**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Starch | No information available | No information available | No information available |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | 0.12 - 0.21 m LC50 Oncorhynchus mykiss 96 h 10.0 - 22.0 mg/L LC50 Cyprinus carpio 96 h 12 - 31.7 mg/L LC50 Oncorhynchus mykiss 96 h 0.2 - 0.4 mg/L LC50 Lepomis macrochirus 96 h | = 1 mg/L EC50 Desmodesmus subspicatus 96 h | 0.26 - 0.37 mg/L EC50 Daphnia magna 48 h 9.5 - 14.8 mg/L EC50 Daphnia magna 48 h = 0.3 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

No product level data available.

## 12.3 Bioaccumulative potential

No product level data available.

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the**

**occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## POLY-SAL* T

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-SAL* T
**Product code** PID1247
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fluid loss reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

_

**Contains**
Starch

### 2.3 Other hazards

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Starch | Listed | Proprietary | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to

hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Dry chemical, $CO_2$, water spray or regular foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Material becomes slippery when wet. Use caution if wet. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery. May cause sensitization of susceptible persons.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Take precautionary measures against static discharges. Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Starch | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Starch | Not determined | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Starch | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Starch | 10 mg/m³ TWA | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Starch | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Local authorities should be advised if significant spillages cannot be contained See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules Powder Dust |
| **Odor** | Odorless |
| **Color** | Tan |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5 - 7 | @ 4% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |

| | |
|---|---|
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | No information available |
| **Vapor density** | No information available |
| **Specific gravity** | No information available |
| **Bulk density** | 400 - 561 kg/m³ / 23 - 35 lb/ft³ |
| **Relative density** | 1.5 sg |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Protect from moisture. Avoid dust formation. Avoid contact with heat, sparks, open flame, and static discharge.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Starch | No data available | No data available | No data available |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Starch | No information available | No information available | No information available |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## POLYSWELL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLYSWELL*
**Product code** PID676

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Swells on contact with water. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with

water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep at 0-35°C Avoid contact with: Oxidizing agents Strong acids |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | None |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | > 150 °C / > 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.8 - 1.0 | |
| **Bulk density** | 0.65 - 0.75 | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water Swells on contact with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150°C / 302°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |

**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep at temperatures between 0-35°C.

### 10.5 Incompatible materials

Oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) (MIXTURE) |
| **LD50 Dermal** | > 5000 mg/kg (rat) (MIXTURE) |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
IC50/Scenedesmus subspicatus/72 hrs > 100 mg/L (OECD201.

**Toxicity to fish**
LC50/Danio rerio/96 hrs > 100 mg/L (OECD203)
LC50/Oncorhynchus mykiss/96 hrs > 100 mg/L (OECD203).

**Toxicity to daphnia and other aquatic invertebrates**
EC50/Daphnia magna/48 hrs > 100 mg/L OECD202).

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
-2

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## POROSEAL* Plus

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POROSEAL* Plus
**Product code** 143296
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Hydrocarbon.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away

traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from freezing Avoid extreme temperatures Keep away from direct sunlight. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Use protective gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness 0.4 mm |

| | |
|---|---|
| | Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Milky |
| **Odor** | Mild |
| **Color** | White |
| **Odor threshold** | No information available |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 5 - 8 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 93 °C / 200 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 17.5 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.03 | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from freezing. Avoid extreme temperatures. Keep away from direct sunlight.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## POROSEAL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POROSEAL*
**Product code** PID17311
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtration-control. Shale stabilizer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 67 009 214 162
Level 5
10 Telethon Avenue
Perth
WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin sensitization | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H317 - May cause an allergic skin reaction

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves and eye/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | mixture | 55965-84-9 | < 0.005 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth

to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Hydrocarbon.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from freezing

**Storage class** Chemical storage.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| | | | |
|---|---|---|---|
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Milky white |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 10 | conc. sol. |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | 17.5 mmHg | @ 20 °C |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | 1.02 | |
| **Bulk density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |
| **Explosive properties** | Not applicable | |
| **Oxidizing properties** | None known. | |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Protect from freezing.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one | = 53 mg/kg ( Rat ) | No data available | = 1.23 mg/L ( Rat ) 4 h = 0.11 mg/L ( Rat ) 4 h |

**Sensitization** May cause sensitization by skin contact.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish. LC50 (96 hrs): 16188 mg/l (estimated).

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates. EC50 (48 hrs): 7471 mg/l (estimated).

**Toxicology data for the components**

**12.2 Persistence and degradability**
Not readily biodegradable.

**12.3 Bioaccumulative potential**
No product level data available.

**12.4 Mobility**
**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

**12.5 Other adverse effects**
None known.

**12.6 Other information.**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-4-isothiazolin-3-one
Schedule 6

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

This SDS is not for use in the European Union (EU).

## 16. Other Information

**Prepared by** Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse

| | |
|---|---|
| **Supersedes Date:** | 07-Apr-2016 |
| **Revision date** | 25-Mar-2021 |
| **Version** | 6 |
| **This SDS has been revised in the following section(s)** | All sections There have been changes with regard to classification. |

**Key literature references and sources for data**

*A mark of M-I L.L.C., a Schlumberger Company

# Safety Data Sheet
# POTASSIUM CHLORIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POTASSIUM CHLORIDE BRINE
**Product code** PID1290

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains**
Potassium Chloride

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Potassium Chloride | 231-211-8 | 7447-40-7 | 5-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Seek medical attention if irritation occurs.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Strong acids Strong alkalies.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Potassium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Potassium Chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Potassium Chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will

vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | ~ 7 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -7 °C / 19.4 °F | |
| **Boiling point/range** | 102 °C / 215.6 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |

| | |
|---|---|
| **Specific gravity** | 1.01 - 1.17 |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids. Strong alkalies.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Potassium Chloride | 750 - 1020 mg/L LC50 Pimephales promelas 96 h = 1060 mg/L LC50 Lepomis macrochirus 96 h | = 2500 mg/L EC50 Desmodesmus subspicatus 72 h | = 83 mg/L EC50 Daphnia magna 48 h = 825 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Z. Proper Shipping Name: Potassium chloride solution

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium Chloride
Schedule 4

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

# Safety Data Sheet
## Potassium Chloride M117

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Potassium Chloride M117
**Product code** M117

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Clay control agent in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

**4.3 Indication of any immediate medical attention and special treatment needed**

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating and toxic gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

#### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Crystalline |
| **Odor** | Very faint |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 8-11 | H2O soln |
| **Melting / freezing point** | 770 °C / 1418 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 1.100 kg/m³ | |
| **Relative density** | 1.989 g/cm³ | |
| **Water solubility** | 300 g/l | @ 20 °C |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation.

### 10.5 Incompatible materials

No information available.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. If spilled, take caution, as material can cause surfaces to become very slippery. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep away from heat, sparks, and flame. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, |

respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Slight |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | ~7 | @ 1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.5 sg | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | ~351 °C / ~663.8 °F | |
| **Decomposition temperature** | ~175°C / ~347°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Avoid dust formation. Heat, flames and sparks.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) (product) |
| **LC50 Inhalation** | > 5 mg/l (dust) (rat, 4 hr) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
PTS-200*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** PTS-200*
**Product code** PID4

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Temperature stabilizer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Dermal | Category 4 |
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 |
| Skin corrosion/irritation | Category 1 Subcategory 1B |
| Serious eye damage/eye irritation | Category 1 |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards**

| | |
|---|---|
| Acute aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H312 - Harmful in contact with skin
H314 - Causes severe skin burns and eye damage
H332 - Harmful if inhaled
H335 - May cause respiratory irritation
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P271 - Use only outdoors or in a well-ventilated area
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P302 + P350 - IF ON SKIN: Gently wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P312 - Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P363 - Wash contaminated clothing before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
2-aminoethanol

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of toxic and corrosive gases/vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-aminoethanol | 205-483-3 | 141-43-5 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Immediate medical attention is required.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use halon type extinguisher.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Ammonia.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Prevent the formation of vapors, mists and aerosols. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong acids Strong oxidizing agents Nitrites Aluminum Copper Carbon steel Avoid extreme temperatures Keep away from direct sunlight.

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical

hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes<br>Chemical splash goggles and/or face shield |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Nitrile<br>Break through time >480 minutes<br>Glove thickness 0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Amine |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 11.5 - 12 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 171 °C / 340 °F | |
| **Flash point** | > 96 °C / > 205 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 70 hPa | @ 20 °C |

| | |
|---|---|
| **Vapor density** | No information available |
| **Specific gravity** | 1.0 - 1.02 |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | Not applicable |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Corrosive.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Not known.

**10.4 Conditions to avoid**

Avoid extreme temperatures. Keep away from direct sunlight.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids. Nitrites. Aluminum. Copper. Carbon steel.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Harmful by inhalation. Corrosive to the respiratory tract. May cause respiratory irritation. Vapours are corrosive. After 24-36 hours, injured persons may develop serious shortness of

| | |
|---|---|
| | breath and lung oedema. Vapours irritate the respiratory system, and may cause coughing and difficulties in breathing. |
| **Eye contact** | Causes serious eye damage. May cause irreversible damage to eyes. |
| **Skin contact** | Harmful in contact with skin. Causes severe skin burns. May be absorbed through the skin in harmful amounts. |
| **Ingestion** | Harmful if swallowed. Can burn mouth, throat, and stomach. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-aminoethanol | = 1720 mg/kg (Rat) | = 1000 mg/kg (Rabbit)<br>= 1 mL/kg (Rabbit) | > 1.3 mg/l Vapour 6h (Rat) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Ingestion. Inhalation. |
| **Routes of entry** | Ingestion. Inhalation. Skin contact. Eye contact. |
| **Specific target organ toxicity - Single exposure** | Category 3 |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Target organ effects** | Respiratory system. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

**12.1 Toxicity**

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**

See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-aminoethanol | > 200 mg/L LC50 Oncorhynchus mykiss 96 h<br>= 3684 mg/L LC50 Brachydanio rerio 96 h<br>300 - 1000 mg/L LC50 Lepomis macrochirus 96 h<br>114 - 196 mg/L LC50 Oncorhynchus mykiss 96 h<br>= 227 mg/L LC50 Pimephales promelas 96 h | = 15 mg/L EC50 Desmodesmus subspicatus 72 h | = 65 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

Not readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-aminoethanol | Readily biodegradable |

## 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2-aminoethanol | Does not bioaccumulate log Kow -1.91 |

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

.

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Sulphur oxides, Carbon oxides (COx), Heating or fire can release toxic gas.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong oxidizing agents Strong acids Strong alkalies. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Faint |
| **Color** | Brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 4 - 5 | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.2 | 20 °C |
| **Bulk density** | 480 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids. Strong alkalies.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause irritation of respiratory tract. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |

# Safety Data Sheet
## RFC Agent D111

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** RFC Agent D111
**Product code** D111

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Corrosive to Metals | Category 1 |

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P406 - Store in corrosion resistant container with a resistant inner liner

**Supplementary precautionary statements**
P234 - Keep only in original container
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P390 - Absorb spillage to prevent material damage
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Aluminum sulfate hydrate

Iron sulphate

Sulfuric acid

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Aluminum sulfate hydrate | 233-135-0 | 10043-01-3 | 30-60 |
| Iron sulphate | 231-753-5 | 7720-78-7 | 1-5 |
| Sulfuric acid | 231-639-5 | 7664-93-9 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Immediate medical attention is required.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of toxic and corrosive gases/vapors Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong bases Metals

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes
Chemical splash goggles and/or face shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Rubber
Break through time >480 minutes

| | |
|---|---|
| | Glove thickness >=0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Solution |
| **Odor** | None |
| **Color** | Light green |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 1.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / 212 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.3 | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 10 mm2/s | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive. Corrosive to Metals.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong bases. Metals.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhaled corrosive substances can lead to a toxic edema of the lungs. |
| **Eye contact** | Causes serious eye damage. |
| **Skin contact** | Causes severe skin burns. |
| **Ingestion** | Ingestion causes burns of the upper digestive and respiratory tracts. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Aluminum sulfate hydrate | = 1930 mg/kg ( Rat ) | No data available | No data available |
| Iron sulphate | = 319 mg/kg ( Rat ) | = 155 mg/kg ( Rat ) | No data available |
| Sulfuric acid | = 2140 mg/kg ( Rat ) | No data available | 85 - 103 mg/m³ ( Rat ) 1 h |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Inhalation. Eye contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Aluminum sulfate hydrate | = 37 mg/L LC50 Gambusia affinis 96 h = 100 mg/L LC50 Carassius auratus 96 h | No information available | = 136 mg/L EC50 Daphnia magna 15 min |
| Iron sulphate | = 0.56 mg/L LC50 Cyprinus carpio 96 h = 925 mg/L LC50 Poecilia reticulata 96 h | No information available | 6.15 - 9.26 mg/L EC50 Daphnia magna 48 h = 152 mg/L EC50 Daphnia magna 48 h |
| Sulfuric acid | > 500 mg/L LC50 Brachydanio rerio 96 h | No information available | = 29 mg/L EC50 Daphnia magna 24 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN 3264 |
| **UN No. (IMDG/ANTAQ)** | UN 3264 |
| **UN No. (ICAO/ANAC)** | UN 3264 |

### 14.2. UN proper shipping name

CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. (contains sulfuric acid),

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | III |
| **IMDG/ANTAQ Packing group** | III |
| **ICAO/ANAC Packing group** | III |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Australian Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP)
Iron sulphate
Schedule 4
Schedule 6
Schedule 5
Sulfuric acid
Schedule 6

| | |
|---|---|
| **HSNO approval no.** | HSR002542 |
| **Group number** | 8.1A, 8.3A, 8.2 |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## SACK BLACK*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SACK BLACK*
**Product code** PID2687
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale inhibitor.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd / ALPINE
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the

length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. If spilled, take caution, as material can cause surfaces to become very slippery. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Protect from moisture Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard

present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Black |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 140-205 °C / 284-401 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | 315 °C / 590 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.04 - 1.06 | @ 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 500 °C / 932 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## SAFE-CARB* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-CARB* (All Grades)
**Product code** PID1361

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material. Weighting agent. Bridging material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Calcium carbonate

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Product dust may be irritating to eyes, skin and respiratory system

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**3.2 Mixtures**

Not applicable

**Comments**
Naturally occuring mineral.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn.

Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium carbonate | Not determined | 10mg/m³TWAinhalable dust | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Calcium carbonate | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Calcium carbonate | Not determined | Not determined | 10 mg/m³ TWA |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Calcium carbonate | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA |

| | | | Fibrogenic substance glass;regulated under Quartz 1123, 1124 |
|---|---|---|---|
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Calcium carbonate | Not determined | 10 mg/m³ TWA | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required. Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against powders and dusts
Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Repeated or prolonged contact
Use protective gloves made of: Nitrile Neoprene
Frequent change is advisable

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Solid
**Appearance** Powder Dust
**Odor** Odorless
**Color** White
**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |

| | | |
|---|---|---|
| **pH @ dilution** | 8.5 - 9.5 | @ 100 g/l |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.6 - 2.8 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | 825 °C / 1517°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium carbonate | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Sandra McWilliam |
| **Supersedes Date:** | 07-Jul-2018 |
| **Revision date** | 09-Feb-2019 |
| **Version** | 10 |
| **This SDS has been revised in the following section(s)** | 1, 8, 15, 16 No changes with regard to classification have been made. |

# Safety Data Sheet
## SAFE-COR*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-COR*
**Product code** PID1370

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Corrosion inhibitor

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | 272-712-1 | 68909-77-3 | 30-60 |

**Comments**
Based on test data – Skin corrosion/irritation (OECD 404 Skin Rabbit), this product is not corrosive or irritant.
Based on test data – Serious eye damage/irritation (EPA OPPTS: 870.2400 Eye Rabbit), this product is irritant.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid frost. Store at room temperature Avoid contact with: Acids Nitrites |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Contains no substances with occupational exposure limit values No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene PVC Nitrile
Break through time >480 minutes
Glove thickness 0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing and gloves, including the inside, before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Dark amber |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | ~ 11.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | 151.6 °C / 305 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.10 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 4 cP | @ 25 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | -12°C (<11°F ) |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Store at room temperature. Avoid frost.

### 10.5 Incompatible materials

Acids. Do not add nitrites or other nitrosating agents to this product. May cause formation of nitrosamine.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | 5000 mg/kg (Rat) | >2000 mg/kg (Rat) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity -** Not classified.

**Repeated exposure**

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivs. residues | OECD; Acute LC50; 96 hours Semi-static; Fish > 45 g/l | OECD; Acute ErC50 (growth rate); 72 hours Static; Algae; 45 mg/kg OECD 201 Algae, Growth Inhibitor Test; Chronic NOECr; 72 hours Static; Algae; 3.2 mg/l | OECD; Acute EC50; 48 hours Static, Daphnia; > 100 g/l |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

No bioaccumulation expected due to high molecular weight.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR003599 |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 11-Jan-2017 |
| **Revision date** | 14-Nov-2019 |
| **Version** | 12 |
| **This SDS has been revised in the following section(s)** | 1, 2, 7, 8, 9, 15, 16 No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## SAFE-LUBE*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-LUBE*
**Product code** PID2290
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lubricant

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards**

| | |
|---|---|
| Acute aquatic toxicity | Category 2 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation
H401 - Toxic to aquatic life

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P391 - Collect spillage

**Contains**
1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | 280-518-3 | 83682-78-4 | 5-<10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Characteristic |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 93 °C / > 200 °F | |
| **Flash point** | > 93 °C / > 200 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.01 | @ 16 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | > 2000 mg/kg (Rat) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Eye contact. |
| **Routes of entry** | Eye contact. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

Toxic to aquatic life

**Toxicity to algae**
EC50 1.9mg/l Skeletonema costatum (72h) - SLB Product level Data.

**Toxicity to fish**
LC50 > 4mg/l Scophthalmus maximus (96h) - SLB Product level Data.

**Toxicity to daphnia and other aquatic invertebrates**
LC50 31.5 mg/l Acartia tonsa (48h) - SLB Product level Data.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 1-Propanaminium, 3,3',3''-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,Ndimethyl-, N,N',N''-tri-C6-18 acyl derivs, trichlorides | LC50 1-10mg/l 96h | EC50 0.19 mg/l 72h | EC50 1-10mg/l 48h |

### 12.2 Persistence and degradability

This product is expected to be readily biodegradable.

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## SAFE-SCAV* CA

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SCAV* CA
**Product code** PID1387

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Oxygen Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning,

flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents Strong bases Metals |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Nitrile Butyl Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European |

| | |
|---|---|
| | Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Crystalline |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5.5 - 8.0 | @ 10% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.65 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |

| | |
|---|---|
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges.

### 10.5 Incompatible materials

Metals. Strong bases. Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 23-Nov-2016 |
| **Revision date** | 24-Oct-2019 |
| **Version** | 9 |

**This SDS has been revised in the following section(s)** 4, 6, 7, 8, 15, 16 No changes with regard to classification have been made.

# Safety Data Sheet
## SAFE-SCAV* HS

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SCAV* HS
**Product code** PID1388

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Hydrogen Sulphide Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Inhalation (Vapors) | Category 2 |
| Serious eye damage/eye irritation | Category 2 |
| Skin sensitization | Category 1 |
| Specific target organ toxicity - Repeated exposure | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H317 - May cause an allergic skin reaction
H319 - Causes serious eye irritation
H330 - Fatal if inhaled
H372 - Causes damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves/protective clothing and eye/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P314 - Get medical advice/attention if you feel unwell
P330 - Rinse mouth
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P337 + P313 - If eye irritation persists: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P391 - Collect spillage

**Contains**
Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine

2-aminoethanol (Impurity)

Formaldehyde (impurity)

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

H330 classification is applied due to Inhalation Acute Toxicity studies carried out in Aerosol form
Prevent the formation of aerosols.

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | 225-208-0 | 4719-04-4 | 30-60 |
| 2-aminoethanol (Impurity) | 205-483-3 | 141-43-5 | <2 |
| Formaldehyde (impurity) | 200-001-8 | 50-00-0 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
Formaldehyde is not present as a substance. It is formed during decomposition.

Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.
Note D: Certain substances which are susceptible to spontaneous polymerisation or decomposition are generallyplaced on the market in a stabilised form. It is in this form that they are listed in Part 3.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — Call a physician or poison control center immediately. Move the exposed person to fresh air at once. Keep at rest. If breathing is difficult, (trained personnel should) give oxygen.

**Ingestion** — Rinse mouth. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Seek medical attention at once.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention at once.

**Eye Contact** — Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use halon type extinguisher.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Formaldehyde.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not breathe vapors or spray mist. Avoid contact with skin and eyes. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product. Prevent the formation of vapors, mists and aerosols.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid frost. Avoid contact with: Strong acids Strong oxidizing agents

**Storage class** Toxic storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Formaldehyde is not present as a substance. It is formed during decomposition.
No biological limit allocated

**Component Information**

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes
Chemical splash goggles and/or face shield

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile Neoprene Butyl Rubber
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
Use respirator with organic vapor protection (A, brown) If there are conditions in which this triazine containing product produces a vapor, a chemical respirator with A1 + Formaldehyde and P3 particulate pre-filter combination would be required.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Amine |
| **Color** | Colorless - Pale yellow |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 10.0 - 11.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 67 °C / 152.6 °F | ASTM D 93-11 |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | < -20°C / -4°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.05 - 1.15 g/ml @ 20°C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Contact with strong acids develops formaldehyde.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Avoid frost.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product may contain or release trace amounts of formaldehyde. The International Agency for Research on Cancer (IARC) has classified formaldehyde as a Group 1carcinogen (limited evidence in humans, sufficient evidence in animals). Exposure to formaldehyde has been linked to adverse reproductive effects in some human and animal studies. In other reproductive studies, however, no adverse effects were noted. (Meditext). Formaldehyde may also cause skin sensitisation (allergic reaction).

**Inhalation** Fatal if inhaled. Causes damage to organs through prolonged or repeated exposure.

**Eye contact** Causes serious eye irritation.

**Skin contact** Causes skin irritation. May cause an allergic skin reaction.

**Ingestion** Harmful if swallowed. May cause additional affects as listed under "Inhalation".

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|

| 2-aminoethanol (Impurity) | = 1720 mg/kg ( Rat ) | = 1000 mg/kg ( Rabbit ) = 1 mL/kg ( Rabbit ) | No data available |
| Formaldehyde (impurity) | = 100 mg/kg ( Rat ) | = 270 mg/kg ( Rabbit ) | = 0.578 mg/L ( Rat ) 4 h |

| | |
|---|---|
| **Sensitization** | May cause allergic skin reaction. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | Formaldehyde is listed by IARC in Group 1 as carcinogenic to humans. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation (Aerosol). Skin contact. Eye contact. Ingestion. |
| **Routes of entry** | Inhalation. Skin contact. Ingestion. Eye contact. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Category 1. |
| **Target organ effects** | Respiratory system. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | > 168 mg/l LC50 96h Sheepshead Minnow (SLB data) | 1.624 mg/l EC50 72h Skeletonema (SLB data) | 99.68 mg/l KC50 48h Acartia (SLB data) |
| 2-aminoethanol (Impurity) | 114 - 196 mg/L LC50 Oncorhynchus mykiss 96 h = 227 mg/L LC50 Pimephales promelas 96 h = 3684 mg/L LC50 Brachydanio rerio 96 h 300 - 1000 mg/L LC50 Lepomis macrochirus 96 h > 200 mg/L LC50 Oncorhynchus mykiss 96 h | = 15 mg/L EC50 Desmodesmus subspicatus 72 h | = 65 mg/L EC50 Daphnia magna 48 h |
| Formaldehyde (impurity) | 22.6 - 25.7 mg/L LC50 Pimephales promelas 96 h = 1510 µg/L LC50 Lepomis macrochirus 96 h = 41 mg/L LC50 Brachydanio rerio 96 h | No information available | 11.3 - 18 mg/L EC50 Daphnia magna 48 h = 2 mg/L LC50 Daphnia magna 48 h |

| | | | |
|---|---|---|---|
| | 0.032 - 0.226 mL/L LC50 Oncorhynchus mykiss 96 h 100 - 136 mg/L LC50 Oncorhynchus mykiss 96 h 23.2 - 29.7 mg/L LC50 Pimephales promelas 96 h | | |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Readily biodegradable |
| 2-aminoethanol (Impurity) | Readily biodegradable |
| Formaldehyde (impurity) | Rapidly biodegradable |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Not likely to bioaccumulate log Kow <=3 |
| 2-aminoethanol (Impurity) | Product does not bioaccumulate due to reaction with water |
| Formaldehyde (impurity) | Does not bioaccumulate log Pow =0.35 |

## 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Soluble in water |
| Formaldehyde (impurity) | Miscible in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Study does not need to be conducted because the substance is readily biodegradable |
| 2-aminoethanol (Impurity) | Study does not need to be conducted because the substance is readily biodegradable |
| Formaldehyde (impurity) | Henry's Law Constant 0.034 (in Pa m³/mol) @ 25 °C |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN2810 |
| **UN No. (IMDG/ANTAQ)** | UN2810 |
| **UN No. (ICAO/ANAC)** | UN2810 |

**14.2. UN proper shipping name**
TOXIC LIQUID, ORGANIC, N.O.S. (Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine)

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 6.1 |
| **IMDG/ANTAQ Hazard class** | 6.1 |
| **ICAO/ANAC Hazard class/division** | 6.1 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | II |
| **IMDG/ANTAQ Packing group** | II |
| **ICAO/ANAC Packing group** | II |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 60 |
| **EmS (IMDG)** | F-A, S-A |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (D/E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-aminoethanol (Impurity)
Schedule 4
Schedule 6
Schedule 5
Formaldehyde (impurity)
Schedule 6

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR005127 |
| **Group number** | 6.1D, 6.1E, 6.5B, 6.4A, 6.9A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 02-Feb-2018 |

| | |
|---|---|
| **Revision date** | 13-Mar-2019 |
| **Version** | 11 |
| **This SDS has been revised in the following section(s)** | 1, 2, 15, 16 There have been changes with regard to classification. Updated according to GHS/CLP. |

# Safety Data Sheet
## SAFE-SCAV* HSB

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SCAV* HSB
**Product code** PID16244

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Hydrogen Sulphide Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Inhalation (Vapors) | Category 3 |
| Serious eye damage/eye irritation | Category 2 |
| Skin sensitization | Category 1 |
| Specific target organ toxicity - Repeated exposure | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H317 - May cause an allergic skin reaction
H319 - Causes serious eye irritation
H331 - Toxic if inhaled
H372 - Causes damage to organs through prolonged or repeated exposure

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P330 - Rinse mouth
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P311 - Call a POISON CENTER or doctor/physician
P314 - Get medical advice/attention if you feel unwell
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P337 + P313 - If eye irritation persists: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

**Contains**
Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine

Water

Formaldehyde (impurity)

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating and toxic gases and vapors

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | 225-208-0 | 4719-04-4 | 30-60 |
| Water | 231-791-2 | 7732-18-5 | 30-60 |
| Formaldehyde (impurity) | 200-001-8 | 50-00-0 | 0-0.1 |

**Comments**
Based on test data - (ATE inhalation: 0.7232 mg/l) H330 does not apply.

Formaldehyde is not present as a substance. It is formed during decomposition. Formaldehyde is listed by IARC in Group 1 as carcinogenic to humans

Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.
Note D: Certain substances which are susceptible to spontaneous polymerisation or decomposition are generallyplaced on the market in a stabilised form. It is in this form that they are listed in Part 3.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Never give anything by mouth to an unconscious person.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Formaldehyde.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Acids Keep at -5 - 40°C

**Storage class** Toxic storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Formaldehyde is not present as a substance. It is formed during decomposition. No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes
Chemical splash goggles and/or face shield

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) If there are conditions in which this triazine containing product produces a vapor, a chemical respirator with A1 + Formaldehyde and P2 particulate pre-filter combination would be required. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** Aqueous solution

| | |
|---|---|
| **Odor** | Amine |
| **Color** | Amber |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |

| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | <10 cSt | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep at temperatures above -5 and < 40°C.

### 10.5 Incompatible materials

Strong oxidizing agents. Acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product may contain or release trace amounts of formaldehyde. The International Agency for Research on Cancer (IARC) has classified formaldehyde as a Group 1carcinogen (limited evidence in humans, sufficient evidence in animals). Exposure to formaldehyde has been linked to adverse reproductive effects in some human and animal studies. In other reproductive studies, however, no adverse effects were noted. (Meditext). Formaldehyde may also cause skin sensitisation (allergic reaction).

**Inhalation** Toxic if inhaled. Causes damage to organs through prolonged or repeated exposure.

**Eye contact** Causes serious eye irritation.

**Skin contact** May cause an allergic skin reaction.

**Ingestion** Harmful if swallowed. May cause additional affects as listed under "Inhalation".

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | 1000 mg/kg (Rat) (BASF AG, 1997) | > 4000 mg/kg (Rat) (BASF AG,1997) | 0.371 mg/L (Aerosol) (Rat) (Triazine Taskforce, 2011) |
| Water | > 90 mL/kg ( Rat ) | No data available | No data available |
| Formaldehyde (impurity) | = 100 mg/kg ( Rat ) | = 270 mg/kg ( Rabbit ) | = 0.578 mg/L ( Rat ) 4 h |

**Sensitization** May cause sensitization by skin contact.

**Mutagenic effects** Contains an known or suspected mutagen.

**Carcinogenicity** Formaldehyde is listed by IARC in Group 1 as carcinogenic to humans.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Ingestion. Skin contact.

**Routes of entry** Inhalation. Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 1.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Readily biodegradable |
| Formaldehyde (impurity) | Rapidly biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Not likely to bioaccumulate log Kow <=3 |
| Formaldehyde (impurity) | Does not bioaccumulate log Pow =0.35 |

**log Pow**
-1.5 - 0.2

### 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Soluble in water |
| Formaldehyde (impurity) | Miscible in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Hexahydro-1,3,5-tris(2-hydroxyethyl)-sym-triazine | Study does not need to be conducted because the substance is readily biodegradable |
| Formaldehyde (impurity) | Henry's Law Constant 0.034 (in Pa m³/mol) @ 25 °C |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN2810
**UN No. (IMDG/ANTAQ)** UN2810
**UN No. (ICAO/ANAC)** UN2810

### 14.2. UN proper shipping name

TOXIC LIQUID, ORGANIC, N.O.S. (2, 2', 2''-(hexahydro-1, 3, 5-triazine -1, 3, 5-triyl) triethanol)

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 6.1 |
| **IMDG/ANTAQ Hazard class** | 6.1 |
| **ICAO/ANAC Hazard class/division** | 6.1 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | II |
| **IMDG/ANTAQ Packing group** | II |
| **ICAO/ANAC Packing group** | II |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 60 |
| **EmS (IMDG)** | F-A, S-A |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (D/E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Formaldehyde (impurity)
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 28-Jul-2016 |
| **Revision date** | 10-Jul-2018 |
| **Version** | 5 |
| **This SDS has been revised in the following section(s)** | All sections There have been changes with regard to classification. Updated according to GHS/CLP. |

# Safety Data Sheet
## SAFE-SCAV* HSW

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SCAV* HSW
**Product code** PID11903
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Hydrogen Sulphide Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Inhalation (Dusts/Mists) | Category 3 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Category 1 |
| Specific target organ toxicity - Single exposure | Category 2 |

| | |
|---|---|
| Specific target organ toxicity - Repeated exposure | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Flammable Liquids | Category 3 |

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H331 - Toxic if inhaled
H371 - May cause damage to organs
H372 - Causes damage to organs through prolonged or repeated exposure
H226 - Flammable liquid and vapor

**Precautionary statements**
P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P240 - Ground/bond container and receiving equipment
P241 - Use explosion-proof electrical/ ventilating/ lighting/ equipment
P242 - Use only non-sparking tools
P243 - Take precautionary measures against static discharge
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P308 + P311 - IF exposed or concerned: Call a POISON CENTER or doctor
P314 - Get medical advice/attention if you feel unwell
P330 - Rinse mouth
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed

P403 + P235 - Store in a well-ventilated place. Keep cool
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol

Methanol

2-aminoethanol

Formaldehyde (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | 225-208-0 | 4719-04-4 | 30-60 |
| Methanol | 200-659-6 | 67-56-1 | 5-10 |
| 2-aminoethanol | 205-483-3 | 141-43-5 | 1-5 |
| Formaldehyde (impurity) | 200-001-8 | 50-00-0 | <1 |

**Comments**
Formaldehyde is not present as a substance. It is formed during decomposition.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. Seek medical attention at once.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention at once.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Seek immediate medical attention/advice.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to

hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire, Do not use halon type extinguisher.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
FLAMMABLE. Vapors are heavier than air and may spread along floors. Vapors may travel considerable distance to source of ignition and flash back.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Formaldehyde.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** •3W

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Dike to collect large liquid spills. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Take precautionary measures against static discharges. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Ground and bond containers when transferring material. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Prevent the formation of vapors, mists and aerosols. Avoid spills and splashing during use. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Use spark-proof tools and explosion-proof equipment. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Oxidizing agents

**Storage class** Flammable liquid storage. Toxic storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Formaldehyde is not present as a substance. It is formed during decomposition.

**Component Information**

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Use protective gloves made of: Nitrile Neoprene Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) If there are conditions in which this triazine containing product produces a vapor, a chemical respirator with A1 + Formaldehyde and P2 particulate pre-filter combination would be required. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Amine |
| **Color** | Pale yellow - Straw |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 10 - 11.5 | (5% IPA/H20) |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 52 °C / 125.6 °F | Closed cup |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 63.7 mmHg | @ 37.8 °C |
| **Vapor density** | >1 | (Air = 1.0) |
| **Specific gravity** | 1.074 | @ 16 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 14-16 cPs | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | -37°C (-34.6°F) |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

FLAMMABLE LIQUID AND VAPOR. Contact with strong acids develops formaldehyde.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Keep away from open flames, hot surfaces and sources of ignition.

**10.5 Incompatible materials**

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product may contain or release trace amounts of formaldehyde. The International Agency for Research on Cancer (IARC) has classified formaldehyde as a Group 1carcinogen (limited evidence in humans, sufficient evidence in animals). Exposure to formaldehyde has been linked to adverse reproductive effects in some human and animal studies. In other reproductive studies, however, no adverse effects were noted. (Meditext). Formaldehyde may also cause skin sensitisation (allergic reaction).

**Inhalation** Toxic if inhaled. Causes damage to organs through prolonged or repeated exposure.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. May cause an allergic skin reaction. Components of the product may be absorbed into the body through the skin.

**Ingestion** Harmful if swallowed.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|

| Methanol | = 6200 mg/kg ( Rat ) | = 15840 mg/kg ( Rabbit ) = 15800 mg/kg ( Rabbit ) | = 22500 ppm ( Rat ) 8 h = 64000 ppm ( Rat ) 4 h |
| 2-aminoethanol | = 1720 mg/kg (Rat) | = 1000 mg/kg (Rabbit) = 1 mL/kg (Rabbit) | > 1.3 mg/l Vapour 6h (Rat) |
| Formaldehyde (impurity) | = 100 mg/kg ( Rat ) | = 270 mg/kg ( Rabbit ) | = 0.578 mg/L ( Rat ) 4 h |

**Sensitization** May cause sensitization by skin contact.

**Mutagenic effects** This substance has no evidence of mutagenic properties.

**Carcinogenicity** Formaldehyde is listed by IARC in Group 1 as carcinogenic to humans.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Ingestion. Skin contact. Eye contact.

**Routes of entry** Inhalation. Ingestion. Skin absorption.

**Specific target organ toxicity - Single exposure** Category 2

**Specific target organ toxicity - Repeated exposure** Category 1.

**Target organ effects** Respiratory system.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2,2',2''-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | > 168 mg/l LC50 96h Sheepshead Minnow (SLB data) | 1.624 mg/l EC50 72h Skeletonema (SLB data) | 99.68 mg/l KC50 48h Acartia (SLB data) |
| Methanol | 13500 - 17600 mg/L LC50 Lepomis macrochirus 96 h 18 - 20 mL/L LC50 Oncorhynchus mykiss 96 h 19500 - 20700 mg/L LC50 Oncorhynchus mykiss 96 h > 100 mg/L LC50 Pimephales promelas 96 h = 28200 mg/L LC50 Pimephales promelas 96 h | EC50= 22000 mg/l - Duration h: 96 - Notes: Literature data. | EC50> 10000 mg/l - Duration h: 48 - Notes: Literature data. |
| 2-aminoethanol | > 200 mg/L LC50 Oncorhynchus mykiss 96 h = 3684 mg/L LC50 Brachydanio rerio 96 h 300 - 1000 mg/L LC50 Lepomis macrochirus 96 h 114 - 196 mg/L LC50 Oncorhynchus mykiss 96 h = 227 mg/L LC50 Pimephales promelas 96 h | = 15 mg/L EC50 Desmodesmus subspicatus 72 h | = 65 mg/L EC50 Daphnia magna 48 h |
| Formaldehyde (impurity) | 23.2 - 29.7 mg/L LC50 Pimephales promelas 96 h 100 - 136 mg/L LC50 Oncorhynchus mykiss 96 h 0.032 - 0.226 mL/L LC50 Oncorhynchus mykiss 96 h = 41 mg/L LC50 Brachydanio rerio 96 h = 1510 µg/L LC50 Lepomis macrochirus 96 h 22.6 - 25.7 mg/L LC50 Pimephales promelas 96 h | No information available | 11.3 - 18 mg/L EC50 Daphnia magna 48 h = 2 mg/L LC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2,2',2"-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Readily biodegradable |
| 2-aminoethanol | Readily biodegradable |
| Formaldehyde (impurity) | Rapidly biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2,2',2"-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Not likely to bioaccumulate log Kow <=3 |
| 2-aminoethanol | Does not bioaccumulate log Kow -1.91 |
| Formaldehyde (impurity) | Does not bioaccumulate log Pow =0.35 |

**log Pow**
-1.5 - 0.2

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| 2,2',2"-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Soluble in water |
| Formaldehyde (impurity) | Miscible in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| 2,2',2"-(Hexahydro-1,3,5-triazin-1,3,5-triyl)triethanol | Study does not need to be conducted because the substance is readily biodegradable |
| Formaldehyde (impurity) | Henry's Law Constant 0.034 (in Pa m³/mol) @ 25 °C |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Do not burn, or use a cutting torch on, the empty drum. Empty containers may contain flammable or explosive vapors. Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

.

.

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN2929 |
| **UN No. (IMDG/ANTAQ)** | UN2929 |
| **UN No. (ICAO/ANAC)** | UN2929 |

**14.2. UN proper shipping name**

Toxic liquids, flammable, organic, n.o.s., (2, 2',2"-(hexahydro-1,3,5-triazine-1,3,5-triyl)triethanol, methyl alcohol),

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 6.1 (3) |
| **IMDG/ANTAQ Hazard class** | 6.1 (3) |
| **ICAO/ANAC Hazard class/division** | 6.1 (3) |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | PG II |
| **IMDG/ANTAQ Packing group** | PG II |
| **ICAO/ANAC Packing group** | PG II |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 63 |
| **EmS (IMDG)** | F-E, S-D |
| **Emergency Action Code (EAC)** | •3W |
| **Tunnel restriction code** | (D/E) |
| **Hazchem code ADG** | •3W |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Methanol
Schedule 6
Schedule 5
2-aminoethanol
Schedule 4
Schedule 6
Schedule 5
Formaldehyde (impurity)
Schedule 6

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

## 16. Other Information

# Safety Data Sheet
## SAFE-SCAV* NA

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SCAV* NA
**Product code** PID1392

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Oxygen Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Water

Ammonium hydrogensulfite

Sulphur Dioxide (Impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Water | 231-791-2 | 7732-18-5 | 30-60 |
| Ammonium hydrogensulfite | 233-469-7 | 10192-30-0 | 30-60 |
| Sulphur Dioxide (Impurity) | 231-195-2 | 7446-09-5 | <1 |

**Comments**
Sulfur dioxide is not present as a substance. It is formed during decomposition.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Heating or fire can release toxic gas Sulphur oxides, Nitrogen oxides (NOx), Oxides of:, Ammonia, Amines.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**

Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
This product slowly releases sulphur dioxide in contact with air. Use only in well-ventilated areas. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Acids Alkalis Keep at 5-30°C |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Exposure limit noted is for decomposition product Sulfur dioxide.<br>No biological limit allocated |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Chemical respirator with ammonia and amines cartridge (K/P2, green filter). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing

before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Pungent Sulfur |
| **Color** | Straw - Yellow |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 4.9 - 5-5 | 1% solution |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 105 °C / 221 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 18 mmHg | @ 20 °C |
| **Vapor density** | <1 | (Air = 1.0) |
| **Specific gravity** | 1.3 | |
| **Bulk density** | No information available | |
| **Relative density** | 1.27 - 1.39 | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Reacts violently with oxidizers. Liberates poisonous sulfur dioxide gas on contact with acid.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Keep at temperatures between 5-30°C.

### 10.5 Incompatible materials

Strong oxidizing agents. Acids. Alkalis.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Product information** | Bisulfites may cause skin sensitization in sulfite sensitive persons. Bisulfites may also cause respiratory sensitization in asthmatics and sulfite sensitive persons. |
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Causes serious eye irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Water | > 90 mL/kg ( Rat ) | No data available | No data available |
| Ammonium hydrogensulfite | LD50= 2746 mg/kg - source: By analogy to product with similar composition. Notes: Related to male<br>LD50> 2150 mg/kg By analogy to product with similar composition. | LD50> 2000 mg/kg - Duration: 24h. Source: By analogy to product with similar composition | LC50 > 5.5 mg/l - Duration: 4h. Source: By analogy to product with similar composition. |

| | | | |
|---|---|---|---|
| | Notes: Related to female | | |
| Sulphur Dioxide (Impurity) | No data available | No data available | = 2500 ppm ( Rat ) 1 h |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact. Inhalation.

**Routes of entry** Eye contact. Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Water | No information available | No information available | No information available |
| Ammonium hydrogensulfite | OECD 203 Fish LC50 > 464 mg/l - Duration h: 96 - Notes: By analogy to product with similar composition | Algae EC50 = 43.8 mg/l - Duration h: 72 - Notes: By analogy to product with similar composition. | Daphnia magna EC50 = 89 mg/l - Duration h: 48 - Notes: By analogy to product with similar composition |
| Sulphur Dioxide (Impurity) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|

| | |
|---|---|
| Ammonium hydrogensulfite | Not applicable |

**12.3 Bioaccumulative potential**

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Ammonium hydrogensulfite | No data available |

**12.4 Mobility**

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Ammonium hydrogensulfite | No data available |

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002503 |
| **Group number** | 6.4A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |

| | |
|---|---|
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## SAFE-SOLV* E

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SOLV* E
**Product code** PID12078

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Solvent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Aspiration toxicity | Category 1 |
| Skin corrosion/irritation | Category 2 |
| Skin sensitization | Category 1 |

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H304 - May be fatal if swallowed and enters airways
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P331 - Do NOT induce vomiting
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P272 - Contaminated work clothing should not be allowed out of the workplace
P273 - Avoid release to the environment
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics*

Orange, sweet, extract

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Vapors may form explosive mixtures with air

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | 926-141-6 | RM1004884 | 60-100 |
| Orange, sweet, extract | 232-433-8 | 8028-48-6 | 10-30 |

**Comments**
Terpenes and Terpenoids, sweet orange oil can also use CAS 68647-72-3.

*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing has stopped, begin artificial respiration. Seek medical attention at once.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. If vomiting occurs spontaneously, minimize the risk of aspiration by properly positioning the affected person. Never give anything by mouth to an unconscious person. Seek medical attention.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**

Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Vapors may form explosive mixture with air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Oil mist (mineral) workplace exposure limits are currently under review by legislative authorities. This workplace exposure limit (WEL) standard is applicable to highly refined mineral oils and is provided as a guidance limit only LT. EXP = 5mg/m$^3$ and ST. EXP = 10mg/m$^3$.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Orange, sweet, extract | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Orange, sweet, extract | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Orange, sweet, extract | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Orange, sweet, extract | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Orange, sweet, extract | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene

| | |
|---|---|
| | Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of inadequate ventilation wear respiratory protection Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Sweet |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -20 °C / -4 °F | |
| **Boiling point/range** | 173 °C / 343.4 °F | |
| **Flash point** | 65 °C / 149 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | 5 | |
| **Lower flammability limit** | 0.7 | |
| **Vapor pressure** | ~2 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.81 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | Soluble organic solvents | |
| **Autoignition temperature** | 230 °C / 446 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | <20.5 mm2/s | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Vapours may form explosive mixtures with air |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Vapours may form explosive mixtures with air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Not known.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. May cause additional affects as listed under "Ingestion". |
| **Eye contact** | May cause irritation. |
| **Skin contact** | Causes skin irritation. May cause an allergic skin reaction. Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | May be fatal if swallowed and enters airways. Potential for aspiration if swallowed. Aspiration may cause pulmonary edema and pneumonitis. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | >5000 mg/kg (Rat) | No data available | >5000 mg/m³ (Rat, 8h)<br>>5000 mg/kg (Rabbit) |
| Orange, sweet, extract | No data available | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Ingestion. Skin contact. Inhalation.

**Routes of entry** Inhalation. Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** May be fatal if swallowed and enters airways.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available | 1000 mg/l (Oncorhynchus mykiss, 96h | 1000 mg/l (Daphnia magna), 48h |
| Orange, sweet, extract | > 1000 mg/l (Scophthalmus Maximus), 96h | No information available | 451 mg/l (Acartia Tonsa), 48h |

### 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|

| | |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Readily biodegradable |

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002649 |
| **Group number** | 6.1E, 6.3A, 6.5B, 9.1D |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**
**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

CAS Number 64742-47-8 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Alcohols, C6-12, ethoxylated

Ethoxylated monoethanolamide of fatty acids of coconut oil

2-butoxyethanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Alcohols, C6-12, ethoxylated | Polymer | 68439-45-2 | 5-10 |
| Ethoxylated monoethanolamide of fatty acids of coconut oil | 612-392-6 | 61791-08-0 | 5-10 |
| 2-butoxyethanol | 203-905-0 | 111-76-2 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms occur.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Store above freezing temperature Avoid contact with: Strong acids Strong bases Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in

| | |
|---|---|
| **Skin and body protection** | confined or poorly ventilated spaces, respiratory protection with air supply must be used. Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 8.0 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | > 93 °C / > 199.4 °F | |
| **Evaporation rate (BuAc =1)** | negligible | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.0 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | <2 | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |

**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Store above freezing temperature.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids. Strong bases.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation. May be absorbed through the skin in harmful amounts.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Alcohols, C6-12, ethoxylated | 1200 mg/kg - Litterature data (rat) | 2000 mg/kg (rat)(based on components) | No data available |
| Ethoxylated monoethanolamide of fatty acids of coconut oil | > 2000 mg/kg (Rat) | No data available | No data available |
| 2-butoxyethanol | 1200 mg/kg (Guinea pigs) | > 2000 mg/kg (Rat) | 400 ppm ( Rabbit) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Eye contact. Skin contact. |
| **Routes of entry** | Skin absorption. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Alcohols, C6-12, ethoxylated | No information available | No information available | No information available |
| Ethoxylated monoethanolamide of fatty acids of coconut oil | No information available | No information available | No information available |
| 2-butoxyethanol | = 2950 mg/L LC50 Lepomis macrochirus 96 h = 1490 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 1698 - 1940 mg/L (LC50; Daphnia magna) = 1720 mg/L (EC50; water flea) |

### 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-butoxyethanol | Readily biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2-butoxyethanol | Not likely to bioaccumulate |

**log Pow**
<2

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| 2-butoxyethanol | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| 2-butoxyethanol | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-butoxyethanol
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## SAFE-SURF* EU

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SURF* EU
**Product code** PID20170

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Completion fluid additive.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Dermal | Category 4 |
| Acute toxicity - Inhalation (Dusts/Mists) | Category 4 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H318 - Causes serious eye damage
H332 - Harmful if inhaled

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P310 - Immediately call a POISON CENTER or doctor/physician
P330 - Rinse mouth
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
2-butoxyethanol

D-Glucopyranose, oligomeric, C8-10 glycosides

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating and toxic gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

# 3. Composition/information on Ingredients

## 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Water | 231-791-2 | 7732-18-5 | 30-60 |
| 2-butoxyethanol | 203-905-0 | 111-76-2 | 30-60 |
| D-Glucopyranose, oligomeric, C8-10 glycosides | 500-220-1 | 68515-73-1 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move to fresh air. Keep at rest. If breathing is difficult, (trained personnel should) give oxygen. Seek immediate medical attention/advice.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Seek medical attention at once.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**

None known.

**5.2. Special hazards arising from the substance or mixture**

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2-butoxyethanol | 25 ppm TWA<br>121 mg/m³ TWA | 50ppmSTEL<br>242mg/m³STEL<br>20ppmTWA<br>96.9mg/m³TWA | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Butyl<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Sweet |
| **Color** | Colorless - Light orange |
| **Odor threshold** | Not applicable |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Not known.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Harmful by inhalation. Inhalation of vapors in high concentration may cause shortness of breath (lung edema). |
| **Eye contact** | Causes serious eye damage. |
| **Skin contact** | Causes skin irritation. Components of the product may be absorbed into the body through the skin. |

**Ingestion** Harmful if swallowed.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-butoxyethanol | 1200 mg/kg (Guinea pigs) | > 2000 mg/kg (Rat) | 400 ppm ( Rabbit) |
| D-Glucopyranose, oligomeric, C8-10 glycosides | > 2000 mg/kg bw (Rat) ECHA Data | > 2000 mg/kg (Rabbit) ECHA Data | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Eye contact. Skin contact. Ingestion.

**Routes of entry** Inhalation. Eye contact. Skin contact. Ingestion.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-butoxyethanol | = 2950 mg/L LC50 Lepomis | No information available | = 1698 - 1940 mg/L (LC50; Daphnia |

| | | | |
|---|---|---|---|
| | macrochirus 96 h = 1490 mg/L LC50 Lepomis macrochirus 96 h | | magna) = 1720 mg/L (EC50; water flea) |
| D-Glucopyranose, oligomeric, C8-10 glycosides | 170 mg/l LC50 Zebra fish | 37 mg/L (= 21 mg a.i./L) EC50 to the freshwater algae Scenedesmus subspicatus 72h | > 100 mg/l EC50 Daphnia magna 48h |

## 12.2 Persistence and degradability

Readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-butoxyethanol | Readily biodegradable |
| D-Glucopyranose, oligomeric, C8-10 glycosides | OECD 301 Readily biodegradable |

## 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| 2-butoxyethanol | Not likely to bioaccumulate |
| D-Glucopyranose, oligomeric, C8-10 glycosides | Not likely to bioaccumulate |

## 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| 2-butoxyethanol | Soluble in water |
| D-Glucopyranose, oligomeric, C8-10 glycosides | Partially soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| 2-butoxyethanol | No information available |
| D-Glucopyranose, oligomeric, C8-10 glycosides | No information available |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-butoxyethanol
Schedule 6

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 08-Jul-2016 |
| **Revision date** | 09-Aug-2018 |
| **Version** | 2 |
| **This SDS has been revised in the following section(s)** | 1, 2, 3, 8, 11, 12, 15, 16 Product Code change No changes with regard to classification have been made. |

# Safety Data Sheet
## SAFE-SURF* WN

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-SURF* WN
**Product code** PID1410

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Cleaning agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
D-Glucopyranose, oligomeric, C8-10 glycosides

Sulfonation products of disodium sulfite with (esterification products of C10-16 (even numbered) alkyl polyglycosides with maleic anhydride)*

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-(2-hydroxyethoxy)ethan-1-ol | 203-872-2 | 111-46-6 | 10 - < 20 |
| D-Glucopyranose, oligomeric, C8-10 glycosides | 500-220-1 | 68515-73-1 | 5 - < 15 |
| Sulfonation products of disodium sulfite with (esterification products of C10-16 (even numbered) alkyl polyglycosides with maleic anhydride)* | 940-678-3 | RM1003733 | 5 - < 15 |

**Comments**
Based on test data - Eye Irritation (OECD 405), this product is not irritant.

*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store at room temperature Avoid frost.

**Storage class** Chemical storage.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before breaks and immediately after handling the product

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Slight |
| **Color** | Colorless - Pale yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Approx. 5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | ~ 100 °C / 212 °F | |
| **Flash point** | > 110 °C / > 230 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.04 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | ~ 300 cP | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | < 0°C / 32°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Store at room temperature. Do not freeze.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**LD50 Oral** > 2000 mg/kg (rat) Calculated (MIXTURE)

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | > 2000 mg/kg bw (Rat) ECHA Data | > 2000 mg/kg (Rabbit) ECHA Data | No data available |
| Sulfonation products of disodium sulfite with (esterification products of C10-16 (even numbered) alkyl polyglycosides with maleic anhydride)* | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | 170 mg/l LC50 Zebra fish | 37 mg/L (= 21 mg a.i./L) EC50 to the freshwater algae Scenedesmus subspicatus 72h | > 100 mg/l EC50 Daphnia magna 48h |
| Sulfonation products of disodium sulfite with (esterification products of C10-16 (even numbered) alkyl polyglycosides with maleic anhydride)* | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | OECD 301 Readily biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | Not likely to bioaccumulate |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | Partially soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| D-Glucopyranose, oligomeric, C8-10 glycosides | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated

**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

CAS Number 151911-53-4 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

## 16. Other Information

# Safety Data Sheet
## SAFE-VIS* E

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-VIS* E
**Product code** PID1413

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Completion fluid additive. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Tetradec-1-ene

**2.3 Other hazards**

This substance does not meet the PBT/vPvB criteria of REACH, annex XIII

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Tetradec-1-ene | 214-306-9 | 1120-36-1 | 30-60 |

**Comments**
The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash contaminated clothing before re-use. Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to

hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Tetradec-1-ene | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Tetradec-1-ene | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Tetradec-1-ene | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Tetradec-1-ene | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Tetradec-1-ene | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical

hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness =>0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Very viscous |
| **Odor** | Mild |
| **Color** | Tan - White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -20 °C / -4 °F | |
| **Boiling point/range** | 115.6 °C / 240.0 °F | |
| **Flash point** | > 107.2 °C / > 225.0 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.96 | 15.6 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |

| | | |
|---|---|---|
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | > 20.5 mm2/s | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Tetradec-1-ene | > 10000 mg/kg ( Rat ) | > 10000 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Skin contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Tetradec-1-ene | = 0.39 mg/L LC50 Oncorhynchus mykiss 96 h = 1.06 mg/L LC50 Pimephales promelas 96 h 1 - 3.2 mg/L LC50 Brachydanio rerio 96 h | 22 - 24 mg/L EC50 Pseudokirchneriella subcapitata 96 h | = 0.74 mg/L EC50 Daphnia magna 48 h = 0.68 mg/L LC50 Daphnia magna 96 h |

| | | | |
|---|---|---|---|
| | 10.0 - 32.0 mg/L LC50 Poecilia reticulata 96 h | | |

**12.2 Persistence and degradability**

No product level data available.

**12.3 Bioaccumulative potential**

No product level data available.

**12.4 Mobility**

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## SAFE-VIS* HDE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAFE-VIS* HDE
**Product code** PID1415
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier. Completion fluid additive.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H302 - Harmful if swallowed
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P270 - Do not eat, drink or smoke when using this product
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P314 - Get medical advice/attention if you feel unwell
P330 - Rinse mouth
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling

**Contains**
Ethylene Glycol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ethylene Glycol | 203-473-3 | 107-21-1 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation

develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention if irritation occurs.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Butyl
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**

Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system. May cause additional affects as listed under "Ingestion".

**Eye contact** May cause eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation. May be absorbed through the skin in harmful amounts.

**Ingestion** Harmful if swallowed. May cause damage to organs through prolonged or repeated exposure.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethylene Glycol | = 7712 mg/kg (Rat)<br>ECHA Data | > 3500 mg/kg (Mouse)<br>ECHA Data | > 2.5 mg/l (Rat) 6 hour<br>ECHA Data |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Ingestion. Skin contact.

**Routes of entry** Skin absorption.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Kidney.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethylene Glycol | 40000 - 60000 mg/L LC50 (Pimephales promelas) = 96 h<br><br>40761 mg/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>27540 mg/L LC50 (Lepomis macrochirus) = 96 h<br><br>14 - 18 mL/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>16000 mg/L LC50 (Poecilia reticulata) = 96 h<br><br>41000 mg/L LC50 (Oncorhynchus mykiss) = 96 h | 6500 - 13000 mg/L EC50 (Pseudokirchneriella subcapitata) = 96 h | 46300 mg/L EC50 (Daphnia magna) = 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Ethylene Glycol | Readily biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Ethylene Glycol | log Pow -1.36(Calculated) Not likely to bioaccumulate |

### 12.4 Mobility

**Mobility**
Dispersible in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Ethylene Glycol | Completely soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Ethylene Glycol | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated

**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ethylene Glycol
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## SAPP

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SAPP
**Product code** PID1436

Molecular weight 222.15

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** SAPP dispersant. Thinner.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Disodium dihydrogen diphosphate

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Disodium dihydrogen diphosphate | 231-835-0 | 7758-16-9 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Oxides of phosphorus.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Protect from moisture Avoid contact with: Strong alkalies.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Disodium dihydrogen diphosphate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Disodium dihydrogen diphosphate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Disodium dihydrogen diphosphate | Not determined | Not determined | Not determined |

| Chemical Name | Malaysia | Philippines | Russia |
|---|---|---|---|
| Disodium dihydrogen diphosphate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Disodium dihydrogen diphosphate | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Nitrile Neoprene PVC Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Crystalline Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 4.0 - 5.0 | @ 10 g/l |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |

| | | |
|---|---|---|
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.8 - 1.9 sg | 20 °C |
| **Bulk density** | 1000-1200 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | 222.15 |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Protect from moisture. Avoid excessive heat for prolonged periods of time.

**10.5 Incompatible materials**

Strong alkalies.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged skin contact may cause skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Disodium dihydrogen diphosphate | = 1800 mg/kg (Rat) | No data available | > 0.58 mg/L ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Disodium dihydrogen diphosphate | No information available | No information available | No information available |

**12.2 Persistence and degradability**

Not Applicable - Inorganic chemical.

**12.3 Bioaccumulative potential**

Not Applicable - Inorganic chemical.

**12.4 Mobility**

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR002503

**Group number** 6.4A

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |

### 1.2. Recommended use and restrictions on use

**Recommended use**
Downhole Oil and Gas Applications, Industrial use.

For Industrial or Professional use only.

### 1.3. Supplier's details
**Address:** 3M Australia - Building A, 1 Rivett Road, North Ryde NSW 2113
**Telephone:** 136 136
**E Mail:** productinfo.au@mmm.com
**Website:** www.3m.com.au

### 1.4. Emergency telephone number
EMERGENCY: 1800 097 146 (Australia only)

## SECTION 2: Hazard identification

This product is NOT classified as a hazardous chemical according to the Model Work Health and Safety Regulations, 2011, in accordance with applicable State and Territory legislation.

Refer to Section 14 of this Safety Data Sheets for product Dangerous Goods Classification.

### 2.1. Classification of the substance or mixture
Not applicable.

### 2.2. Label elements

**Signal word**
Not applicable.

**Symbols**
Not applicable.

**Pictograms**
Not applicable.

**2.3. Other assigned/identified product hazards**
None known.

**2.4. Other hazards which do not result in classification**
May be harmful if swallowed.

## SECTION 3: Composition/information on ingredients

This material is a mixture.

| Ingredient | CAS Nbr | % by Weight |
|---|---|---|
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | 97 - 100 |

## SECTION 4: First aid measures

**4.1. Description of first aid measures**

**Inhalation**
Remove person to fresh air. If you feel unwell, get medical attention.

**Skin contact**
Wash with soap and water. If signs/symptoms develop, get medical attention.

**Eye contact**
Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If swallowed**
Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**
See Section 11.1. Information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**
Not applicable

## SECTION 5: Fire-fighting measures

**5.1. Suitable extinguishing media**
Material will not burn. Use a fire fighting agent suitable for the surrounding fire.

**5.2. Special hazards arising from the substance or mixture**
None inherent in this product.

**5.3. Special protective actions for fire-fighters**
No special protective actions for fire-fighters are anticipated.

## SECTION 6: Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**
Avoid release to the environment.

**6.3. Methods and material for containment and cleaning up**
Collect as much of the spilled material as possible. Use wet sweeping compound or water to avoid dusting. Sweep up. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## SECTION 7: Handling and storage

**7.1. Precautions for safe handling**
For industrial or professional use only. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not eat, drink or smoke when using this product. Wash thoroughly after handling.

**7.2. Conditions for safe storage including any incompatibilities**
No special storage requirements.

## SECTION 8: Exposure controls/personal protection

**8.1 Control parameters**

**Occupational exposure limits**
If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient | CAS Nbr | Agency | Limit type | Additional comments |
|---|---|---|---|---|
| Glass filaments | 65997-17-3 | Australia OELs | TWA(8 hours):0.5 fibers/ml;TWA(as fiber)(8 hours):0.5 fibers/ml | |
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Manufacturer determined | TWA(as dust):10 mg/m3 | |

ACGIH : American Conference of Governmental Industrial Hygienists
AIHA : American Industrial Hygiene Association
Australia OELs : Australia. Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational Environment
CMRG : Chemical Manufacturer's Recommended Guidelines
TWA: Time-Weighted-Average
STEL: Short Term Exposure Limit
CEIL: Ceiling
Sen: Sensitiser
Sk: Absorption through the skin may be a significant source of exposure.

**8.2. Exposure controls**

**8.2.1. Engineering controls**
Provide appropriate local exhaust ventilation at transfer points. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray.

If ventilation is not adequate, use respiratory protection equipment.

**8.2.2. Personal protective equipment (PPE)**

**Eye/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:
Safety glasses with side shields.

Select and use eye protection in accordance with AS/NZS 1336. Eye protection should comply with the performance specifications of AS/NZS 1337.

**Skin/hand protection**
No chemical protective gloves are required.

**Respiratory protection**

Wear respiratory protection if ventilation is inadequate to prevent overexposure. An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:
Half facepiece or full facepiece air-purifying respirator suitable for particulates.

For questions about suitability for a specific application, consult with your respirator manufacturer.
Select and use respirators according to AS/NZS 1715. Respirators should comply with AS/NZS 1716 performance specifications. For information about respirators, call 3M on 1800 024 464.

## SECTION 9: Physical and chemical properties

**9.1. Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid. |
| **Specific Physical Form:** | Fine Powder < 100 microns |
| **Appearance/Odour** | White, Odourless |
| **Odour threshold** | *Not applicable.* |
| **Melting point/Freezing point** | *No data available.* |
| **Boiling point/Initial boiling point/Boiling range** | *Not applicable.* |
| **Flash point** | *Not applicable.* |
| **Evaporation rate** | *Not applicable.* |
| **Flammability (solid, gas)** | Not classified |
| **Flammable Limits(LEL)** | *Not applicable.* |
| **Flammable Limits(UEL)** | *Not applicable.* |
| **Vapour pressure** | *Not applicable.* |
| **Vapour density** | *Not applicable.* |
| **Density** | 0.1 - 0.6 g/cm3 |
| **Relative density** | 0.1 - 0.6 [*Ref Std:*WATER=1] |
| **Water solubility** | Negligible |
| **Solubility- non-water** | *Not applicable.* |
| **Partition coefficient: n-octanol/water** | *No data available.* |
| **Autoignition temperature** | *Not applicable.* |
| **Decomposition temperature** | *Not applicable.* |
| **Viscosity** | *Not applicable.* |
| **Molecular weight** | *No data available.* |
| **Volatile organic compounds (VOC)** | *Not applicable.* |
| **Percent volatile** | < 0.5 % weight |

| | |
|---|---|
| **Softening point** | >=600 ºC |
| **VOC less H2O & exempt solvents** | *Not applicable.* |

## SECTION 10: Stability and reactivity

**10.1 Reactivity**
This material is considered to be non reactive under normal use conditions

**10.2 Chemical stability**
Stable.

**10.3. Conditions to avoid**
None known.

**10.4. Possibility of hazardous reactions**
Hazardous polymerisation will not occur.

**10.5 Incompatible materials**
None known.

**10.6 Hazardous decomposition products**

| **Substance** | **Condition** |
|---|---|
| Oxides of sulphur. | If Breakage Occurs |

## SECTION 11: Toxicological information

**The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.**

**11.1 Information on Toxicological effects**

**Signs and Symptoms of Exposure**

**Based on test data and/or information on the components, this material may produce the following health effects:**

**Inhalation**
Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

**Skin contact**
Mechanical skin irritation: Signs/symptoms may include abrasion, redness, pain, and itching.

**Eye contact**
Mechanical eye irritation: Signs/symptoms may include pain, redness, tearing and corneal abrasion.

**Ingestion**
May be harmful if swallowed.
Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea.

**Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

| Name | Route | Species | Value |
|---|---|---|---|
| Overall product | Ingestion | | No data available; calculated ATE2,000 - 5,000 mg/kg |
| SODA LIME BOROSILICATE GLASS | Dermal | | LD50 estimated to be > 5,000 mg/kg |
| SODA LIME BOROSILICATE GLASS | Ingestion | | LD50 estimated to be 2,000 - 5,000 mg/kg |

ATE = acute toxicity estimate

**Skin Corrosion/Irritation**

| Name | Species | Value |
|---|---|---|
| SODA LIME BOROSILICATE GLASS | Professional judgement | No significant irritation |

**Serious Eye Damage/Irritation**

| Name | Species | Value |
|---|---|---|
| SODA LIME BOROSILICATE GLASS | Professional judgement | No significant irritation |

**Skin Sensitisation**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Respiratory Sensitisation**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity**

| Name | Route | Value |
|---|---|---|
| SODA LIME BOROSILICATE GLASS | In Vitro | Some positive data exist, but the data are not sufficient for classification |

**Carcinogenicity**

| Name | Route | Species | Value |
|---|---|---|---|
| SODA LIME BOROSILICATE GLASS | Inhalation | Multiple animal species | Some positive data exist, but the data are not sufficient for classification |

**Reproductive Toxicity**

**Reproductive and/or Developmental Effects**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Target Organ(s)**

**Specific Target Organ Toxicity - single exposure**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Specific Target Organ Toxicity - repeated exposure**

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure Duration |
|---|---|---|---|---|---|---|
| SODA LIME BOROSILICATE GLASS | Inhalation | respiratory system | Not classified | Human | NOAEL not available | occupational exposure |

**Aspiration Hazard**
For the component/components, either no data are currently available or the data are not sufficient for classification.

**Exposure Levels**
Refer Section **8.1 Control Parameters** of this Safety Data Sheet.

**Interactive Effects**
Not determined.

## SECTION 12: Ecological information

**The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.**

**12.1. Toxicity**

**Acute aquatic hazard:**
Not acutely toxic to aquatic life by GHS criteria.

**Chronic aquatic hazard:**
Not chronically toxic to aquatic life by GHS criteria.

No product test data available.

| Material | CAS Number | Organism | Type | Exposure | Test endpoint | Test result |
|---|---|---|---|---|---|---|
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Green algae | Experimental | 72 hours | EC50 | >1,000 mg/l |
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Water flea | Experimental | 72 hours | EC50 | >1,000 mg/l |
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Zebra Fish | Experimental | 96 hours | LC50 | >1,000 mg/l |
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Green algae | Experimental | 72 hours | NOEC | >=1,000 mg/l |

**12.2. Persistence and degradability**

| Material | CAS Number | Test type | Duration | Study Type | Test result | Protocol |
|---|---|---|---|---|---|---|
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Data not available or insufficient for classification | N/A | N/A | N/A | N/A |

**12.3 : Bioaccumulative potential**

| Material | CAS Number | Test type | Duration | Study Type | Test result | Protocol |
|---|---|---|---|---|---|---|
| SODA LIME BOROSILICATE GLASS | 65997-17-3 | Data not available or insufficient for | N/A | N/A | N/A | N/A |

| | | | | | | |
|---|---|---|---|---|---|---|
| | | classification | | | | |

**12.4. Mobility in soil**
Please contact manufacturer for more details

**12.5 Other adverse effects**
No information available.

## SECTION 13: Disposal considerations

**13.1. Disposal methods**
Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Incinerate in a permitted waste incineration facility.

## SECTION 14: Transport Information

**Australian Dangerous Goods Code (ADG) - Road/Rail Transport**
**UN No.:** Not applicable.
**Proper shipping name:** Not applicable.
**Class/Division:** Not applicable.
**Sub Risk:** Not applicable.
**Packing Group:** Not applicable.

**Hazchem Code:** Not applicable
**IERG:** Not applicable.

**International Air Transport Association (IATA) - Air Transport**
**UN No.:** Not applicable.
**Proper shipping name:** Not applicable.
**Class/Division:** Not applicable.
**Sub Risk:** Not applicable.
**Packing Group:** Not applicable.

**International Maritime Dangerous Goods Code (IMDG)- Marine Transport**
**UN No.:** Not applicable.
**Proper shipping name:** Not applicable.
**Class/Division:** Not applicable.
**Sub Risk:** Not applicable.
**Packing Group:** Not applicable.
**Marine Pollutant:** Not applicable.

## SECTION 15: Regulatory information

**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

**Australian Inventory Status:**
This product is defined as an article under the Industrial Chemicals (Notification and Assessment) Act 1989, as amended, and is exempt from inventory requirements under the Industrial Chemicals (Notification and Assessment) Act 1989 as amended.

**Poison Schedule:**This product is an article therefore the Standard for the Uniform Scheduling of Medicines and Poisons Schedule is not applicable.

## SECTION 16: Other information

**Revision information:**
Update to product identification numbers.

DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Safety Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications.
Greenguard ® is a United States based program. The 'Low VOC' reference related to United States Federal and State regulations exemptions for some solvents.

**3M Australia SDSs are available at www.3m.com.au**

**SDS no.** D066
**Version** 3
**Revision date** 02-Mar-2020
**Supersedes Date:** 13-Jul-2017

# Safety Data Sheet
## Silica Flour D66

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Silica Flour D66
**Product code** D066

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

| | |
|---|---|
| **Malaysian** | Local emergency number; +603 2161 7655 |

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Quartz, Crystalline silica

Respirable Crystalline Silica (Quartz)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Quartz, Crystalline silica | 238-878-4 | 14808-60-7 | 60-100 |
| Respirable Crystalline Silica (Quartz) | 238-878-4 | 14808-60-7 | <10 |

**3.2 Mixtures**

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

| | |
|---|---|
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Hydrofluoric acid (HF) Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Nitrile Neoprene gloves Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Solid
**Appearance** Powder
**Odor** Odorless
**Color** Tan or White

**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | > 1700 °C / 3092 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.50 - 2.70 | @20 °C |
| **Bulk density** | 1100- 1600 kg/m$^3$ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Not applicable
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** No information available
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
None known.

**10.4 Conditions to avoid**

Avoid dust formation.

### 10.5 Incompatible materials

Hydrofluoric acid (HF). Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause respiratory irritation. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Quartz, Crystalline silica | No data available | No data available | No data available |
| Respirable Crystalline Silica (Quartz) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Quartz, Crystalline silica | No information available | No information available | No information available |
| Respirable Crystalline Silica (Quartz) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Quartz, Crystalline silica | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Quartz, Crystalline silica | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
The product is insoluble and sinks in water.

| Chemical Name | Mobility |
|---|---|
| Quartz, Crystalline silica | Insoluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Quartz, Crystalline silica | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Silicate Additive D75

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Silicate Additive D75
**Product code** D075

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas.

**Hazardous combustion products**
Thermal decomposition can lead to release of toxic and corrosive gases/vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep at temperatures above > 32F /0°C Avoid contact with: Strong acids Metals Aluminum Zinc Steel |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |
| **Packaging materials to be avoided** | Metal Aluminium Zinc Steel |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: PVC Rubber Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 11 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | - 1 °C / 30 °F | |
| **Boiling point/range** | 101 °C / 214 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | <1 kPa | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 - 1.6 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 10-10000 mPa s | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Contact with metals may evolve flammable hydrogen gas.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep at temperatures above > 32°F / 0°C.

### 10.5 Incompatible materials

Aluminum. Zinc. Metals. Strong acids. Steel.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |

| | |
|---|---|
| **Routes of entry** | None known. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

# Safety Data Sheet
## Soda Ash M3

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Soda Ash M3
**Product code** M003

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Buffer in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2A |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves and eye/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Sodium carbonate

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium carbonate | 207-838-8 | 497-19-8 | 60-100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Avoid dust formation.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with water and moist air - product is hygroscopic. Store away from incompatibles, Powdered aluminum Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Sodium carbonate | Not determined | Not determined | Not determined |

**Notes**

No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Nitrile PVA Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 11 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 851 °C / 1564 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Vapor pressure** | Not applicable | |
| **Vapor density** | Not applicable | |
| **Specific gravity** | 2.5 | @20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 2.53 | @ 20°C. |
| **Water solubility** | 212.5g/L | @ 20 °C |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | >400°C/ 752°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Decomposes by reaction with strong acids.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Protect from moisture. Avoid contact with water and moist air - product is hygroscopic.

**10.5 Incompatible materials**

Powdered aluminum. Strong acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and

cough.

**Eye contact** Causes serious eye irritation. May cause pain, redness, discomfort.

**Skin contact** May cause skin irritation and/or dermatitis.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium carbonate | = 4090 mg/kg ( Rat ) | No data available | = 2300 mg/m³ ( Rat ) 2 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium carbonate | 310 - 1220 mg/L LC50 Pimephales promelas 96 h = 300 mg/L LC50 Lepomis macrochirus 96 h | = 242 mg/L EC50 Nitzschia 120 h | = 265 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |

# Safety Data Sheet
## SODIUM BROMIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SODIUM BROMIDE BRINE
**Product code** PID1490

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Clear-brine workover and completion fluid.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium bromide

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium bromide | 231-599-9 | 7647-15-6 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Bromine, bromine oxides and hydrogen bromide, Sodium oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Acids Metals Bromine trifluoride.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium bromide | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium bromide | Not determined | Not determined | 3 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium bromide | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene PVC<br>Break through time >240 minutes<br>Glove thickness =0.10 - 0.20 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 5.74 - 5.75 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.078 - 1.508 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | ~ 800 °C / ~1472°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Heat, flames and sparks.

**10.5 Incompatible materials**

Acids. Heavy metals. Bromine trifluoride.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium bromide | = 3500 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other |
|---|---|---|---|

| | | | |
|---|---|---|---|
| | | | **aquatic invertebrates** |
| Sodium bromide | 0.054 - 0.081 mg/L LC50 Oncorhynchus mykiss 96 h > 1000 mg/L LC50 Lepomis macrochirus 96 h 15614 - 17428 mg/L LC50 Pimephales promelas 96 h = 16000 mg/L LC50 Poecilia reticulata 96 h > 1000 mg/L LC50 Oncorhynchus mykiss 96 h = 24000 mg/L LC50 Oryzias latipes 96 h 24000 - 96000 mg/L LC50 Oryzias latipes 96 h 16000 - 24000 mg/L LC50 Poecilia reticulata 96 h | 5800 - 24000 mg/L EC50 Scenedesmus pannonicus 96 h | 5700 - 10800 mg/L EC50 Daphnia magna 48 h 5800 - 48000 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Y. Proper Shipping Name: Sodium bromide solution (50% or less)

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium bromide
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

**Supersedes Date:** 03-Apr-2017

# Safety Data Sheet
## SODIUM CHLORIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SODIUM CHLORIDE BRINE
**Product code** PID1103

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Weighting agent. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium Chloride

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium Chloride | 231-598-3 | 7647-14-5 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Oxides of:, Sodium, Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium Chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium Chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical

hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Butyl PVC<br>Break through time >480 minutes<br>Glove thickness =>0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 8.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -5 °C / 23 °F | |
| **Boiling point/range** | 106 °C / 222.8 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |

| | | |
|---|---|---|
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.008 - 1.200 g/cm³ | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium Chloride | 4747 - 7824 mg/L LC50 | No information available | 340.7 - 469.2 mg/L EC50 Daphnia |

| | | | |
|---|---|---|---|
| | Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | | magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Z.
Proper Shipping Name: Drilling brines, including: calcium bromide solution, calcium chloride solution and sodium chloride solution.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 03-Apr-2017 |
| **Revision date** | 04-Aug-2020 |
| **Version** | 6 |
| **This SDS has been revised in the following section(s)** | 1, 2, 7, 8, 12, 15, 16 No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## SODIUM CHLORIDE/SODIUM BROMIDE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SODIUM CHLORIDE/SODIUM BROMIDE BRINE
**Product code** PID1104

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium bromide

Sodium chloride

**2.3 Other hazards**

Thermal decomposition can lead to release of irritating gases and vapors
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium bromide | 231-599-9 | 7647-15-6 | 30-60 |
| Sodium chloride | 231-598-3 | 7647-14-5 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Seek medical attention if irritation occurs.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the

length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Bromine, bromine oxides and hydrogen bromide, Chlorine, Sodium oxides, Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium bromide | Not determined | Not determined | Not determined |
| Sodium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Sodium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Sodium chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium bromide | Not determined | Not determined | 3 mg/m³ MAC |
| Sodium chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Sodium chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Butyl PVC<br>Break through time >480 minutes<br>Glove thickness >=0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |

| | | |
|---|---|---|
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.0 - 1.6 | 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium bromide | = 3500 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | No data available |
| Sodium chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium bromide | 0.054 - 0.081 mg/L LC50 Oncorhynchus mykiss 96 h > 1000 mg/L LC50 Lepomis macrochirus 96 h 15614 - 17428 mg/L LC50 Pimephales promelas 96 h = 16000 mg/L LC50 Poecilia reticulata 96 h > 1000 mg/L LC50 Oncorhynchus mykiss 96 h = 24000 mg/L LC50 Oryzias latipes 96 h 24000 - 96000 mg/L LC50 Oryzias latipes 96 h 16000 - 24000 mg/L LC50 Poecilia reticulata 96 h | 5800 - 24000 mg/L EC50 Scenedesmus pannonicus 96 h | 5700 - 10800 mg/L EC50 Daphnia magna 48 h 5800 - 48000 mg/L EC50 Daphnia magna 48 h |
| Sodium chloride | = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Ship Type:- 3. Pollution Category:- Z.
Proper Shipping Name: Drilling brines, including: calcium bromide solution, calcium chloride solution and sodium chloride solution.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium bromide
Schedule 4
**New Zealand**

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## SODIUM FORMATE BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SODIUM FORMATE BRINE
**Product code** PID1505

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Weighting agent. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium formate

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium formate | 205-488-0 | 141-53-7 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sodium.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium formate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium formate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium formate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium formate | Not determined | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium formate | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Provide eyewash station. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 8.6 | 10 % solution |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.99 - 1.318 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |

| | |
|---|---|
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | 29 cP (40 wt% solution) |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from sources of ignition - No smoking.

**10.5 Incompatible materials**

Strong acids. Formic acid may be formed.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium formate | = 11200 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium formate | = 5000 mg/L LC50 Lepomis macrochirus 24 h | No information available | > 1000 mg/L EC50 Daphnia magna 24 h |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |

**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

**USA (TSCA)** Complies
**Canada (DSL)** Complies
**Philippines (PICCS)** Complies
**Japan (ENCS)** Complies
**China (IECSC)** Complies

| | |
|---|---|
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## SODIUM HYDROXIDE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SODIUM HYDROXIDE
**Product code** PID15038A

**Synonyms** CAUSTIC SODA, SODIUM HYDROXIDE PRILLS
Molecular weight 49.99 g/mol

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** pH modifier

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1A |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage
H290 - May be corrosive to metals

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P234 - Keep only in original container
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse
P390 - Absorb spillage to prevent material damage
P406 - Store in corrosive resistant stainless steel container with a resistant inner liner

**Contains**
Sodium hydroxide

## 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Contact with metals may evolve flammable hydrogen gas
The product reacts with water and will generate heat.

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

# 3. Composition/information on Ingredients

## 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium hydroxide | 215-185-5 | 1310-73-2 | 60-100 |

## 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Get immediate medical attention. Rinse mouth. Risk of product entering the lungs on vomiting after ingestion. Never give anything by mouth to an unconscious person.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get immediate medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Contact with metals may evolve flammable hydrogen gas. The product reacts with water and will generate heat.

**Hazardous combustion products**
Thermal decomposition can lead to release of toxic and corrosive gases/vapors Sodium oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Avoid dust formation. Do not breathe dust. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. Flush area with flooding quantities of water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid dust formation. Do not breathe dust. Avoid spills and splashing during use. Reacts violently with water.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture

Reacts violently with water Store in original container. Avoid contact with: Metals Acids

**Storage class** Corrosive storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium hydroxide | Not determined | 2 mg/m³ Peak | 2 mg/m³ Ceiling |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ Ceiling | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium hydroxide | Not determined | 2.0 mg/m³ STEL | 2 mg/m³ Ceiling |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium hydroxide | 2 mg/m³ Ceiling | 2 mg/m³ TWA | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium hydroxide | 2 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required. Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts
Chemical splash goggles and/or face shield

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders
Impervious gloves made of: Nitrile Rubber PVC
Break through time >480 minutes
Glove thickness 0.5 mm
Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Pellets |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 14.0 | @ 5% |
| **Melting / freezing point** | 318 °C / 604.4 °F | |
| **Boiling point/range** | 1390 °C / 2534 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 3.5 hPa | @ 800 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 1.1-1.25 g/cm3 | |
| **Relative density** | 2.13 g/cm3 | @ 25°C. |
| **Water solubility** | Completely soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | 49.99 g/mol |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive. Corrosive to Metals. Contact with metals may evolve flammable hydrogen gas. Reacts violently with water.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Do not add water directly to the product. It may cause a violent reaction. Avoid dust formation.

### 10.5 Incompatible materials

Acids. Metals. Water.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhaled corrosive substances can lead to a toxic edema of the lungs. Contact with moist mucous membranes of the respiratory system can cause burns and lung damage. Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes burns.

**Ingestion** Causes burns. Can burn mouth, throat, and stomach.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium hydroxide | No data available | 1350 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Ingestion. Skin contact. Eye contact. |
| **Routes of entry** | Skin contact. Eye contact. Ingestion. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium hydroxide | = 45.4 mg/L LC50 Oncorhynchus mykiss 96 h | No information available | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Sodium hydroxide | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Sodium hydroxide | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Sodium hydroxide | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Sodium hydroxide | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN1823
**UN No. (IMDG/ANTAQ)** UN1823
**UN No. (ICAO/ANAC)** UN1823

### 14.2. UN proper shipping name

SODIUM HYDROXIDE, SOLID,

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** 8
**IMDG/ANTAQ Hazard class** 8
**ICAO/ANAC Hazard class/division** 8

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** II
**IMDG/ANTAQ Packing group** II
**ICAO/ANAC Packing group** II

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2W |
| **Tunnel restriction code** | (E) |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium hydroxide
Schedule 6
Schedule 5

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR001547 |
| **Group number** | n/a |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

# Safety Data Sheet
## SP-101*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SP-101*
**Product code** PID1524

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fluid loss reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components
**2.3 Other hazards**

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes extremely slippery when wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**

Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes extremely slippery when wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Protect from moisture Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents Strong acids |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene PVC Frequent change is advisable |

**Respiratory protection** No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules Dust |
| **Odor** | Slight |
| **Color** | Off-white - Cream |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 7 | @1% |
| **Melting / freezing point** | > 150 °C / > 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | 20 °C |
| **Bulk density** | 392 kg/m³ / 24.5 lb/ft³ | |
| **Relative density** | 0.2 - 0.9 | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150° / 302°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | <0 | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** None known.

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
Oxidizing agents may cause exothermic reactions.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) estimated (MIXTURE) |
| **LD50 Dermal** | > 5000 mg/kg (rat) estimated (MIXTURE) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
IC50/Algae/72 hrs. : > 100 mg/L (Estimated) (MIXTURE).

**Toxicity to fish**
LC50/Oncorhynchus mykiss/96 hrs. : > 100 mg/L (Estimated) (MIXTURE).

**Toxicity to daphnia and other aquatic invertebrates**
EC50/Daphina/48 hrs. : > 100 mg/L (Estimated) (MIXTURE).

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

**log Pow**
<0

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 13-Sep-2015 |
| **Revision date** | 18-Jun-2018 |

|---|---|
| **Version** | 6 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. |

**Key literature references and sources for data**
www.ChemADVISOR.com
Supplier
National Chemical Inventories
National regulatory information
National occupational exposure limits

**Training Advice**
Do not handle until all safety precautions have been read and understood
Follow general hygiene considerations recognized as common good workplace practices

*A mark of M-I L.L.C., a Schlumberger Company

**SDS no.** D259
**Version** 2
**Revision date** 12-Jul-2019
**Supersedes Date:** 21-Nov-2016

# Safety Data Sheet
## Spacer Additive D259

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Spacer Additive D259
**Product code** D259

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover with plastic sheet to prevent spreading.

**Methods for cleaning up**
Avoid dust formation. Take up mechanically and collect in suitable container for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Protect from moisture Keep at < 122 °F/ 50°C<br>Do not store and transport with oxidizers, acids and bases. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Nitrile Neoprene gloves Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation, wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash |

contaminated clothing before re-use

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Fibrous |
| **Odor** | Sweet |
| **Color** | White or Light yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | Not applicable | |
| **Melting / freezing point** | 215 - 225 °C / 419 - 437 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | Not applicable | |
| **Specific gravity** | 1.2 - 1.3 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.2-1.3 | @ 25°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 388 °C / 730 °F | |
| **Decomposition temperature** | > 230 °C / >446 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Avoid contact with heat, sparks, open flame, and static discharge. Keep away from direct sunlight. Keep at <50°C / 122°F°C. Protect from moisture.

### 10.5 Incompatible materials

Strong oxidizing agents. Acids. Bases.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. Skin contact. Eye contact. |

| | |
|---|---|
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Inherently biodegradable.

### 12.3 Bioaccumulative potential

Product has a low potential to bioconcentrate.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Exempt |
| **Philippines (PICCS)** | Exempt |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Exempt |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## Spacer Solvent D231

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Spacer Solvent D231
**Product code** D231

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves and eye/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
2,2-dimethyl-1,3-dioxolan-4-ylmethanol

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Combustible liquid
Vapors are heavier than air and may spread along floors

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | 202-888-7 | 100-79-8 | 60 - 100 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

| | |
|---|---|
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Dry chemical, $CO_2$, alcohol-resistant foam or water spray, Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Combustible material.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Avoid contact with eyes. Keep away from heat, sparks, and flame. Remove all sources of ignition. Ensure adequate ventilation.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. All equipment used when handling the product must be grounded.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Ensure all equipment is electrically grounded before beginning transfer operations.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Keep away from open flames, hot surfaces and sources of ignition Avoid excessive heat for prolonged periods of time. Avoid frost. Avoid contact with: Strong oxidizing agents Strong reducing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only. Steel or high density polyethylene (HDPE) container

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmetha | Not determined | Not determined | Not determined |

| | | | |
|---|---|---|---|
| nol | | | |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Wear chemical resistant gloves such as nitrile or neoprene.
Break through time >480 minutes
Glove thickness 0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141)

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use Wash hands before breaks and immediately after handling the product

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid

| | |
|---|---|
| **Appearance** | Oily |
| **Odor** | Pleasant |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -99 °C/ -146 °F | |
| **Boiling point/range** | 189 - 191 °C/ 373 - 376 °F | |
| **Flash point** | 91 °C/ 196 °F | |
| **Evaporation rate (BuAc =1)** | = 0.03 | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 0.05 hPa (@ 20°C) | |
| **Vapor density** | 2.6 (air = 1) | |
| **Specific gravity** | 1.059 - 1.079 | |

| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product. Combustible liquid.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from direct sunlight. Keep away from open flames, hot surfaces and sources of ignition. Avoid excessive heat for prolonged periods of time. Avoid frost.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong reducing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | = 7 g/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing. Not classified.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact. Inhalation. Skin contact.

**Routes of entry** Eye contact. Inhalation. Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

Ecotoxicity effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | 15200 - 18300 mg/L LC50 Pimephales promelas 96 h | 72 h - ErC50 > 92 mg/L | 48 hr EC50: > 96 mg/L |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Inherently biodegradable OECD (302B) |

## 12.3 Bioaccumulative potential

Product has a low potential to bioconcentrate.

| Chemical Name | Bioaccumulation |
|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | log Kow <=3 |

## 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

| Chemical Name | Mobility |
|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | 172 mg/ml@20 °C |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| 2,2-dimethyl-1,3-dioxolan-4-ylmethanol | Log Koc: < 1.25 |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Ingrid Helland |
| **Supersedes Date:** | 26-Nov-2014 |
| **Revision date** | 20-Aug-2018 |
| **Version** | 4 |
| **This SDS has been revised in the following section(s)** | All sections Updated according to GHS/CLP. No changes with regard to classification have been made. |

# Safety Data Sheet
## Spacer Solvent D241A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Spacer Solvent D241A
**Product code** D241A

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Cleaning agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Aspiration toxicity | Category 1 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H304 - May be fatal if swallowed and enters airways
H318 - Causes serious eye damage
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P331 - Do NOT induce vomiting
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics*

Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)*

Alcohols, C9-11-iso-, C10-rich

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | 926-141-6 | RM1004246 | 60-100 |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | 931-329-6 | RM1002627 | 5-<10 |
| Alcohols, C9-11-iso-, C10-rich | 271-234-0 | 68526-85-2 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of

this SDS.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. If conscious, drink plenty of water. Never give anything by mouth to an unconscious person. Risk of product entering the lungs on vomiting after ingestion. Seek medical attention.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded Avoid heat, flames and other sources of ignition. Incompatible with oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. Steel or high density polyethylene (HDPE) container |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits**

Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, <2% aromatics OEL vapour (Total Hydrocarbons/RCP) – TWA 1200mg/m³ (165ppm)
Above Occupational Exposure Limit (OEL) is a “in-house” calculated value provided from Suppliers of this component and calculated as per CEFIC/HSPA/UK EH 40 guidelines.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Not determined | Not determined | Not determined |
| Alcohols, C9-11-iso-, C10-rich | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Not determined | Not determined | Not determined |
| Alcohols, C9-11-iso-, C10-rich | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes<br>Chemical splash goggles and/or face shield |
| **Hand protection** | Wear gloves according to EN 374 resistant to the solvent(s) in use<br>Use protective gloves made of: Nitrile<br>Break through time >480 minutes<br>Glove thickness 0.38 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Type A/P3. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | None |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -20 °C / -4 °F | |
| **Boiling point/range** | > 200 °C / 392 °F | |
| **Flash point** | 65 °C / 149 °F | Seta closed cup |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |

| | | |
|---|---|---|
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | < 2 cPs | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 0.80 ± 0.03 g/ml (@ 20°C) |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid contact with heat, sparks, open flame, and static discharge.

**10.5 Incompatible materials**

Incompatible with oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Product information** | Prolonged and repeated contact with solvents over a long period may lead to permanent health problems. |
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Causes serious eye damage. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | May be fatal if swallowed and enters airways. Potential for aspiration if swallowed. |

Aspiration may cause pulmonary edema and pneumonitis.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | > 5000 mg/kg (Rat) | > 2000 mg/kg ( Rabbit ) | > 5.2 mg/L ( Rat ) 4 h |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | > 2000 mg/kg (Rat) OECD 401 Literature data | > 2000 mg/kg (Rabbit) Literature data | No data available |
| Alcohols, C9-11-iso-, C10-rich | = 4626 mg/kg ( Rat ) | > 2600 mg/kg ( Rabbit ) | > 0.6 mg/L ( Rat ) 6 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact. Ingestion.

**Routes of entry** Ingestion. Skin contact. Eye contact. Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** May be fatal if swallowed and enters airways.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | LC50 (Oncorhynchus mykiss (rainbow trout)): 2 - 5 mg/l Exposure time: 96 h | EL50 (Pseudokirchneriella subcapitata (green algae)): > 1 - 3 mg/l | EL50 (Water flea (Daphnia magna)): 1,4 mg/l Exposure time: 48 h |

| | | | |
|---|---|---|---|
| | Test Type: semi-static test<br>Test substance: WAF<br>Method: OECD Test Guideline 203<br>Remarks: Information given is based on data obtained from similar substances. | Exposure time: 72 h<br>Test Type: static test<br>Test substance: WAF<br>Method: OECD Test Guideline 201<br>Remarks: Information given is based on data obtained from similar substances. | Test Type: static test<br>Test substance: WAF<br>Method: OECD Test Guideline 202<br>Remarks: Information given is based on data obtained from similar substances. |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | LC50 = 2.4 mg/l 96 h. Litterature data. | EC50 = 18.6 mg/l 75 h. Literature data. | EC50 = 3.2 mg/l. 48h. Literature data. |
| Alcohols, C9-11-iso-, C10-rich | >10 - <100 mg/l | >10 - <100 mg/l | >10 - <100 mg/l |

## 12.2 Persistence and degradability

Product is biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Inherently biodegradable OECD 301F : 58.6% Duration 28 days |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Readily biodegradable |

## 12.3 Bioaccumulative potential

Does not bioaccumulate.

| Chemical Name | Bioaccumulation |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Does not bioaccumulate |

## 12.4 Mobility

**Mobility**
The product is insoluble and floats on water.

| Chemical Name | Mobility |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Soluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |
| Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)* | Not expected to adsorb on soil Notes: Calculated data (in silico) |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Does not comply |

CAS Number 64742-47-8, 68155-07-7 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

# Safety Data Sheet
## SPERSENE* CF

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** SPERSENE* CF
**Product code** PID1530

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Thinner.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains**
**2.3 Other hazards**

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulphur dioxide.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Material becomes slippery when wet. Use caution if wet. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**

Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. Suspended dust may present a dust explosion hazard Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required. See section 7 for more information

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European |

| | |
|---|---|
| | Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Dark brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 3.0 - 4.0 | 2% sol. |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.53 | 20 °C |
| **Bulk density** | 23.1-26.2 lb/ft³ (370-420 kg/m³) | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 250 - 300 °C / 482 - 572 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture. Avoid dust formation. Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand hazard classification** | Not classified. |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
STARGLIDE*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** STARGLIDE*
**Product code** PID11833

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lubricant

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 500-012-0 | 9004-77-7 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. If conscious, drink plenty of water. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| | | | |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** No information available
**Odor** Slight
**Color** Yellow
**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -10 °C / 14 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 130 °C / > 266 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Not applicable
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** 0.93 - 0.97 g/ml

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**LD50 Oral** > 2000 mg/kg (rat) Calculated (MIXTURE)

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 2630 mg/kg (Rat) | 3540 mg/kg bw (Rabbit) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | LC50 >1800 mg/l, 96h Scophthalmus maximus OECD 203 | EC50: 2490 mg/l, 72h Selenastrum capricornutum OECD 201 | EC50 >3200 mg/l, 48h Daphnia magna OECD 202 |

## 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | OECD 301D 76% |

## 12.3 Bioaccumulative potential

The product contains potentially bioaccumulating substances. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | log Kow 0.44@20°C |

## 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

**New Zealand Hazard Classification** Classified

**HSNO approval no.** HSR002606

**Group number** 8.3A

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

**Prepared by** Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse

**Supersedes Date:** 13-Oct-2016

**Revision date** 22-Oct-2019

**Version** 7

**This SDS has been revised in the following section(s)** All sections No changes with regard to classification have been made. Updated according to GHS/CLP.

# Safety Data Sheet
## Swelling Additive D205

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Swelling Additive D205
**Product code** D205

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Silicon Dioxide

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Silicon Dioxide | 231-545-4 | 7631-86-9 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid generating or breathing dust. Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. Ensure all equipment is electrically grounded before beginning transfer operations.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Keep away from direct sunlight. Avoid excessive heat for prolonged periods of time. Store at ambient conditions Store away from incompatibles, Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Silicon Dioxide | Not determined | 2mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Silicon Dioxide | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Silicon Dioxide | 1 mg/m³ MAC<br>2 mg/m³ MAC | 6.0 mg/m³ TWA | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Silicon Dioxide | Not determined | Not determined | 3 mg/m³ STEL<br>6 mg/m³ STEL<br>1 mg/m³ TWA<br>2 mg/m³ TWA<br>Fibrogenic substance also vitreous, in the form of disintegration aerosol 1177<br>Fibrogenic substance in the form of condensation aerosol, containing >=10% Silicon dioxide 1175, 1176 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Silicon Dioxide | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Micro-beads |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |

| | | |
|---|---|---|
| **Bulk density** | 300 - 400 Kg/m³ | @ 20°C. |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 880 - 950 Kg/m³ @20°C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Keep away from open flames, hot surfaces and sources of ignition. Keep away from direct sunlight. Avoid excessive heat for prolonged periods of time. Store at ambient conditions.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Silicon Dioxide | = 7900 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.2 mg/L ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Ingestion. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
No product level data available. See component information below.

**Toxicity to fish**
No product level data available. See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
No product level data available. See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Silicon Dioxide | = 5000 mg/L LC50 Brachydanio rerio 96 h | = 440 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 7600 mg/L EC50 Ceriodaphnia dubia 48 h |

### 12.2 Persistence and degradability

The product is not expected to be biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Silicon Dioxide | No information available |

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

| Chemical Name | Bioaccumulation |
|---|---|
| Silicon Dioxide | Not likely to bioaccumulate |

### 12.4 Mobility

**Mobility**
The product is insoluble and floats on water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |

| | |
|---|---|
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Synthetic Solid Cement Retarder D198

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Synthetic Solid Cement Retarder D198
**Product code** D198
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

–

**Contains**
Quartz, Crystalline silica

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Quartz, Crystalline silica | 238-878-4 | 14808-60-7 | 60 - 100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water. Remove contaminated clothing and

shoes. Seek medical attention if irritation occurs.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. For personal protection see section 8.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Keep airborne concentrations below exposure limits. Provide appropriate exhaust ventilation at places where dust is formed. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Store away from incompatibles, React with hydrofluoric acid (HF) forming toxic gas (SiF4) Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Quartz, Crystalline silica | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| | | | |
|---|---|---|---|
| Quartz, Crystalline silica | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Quartz, Crystalline silica | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Quartz, Crystalline silica | 0.025 mg/m³ TWA | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Nitrile Neoprene gloves Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White - Tan |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | > 1700 ◦C / 3092 ◦F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | 2.3 | @20 °C |
| **Bulk density** | 1100 -1600 kg/m$^3$ | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |
| **Explosive properties** | Suspended dust may present a dust explosion hazard | |
| **Oxidizing properties** | No information available | |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges.

**10.5 Incompatible materials**

Hydrofluoric acid (HF). Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Quartz, Crystalline silica | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Category 2.

**Target organ effects** Lungs. Respiratory system.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Quartz, Crystalline silica | No information available | No information available | No information available |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Quartz, Crystalline silica | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Quartz, Crystalline silica | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Quartz, Crystalline silica | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Quartz, Crystalline silica | Not expected to adsorb on soil |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## THRUCARB*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** THRUCARB*
**Product code** PID12189

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Bridging material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Calcium carbonate

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |

| **pH** | Not applicable | |
| **pH @ dilution** | 8.4 - 10.2 | @ 5% sol. |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |

| | | |
|---|---|---|
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.5 - 2.8 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | 825 °C / 1517°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Strong acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium carbonate | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
THRUTROL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** THRUTROL*
**Product code** PID12188

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fluid loss reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains**
**2.3 Other hazards**

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. Avoid dust

formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. Suspended dust may present a dust explosion hazard Protect from moisture Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient |

| | |
|---|---|
| | ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Slight |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 9.0 - 10.5 | @ 4% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | @ 20 °C |
| **Bulk density** | 30 - 45 lb / ft³ | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

# Safety Data Sheet
## TIC* D65 Dispersant

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

| | |
|---|---|
| **Product name** | TIC* D65 Dispersant |
| **Product code** | D065 |
| **Country Limitations** | This SDS is not for use in the European Union (EU). |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| | |
|---|---|
| **Recommended Use** | Used as a cementing additive in oilfield applications |
| **Uses advised against** | Consumer use |

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

| | |
|---|---|
| **Health hazards** | Not classified |
| **Environmental hazards** | Not classified |
| **Physical Hazards** | Not classified |

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains**
Sodium sulfate (Impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium sulfate (Impurity) | 231-820-9 | 7757-82-6 | 1-5 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulfur dioxide.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Keep away from combustible material. Avoid contact with heat, sparks, open flame, and static discharge. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid dust formation. Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Take precautionary measures against static discharges. Use non-sparking tools and equipment. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid handling causing generation of dust. All equipment used when handling the product must be grounded. Avoid breathing dust; if exposed to high dust concentration, leave area immediately. Fine dust dispersed in air may ignite. Take precautionary measures against static discharges.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. Ensure all equipment is electrically grounded before beginning transfer operations.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Protect from moisture

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
Control as an ACGIH particulate not otherwise specified (PNOS): 10 mg/m³ (Inhalable); 3 mg/m³ (Respirable) and an OSHA particulate not otherwise regulated (PNOR): 15 mg/m³ (Total); 5 mg/m³ (Respirable).

**Component Information**

| **Chemical Name** | **Arabic** | **Australia** | **Egypt** |
|---|---|---|---|
| Sodium sulfate (Impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium sulfate (Impurity) | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium sulfate (Impurity) | 10 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium sulfate (Impurity) | Not determined | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium sulfate (Impurity) | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Use protective gloves made of: Nitrile Neoprene<br>Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Faint |
| **Color** | Tan |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Approximately 10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |

| | | |
|---|---|---|
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | Not applicable | |
| **Relative Vapor Density** | Not applicable | |
| **Specific gravity** | 0.8 | 20 °C |
| **Bulk density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Avoid contact with heat, sparks, open flame, and static discharge. Protect from moisture. Keep away from direct sunlight.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium sulfate (Impurity) | > 10000 mg/kg ( Rat ) | > 4 g/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not classified.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium sulfate (Impurity) | = 13500 mg/L LC50 Lepomis | No information available | = 630 mg/L EC50 Daphnia magna |

| | | | |
|---|---|---|---|
| | macrochirus 96 h 3040 - 4380 mg/L LC50 Lepomis macrochirus 96 h > 6800 mg/L LC50 Pimephales promelas 96 h 13500 - 14500 mg/L LC50 Pimephales promelas 96 h | | 96 h = 2564 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
ULTRADRIL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ULTRADRIL*
**Product code** PID10480

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H315 - Causes skin irritation
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Supplementary precautionary statements**
P362 + P364 - Take off contaminated clothing and wash it before reuse
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Sodium Chloride

Barite

Calcium carbonate

Potassium Chloride

Crystalline silica (impurity)

Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|

| | | | |
|---|---|---|---|
| Sodium Chloride | 231-598-3 | 7647-14-5 | 30-60 |
| Barite | 236-664-5 | 13462-86-7 | 10-30 |
| Calcium carbonate | 207-439-9 | 471-34-1 | 5-10 |
| Potassium Chloride | 231-211-8 | 7447-40-7 | 1-5 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <2 |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | - | 9046-10-0 | 1-<3 |

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

The product contains other ingredients which do not contribute to the overall classification.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**

Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Mild |
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

**Inhalation** May cause irritation of respiratory tract.

**Eye contact** Causes serious eye irritation.

**Skin contact** Causes skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | 2885 mg/kg ( Rat ) OECD 401 | 2979 mg/kg ( Rabbit ) OECD 402 | > 0.74 mg/l ( Rat ) OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact. Skin contact. Inhalation.

**Routes of entry** Inhalation.

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium Chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |
| Barite | No information available | No information available | No information available |
| Calcium carbonate | No information available | No information available | No information available |
| Potassium Chloride | 750 - 1020 mg/L LC50 Pimephales promelas 96 h = 1060 mg/L LC50 Lepomis macrochirus 96 h | = 2500 mg/L EC50 Desmodesmus subspicatus 72 h | = 83 mg/L EC50 Daphnia magna 48 h = 825 mg/L EC50 Daphnia magna 48 h |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | LC50 >700 mg/l 96h | EC50 >700 mg/l 72h | EC50 >1001 mg/l 48h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Barite | Inorganic compound |
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Inorganic compound |

| | |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Barite | Product/Substance is inorganic |
| Calcium carbonate | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Barite | Insoluble in water |
| Calcium carbonate | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Barite | Not expected to adsorb on soil |
| Calcium carbonate | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code.
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium Chloride
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 16-Mar-2016 |
| **Revision date** | 10-Sep-2019 |
| **Version** | 5 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## ULTRAHIB*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** ULTRAHIB*
**Product code** PID10482

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale inhibitor.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1C |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse

**Contains**
Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of toxic and corrosive gases/vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | - | 9046-10-0 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Get immediate medical attention.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention at once.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Avoid contact with eyes. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong acids |
| **Storage class** | Corrosive storage. |

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes
Chemical splash goggles and/or face shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene Rubber
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Ammoniacal |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9.0 - 9.5 | (Neat) |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 93 °C / > 200 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.993 - 1.023 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 80 - 120 cP | @ 24 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Not known.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition.

### 10.5 Incompatible materials

Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system. Inhaled corrosive substances can lead to a toxic edema of the lungs.

**Eye contact** Causes burns. May cause irreversible damage to eyes.

**Skin contact** Causes severe skin burns.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | 2885 mg/kg ( Rat )<br>OECD 401 | 2979 mg/kg ( Rabbit )<br>OECD 402 | > 0.74 mg/l ( Rat )<br>OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Inhalation. |
| **Routes of entry** | Skin contact. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | LC50 >700 mg/l 96h | EC50 >700 mg/l 72h | EC50 >1001 mg/l 48h |

### 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

.

.

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN2735
**UN No. (IMDG/ANTAQ)** UN2735
**UN No. (ICAO/ANAC)** UN2735

### 14.2. UN proper shipping name

AMINES, LIQUID, CORROSIVE, N.O.S. (contains Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups)

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | III |
| **IMDG/ANTAQ Packing group** | III |
| **ICAO/ANAC Packing group** | III |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

# Safety Data Sheet
## UltraLITE D188

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** UltraLITE D188
**Product code** D188

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

_

**Contains**
Silica, amorphous

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Silica, amorphous | 231-545-4 | 7631-86-9 | <=3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Contaminated surfaces will be extremely slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Protect from moisture

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Silica, amorphous | Not determined | 2mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Silica, amorphous | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Silica, amorphous | 1 mg/m³ MAC<br>2 mg/m³ MAC | 6.0 mg/m³ TWA | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Silica, amorphous | Not determined | Not determined | 3 mg/m³ STEL<br>6 mg/m³ STEL<br>1 mg/m³ TWA<br>2 mg/m³ TWA<br>Fibrogenic substance also vitreous, in the form of disintegration aerosol 1177<br>Fibrogenic substance in the form of condensation aerosol, containing >=10% Silicon dioxide 1175, 1176 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Silica, amorphous | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders<br>Use protective gloves made of: Neoprene Nitrile<br>Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |

| | |
|---|---|
| **Relative Vapor Density** | No information available |
| **Specific gravity** | No information available |
| **Bulk density** | No information available |
| **Water solubility** | Insoluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **Partition Coefficient (n-octanol/water)** | No information available |
| **Density and/or Relative Density** | 0.35 - 0.41 g/cm³ |
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Avoid heat, flames and other sources of ignition. Protect from moisture.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Silica, amorphous | = 7900 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.2 mg/L ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Silica, amorphous | = 5000 mg/L LC50 Brachydanio rerio 96 h | = 440 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 7600 mg/L EC50 Ceriodaphnia dubia 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Silica, amorphous | Not Applicable - Inorganic chemical. |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Silica, amorphous | Not Applicable - Inorganic chemical. |

### 12.4 Mobility

**Mobility**
The product is insoluble and floats on water.

**Mobility in soil**
No information available.

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not applicable |
| **Group number** | Not applicable |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP) Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## UNIFLAC* L D168

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** UNIFLAC* L D168
**Product code** D168

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

**4.3 Indication of any immediate medical attention and special treatment needed**

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of toxic and corrosive gases/vapors Nitrogen oxides (NOx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Contaminated surfaces will be extremely slippery. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Provide sufficient air exchange and/or exhaust in work rooms. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Store above freezing temperature Store away from incompatibles, Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Butyl Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Odorless |
| **Color** | White - Light yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7 | @ 20 °C |
| **pH @ dilution** | 10 g/l | |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Similar to water. | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2.34 kPa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.06 g/cm3 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 500 °C / 932 °F | |
| **Decomposition temperature** | 260 °C / 500 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 2000 - 4000 mPa s | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | Not applicable |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | -6°C / 21.2 °F |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.06 g/cm³ (20°C) |

**Comments**

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Do not freeze.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Skin contact. Eye contact. Inhalation. |

| | |
|---|---|
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not applicable |
| **Group number** | Not applicable |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |
| **Supersedes Date:** | 19-Feb-2015 |

# Safety Data Sheet
## UNISET-LT D177

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** UNISET-LT D177
**Product code** D177

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Substances/mixtures corrosive to metal | Category 1 |

### 2.2 Label elements

**Signal word**
WARNING

H290 - May be corrosive to metals

**Precautionary statements**
P234 - Keep only in original container
P390 - Absorb spillage to prevent material damage
P406 - Store in corrosion resistant container with a resistant inner liner

–

**Contains**
Phosphoric Acid

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Phosphoric Acid | 231-633-2 | 7664-38-2 | 5-<10 |

**Comments**
Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use water spray, fog, Carbon dioxide ($CO_2$), foam or dry chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Oxides of phosphorus.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Store at ambient conditions Protect from freezing Avoid excessive heat for prolonged periods of time. Store away from incompatibles, Strong oxidizing agents Aluminum Carbon steel |
| **Storage class** | Corrosive storage. |
| **Packaging materials** | High density polyethylene (HDPE) drum or can Plastic container |
| **Packaging materials to be avoided** | Do not use carbon steel or aluminum tools or equipment. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Phosphoric Acid | 3 mg/m³ STEL<br>1 mg/m³ TWA | 3mg/m³STEL<br>1mg/m³TWA | 3 mg/m³ STEL<br>1 mg/m³ TWA |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |

| | | | |

| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Phosphoric Acid | 1 mg/m³ TWA | 1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Phosphoric Acid | 1 mg/m³ TWA | 1 mg/m³ TWA<br>3 mg/m³ STEL | 2 mg/m³ STEL<br>1 mg/m³ TWA |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Nitrile PVA PVC
Break through time >480 minutes
Glove thickness >=0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Type A/P3. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Eye wash and emergency shower must be available at the work place. Wear appropriate personal protective clothing to prevent skin contact

**Hygiene Measures** — Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | No information available |
| **Color** | Green |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 1.5 - 1.9 | |
| **pH @ dilution** | Not applicable | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.106 | @20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.106 | @ 20°C. |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Corrosive to Metals.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid excessive heat for prolonged periods of time. Keep away from direct sunlight. Store at ambient conditions. Protect from freezing.

### 10.5 Incompatible materials

Strong oxidizing agents. Carbon steel. Aluminium.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Phosphoric Acid | = 1530 mg/kg ( Rat ) | = 2740 mg/kg ( Rabbit ) | > 850 mg/m³ ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Phosphoric Acid | 3 - 3.5 mg/L LC50 Gambusia affinis 96 h | No information available | = 4.6 mg/L EC50 Daphnia magna 12 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Phosphoric Acid | Readily biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Phosphoric Acid | No bioaccumulation potential |

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

| Chemical Name | Mobility |
|---|---|
| Phosphoric Acid | Miscible in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Phosphoric Acid | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

| | |
|---|---|
| **UN/ID No. (ADR/RID/ADN/ADG)** | UN1760 |
| **UN No. (IMDG/ANTAQ)** | UN1760 |
| **UN No. (ICAO/ANAC)** | UN1760 |

**14.2. UN proper shipping name**

CORROSIVE LIQUID, N.O.S. (contains Phosphoric Acid)

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | 8 |
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | III |
| **IMDG/ANTAQ Packing group** | III |
| **ICAO/ANAC Packing group** | III |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |

| | |
|---|---|
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Phosphoric Acid
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | |

## 16. Other Information

# Safety Data Sheet
## VERATHERM*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** VERATHERM*
**Product code** SYS00064

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 67 009 214 162
Level 5
10 Telethon Avenue
Perth
WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H318 - Causes serious eye damage

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves and eye/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P332 + P313 - If skin irritation occurs: Get medical advice/attention

**Supplementary precautionary statements**
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
Calcium carbonate

Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups

2-aminoethanol

Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium carbonate | 207-439-9 | 471-34-1 | 10-30 |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | - | 9046-10-0 | 1-<3 |
| 2-aminoethanol | 205-483-3 | 141-43-5 | 1-<3 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**

None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply. No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** — Liquid
**Appearance** — Viscous
**Odor** — Faint
**Color** — White - Brown

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |

| | |
|---|---|
| **pH @ dilution** | No information available |
| **Melting / freezing point** | Not applicable |
| **Boiling point/range** | > 100 °C / > 212 °F |
| **Flash point** | > 100 °C / > 212 °F |
| **Evaporation rate (BuAc =1)** | No information available |
| **Flammability** | Not applicable |
| **Explosion limits:** | |
| **Upper explosion limit** | No information available |
| **Lower explosion limit** | No information available |
| **Vapor pressure** | No information available |
| **Relative Vapor Density** | No information available |
| **Specific gravity** | 1.0 - 2.3 |
| **Bulk density** | No information available |
| **Water solubility** | Miscible with water. |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **Partition Coefficient (n-octanol/water)** | No information available |
| **Density and/or Relative Density** | No information available |
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. Components of the product may be absorbed into the body through the skin.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium carbonate | = 6450 mg/kg ( Rat ) | No data available | No data available |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | 2885 mg/kg ( Rat ) OECD 401 | 2979 mg/kg ( Rabbit ) OECD 402 | > 0.74 mg/l ( Rat ) OECD 403 |
| 2-aminoethanol | = 1720 mg/kg (Rat) | = 1000 mg/kg (Rabbit) = 1 mL/kg (Rabbit) | > 1.3 mg/l Vapour 6h (Rat) |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact.

**Routes of entry** Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium carbonate | No information available | No information available | No information available |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | LC50 >700 mg/l 96h | EC50 >700 mg/l 72h | EC50 >1001 mg/l 48h |
| 2-aminoethanol | > 200 mg/L LC50 Oncorhynchus mykiss 96 h<br>= 3684 mg/L LC50 Brachydanio rerio 96 h<br>300 - 1000 mg/L LC50 Lepomis macrochirus 96 h<br>114 - 196 mg/L LC50 Oncorhynchus mykiss 96 h<br>= 227 mg/L LC50 Pimephales promelas 96 h | = 15 mg/L EC50 Desmodesmus subspicatus 72 h | = 65 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium carbonate | Not Applicable - Inorganic chemical. |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not biodegradable |
| 2-aminoethanol | Readily biodegradable |
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium carbonate | Product/Substance is inorganic |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Does not bioaccumulate |
| 2-aminoethanol | Does not bioaccumulate log Kow -1.91 |
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium carbonate | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium carbonate | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group
**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

### 14.5 Environmental hazard
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-aminoethanol
Schedule 4
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

# Safety Data Sheet
## WALNUT NUTPLUG*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** WALNUT NUTPLUG*
**Product code** PID2234

**Synonyms** WALNUT NUT PLUG* FINE, WALNUT NUT PLUG* COARSE

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Polysaccharide

Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Combustible dust

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Cellulose | Listed | Proprietary | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

### 3.2 Mixtures

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Polysaccharide | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable

**Respiratory protection** — No protective equipment is needed under normal use conditions In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** — Solid
**Appearance** — No information available
**Odor** — Odorless
**Color** — Light brown
**Odor threshold** — Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 193 °C / 380 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 - 1.4 | @ 20 °C |
| **Bulk density** | 577-641 kg/m³/36-40 lb/ft3 | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | Not applicable | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges.

**10.5 Incompatible materials**

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Polysaccharide | > 5 g/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Polysaccharide | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

Not regulated

**14.2. UN proper shipping name**

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |

# Safety Data Sheet
## Weighting Agent D157

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Weighting Agent D157
**Product code** D157

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Reproductive toxicity | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H361 - Suspected of damaging fertility or the unborn child

**Precautionary statements**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Trimanganese tetradioxide

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Trimanganese tetradioxide | 215-266-5 | 1317-35-7 | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 1-<3 |

**3.2 Mixtures**

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

| | |
|---|---|
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid generating or breathing dust. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid handling causing generation of dust. Not to be used by pregnant workers and workers who have recently given birth or who are breastfeeding.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Acids Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Trimanganese tetradioxide | Not determined | 1mg/m³TWA | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |

| Chemical Name | India | Indonesian | Japan |
|---|---|---|---|
| Trimanganese tetradioxide | Not determined | Not determined | 0.2 mg/m³ ACL<br>0.2 mg/m³ OEL |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Trimanganese tetradioxide | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA<br>Confirmed carcinogen |

| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Trimanganese tetradioxide | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile PVC Frequent change is advisable

**Respiratory protection** — In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Red brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 7-10 | 5g/50ml H2O |
| **Melting / freezing point** | 1550-1650° C / 2822-3002° F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 4.7 - 4.9 g/cm³ | |
| **Bulk density** | No information available | |
| **Relative density** | 0.97-1.01 kg/cm3 | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

### 10.5 Incompatible materials

Acids. Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Trimanganese tetradioxide | No data available | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** Suspected of damaging fertility or the unborn child.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Trimanganese tetradioxide | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

**Marine pollutant**

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**
