m³ STEL | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | It is good practice to wear goggles when handling any chemical Tightly fitting safety goggles |
| **Hand protection** | Repeated or prolonged contact Use protective gloves made of: Neoprene Nitrile PVC |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Effective dust mask. Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Musty |
| **Color** | Red brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | | |
| **Melting / freezing point** | > 1700 °C / 3092 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not combustible | |
| **Evaporation rate (BuAc =1)** | | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | >1 (air=1) | |
| **Specific gravity** | 4.8-5.0 | 20 °C |
| **Bulk density** | 2800 kg/m$^3$ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | 0 |
| **Density** | 5.25 g/cm³ (@25°C) |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid handling causing generation of dust.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See also section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hematite (diiron trioxide) | > 10000 mg/kg ( Rat ) | No data available | No data available |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This substance has no evidence of mutagenic properties. |
| **Carcinogenicity** | This substance has no evidence of carcinogenic properties. |
| **Reproductive toxicity** | None known. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | No hazard from product as supplied. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hematite (diiron trioxide) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Hematite (diiron trioxide)
Schedule 4
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT (w/w) | Australia NOHSC | New Zealand WES | ACGIH TLV-TWA |
|---|---|---|---|---|---|

| | | | | | |
|---|---|---|---|---|---|
| Acetic acid | 64-19-7 | 30 - 60% | TWA: 10 ppm TWA: 25 mg/m$^3$ STEL: 15 ppm STEL: 37 mg/m$^3$ | STEL: 15 ppm STEL: 37 mg/m$^3$ TWA: 10 ppm TWA: 25 mg/m$^3$ | TWA: 10 ppm STEL: 15 ppm |

**Non-Hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye, skin, and respiratory burns. May be harmful if swallowed. Combustible.

**Risk Phrases** R10 Flammable.

R34 Causes burns.

**HSNO Classification** Not Determined

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Get medical attention. Remove contaminated clothing and launder before reuse.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Ingestion** Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

**Special Exposure Hazards** Use water spray to cool fire exposed surfaces. Decomposition in fire may produce toxic gases. Do not allow runoff to enter waterways.

**Special Protective Equipment for Fire-Fighters** Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

| | |
|---|---|
| **Procedure for Cleaning / Absorption** | Isolate spill and stop leak where safe. Neutralize with lime slurry, limestone, or soda ash. Contain spill with sand or other inert materials. Scoop up and remove. |

## 7. HANDLING AND STORAGE

| | |
|---|---|
| **Handling Precautions** | Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Wash hands after use. Launder contaminated clothing before reuse. |
| **Storage Information** | Store away from alkalis. Store away from oxidizers. Store in a cool well ventilated area. Keep container closed when not in use. |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| | |
|---|---|
| **Engineering Controls** | Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation. |
| **Respiratory Protection** | Organic vapor/acid gas respirator. |
| **Hand Protection** | Impervious rubber gloves. Neoprene gloves. Nitrile gloves. Butyl rubber gloves. |
| **Skin Protection** | Full protective chemical resistant clothing. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Color:** | Clear |
| **Odor:** | Acrid |
| **pH:** | 2.9 |
| **Specific Gravity @ 20 C (Water=1):** | 1.05 |
| **Density @ 20 C (kg/l):** | 1.048 |
| **Bulk Density @ 20 C (kg/M3):** | Not Determined |
| **Boiling Point/Range (C):** | 117 |
| **Freezing Point/Range (C):** | 16 |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | 42 |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | 5.4 |
| **Flammability Limits in Air - Upper ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | 16 |
| **Vapor Pressure @ 20 C (mmHg):** | 11.7 |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | 100 |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 60.6 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

**Stability Data:** Stable

**Hazardous Polymerization:** Will Not Occur

**Conditions to Avoid** Keep away from heat, sparks and flame.

**Incompatibility (Materials to Avoid)** Strong alkalis.

**Hazardous Decomposition Products** Toxic fumes. Carbon monoxide and carbon dioxide.

**Additional Guidelines** Not Applicable

## 11. TOXICOLOGICAL INFORMATION

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Sympotoms related to exposure**

**Acute Toxicity**

**Inhalation** Causes severe respiratory irritation.

**Eye Contact** May cause eye burns.

**Skin Contact** Causes severe burns.

**Ingestion** Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** Prolonged, excessive exposure may cause erosion of the teeth.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Acetic acid | 64-19-7 | 3310 mg/kg ( Rat )<br>600 mg/kg (Rabbit) | 1060 mg/kg ( Rabbit ) | 11.4 mg/L ( Rat ) 4 h |

## 12. ECOLOGICAL INFORMATION

### Ecotoxicological Information

**Ecotoxicity Product**

**Acute Fish Toxicity:** Not determined

**Acute Crustaceans Toxicity:** Not determined

**Acute Algae Toxicity:** Not determined

**Ecotoxicity Substance**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Daphnia Magna (Water Flea) |
|---|---|---|---|---|---|
| Acetic acid | 64-19-7 | EC50: 90 mg/L (Microcystis aeruginosa) | LC50: 79 mg/l (Pimephales promelas)<br>LC50: 75 mg/l (Pimephales promelas) | No information available | EC50: 47 mg/l (Daphnia magna)<br>LC50: 32 mg/L (Artemia salina) |

**Persistence and degradability**

Readily biodegradable

**Bioaccumulative potential**

Does not bioaccumulate

**Mobility in soil**
No information available

**Results of PBT and vPvB assessment**
No information available.

**Other adverse effects**

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Disposal should be made in accordance with federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**

UN2790, Acetic Acid Solution , 8 , III

### Air Transportation

**ICAO/IATA**

UN2790, Acetic Acid Solution , 8 , III
RQ (Acetic Acid - 5683 kg.)

### Sea Transportation

**IMDG**

UN2790, Acetic Acid Solution , 8 , III
RQ (Acetic Acid - 5683 kg.)
EmS F-A, S-B

### Other Transportation Information

**Labels:** Corrosive

## 15. REGULATORY INFORMATION

**Chemical Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components listed on inventory or are exempt. |
| **New Zealand Inventory of Chemicals** | All components listed on inventory or are exempt. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **EINECS Inventory** | This product, and all its components, complies with EINECS |

**Classification** C - Corrosive.

**Risk Phrases**

R10 Flammable.

R34 Causes burns.

**Safety Phrases**

S23 Do not breathe gas, fumes, vapour or spray.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S45 In case of accident or if you feel unwell, seek medical advice immediately.
S1/2 Keep locked up and out of reach of children.

## 16. OTHER INFORMATION

e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT | Australia NOHSC | New Zealand OEL | ACGIH TLV-TWA |
|---|---|---|---|---|---|
| Tributyl tetradecyl phosphonium chloride | 81741-28-8 | 5 - 10% | Not applicable | Not applicable | Not applicable |

**Non-Hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye and skin burns. May cause respiratory irritation. May be harmful if swallowed. May be harmful if inhaled.

**Risk Phrases** R22 Harmful if swallowed.
R36/38 Irritating to eyes and skin.
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

**HSNO Classification** Not Determined

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult give oxygen. Get medical attention.

**Skin** Wash with soap and water. Get medical attention if irritation persists. Remove contaminated clothing and launder before reuse. Remove contaminated shoes and discard.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Ingestion** If swallowed, do NOT induce vomiting. Give victim two glasses of water, Call a physician immediately. Never give anything by mouth to an unconscious person.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons** None known.

**Special Exposure Hazards** Decomposition in fire may produce toxic gases. Do not allow runoff to enter waterways. Use water spray to cool fire exposed surfaces.

**Special Protective Equipment for Fire-Fighters** Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

**Procedure for Cleaning / Absorption** Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse. Do NOT consume food, drink, or tobacco in contaminated areas.

**Storage Information** Store in a cool well ventilated area. Keep container closed when not in use. Store away from direct sunlight. Store in a dry location. Store in a manner to prevent commingling with incompatible materials. Store away from alkalis. Store away from reducing agents.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.

Dust/mist respirator. (N95, P2/P3)

**Hand Protection** Impervious rubber gloves. Neoprene gloves. Polyvinylchloride gloves.

**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Color:** | Clear colorless |
| **Odor:** | Slight |
| **pH:** | 6-8 |
| **Specific Gravity @ 20 C (Water=1):** | 0.95-1.00 |
| **Density @ 20 C (kg/l):** | 0.95-1.00 |
| **Bulk Density @ 20 C (kg/m$^3$):** | Not Determined |
| **Boiling Point/Range (C):** | 100 |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Miscible |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Viscosity, Kinematic @ 20 C (centistokes):** | 55-65 |
| **Partition Coefficient/n-Octanol/Water:** | < 3 |
| **Molecular Weight (g/mole):** | Not Determined |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None anticipated |
| **Incompatibility (Materials to Avoid)** | Reducing agents. Strong alkalis. |
| **Hazardous Decomposition Products** | Chlorine. Phosphorus acids. Carbon monoxide and carbon dioxide. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |
| **Inhalation** | May cause respiratory irritation. May be harmful if inhaled. |
| **Skin Contact** | May cause skin burns. Harmful if absorbed through the skin. |
| **Eye Contact** | May cause eye burns. |
| **Ingestion** | May be harmful if swallowed. |
| **Aggravated Medical Conditions** | Lung disorders. Skin disorders. |
| **Chronic Effects/Carcinogenicity** | Not determined |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | LD50: > 2000 mg/kg (Rat) |
| **Dermal Toxicity:** | Not determined |
| **Inhalation Toxicity:** | LC50: 0.9 mg/l 4-hour (rat) (TTPC) |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity** | Not determined |
| **Genotoxicity:** | Ames test: negative |
| **Reproductive / Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

| | |
|---|---|
| **Mobility (Water/Soil/Air)** | Not determined |
| **Persistence/Degradability** | Readily biodegradable |

**Bio-accumulation** Not determined

## Ecotoxicological Information

**Acute Fish Toxicity:** LC50: (96 hour) 0.46 mg/L (Oncorhynchus mykiss)
LC50: (96 hour) 0.06 mg/l (Lepomis macrochirus)
LC50: (96 hour) 0.58 mg/l (fish)
**Acute Crustaceans Toxicity:** TLM96: 1.6 mg/l (Crangon crangon) TLM48: 0.025 mg/l (Daphnia magna)
**Acute Algae Toxicity:** Not determined

**Chemical Fate Information** Not determined

**Other Information** Not applicable

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Disposal should be made in accordance with federal, state, and local regulations. Incineration recommended in approved incinerator according to federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**

UN2922, Corrosive Liquid, Toxic, N.O.S.(contains Tributyl Tetradecyl Phosphonium Chloride), 8, (6.1), II

### Air Transportation

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substance | CAS Number | Percent | Australia NOHSC | New Zealand OEL | ACGIH TLV-TWA |
|---|---|---|---|---|---|
| Citric acid, triethyl ester | 77-93-0 | 60 - 100% | Not determined | Not determined | Not applicable |

**Non-hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

| | |
|---|---|
| **Hazard Overview** | No significant hazards expected. |
| **Risk Phrases** | None |
| **HSNO Classification** | Non-hazardous |

## 4. FIRST AID MEASURES

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Skin** | Get medical attention if irritation persists. Wash with soap and water. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 25 minutes and get medical attention if irritation persists. |
| **Ingestion** | Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person. |
| **Notes to Physician** | Not Applicable |

## 5. FIRE FIGHTING MEASURES

| | |
|---|---|
| **Suitable Extinguishing Media** | Water fog, carbon dioxide, foam, dry chemical. |
| **Unsuitable Extinguishing Media** | None known |
| **Special Exposure Hazards** | Not applicable. |
| **Special Protective Equipment for Fire-Fighters** | Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel. |

## 6. ACCIDENTAL RELEASE MEASURES

| | |
|---|---|
| **Personal Precautionary Measures** | Use Appropriate protective equipment. Slippery when wet. |
| **Environmental Precautionary Measures** | Prevent from entering sewers, waterways or low areas. |
| **Procedure for Cleaning/Absorption** | Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove. |

## 7. HANDLING AND STORAGE

| | |
|---|---|
| **Handling Precautions** | Wash hands after use. Avoid contact with eyes, skin, or clothing. Avoid breathing mist. Avoid breathing vapours. |
| **Storage Information** | Keep from freezing. Store away from oxidisers. Keep container closed when not in use. Store in a well ventilated area. Product has a shelf life of 24 months |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| | |
|---|---|
| **Engineering Controls** | Use in a well ventilated area. |

| | |
|---|---|
| **Respiratory Protection** | If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.<br><br>Not normally needed. But if significant exposures are possible then the following respirator is recommended. Dust/mist respirator. (N95,P2/P3) |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Colour:** | Light green |
| **Odour:** | Odourless |
| **pH:** | Not Determined |
| **Specific Gravity @ 20 C (Water=1):** | 1.14 |
| **Density @ 20 C (kg/l):** | 0.988 |
| **Bulk Density @ 20 C (kg/l):** | Not Determined |
| **Boiling Point/Range (C):** | 294 |
| **Freezing Point/Range (C):** | -45 |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | 155 |
| **Flash Point Method:** | CC |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapour Pressure @ 20 C (mmHg):** | < 1 |
| **Vapour Density (Air=1):** | 9.54 |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate = 1):** | Not determined. |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 276.28 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerisation:** | Will Not Occur |
| **Conditions to Avoid** | None anticipated |

| | |
|---|---|
| **Incompatibility (Materials to Avoid)** | None known. |
| **Hazardous Decomposition Products** | Carbon monoxide and carbon dioxide. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |
| **Inhalation** | May cause mild respiratory irritation. |
| **Skin Contact** | May cause mild skin irritation. |
| **Eye Contact** | May cause mild eye irritation. |
| **Ingestion** | May cause abdominal pain, vomiting, nausea, and diarrhoea. |
| **Aggravated Medical Conditions** | None known. |
| **Chronic Effects/Carcinogenicity** | No data available to indicate product or components present at greater than 1% are chronic health hazards. |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | LD50: > 5000 mg/kg (Rat) |
| **Dermal Toxicity:** | LD50: > 5000 mg/kg (Rabbit) |
| **Inhalation Toxicity:** | LC50: 1300 ppm/6 hr. (Rat) |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity:** | Not determined |
| **Genotoxicity:** | Not determined |
| **Reproductive/Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

| | |
|---|---|
| **Mobility (Water/Soil/Air)** | Not determined |
| **Persistence/Degradability** | Not determined |
| **Bio-accumulation** | Not Determined |

### Ecotoxicological Information

| | |
|---|---|
| **Acute Fish Toxicity:** | Not determined |
| **Acute Crustaceans Toxicity:** | Not determined |
| **Acute Algae Toxicity:** | Not determined |
| **Chemical Fate Information** | Not determined |
| **Other Information** | Not applicable |

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Disposal should be made in accordance with federal, state and local regulations.

**Contaminated Packaging** Empty container completely. Transport with all closures in place. Return for reuse or dispose in a sanitary landfill according to national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR** Not restricted

### Air Transportation

**ICAO/IATA** Not restricted

### Sea Transportation

**IMDG** Not restricted

### Other Shipping Information

**Labels:** None

## 15. REGULATORY INFORMATION

**Chemical Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components listed. |
| **New Zealand Inventory of Chemicals** | All components listed on inventory or are exempt. |
| **US TSCA Inventory** | All components listed. |
| **EINECS Inventory** | All components are listed on the inventory. |

**Classification** Not Determined

**Risk Phrases** None

**Safety Phrases** None

## 16. OTHER INFORMATION

**The following sections have been revised since the last issue of this MSDS:**
Not applicable

### Contact

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

**New Zealand National Poisons Centre**
0800 764 766

**Additional Information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Material Safety Data Sheet for this or other Halliburton products, contact Product Stewardship at 1-580-251-4335.

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **CLLAU301**

**Revision Date:** 20-Aug-2012

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Statement of Hazardous Nature** Hazardous according to the criteria of NOHSC, Non-Dangerous Goods according to the criteria of ADG.

**Manufacturer/Supplier**

Halliburton Australia Pty. Ltd.
15 Marriott Road
Jandakot
WA 6164
Australia

ACN Number: 009 000 775
Telephone Number: 61 (08) 9455 8300
Fax Number: 61 (08) 9455 5300

**Product Emergency Telephone**
Australia: 08-64244950
Papua New Guinea: 05 1 281 575 5000
NewZealand: 06-7559274

**Fire, Police & Ambulance - Emergency Telephone**
Australia: 000
Papua New Guinea: 000
New Zealand: 111

**Identification of Substance or Preparation**

**Product Trade Name:** CLLAU301
**Synonyms:** None
**Chemical Family:** Inorganic Blend
**UN Number:** None
**Dangerous Goods Class:** None
**Subsidiary Risk:** None
**Hazchem Code:** None
**Poisons Schedule:** S6
**Application:** Crosslinker

**Prepared By**

Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substance | CAS Number | Percent | Australia NOHSC | New Zealand WES | ACGIH TLV-TWA |
|---|---|---|---|---|---|
| Inorganic salt | Proprietary | 5 - 10% | TWA: 2 mg/m$^3$ | TWA: 2 mg/m$^3$ | 2 mg/m$^3$ |

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| | | | | | |
|---|---|---|---|---|---|
| Sulfuric acid | 7664-93-9 | 1 - 5% | TWA: 1 mg/m$^3$<br>STEL: 3 mg/m$^3$ | TWA: 1 mg/m$^3$ | TWA: 0.2 mg/m$^3$ |

**Non-hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye, skin and respiratory irritation.

**Risk Phrases**

R36/38 Irritating to eyes and skin.

**HSNO Classification** 6.1E Acutely Toxic Substances 6.3A Irritating to the skin 6.4A Irritating to the eye 8.1A Corrosive to metals 9.1D Slightly harmful in the aquatic environment

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Ingestion** Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** All standard fire fighting media

**Unsuitable Extinguishing Media** None known

**Special Exposure Hazards** Not applicable.

**Special Protective Equipment for Fire-Fighters** Not applicable.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use Appropriate protective equipment.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways or low areas.

**Procedure for Cleaning/Absorption** Isolate spill and stop leak where safe. Neutralise with lime slurry, limestone, or soda ash. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid contact with eyes, skin, or clothing. Avoid breathing mist.

**Storage Information** Store in a cool, dry location. Product has a shelf life of 24 months

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** Use in a well ventilated area.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.

Not normally needed. But if significant exposures are possible then the following respirator is recommended. Dust/mist respirator. (N95,P2/P3)

**Hand Protection** Impervious rubber gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Colour:** | White |
| **Odour:** | Odourless |
| **pH:** | 0.80 |
| **Specific Gravity @ 20 C (Water=1):** | 1.01 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/l):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapour Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapour Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate = 1):** | Not determined. |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | Not Determined |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

**Stability Data:** Stable

**Hazardous Polymerisation:** Will Not Occur

| | |
|---|---|
| **Conditions to Avoid** | None anticipated |
| **Incompatibility (Materials to Avoid)** | Strong alkalis |
| **Hazardous Decomposition Products** | Oxides of sulphur. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Sympotoms related to exposure**

| | |
|---|---|
| **Inhalation** | May cause respiratory irritation. |
| **Skin Contact** | May cause skin irritation. |
| **Eye Contact** | May cause severe eye irritation. |
| **Ingestion** | In large amounts: May cause abdominal pain, vomiting, nausea, and diarrhoea. |
| **Aggravated Medical Conditions** | None known. |
| **Chronic Effects/Carcinogenicity** | Contains sulphuric acid, a potential carcinogen. |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | Not determined |
| **Dermal Toxicity:** | Not determined. |
| **Inhalation Toxicity:** | Not determined |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity:** | Not determined |
| **Genotoxicity:** | Not determined |
| **Reproductive/Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

| | |
|---|---|
| **Mobility (Water/Soil/Air)** | Not determined |
| **Persistence/Degradability** | Not applicable |
| **Bio-accumulation** | Not Determined |

### Ecotoxicological Information

| | |
|---|---|
| **Acute Fish Toxicity:** | Not determined |
| **Acute Crustaceans Toxicity:** | Not determined |
| **Acute Algae Toxicity:** | Not determined |

**Chemical Fate Information** Not determined

**Other Information** Not applicable

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Disposal should be made in accordance with federal, state and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR** Not restricted

### Air Transportation

**ICAO/IATA** Not restricted

### Sea Transportation

**IMDG** Not restricted

### Other Shipping Information

**Labels:** None

## 15. REGULATORY INFORMATION

**Chemical Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components listed. |
| **New Zealand Inventory of Chemicals** | All components listed on inventory or are exempt. |
| **US TSCA Inventory** | All components listed. |
| **EINECS Inventory** | All components are listed on the inventory. |

**Classification** Xi - Irritant.

**Risk Phrases**

R36/38 Irritating to eyes and skin.

**Safety Phrases**

S23 Do not breathe gas, fumes, vapour or spray.
S24/25 Avoid contact with skin and eyes.

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **FDP-S1085-13**

**Revision Date:** 21-Feb-2013

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Trade Name:** FDP-S1085-13
**Synonyms:** None
**Chemical Family:** Polymer Blend
**Application:** Scale Inhibitor

**Manufacturer/Supplier**
Halliburton Energy Services, Inc.
P.O. Box 1431
Duncan, Oklahoma 73536-0431
Emergency Telephone: (281) 575-5000

**Prepared By**
Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT | ACGIH TLV-TWA | OSHA PEL-TWA |
|---|---|---|---|---|
| Polyacrylate | | 10 - 30% | Not applicable | Not applicable |

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye and skin irritation.

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Ingestion** Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

**Notes to Physician** Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

| | |
|---|---|
| **Flash Point/Range (F):** | > 200**Min:** > 200 |
| **Flash Point/Range (C):** | > 93.3**Min:** > 95 |
| **Flash Point Method:** | ASTM D3278-78 |
| **Autoignition Temperature (F):** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |

| | |
|---|---|
| **Fire Extinguishing Media** | All standard firefighting media. Do NOT spray pool fires directly with water. A solid stream of water directed into hot burning liquid can cause splattering. |
| **Special Exposure Hazards** | Decomposition in fire may produce toxic gases. |
| **Special Protective Equipment for Fire-Fighters** | Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel. |
| **NFPA Ratings:** | Health 1, Flammability 1, Reactivity 0 |
| **HMIS Ratings:** | Health 1, Flammability 1, Physical Hazard 0 , PPE: B |

## 6. ACCIDENTAL RELEASE MEASURES

| | |
|---|---|
| **Personal Precautionary Measures** | Use appropriate protective equipment. |
| **Environmental Precautionary Measures** | Prevent from entering sewers, waterways, or low areas. |
| **Procedure for Cleaning / Absorption** | Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove. |

## 7. HANDLING AND STORAGE

| | |
|---|---|
| **Handling Precautions** | Avoid contact with eyes, skin, or clothing. |
| **Storage Information** | Store away from oxidizers. Product has a shelf life of 12 months. |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| | |
|---|---|
| **Engineering Controls** | Use in a well ventilated area. |
| **Respiratory Protection** | Not normally necessary. |
| **Hand Protection** | Butyl rubber gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Color:** | Clear |
| **Odor:** | Mild |
| **pH:** | 5.7 - 5.9 |
| **Specific Gravity @ 20 C (Water=1):** | 1.137 |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Density @ 20 C (lbs./gallon):** | 9.47 |
| **Bulk Density @ 20 C (lbs/ft3):** | Not Determined |
| **Boiling Point/Range (F):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (F):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | ~ 80 |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| Solubility in Water (g/100ml): | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (lbs./gallon):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None known. |
| **Incompatibility (Materials to Avoid)** | Strong oxidizers. |
| **Hazardous Decomposition Products** | Carbon monoxide and carbon dioxide. Toxic monomer fumes. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye and skin contact. |
| **Inhalation** | May cause respiratory irritation. |
| **Skin Contact** | May cause skin irritation. |
| **Eye Contact** | May cause eye irritation. |
| **Ingestion** | Irritation of the mouth, throat, and stomach. |
| **Aggravated Medical Conditions** | None known. |
| **Chronic Effects/Carcinogenicity** | No data available to indicate product or components present at greater than 1% are chronic health hazards. |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | Not determined |

**Hazard Overview** May cause eye, skin, and respiratory irritation. Airborne dust may be explosive.

**Hazard Ratings**

| | |
|---|---|
| **Flammability:** | 0 |
| **Toxicty:** | 0 |
| **Body Contact:** | 1 |
| **Reactivity:** | 0 |
| **Chronic:** | 0 |

**Scale: Min/Nil=0 Low=1 Moderate=2 High=3 Extreme=4**

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Ingestion** Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons** None known.

**Special Exposure Hazards** Decomposition in fire may produce toxic gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special Protective Equipment for Fire-Fighters** Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment. Avoid creating and breathing dust.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

**Procedure for Cleaning / Absorption** Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust.

**Storage Information** Store away from alkalis. Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 60 months.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| | |
|---|---|
| **Engineering Controls** | Use in a well ventilated area. |
| **Respiratory Protection** | Dust/mist respirator. (95%) |
| **Hand Protection** | Impervious rubber gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Solid |
| **Color:** | White |
| **Odor:** | Odorless |
| **pH:** | 1.8 |
| **Specific Gravity @ 20 C (Water=1):** | 1.665 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/m$^3$):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | 1000 |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | 8 |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | 65 |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | 0 |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistrokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 192.13 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None anticipated |
| **Incompatibility (Materials to Avoid)** | Strong alkalis. Strong oxidizers. |
| **Hazardous Decomposition Products** | Carbon monoxide and carbon dioxide. |

**Additional Guidelines** Not Applicable

## 11. TOXICOLOGICAL INFORMATION

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Inhalation** May cause respiratory irritation.

**Skin Contact** May cause skin irritation.

**Eye Contact** May cause severe eye irritation.

**Ingestion** Irritation of the mouth, throat, and stomach. May cause abdominal pain, vomiting, nausea, and diarrhea.

**Aggravated Medical Conditions** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 1% are chronic health hazards.

**Other Information** None known.

**Toxicity Tests**

**Oral Toxicity:** LD50: 11700 mg/kg (Rat)

**Dermal Toxicity:** Not determined

**Inhalation Toxicity:** Not determined

**Primary Irritation Effect:** Not determined

**Carcinogenicity** Not determined

**Genotoxicity:** Not determined

**Reproductive / Developmental Toxicity:** Not determined

## 12. ECOLOGICAL INFORMATION

**Mobility (Water/Soil/Air)** Not determined

**Persistence/Degradability** Biodegradable

**Bio-accumulation** Not determined

### Ecotoxicological Information

**Acute Fish Toxicity:** Not determined

**Acute Crustaceans Toxicity:** TLM96: 100-330 ppm (Crangon crangon)

**Acute Algae Toxicity:** Not determined

**Chemical Fate Information** Not determined

**Other Information** Not applicable

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Bury in a licensed landfill according to federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**
Not restricted

### Air Transportation

**ICAO/IATA**
Not restricted

### Sea Transportation

**IMDG**
Not restricted

### Other Shipping Information

**Labels:** None

## 15. REGULATORY INFORMATION

**Chemical Inventories**

**Australian AICS Inventory** All components listed.
**US TSCA Inventory** All components listed on inventory or are exempt.
**EINECS Inventory** This product, and all its components, complies with EINECS

**Classification** Xi - Irritant.

**Risk Phrases** R36 Irritating to eyes.

**Safety Phrases**

S24/25 Avoid contact with skin and eyes.

## 16. OTHER INFORMATION

**The following sections have been revised since the last issue of this MSDS**
Not applicable

### Contact

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

**New Zealand National Poisons Centre**
0800 764 766

**Additional Information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Material Safety Data Sheet for this or other Halliburton products, contact Chemical Compliance at 1-580-251-4335.

**Disclaimer Statement**

This information is furnished without warranty, expressed or implied, as to accuracy or completeness. The information is obtained from various sources including the manufacturer and other third party sources. The information may not be valid under all conditions nor if this material is used in combination with other materials or in any process. HALLIBURTON

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **FR-50D**

**Revision Date:** 05-Nov-2013

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of NOHSC, Non-Dangerous Goods according to the criteria of ADG.

**Manufacturer/Supplier**

Halliburton Australia Pty. Ltd.
15 Marriott Road
Jandakot
WA 6164
Australia

ACN Number: 009 000 775
Telephone Number: 61 (08) 9455 8300
Fax Number: 61 (08) 9455 5300

**Product Emergency Telephone**
Australia: 08-64244950
Papua New Guinea: 05 1 281 575 5000
NewZealand: 06-7559274

**Fire, Police & Ambulance - Emergency Telephone**
Australia: 000
Papua New Guinea: 000
New Zealand: 111

**Identification of Substances or Preparation**

**Product Trade Name:** FR-50D
**Synonyms:** None
**Chemical Family:** Salt Polymer Blend
**UN Number:** None
**Dangerous Goods Class:** None
**Subsidiary Risk:** None
**Hazchem Code:** None Allocated
**Poisons Schedule:** None Allocated
**Application:** Friction Reducer

**Prepared By**

Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT (w/w) | Australia NOHSC | New Zealand WES | ACGIH TLV-TWA |
|---|---|---|---|---|---|
| Salt | Proprietary | 60 - 100% | Not applicable | Not applicable | Not applicable |

**Non-Hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye, skin, and respiratory irritation.

**Risk Phrases** None

**HSNO Classification** 6.1E Acutely Toxic Substances
6.4A Irritating to the eye

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media**
All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**
None known.

**Special Exposure Hazards** Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special Protective Equipment for Fire-Fighters** Not applicable.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment. Avoid creating and breathing dust.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

**Procedure for Cleaning / Absorption** Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ground and bond containers when transferring from one container to another. Slippery when wet.

**Storage Information** Store in a cool, dry location. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Keep from heat, sparks, and open flames. Product has a shelf life of 24 months.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** Use in a well ventilated area.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.

HEPA Respirator.

**Hand Protection** Normal work gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Powder |
| **Color:** | White |
| **Odor:** | Slight |
| **pH:** | 9 (.5%) |
| **Specific Gravity @ 20 C (Water=1):** | 2.0 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/M3):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper ($g/m^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | Not Determined |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

**Stability Data:** Stable

**Hazardous Polymerization:** Will Not Occur

**Conditions to Avoid** None anticipated

**Incompatibility (Materials to Avoid)** Strong oxidizers.

**Hazardous Decomposition Products** Carbon monoxide and carbon dioxide. Ammonia.

**Additional Guidelines** Not Applicable

## 11. TOXICOLOGICAL INFORMATION

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Sympotoms related to exposure**

**Acute Toxicity**

**Inhalation** May cause respiratory irritation.
**Eye Contact** Causes eye irritation.
**Skin Contact** May cause skin irritation.
**Ingestion** Large doses may cause nausea, vomiting and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 1% are chronic health hazards.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Salt | Proprietary | 3 g/kg ( Rat ) | 10 g/kg ( Rabbit ) | 42 g/m³ ( Rat ) 1 h |

## 12. ECOLOGICAL INFORMATION

### Ecotoxicological Information

**Ecotoxicity Product**

**Acute Fish Toxicity:** LC50 (96): > 100 mg/l
**Acute Crustaceans Toxicity:** Not determined
**Acute Algae Toxicity:** Not determined

**Ecotoxicity Substance**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Daphnia Magna (Water Flea) |
|---|---|---|---|---|---|
| Salt | Proprietary | No information available | TLM96: > 1000 mg/l (Oncorhynchus mykiss) | No information available | TLM96: > 1,000,000 ppm (Mysidopsis bahia) |

**12.2 Persistence and degradability**
No information available

**12.3 Bioaccumulative potential**
No information available

**12.4 Mobility in soil**
No information available

**12.5 Results of PBT and vPvB assessment**
No information available.

**12.6 Other adverse effects**

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Bury in a licensed landfill according to federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**
Not restricted

HALLIBURTON

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **HYDROCHLORIC ACID**

**Revision Date:** 04-Jan-2010

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Statement of Hazardous Nature** Hazardous according to the criteria of NOHSC, Dangerous Goods according to the criteria of ADG.

**Manufacturer/Supplier**

Halliburton Australia Pty. Ltd.
53-55 Bannister Road
Canning Vale
WA 6155
Australia

ACN Number: 009 000 775
Telephone Number: 61 (08) 9455 8300
Fax Number: 61 (08) 9455 5300

**Product Emergency Telephone**
Australia: 08-64244950
Papua New Guinea: 05 1 281 575 5000
NewZealand: 06-7559274

**Fire, Police & Ambulance - Emergency Telephone**
Australia: 000
Papua New Guinea: 000
New Zealand: 111

**Identification of Substances or Preparation**

**Product Trade Name:** HYDROCHLORIC ACID
**Synonyms:** None
**Chemical Family:** Inorganic acid
**UN Number:** , UN1789
**Dangerous Goods Class:** 8
**Subsidiary Risk:** None
**Hazchem Code:** 2R
**Poisons Schedule:** S6
**Application:** Solvent

**Prepared By**

Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|---|
| Hydrochloric acid | 7647-01-0 | 30 - 60% | 5 ppm | 2 ppm |

**Total to 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye, skin, and respiratory burns. May be harmful if swallowed.

**Hazard Ratings**

| | |
|---|---|
| **Flammability:** | 0 |
| **Toxicty:** | 2 |
| **Body Contact:** | 3 |
| **Reactivity:** | 0 |
| **Chronic:** | 0 |

**Scale: Min/Nil=0 Low=1 Moderate=2 High=3 Extreme=4**

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult give oxygen. Get medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Get medical attention. Remove contaminated clothing and launder before reuse.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Ingestion** Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk and seek medical attention. Never give anything by mouth to an unconscious person.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons** None known.

**Special Exposure Hazards** May form explosive mixtures with strong alkalis. Decomposition in fire may produce toxic gases. Reaction with steel and certain other metals generates flammable hydrogen gas. Do not allow runoff to enter waterways.

**Special Protective Equipment for Fire-Fighters** Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

**Procedure for Cleaning / Absorption** Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Neutralize to pH of 6-8. Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Wash hands after use. Launder contaminated clothing before reuse.

**Storage Information** Store away from alkalis. Store in a cool well ventilated area. Keep container closed when not in use. Product has a shelf life of 24 months.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation.

**Respiratory Protection** Acid gas respirator.

**Hand Protection** Impervious rubber gloves.

**Skin Protection** Full protective chemical resistant clothing. Rubber boots.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Liquid |
| **Color:** | Clear colorless |
| **Odor:** | Pungent acrid |
| **pH:** | 0.8 |
| **Specific Gravity @ 20 C (Water=1):** | 1.18 |
| **Density @ 20 C (kg/l):** | 1.16 |
| **Bulk Density @ 20 C (kg/m$^3$):** | Not Determined |
| **Boiling Point/Range (C):** | 110 |
| **Freezing Point/Range (C):** | -46 |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | 26 |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | 35 |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistrokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 36.5 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

**Stability Data:** Stable

**Hazardous Polymerization:** Will Not Occur

**Conditions to Avoid** None anticipated

| | |
|---|---|
| **Incompatibility (Materials to Avoid)** | Strong alkalis. |
| **Hazardous Decomposition Products** | Flammable hydrogen gas. Chlorine. Hydrogen sulfide. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |
| **Inhalation** | Causes severe respiratory irritation. |
| **Skin Contact** | May cause skin burns. |
| **Eye Contact** | May cause eye burns. |
| **Ingestion** | Causes burns of the mouth, throat and stomach. |
| **Aggravated Medical Conditions** | Skin disorders. |
| **Chronic Effects/Carcinogenicity** | Prolonged, excessive exposure may cause erosion of the teeth. |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | Not determined |
| **Dermal Toxicity:** | Not determined |
| **Inhalation Toxicity:** | LC50: 3124 ppm/1 hr. (Rat) |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity** | Not determined |
| **Genotoxicity:** | Not determined |
| **Reproductive / Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

| | |
|---|---|
| **Mobility (Water/Soil/Air)** | Not determined |
| **Persistence/Degradability** | Not determined |
| **Bio-accumulation** | Not determined |

### Ecotoxicological Information

| | |
|---|---|
| **Acute Fish Toxicity:** | Not determined |
| **Acute Crustaceans Toxicity:** | Not determined |
| **Acute Algae Toxicity:** | Not determined |
| **Chemical Fate Information** | Not determined |
| **Other Information** | Not applicable |

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Disposal should be made in accordance with federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**

UN1789,Hydrochloric Acid Solution, 8, II

### Air Transportation

**ICAO/IATA**

UN1789,Hydrochloric Acid Solution, 8, IIRQ (Hydrochloric Acid - 2273 kg.)

### Sea Transportation

**IMDG**

UN1789,Hydrochloric Acid Solution, 8, IIRQ (Hydrochloric Acid - 2273 kg.)
EmS F-A, S-B

### Other Shipping Information

**Labels:** Corrosive

## 15. REGULATORY INFORMATION

**Chemical Inventories**

**Australian AICS Inventory** All components listed.
**US TSCA Inventory** All components listed on inventory or are exempt.
**EINECS Inventory** This product, and all its components, complies with EINECS

**Classification** C - Corrosive.

**Risk Phrases**
R34 Causes burns.
R37 Irritating to respiratory system.

**Safety Phrases**
S9 Keep container in a well ventilated place.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S45 In case of accident or if you feel unwell, seek medical advice immediately.
S1/2 Keep locked up and out of reach of children.
S36/37/39 Wear suitable protective clothing, gloves and eye/face protection.

## 16. OTHER INFORMATION

**The following sections have been revised since the last issue of this MSDS**
Not applicable

### Contact

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

**New Zealand National Poisons Centre**
0800 764 766

**Additional Information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Material Safety Data Sheet for this or other Halliburton products, contact Chemical Compliance at 1-580-251-4335.

HALLIBURTON

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **TLC-W3 - ROCK SALT**

**Revision Date:** 04-Jan-2011

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of NOHSC, Non-Dangerous Goods according to the criteria of ADG.

**Manufacturer/Supplier**

Halliburton Australia Pty. Ltd.
53-55 Bannister Road
Canning Vale
WA 6155
Australia

ACN Number: 009 000 775
Telephone Number: 61 (08) 9455 8300
Fax Number: 61 (08) 9455 5300

**Product Emergency Telephone**
Australia: 08-64244950
Papua New Guinea: 05 1 281 575 5000
NewZealand: 06-7559274

**Fire, Police & Ambulance - Emergency Telephone**
Australia: 000
Papua New Guinea: 000
New Zealand: 111

**Identification of Substances or Preparation**

**Product Trade Name:** TLC-W3 - ROCK SALT
**Synonyms:** None
**Chemical Family:** Inorganic Salt
**UN Number:** None
**Dangerous Goods Class:** None
**Subsidiary Risk:** None
**Hazchem Code:** None
**Poisons Schedule:** None
**Application:** Additive

**Prepared By**

Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|---|
| Sodium chloride | 7647-14-5 | 60 - 100% | Not applicable | Not applicable |

**Total to 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview** May cause eye, skin, and respiratory irritation.

**Hazard Ratings**

| | |
|---|---|
| **Flammability:** | 0 |
| **Toxicty:** | 0 |
| **Body Contact:** | 0 |
| **Reactivity:** | 0 |
| **Chronic:** | 0 |

**Scale: Min/Nil=0 Low=1 Moderate=2 High=3 Extreme=4**

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** All standard fire fighting media

**Extinguishing media which must not be used for safety reasons** None known.

**Special Exposure Hazards** Not applicable.

**Special Protective Equipment for Fire-Fighters** Not applicable.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment. Avoid creating and breathing dust.

**Environmental Precautionary Measures** Prevent from entering sewers, waterways, or low areas.

**Procedure for Cleaning / Absorption** Scoop up and remove.

## 7. HANDLING AND STORAGE

**Handling Precautions** Avoid creating or inhaling dust.

**Storage Information** Store in a cool, dry location. Product has a shelf life of 24 months.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** Use in a well ventilated area.

| | |
|---|---|
| **Respiratory Protection** | Not normally needed. But if significant exposures are possible then the following respirator is recommended:<br>Dust/mist respirator. (95%) |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Solid |
| **Color:** | White |
| **Odor:** | Odorless |
| **pH:** | Not Determined |
| **Specific Gravity @ 20 C (Water=1):** | 2.16 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/m$^3$):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Soluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistrokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 58.44 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None anticipated |
| **Incompatibility (Materials to Avoid)** | None known. |
| **Hazardous Decomposition Products** | None known. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Inhalation** May cause respiratory irritation.

**Skin Contact** Prolonged or repeated contact may cause skin irritation.

**Eye Contact** May cause eye irritation.

**Ingestion** None known

**Aggravated Medical Conditions** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 1% are chronic health hazards.

**Other Information** None known.

**Toxicity Tests**

**Oral Toxicity:** LD50: 3000 mg/kg (Rat)

**Dermal Toxicity:** Not determined

**Inhalation Toxicity:** Not determined

**Primary Irritation Effect:** Not determined

**Carcinogenicity** Not determined

**Genotoxicity:** Not determined

**Reproductive / Developmental Toxicity:** Not determined

## 12. ECOLOGICAL INFORMATION

**Mobility (Water/Soil/Air)** Not determined

**Persistence/Degradability** Not applicable

**Bio-accumulation** Not determined

### Ecotoxicological Information

**Acute Fish Toxicity:** Not determined
**Acute Crustaceans Toxicity:** Not determined
**Acute Algae Toxicity:** Not determined

**Chemical Fate Information** Not determined

**Other Information** Not applicable

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Bury in a licensed landfill according to federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. TRANSPORT INFORMATION

# MATERIAL SAFETY DATA SHEET

**Product Trade Name:** **CLWGAU421**

**Revision Date:** 05-Sep-2012

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of NOHSC, Non-Dangerous Goods according to the criteria of ADG.

**Manufacturer/Supplier**

Halliburton/Baroid Australia Pty. Ltd.
53-55 Bannister Road
Canning Vale
WA 6155
Australia

ACN Number: 009 000 775
Telephone Number: 61 (08) 9455 8300
Fax Number: 61 (08) 9455 5300

**Product Emergency Telephone**
Australia: 08-64244950
Papua New Guinea: 05 1 281 575 5000
New Zealand: 06-7559274

**Fire, Police & Ambulance - Emergency Telephone**
Australia: 000
Papua New Guinea: 000
New Zealand: 111

**Identification of Substances or Preparation**

**Product Trade Name:** CLWGAU421
**Synonyms:** None
**Chemical Family:** Carbohydrate
**UN Number:** None
**Dangerous Goods Class:** None
**Subsidiary Risk:** None
**Hazchem Code:** None
**Poisons Schedule:** None
**Application:** Gelling Agent

**Prepared By**

Chemical Compliance
Telephone: 1-580-251-4335
e-mail: fdunexchem@halliburton.com

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| Substances | CAS Number | PERCENT | Australia NOHSC | New Zealand OEL | ACGIH TLV-TWA |
|---|---|---|---|---|---|
| Polysaccharide | | 60 - 100% | Not applicable | Not applicable | Not applicable |

**Non-Hazardous Substance to Total of 100%**

## 3. HAZARDS IDENTIFICATION

| | |
|---|---|
| **Hazard Overview** | May cause eye, skin, and respiratory irritation. Airborne dust may be explosive. |
| **Risk Phrases** | None |
| **HSNO Classification** | 9.1C Substances that are harmful in the aquatic environment. |

## 4. FIRST AID MEASURES

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Skin** | Wash with soap and water. Get medical attention if irritation persists. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |
| **Notes to Physician** | Not Applicable |

## 5. FIRE FIGHTING MEASURES

| | |
|---|---|
| **Suitable Extinguishing Media** | Water fog, carbon dioxide, foam, dry chemical. |
| **Extinguishing media which must not be used for safety reasons** | None known. |
| **Special Exposure Hazards** | Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential. |
| **Special Protective Equipment for Fire-Fighters** | Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel. |

## 6. ACCIDENTAL RELEASE MEASURES

| | |
|---|---|
| **Personal Precautionary Measures** | Avoid creating and breathing dust. Slippery when wet. |
| **Environmental Precautionary Measures** | None known. |
| **Procedure for Cleaning / Absorption** | Scoop up and remove. |

## 7. HANDLING AND STORAGE

| | |
|---|---|
| **Handling Precautions** | Wash hands after use. Launder contaminated clothing before reuse. Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Avoid dust accumulations. Slippery when wet. Ground and bond containers when transferring from one container to another. |

**Storage Information** Store in a well ventilated area. Store away from oxidizers. Keep container closed when not in use. Store in a cool, dry location. Keep from heat, sparks, and open flames. Product has a shelf life of 24 months.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls** A well ventilated area to control dust levels. Local exhaust ventilation should be used in areas without good cross ventilation.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.

Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (95%)

**Hand Protection** Normal work gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Powder |
| **Color:** | White to off white |
| **Odor:** | Odorless |
| **pH:** | 6.5-8 (1%) |
| **Specific Gravity @ 20 C (Water=1):** | 1.6 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/m$^3$):** | 750 |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | > 370 |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | Not Determined |
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Forms gel |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | Not Determined |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None known. |
| **Incompatibility (Materials to Avoid)** | Strong oxidizers. |
| **Hazardous Decomposition Products** | Carbon monoxide and carbon dioxide. |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |
| **Inhalation** | May cause mild respiratory irritation. In high air concentrations: May impede respiration. |
| **Skin Contact** | May cause an allergic skin reaction. Prolonged or repeated contact may cause skin irritation. |
| **Eye Contact** | May cause mild eye irritation. |
| **Ingestion** | May cause allergic reaction. |
| **Aggravated Medical Conditions** | None known. |
| **Chronic Effects/Carcinogenicity** | No data available to indicate product or components present at greater than 1% are chronic health hazards. |
| **Other Information** | None known. |

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | Not determined |
| **Dermal Toxicity:** | Not determined |
| **Inhalation Toxicity:** | Not determined |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity** | Not determined |
| **Genotoxicity:** | Not determined |
| **Reproductive / Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

| | |
|---|---|
| **Mobility (Water/Soil/Air)** | Not determined |
| **Persistence/Degradability** | Readily biodegradable |
| **Bio-accumulation** | Not determined |

## Ecotoxicological Information

**Acute Fish Toxicity:** Not determined
**Acute Crustaceans Toxicity:** Not determined
**Acute Algae Toxicity:** Not determined

**Chemical Fate Information** Not determined

**Other Information** Not applicable

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method** Bury in a licensed landfill according to federal, state, and local regulations.

**Contaminated Packaging** Follow all applicable national or local regulations.

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

| SUBSTANCE | CAS Number | PERCENT | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | 60 - 100% | 0.1 mg/m$^3$ | 0.025 mg/m$^3$ |

**Total to 100%**

## 3. HAZARDS IDENTIFICATION

**Hazard Overview**

**CAUTION! - ACUTE HEALTH HAZARD**
May cause eye and respiratory irritation.

**DANGER! - CHRONIC HEALTH HAZARD**
Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposures below recommended exposure limits. Wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. Review the Material Safety Data Sheet (MSDS) for this product, which has been provided to your employer.

**Hazard Ratings**

| | |
|---|---|
| **Flammability:** | 0 |
| **Unknown Aquatic Toxicty** | 0 |
| **Body Contact:** | 0 |
| **Reactivity:** | 0 |
| **Chronic:** | 4 |

**Scale: Min/Nil=0 Low=1 Moderate=2 High=3 Extreme=4**

## 4. FIRST AID MEASURES

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Skin** Wash with soap and water.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Notes to Physician** Not Applicable

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** None - does not burn.

**Unsuitable Extinguishing Media** None known.

**Special Exposure Hazards** Not applicable.

**Special Protective Equipment for Fire-Fighters** Not applicable.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautionary Measures** Use appropriate protective equipment. Avoid creating and breathing dust.

| | |
|---|---|
| **Environmental Precautionary Measures** | None known. |
| **Procedure for Cleaning / Absorption** | Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal. |

## 7. HANDLING AND STORAGE

| | |
|---|---|
| **Handling Precautions** | This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet. |
| **Storage Information** | Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Product has a shelf life of 36 months. |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| | |
|---|---|
| **Engineering Controls** | Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits listed in Section 2. |
| **Respiratory Protection** | Wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product. |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Physical State:** | Solid |
| **Color:** | Brown |
| **Odor:** | Odorless |
| **pH:** | Not Determined |
| **Specific Gravity @ 20 C (Water=1):** | 2.63 - 2.67 |
| **Density @ 20 C (kg/l):** | Not Determined |
| **Bulk Density @ 20 C (kg/m$^3$):** | Not Determined |
| **Boiling Point/Range (C):** | Not Determined |
| **Freezing Point/Range (C):** | Not Determined |
| **Pour Point/Range (C):** | Not Determined |
| **Flash Point/Range (C):** | Not Determined |
| **Flash Point Method:** | Not Determined |
| **Autoignition Temperature (C):** | Not Determined |
| **Flammability Limits in Air - Lower (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Lower (%):** | Not Determined |
| **Flammability Limits in Air - Upper (g/m$^3$):** | Not Determined |
| **Flammability Limits in Air - Upper (%):** | Not Determined |
| **Vapor Pressure @ 20 C (mmHg):** | Not Determined |
| **Vapor Density (Air=1):** | Not Determined |
| **Percent Volatiles:** | 0 |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| | |
|---|---|
| **Evaporation Rate (Butyl Acetate=1):** | Not Determined |
| **Solubility in Water (g/100ml):** | Insoluble |
| **Solubility in Solvents (g/100ml):** | Not Determined |
| **VOCs (g/l):** | Not Determined |
| **Viscosity, Dynamic @ 20 C (centipoise):** | Not Determined |
| **Viscosity, Kinematic @ 20 C (centistrokes):** | Not Determined |
| **Partition Coefficient/n-Octanol/Water:** | Not Determined |
| **Molecular Weight (g/mole):** | 65 |
| **Decomposition Temperature (C):** | Not Determined |

## 10. STABILITY AND REACTIVITY

| | |
|---|---|
| **Stability Data:** | Stable |
| **Hazardous Polymerization:** | Will Not Occur |
| **Conditions to Avoid** | None known. |
| **Incompatibility (Materials to Avoid)** | Hydrofluoric acid. |
| **Hazardous Decomposition Products** | Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C). |
| **Additional Guidelines** | Not Applicable |

## 11. TOXICOLOGICAL INFORMATION

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |
| **Inhalation** | Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).<br><br>Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below). |
| **Skin Contact** | None known. |
| **Eye Contact** | May cause mechanical irritation to eye. |
| **Ingestion** | None known |
| **Aggravated Medical Conditions** | Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust. |

**Chronic Effects/Carcinogenicity**

Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).

There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

**Other Information**

For further information consult "Adverse Effects of Crystalline Silica Exposure" published by the American Thoracic Society Medical Section of the American Lung Association, American Journal of Respiratory and Critical Care Medicine, Volume 155, pages 761-768 (1997).

**Toxicity Tests**

| | |
|---|---|
| **Oral Toxicity:** | Not determined |
| **Dermal Toxicity:** | Not determined |
| **Inhalation Toxicity:** | Not determined |
| **Primary Irritation Effect:** | Not determined |
| **Carcinogenicity** | Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997). |
| **Genotoxicity:** | Not determined |
| **Reproductive / Developmental Toxicity:** | Not determined |

## 12. ECOLOGICAL INFORMATION

**Mobility (Water/Soil/Air)** Not determined

**Persistence/Degradability** Not applicable

**Bio-accumulation** Not Determined

### Ecotoxicological Information

**Acute Fish Toxicity:** Not determined
**Acute Crustaceans Toxicity:** Not determined

| | |
|---|---|
| **Acute Algae Toxicity:** | Not determined |
| **Chemical Fate Information** | Not determined |
| **Other Information** | Not applicable |

## 13. DISPOSAL CONSIDERATIONS

| | |
|---|---|
| **Disposal Method** | Bury in a licensed landfill according to federal, state, and local regulations. |
| **Contaminated Packaging** | Follow all applicable national or local regulations. |

## 14. TRANSPORT INFORMATION

### Land Transportation

**ADR**
Not restricted

### Air Transportation

**ICAO/IATA**
Not restricted

### Sea Transportation

**IMDG**
Not restricted

### Other Shipping Information

**Labels:** None

## 15. REGULATORY INFORMATION

**Chemical Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | Not Determined |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **EINECS Inventory** | This product, and all its components, complies with EINECS |
| **Classification** | Not Classified |
| **Risk Phrases** | None |
| **Safety Phrases** | None |

## 16. OTHER INFORMATION

**The following sections have been revised since the last issue of this MSDS**
Not applicable

## Contact

Print Date: **16/05/2014**
Initial Date: **Not Available**
S.GHS.AUS.EN

## SECTION 1 IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

### Product Identifier

| | |
|---|---|
| **Product name** | Tracerco T-140a |
| **Chemical Name** | Not Applicable |
| **Synonyms** | Not Available |
| **Proper shipping name** | Not Applicable |
| **Chemical formula** | Not Applicable |
| **Other means of identification** | Not Available |
| **CAS number** | Not Applicable |

### Relevant identified uses of the substance or mixture and uses advised against

| | |
|---|---|
| **Relevant identified uses** | Use according to manufacturer's directions. |

### Details of the supplier of the safety data sheet

| | | | |
|---|---|---|---|
| **Registered company name** | Tracerco | | |
| **Address** | 2 Harris Road Malaga 6090 WA Australia | | |
| **Telephone** | +61 8 9209 3905 | | |
| **Fax** | +61 8 9209 3725 | | |
| **Website** | www.tracerco.com | | |
| **Email** | admin.aus@tracerco.com | | |

### Emergency telephone number

| | | | |
|---|---|---|---|
| **Association / Organisation** | Not Available | | |
| **Emergency telephone numbers** | +61 8 9209 3905 (9am-5pm) | | |
| **Other emergency telephone numbers** | +61 8 9209 3905 (9am-5pm) | | |

## SECTION 2 HAZARDS IDENTIFICATION

### Classification of the substance or mixture

**HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the Model WHS Regulations and the ADG Code.**

#### CHEMWATCH HAZARD RATINGS

| | Min | Max |
|---|---|---|
| Flammability | 0 | |
| Toxicity | 2 | |
| Body Contact | 2 | |
| Reactivity | 0 | |
| Chronic | 0 | |

0 = Minimum
1 = Low
2 = Moderate
3 = High
4 = Extreme

| | |
|---|---|
| **Poisons Schedule** | Not Applicable |
| **GHS Classification [1]** | Acute Toxicity (Oral) Category 4, Acute Toxicity (Inhalation) Category 4, Skin Corrosion/Irritation Category 2, Eye Irrit. 2, STOT - SE (Resp. Irr.) Category 3 |

Continued...

| | |
|---|---|
| ***Legend:*** | *1. Classified by Chemwatch; 2. Classification drawn from HSIS ; 3. Classification drawn from EC Directive 1272/2008 - Annex VI* |

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 490-97-1 | 10-30 | sodium 2-fluorobenzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-140a | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.<br>The basic types of engineering controls are:<br>Process controls which involve changing the way a job activity or process is done to reduce the risk.<br>Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

### Respiratory protection

Continued...

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-140a

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 80 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |

Continued...

| | |
|---|---|
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

| | TOXICITY | IRRITATION |
|---|---|---|
| **Tracerco T-140a** | Not Available | Not Available |
| **sodium 2-fluorobenzoate** | Not Available | Not Available |
| **water** | Not Available | Not Available |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-140a** | Not available. |
| **SODIUM 2-FLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

|---|---|
| | Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

Chemwatch Hazard Alert Code: **1**

Chemwatch: **4886-94**
Version No: **2.1.1.1**
Safety Data Sheet according to WHS and ADG requirements

Issue Date: **25/02/2014**
Print Date: **16/05/2014**
Initial Date: **Not Available**
S.GHS.AUS.EN

## SECTION 1 IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

### Product Identifier

| | |
|---|---|
| **Product name** | Tracerco T-140b |
| **Chemical Name** | Not Applicable |
| **Synonyms** | Not Available |
| **Proper shipping name** | Not Applicable |
| **Chemical formula** | Not Applicable |
| **Other means of identification** | Not Available |
| **CAS number** | Not Applicable |

### Relevant identified uses of the substance or mixture and uses advised against

| | |
|---|---|
| **Relevant identified uses** | Use according to manufacturer's directions. |

### Details of the supplier of the safety data sheet

| | | | |
|---|---|---|---|
| **Registered company name** | Tracerco | | |
| **Address** | 2 Harris Road Malaga 6090 WA Australia | | |
| **Telephone** | +61 8 9209 3905 | | |
| **Fax** | +61 8 9209 3725 | | |
| **Website** | www.tracerco.com | | |
| **Email** | admin.aus@tracerco.com | | |

### Emergency telephone number

| | | | |
|---|---|---|---|
| **Association / Organisation** | Not Available | | |
| **Emergency telephone numbers** | +61 8 9209 3905 (9am-5pm) | | |
| **Other emergency telephone numbers** | +61 8 9209 3905 (9am-5pm) | | |

## SECTION 2 HAZARDS IDENTIFICATION

### Classification of the substance or mixture

**NON-HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the Model WHS Regulations and the ADG Code.**

**CHEMWATCH HAZARD RATINGS**

| | Min | Max |
|---|---|---|
| Flammability | **0** | |
| Toxicity | **1** | |
| Body Contact | **1** | |
| Reactivity | **0** | |
| Chronic | **0** | |

0 = Minimum
1 = Low
2 = Moderate
3 = High
4 = Extreme

| | |
|---|---|
| **Poisons Schedule** | Not Applicable |
| **GHS Classification** | Not Applicable |

Continued...

### Label elements

| | |
|---|---|
| **GHS label elements** | Not Applicable |
| SIGNAL WORD | **NOT APPLICABLE** |

### Hazard statement(s)

Not Applicable

### Precautionary statement(s): Prevention

Not Applicable

### Precautionary statement(s): Response

Not Applicable

### Precautionary statement(s): Storage

Not Applicable

### Precautionary statement(s): Disposal

Not Applicable

## SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

### Substances

See section below for composition of Mixtures

### Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 499-57-0 | 1-10 | sodium 3-fluorobenzoate |
| 7732-18-5 | >60 | water |

## SECTION 4 FIRST AID MEASURES

### Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention.<br>▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

Continued...

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

Continued...

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-140b | Not Available | Not Available |

## Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-140b

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |

Continued...

| | | | |
|---|---|---|---|
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 90 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Not normally a hazard due to non-volatile nature of product<br>The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Limited evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Limited evidence exists, or practical experience suggests, that the material may cause eye irritation in a substantial number of individuals and/or is expected to produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals. Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course. |

| | | |
|---|---|---|
| **Tracerco T-140b** | TOXICITY | IRRITATION |
| | Not Available | Not Available |

Continued...

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-140b** | Not available. |
| **SODIUM 3-FLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |
|---|---|---|---|
| **Acute Toxicity** | ⊘ | **Carcinogenicity** | ⊘ |
| **Skin Irritation/Corrosion** | ⊘ | **Reproductivity** | ⊘ |
| **Serious Eye Damage/Irritation** | ⊘ | **STOT - Single Exposure** | ⊘ |
| **Respiratory or Skin sensitisation** | ⊘ | **STOT - Repeated Exposure** | ⊘ |
| **Mutagenicity** | ⊘ | **Aspiration Hazard** | ⊘ |

### CMR STATUS

Not Applicable

## SECTION 12 ECOLOGICAL INFORMATION

### Toxicity

**DO NOT** discharge into sewer or waterways.

### Persistence and degradability

| Ingredient | Persistence: Water/Soil | Persistence: Air |
|---|---|---|
| Not Available | Not Available | Not Available |

### Bioaccumulative potential

| Ingredient | Bioaccumulation |
|---|---|
| Not Available | Not Available |

### Mobility in soil

| Ingredient | Mobility |
|---|---|
| Not Available | Not Available |

## SECTION 13 DISPOSAL CONSIDERATIONS

### Waste treatment methods

| | |
|---|---|
| **Product / Packaging disposal** | ▸ Recycle wherever possible.<br>▸ Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.<br>▸ Dispose of by: burial in a land-fill specifically licenced to accept chemical and / or pharmaceutical wastes or incineration in a licenced apparatus (after admixture with suitable combustible material).<br>▸ Decontaminate empty containers. |

## SECTION 14 TRANSPORT INFORMATION

### Labels Required

| | |
|---|---|
| **Marine Pollutant** | NO |

Continued...

| | |
|---|---|
| **HAZCHEM** | Not Applicable |

### Land transport (): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Air transport (ICAO-IATA / DGR): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## SECTION 15 REGULATORY INFORMATION

### Safety, health and environmental regulations / legislation specific for the substance or mixture

| | |
|---|---|
| **sodium 3-fluorobenzoate(499-57-0) is found on the following regulatory lists** | |
| **water(7732-18-5) is found on the following regulatory lists** | "WHO Model List of Essential Medicines - Adults","Australia Inventory of Chemical Substances (AICS)","OECD List of High Production Volume (HPV) Chemicals","OSPAR National List of Candidates for Substitution – Norway","IMO IBC Code Chapter 18: List of products to which the Code does not apply","Sigma-AldrichTransport Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

## SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

### Substances

See section below for composition of Mixtures

### Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 499-90-1 | 1-10 | sodium 4-fluorobenzoate |
| 7732-18-5 | >60 | water |

## SECTION 4 FIRST AID MEASURES

### Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention.<br>▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

Continued...

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Wear breathing apparatus plus protective gloves in the event of a fire.<br>‣ Prevent, by any means available, spillage from entering drains or water courses.<br>‣ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ‣ Non combustible.<br>‣ Not considered to be a significant fire risk.<br>‣ Expansion or decomposition on heating may lead to violent rupture of containers.<br>‣ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ‣ Clean up all spills immediately.<br>‣ Avoid breathing vapours and contact with skin and eyes.<br>‣ Control personal contact with the substance, by using protective equipment.<br>‣ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>‣ Clear area of personnel.<br>‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Control personal contact with the substance, by using protective equipment as required. |
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ‣ Limit all unnecessary personal contact.<br>‣ Wear protective clothing when risk of exposure occurs.<br>‣ Use in a well-ventilated area.<br>‣ When handling **DO NOT** eat, drink or smoke. |
| **Other information** | ‣ Store in original containers.<br>‣ Keep containers securely sealed.<br>‣ Store in a cool, dry, well-ventilated area.<br>‣ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ‣ Polyethylene or polypropylene container.<br>‣ Packing as recommended by manufacturer.<br>‣ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-140c | Not Available | Not Available |

## Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-140c

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Not normally a hazard due to non-volatile nature of product<br>The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Limited evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Limited evidence exists, or practical experience suggests, that the material may cause eye irritation in a substantial number of individuals and/or is expected to produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals. Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course. |

| | Not Available | Not Available |

Continued...

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-140c** | Not available. |
| **SODIUM 4-FLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |

### Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## SECTION 15 REGULATORY INFORMATION

### Safety, health and environmental regulations / legislation specific for the substance or mixture

| | |
|---|---|
| **sodium 4-fluorobenzoate(499-90-1) is found on the following regulatory lists** | |
| **water(7732-18-5) is found on the following regulatory lists** | "WHO Model List of Essential Medicines - Adults","Australia Inventory of Chemical Substances (AICS)","OECD List of High Production Volume (HPV) Chemicals","OSPAR National List of Candidates for Substitution – Norway","IMO IBC Code Chapter 18: List of products to which the Code does not apply","Sigma-AldrichTransport Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

## SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

### Substances

See section below for composition of Mixtures

### Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 1765-08-8 | 1-10 | sodium 2,4-difluorobenzoate |
| 7732-18-5 | >60 | water |

## SECTION 4 FIRST AID MEASURES

### Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention.<br>▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

Continued...

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Wear breathing apparatus plus protective gloves in the event of a fire.<br>‣ Prevent, by any means available, spillage from entering drains or water courses.<br>‣ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ‣ Non combustible.<br>‣ Not considered to be a significant fire risk.<br>‣ Expansion or decomposition on heating may lead to violent rupture of containers.<br>‣ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ‣ Clean up all spills immediately.<br>‣ Avoid breathing vapours and contact with skin and eyes.<br>‣ Control personal contact with the substance, by using protective equipment.<br>‣ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>‣ Clear area of personnel.<br>‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Control personal contact with the substance, by using protective equipment as required. |
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ‣ Limit all unnecessary personal contact.<br>‣ Wear protective clothing when risk of exposure occurs.<br>‣ Use in a well-ventilated area.<br>‣ When handling **DO NOT** eat, drink or smoke. |
| **Other information** | ‣ Store in original containers.<br>‣ Keep containers securely sealed.<br>‣ Store in a cool, dry, well-ventilated area.<br>‣ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ‣ Polyethylene or polypropylene container.<br>‣ Packing as recommended by manufacturer.<br>‣ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

Continued...

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-158a | Not Available | Not Available |

## Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

## Recommended material(s)

### GLOVE SELECTION INDEX

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-158a

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

## Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Not normally a hazard due to non-volatile nature of product<br>The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Limited evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Limited evidence exists, or practical experience suggests, that the material may cause eye irritation in a substantial number of individuals and/or is expected to produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals. Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course. |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 522651-42-9 | 10-30 | sodium 2,5-difluorobenzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-158b | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 80 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

Continued...

## Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

| | TOXICITY | IRRITATION |
|---|---|---|
| **Tracerco T-158b** | Not Available | Not Available |
| **sodium 2,5-difluorobenzoate** | Not Available | Not Available |
| **water** | Not Available | Not Available |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-158b** | Not available. |
| **SODIUM 2,5-DIFLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |

|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |

| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

Continued...

## Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-158c** | Not available. |
| **SODIUM 2,6-DIFLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 522651-44-1 | 10-30 | sodium 3,4-difluorobenzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-158d | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory

### Precautionary statement(s): Disposal

Not Applicable

## SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

### Substances

See section below for composition of Mixtures

### Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 522651-48-5 | <10 | sodium 2,4,5-trifluorobenzoate |
| 7732-18-5 | >60 | water |

## SECTION 4 FIRST AID MEASURES

### Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention.<br>▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

Continued...

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Wear breathing apparatus plus protective gloves in the event of a fire.<br>‣ Prevent, by any means available, spillage from entering drains or water courses.<br>‣ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ‣ Non combustible.<br>‣ Not considered to be a significant fire risk.<br>‣ Expansion or decomposition on heating may lead to violent rupture of containers.<br>‣ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ‣ Clean up all spills immediately.<br>‣ Avoid breathing vapours and contact with skin and eyes.<br>‣ Control personal contact with the substance, by using protective equipment.<br>‣ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>‣ Clear area of personnel.<br>‣ Alert Fire Brigade and tell them location and nature of hazard.<br>‣ Control personal contact with the substance, by using protective equipment as required. |
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ‣ Limit all unnecessary personal contact.<br>‣ Wear protective clothing when risk of exposure occurs.<br>‣ Use in a well-ventilated area.<br>‣ When handling **DO NOT** eat, drink or smoke. |
| **Other information** | ‣ Store in original containers.<br>‣ Keep containers securely sealed.<br>‣ Store in a cool, dry, well-ventilated area.<br>‣ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ‣ Polyethylene or polypropylene container.<br>‣ Packing as recommended by manufacturer.<br>‣ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

Continued...

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-176c | Not Available | Not Available |

## Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | General exhaust is adequate under normal operating conditions. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

**GLOVE SELECTION INDEX**

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-176c

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |

Continued...

| | | | |
|---|---|---|---|
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 90 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Not normally a hazard due to non-volatile nature of product<br>The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Limited evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Limited evidence exists, or practical experience suggests, that the material may cause eye irritation in a substantial number of individuals and/or is expected to produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals. Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course. |

| | | |
|---|---|---|
| **Tracerco T-176c** | TOXICITY | IRRITATION |
| | Not Available | Not Available |

Continued...

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-176c** | Not available. |
| **SODIUM 2,4,5-TRIFLUOROBENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |
|---|---|---|---|
| **Acute Toxicity** | ⦸ | **Carcinogenicity** | ⦸ |
| **Skin Irritation/Corrosion** | ⦸ | **Reproductivity** | ⦸ |
| **Serious Eye Damage/Irritation** | ⦸ | **STOT - Single Exposure** | ⦸ |
| **Respiratory or Skin sensitisation** | ⦸ | **STOT - Repeated Exposure** | ⦸ |
| **Mutagenicity** | ⦸ | **Aspiration Hazard** | ⦸ |

### CMR STATUS

Not Applicable

## SECTION 12 ECOLOGICAL INFORMATION

### Toxicity

**DO NOT** discharge into sewer or waterways.

### Persistence and degradability

| Ingredient | Persistence: Water/Soil | Persistence: Air |

| **HAZCHEM** | Not Applicable |

### Land transport (): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Air transport (ICAO-IATA / DGR): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## SECTION 15 REGULATORY INFORMATION

### Safety, health and environmental regulations / legislation specific for the substance or mixture

| | |
|---|---|
| **sodium 2,4,5-trifluorobenzoate(522651-48-5) is found on the following regulatory lists** | |
| **water(7732-18-5) is found on the following regulatory lists** | "WHO Model List of Essential Medicines - Adults","Australia Inventory of Chemical Substances (AICS)","OECD List of High Production Volume (HPV) Chemicals","OSPAR National List of Candidates for Substitution – Norway","IMO IBC Code Chapter 18: List of products to which the Code does not apply","Sigma-AldrichTransport Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 2966-44-1 | 10-30 | sodium 2-(trifluoromethyl)benzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-190a | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.<br>The basic types of engineering controls are:<br>Process controls which involve changing the way a job activity or process is done to reduce the risk.<br>Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |

### GLOVE SELECTION INDEX

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-190a

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-190a** | Not available. |
| **SODIUM 2-(TRIFLUOROMETHYL)BENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 69226-41-1 | 10-30 | sodium 3-(trifluoromethyl)benzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-190b | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.<br>The basic types of engineering controls are:<br>Process controls which involve changing the way a job activity or process is done to reduce the risk.<br>Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

### Respiratory protection

Continued...

### GLOVE SELECTION INDEX

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-190b

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

## Label elements

| | |
|---|---|
| **GHS label elements** |  |
| **SIGNAL WORD** | **WARNING** |

## Hazard statement(s)

| | |
|---|---|
| **H302** | Harmful if swallowed |
| **H332** | Harmful if inhaled |
| **H315** | Causes skin irritation |
| **H319** | Causes serious eye irritation |
| **H335** | May cause respiratory irritation |

## Precautionary statement(s): Prevention

| | |
|---|---|
| **P271** | Use only outdoors or in a well-ventilated area. |
| **P261** | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| **P270** | Do not eat, drink or smoke when using this product. |
| **P280** | Wear protective gloves/protective clothing/eye protection/face protection. |

## Precautionary statement(s): Response

| | |
|---|---|
| **P321** | Specific treatment (see advice on this label). |
| **P305+P351+P338** | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| **P337+P313** | If eye irritation persists: Get medical advice/attention. |
| **P301+P312** | IF SWALLOWED: Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. |

## Precautionary statement(s): Storage

| | |
|---|---|
| **P405** | Store locked up. |
| **P403+P233** | Store in a well-ventilated place. Keep container tightly closed. |

## Precautionary statement(s): Disposal

| | |
|---|---|
| **P501** | Dispose of contents/container to authorised chemical landfill or if organic to high temperature incineration |

# SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

| CAS No | %[weight] | Name |
|---|---|---|
| 25832-58-0 | 10-30 | sodium 4-(trifluoromethyl)benzoate |
| 7732-18-5 | >60 | water |

# SECTION 4 FIRST AID MEASURES

## Description of first aid measures

| | |
|---|---|
| **Eye Contact** | If this product comes in contact with the eyes:<br>▸ Wash out immediately with fresh running water.<br>▸ Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.<br>▸ Seek medical attention without delay; if pain persists or recurs seek medical attention. |

Continued...

| | |
|---|---|
| | ▸ Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
| **Skin Contact** | If skin contact occurs:<br>▸ Immediately remove all contaminated clothing, including footwear.<br>▸ Flush skin and hair with running water (and soap if available).<br>▸ Seek medical attention in event of irritation. |
| **Inhalation** | ▸ If fumes, aerosols or combustion products are inhaled remove from contaminated area.<br>▸ Other measures are usually unnecessary. |
| **Ingestion** | ▸ If swallowed do **NOT** induce vomiting.<br>▸ If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.<br>▸ Observe the patient carefully.<br>▸ Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.<br>▸ Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.<br>▸ Seek medical advice. |

### Indication of any immediate medical attention and special treatment needed

| | |
|---|---|
| | Treat symptomatically. |

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

| | |
|---|---|
| | ▸ There is no restriction on the type of extinguisher which may be used.<br>▸ Use extinguishing media suitable for surrounding area. |

### Special hazards arising from the substrate or mixture

| | |
|---|---|
| **Fire Incompatibility** | None known. |

### Advice for firefighters

| | |
|---|---|
| **Fire Fighting** | ▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Wear breathing apparatus plus protective gloves in the event of a fire.<br>▸ Prevent, by any means available, spillage from entering drains or water courses.<br>▸ Use fire fighting procedures suitable for surrounding area. |
| **Fire/Explosion Hazard** | ▸ Non combustible.<br>▸ Not considered to be a significant fire risk.<br>▸ Expansion or decomposition on heating may lead to violent rupture of containers.<br>▸ Decomposes on heating and may produce toxic fumes of carbon monoxide (CO). |

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

| | |
|---|---|
| **Minor Spills** | ▸ Clean up all spills immediately.<br>▸ Avoid breathing vapours and contact with skin and eyes.<br>▸ Control personal contact with the substance, by using protective equipment.<br>▸ Contain and absorb spill with sand, earth, inert material or vermiculite. |
| **Major Spills** | Minor hazard.<br>▸ Clear area of personnel.<br>▸ Alert Fire Brigade and tell them location and nature of hazard.<br>▸ Control personal contact with the substance, by using protective equipment as required. |

| | |
|---|---|
| | Personal Protective Equipment advice is contained in Section 8 of the MSDS. |

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

| | |
|---|---|
| **Safe handling** | ▸ Limit all unnecessary personal contact.<br>▸ Wear protective clothing when risk of exposure occurs.<br>▸ Use in a well-ventilated area.<br>▸ When handling **DO NOT** eat, drink or smoke. |

Continued...

| | |
|---|---|
| **Other information** | ▸ Store in original containers.<br>▸ Keep containers securely sealed.<br>▸ Store in a cool, dry, well-ventilated area.<br>▸ Store away from incompatible materials and foodstuff containers. |

### Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Suitable container** | ▸ Polyethylene or polypropylene container.<br>▸ Packing as recommended by manufacturer.<br>▸ Check all containers are clearly labelled and free from leaks. |
| **Storage incompatibility** | None known |

**PACKAGE MATERIAL INCOMPATIBILITIES**

Not Available

## SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

### Control parameters

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

**INGREDIENT DATA**

Not Available

**EMERGENCY LIMITS**

| Ingredient | TEEL-0 | TEEL-1 | TEEL-2 | TEEL-3 |
|---|---|---|---|---|
| water | 500(ppm) | 500(ppm) | 500(ppm) | 500(ppm) |

| Ingredient | Original IDLH | Revised IDLH |
|---|---|---|
| Tracerco T-190c | Not Available | Not Available |

### Exposure controls

| | |
|---|---|
| **Appropriate engineering controls** | Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection.<br>The basic types of engineering controls are:<br>Process controls which involve changing the way a job activity or process is done to reduce the risk.<br>Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment. |
| **Personal protection** |  |
| **Eye and face protection** | Safety glasses with side shields.<br>Chemical goggles.<br>Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
| **Skin protection** | See Hand protection below |
| **Hand protection** | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.<br>The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and.has to be observed when making a final choice.<br>Suitability and durability of glove type is dependent on usage. |
| **Body protection** | See Other protection below |
| **Other protection** | ▸ Overalls.<br>▸ Eyewash unit. |
| **Thermal hazards** | Not Available |

### Recommended material(s)

### Respiratory protection

Continued...

### GLOVE SELECTION INDEX

Glove selection is based on a modified presentation of the:
***"Forsberg Clothing Performance Index".***
The effect(s) of the following substance(s) are taken into account in the ***computer-generated*** selection:
Tracerco T-190c

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter; the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 80 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |

Continued...

| | |
|---|---|
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

| | TOXICITY | IRRITATION |
|---|---|---|
| **Tracerco T-190c** | Not Available | Not Available |
| **sodium 4-(trifluoromethyl)benzoate** | Not Available | Not Available |
| **water** | Not Available | Not Available |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-190c** | Not available. |
| **SODIUM 4-(TRIFLUOROMETHYL)BENZOATE** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |

| | |
|---|---|
| | apply","Sigma-AldrichTransport Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.
A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

Tracerco T-194a

### Respiratory protection

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ANSI Z88 or national equivalent)

Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required.
Degree of protection varies with both face-piece and Class of filter;

Continued...

| Material | CPI |
|---|---|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |

* CPI - Chemwatch Performance Index
A: Best Selection
B: Satisfactory; may degrade after 4 hours continuous immersion
C: Poor to Dangerous Choice for other than short term immersion
**NOTE**: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -
* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

the nature of protection varies with Type of filter.

| Required Minimum Protection Factor | Half-Face Respirator | Full-Face Respirator | Powered Air Respirator |
|---|---|---|---|
| up to 10 x ES | -AUS P2 | - | -PAPR-AUS / Class 1 P2 |
| up to 50 x ES | - | -AUS / Class 1 P2 | - |
| up to 100 x ES | - | -2 P2 | -PAPR-2 P2 ^ |

^ - Full-face
A(All classes) = Organic vapours, B AUS or B1 = Acid gasses, B2 = Acid gas or hydrogen cyanide(HCN), B3 = Acid gas or hydrogen cyanide(HCN), E = Sulfur dioxide(SO2), G = Agricultural chemicals, K = Ammonia(NH3), Hg = Mercury, NO = Oxides of nitrogen, MB = Methyl bromide, AX = Low boiling point organic compounds(below 65 degC)

## SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | Liquid; mixes with water. |

| | | | |
|---|---|---|---|
| **Physical state** | Liquid | **Relative density (Water = 1)** | Not Available |
| **Odour** | Not Available | **Partition coefficient n-octanol / water** | Not Available |
| **Odour threshold** | Not Available | **Auto-ignition temperature (°C)** | Not Applicable |
| **pH (as supplied)** | Not Available | **Decomposition temperature** | Not Available |
| **Melting point / freezing point (°C)** | Not Available | **Viscosity (cSt)** | Not Available |
| **Initial boiling point and boiling range (°C)** | Not Available | **Molecular weight (g/mol)** | Not Applicable |
| **Flash point (°C)** | Not Applicable | **Taste** | Not Available |
| **Evaporation rate** | Not Available | **Explosive properties** | Not Available |
| **Flammability** | Not Applicable | **Oxidising properties** | Not Available |
| **Upper Explosive Limit (%)** | Not Applicable | **Surface Tension (dyn/cm or mN/m)** | Not Available |
| **Lower Explosive Limit (%)** | Not Applicable | **Volatile Component (%vol)** | 80 |
| **Vapour pressure (kPa)** | Not Available | **Gas group** | Not Available |
| **Solubility in water (g/L)** | Miscible | **pH as a solution(1%)** | Not Available |
| **Vapour density (Air = 1)** | Not Available | **VOC g/L** | Not Available |

## SECTION 10 STABILITY AND REACTIVITY

| | |
|---|---|
| **Reactivity** | See section 7 |
| **Chemical stability** | Product is considered stable and hazardous polymerisation will not occur. |
| **Possibility of hazardous reactions** | See section 7 |
| **Conditions to avoid** | See section 7 |
| **Incompatible materials** | See section 7 |
| **Hazardous decomposition products** | See section 5 |

## SECTION 11 TOXICOLOGICAL INFORMATION

### Information on toxicological effects

Continued...

| | |
|---|---|
| **Inhaled** | Evidence shows, or practical experience predicts, that the material produces irritation of the respiratory system, in a substantial number of individuals, following inhalation. In contrast to most organs, the lung is able to respond to a chemical insult by first removing or neutralising the irritant and then repairing the damage. The repair process, which initially evolved to protect mammalian lungs from foreign matter and antigens, may however, produce further lung damage resulting in the impairment of gas exchange, the primary function of the lungs. Respiratory tract irritation often results in an inflammatory response involving the recruitment and activation of many cell types, mainly derived from the vascular system. |
| **Ingestion** | Accidental ingestion of the material may be damaging to the health of the individual.<br>Ingestion may result in nausea, abdominal irritation, pain and vomiting |
| **Skin Contact** | Evidence exists, or practical experience predicts, that the material either produces inflammation of the skin in a substantial number of individuals following direct contact, and/or produces significant inflammation when applied to the healthy intact skin of animals, for up to four hours, such inflammation being present twenty-four hours or more after the end of the exposure period. Skin irritation may also be present after prolonged or repeated exposure; this may result in a form of contact dermatitis (nonallergic). The dermatitis is often characterised by skin redness (erythema) and swelling (oedema) which may progress to blistering (vesiculation), scaling and thickening of the epidermis. At the microscopic level there may be intercellular oedema of the spongy layer of the skin (spongiosis) and intracellular oedema of the epidermis. |
| **Eye** | Evidence exists, or practical experience predicts, that the material may cause eye irritation in a substantial number of individuals and/or may produce significant ocular lesions which are present twenty-four hours or more after instillation into the eye(s) of experimental animals.<br>Repeated or prolonged eye contact may cause inflammation characterised by temporary redness (similar to windburn) of the conjunctiva (conjunctivitis); temporary impairment of vision and/or other transient eye damage/ulceration may occur. |
| **Chronic** | Long-term exposure to respiratory irritants may result in disease of the airways involving difficult breathing and related systemic problems. |

| | | |
|---|---|---|
| **Tracerco T-194a** | **TOXICITY** | **IRRITATION** |
| | Not Available | Not Available |
| **2,3,4,5-tetrafluorobenzoic acid, sodium** | **TOXICITY** | **IRRITATION** |
| | Not Available | Not Available |
| **water** | **TOXICITY** | **IRRITATION** |
| | Not Available | Not Available |

** Value obtained from manufacturer's msds*
*unless otherwise specified data extracted from RTECS - Register of Toxic Effects of Chemical Substances*

| | |
|---|---|
| **Tracerco T-194a** | Not available. |
| **2,3,4,5-TETRAFLUOROBENZOIC ACID, SODIUM** | Asthma-like symptoms may continue for months or even years after exposure to the material ceases. This may be due to a non-allergenic condition known as reactive airways dysfunction syndrome (RADS) which can occur following exposure to high levels of highly irritating compound. Key criteria for the diagnosis of RADS include the absence of preceding respiratory disease, in a non-atopic individual, with abrupt onset of persistent asthma-like symptoms within minutes to hours of a documented exposure to the irritant. A reversible airflow pattern, on spirometry, with the presence of moderate to severe bronchial hyperreactivity on methacholine challenge testing and the lack of minimal lymphocytic inflammation, without eosinophilia, have also been included in the criteria for diagnosis of RADS. |
| **WATER** | No significant acute toxicological data identified in literature search. |

| | | | |
|---|---|---|---|
| **Acute Toxicity** | ⊘ | **Carcinogenicity** | ⊘ |
| **Skin Irritation/Corrosion** | ✔ | **Reproductivity** | ⊘ |

### CMR STATUS

Not Applicable

## SECTION 12 ECOLOGICAL INFORMATION

### Toxicity

**DO NOT** discharge into sewer or waterways.

### Persistence and degradability

| Ingredient | Persistence: Water/Soil | Persistence: Air |
|---|---|---|
| Not Available | Not Available | Not Available |

### Bioaccumulative potential

| Ingredient | Bioaccumulation |
|---|---|
| Not Available | Not Available |

### Mobility in soil

| Ingredient | Mobility |
|---|---|
| Not Available | Not Available |

## SECTION 13 DISPOSAL CONSIDERATIONS

### Waste treatment methods

| | |
|---|---|
| **Product / Packaging disposal** | ▸ Recycle wherever possible.<br>▸ Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.<br>▸ Dispose of by: burial in a land-fill specifically licenced to accept chemical and / or pharmaceutical wastes or incineration in a licenced apparatus (after admixture with suitable combustible material).<br>▸ Decontaminate empty containers. |

## SECTION 14 TRANSPORT INFORMATION

### Labels Required

| | |
|---|---|
| **Marine Pollutant** | NO |
| **HAZCHEM** | Not Applicable |

### Land transport (): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Air transport (ICAO-IATA / DGR): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

## SECTION 15 REGULATORY INFORMATION

### Safety, health and environmental regulations / legislation specific for the substance or mixture

| | |
|---|---|
| **2,3,4,5-tetrafluorobenzoic acid, sodium(67852-79-3) is found on the following regulatory lists** | |
| **water(7732-18-5) is found on the following regulatory lists** | "WHO Model List of Essential Medicines - Adults","Australia Inventory of Chemical Substances (AICS)","OECD List of High Production Volume (HPV) Chemicals","OSPAR National List of Candidates for Substitution – Norway","IMO IBC Code Chapter 18: List of products to which the Code does not apply","Sigma-AldrichTransport Information","Australia High Volume Industrial Chemical List (HVICL)","International Fragrance Association (IFRA) Survey: Transparency List" |

## SECTION 16 OTHER INFORMATION

### Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.

Continued...

A list of reference resources used to assist the committee may be found at:
www.chemwatch.net/references

The (M)SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

# SAFETY DATA SHEET

## 1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Product name:** 300

**Supplier:**
Tracerco
PO Box 1
Belasis Hall Technology Park
Billingham
Cleveland
TS23 1LB
UK
Tel: +44 (0)1642 375500 Fax: +44 (0)1642 370704
www.tracerco.com

**Emergency telephone:**
+44 (0)1642 375500

**Intended use:** Diagnostic services

**Contact person:**
Peter.Scaife@matthey.com

## 2 HAZARDS IDENTIFICATION

The product has been classified according to the legislation in force.

**Classification:** | Xi; R36/37/38 |

The full text for all R-phrases is displayed in Section 16.

**Potential health effects**

**Inhalation:** Irritating to respiratory system.

**Eye contact:** Irritating to eyes. Eye may become red, tear, and become painful.

**Skin contact:** Irritating to skin. May cause pain, redness and itching.

**Ingestion:** May cause discomfort if swallowed.

**Other health effects:** The toxicological properties of this compound have not been fully investigated.

**Potential physical / chemical effects:** This product is not flammable.

**Environment:** The product components are not classified as environmentally hazardous. However, this does not

exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## 3 COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name | EC No. | CAS-No. | Concentration * | Classification | Notes |
|---|---|---|---|---|---|
| 300 | | | >= 99% | Xi;R36/37/38 | - |

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

The full text for all R-phrases is displayed in Section 16.

## 4 FIRST-AID MEASURES

**Inhalation:** Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Eye contact:** Flush thoroughly with water for at least 15 minutes. Get medical assistance.

**Skin contact:** Wash contact areas with soap and water. Get medical attention promptly if symptoms occur after washing.

**Ingestion:** Rinse mouth thoroughly with water and give large amounts of milk or water to people not unconscious. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Inappropriate extinguishing media:** Not applicable.

**Special fire fighting procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual fire & explosion hazards:** During fire, gases hazardous to health may be formed.

**Hazardous combustion products:** Carbon oxides, Hydrogen fluoride

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by

permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limit values:** No exposure limits noted for ingredient(s).

**Engineering controls:** Use explosion-proof ventilation equipment. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.

**Respiratory protection:** In case of inadequate ventilation use suitable respirator. Use respiratory equipment with combination filter, type A2/P2. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Wear approved safety glasses or goggles.

**Hand protection:** Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** Wear suitable protective clothing.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Colourless
**Odour:** Odourless
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** No data available.
**Freezing point:** No data available.
**Boiling Point:** 45°C (113°F)
**Relative density:** 1.6
**Vapour pressure:** No data available.
**Vapour density (air=1):** No data available.

**Evaporation rate:** No data available.
**Solubility in water:** Not miscible
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** Not applicable
**Flash point:** No data available.
**Autoignition temperature:** No data available.
**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Strong oxidising agents.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** Irritating to respiratory system.

**Eye contact:** Irritating to eyes. Eye may become red, tear, and become painful.

**Skin contact:** Irritating to skin. May cause pain, redness and itching.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** The product is insoluble in water.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 08*

## 14 TRANSPORT INFORMATION

**ADR/RID** Not regulated.

**IMDG** Not regulated.

**IATA** Not regulated.

## 15 REGULATORY INFORMATION

Irritant.

R36/37/38; Irritating to eyes, respiratory system and skin.

## 16 OTHER INFORMATION

**Wording of the R-phrases in sections 2 and 3:** R36; Irritating to eyes. R37; Irritating to respiratory system. R38; Irritating to skin.

**Inventory status:** All substances are listed on EINECS.

**Issue date:** 21-Aug-2008
**Supercedes date:**
**SDS No.:** 1015390
