**Disclaimer:** This MSDS has been prepared using information from sources considered technically reliable. It should not be relied upon as a product specification. The company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other chemical substances. Every user of the product is responsible for evaluating its own processes and conditions of use and selecting appropriate protective measures for employee exposure.

# SAFETY DATA SHEET

## 1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Product name:** 300a

**Supplier:**
Tracerco
PO Box 1
Belasis Hall Technology Park
Billingham
Cleveland
TS23 1LB
UK
Tel: +44 (0)1642 375500 Fax: +44 (0)1642 370704
www.tracerco.com

**Emergency telephone:**
+44 (0)1642 375500

**Intended use:** Diagnostic services

**Contact person:**
Peter.Scaife@matthey.com

## 2 HAZARDS IDENTIFICATION

Not classified as dangerous according to directive 1999/45/EC. The toxicological properties of this compound have not been fully investigated.

**Potential health effects**

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Other health effects:** The toxicological properties of this compound have not been fully investigated.

**Potential physical / chemical effects:** This product is not flammable.

**Environment:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## 3 COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name | EC No. | CAS-No. | Concentration * | Classification | Notes |
|---|---|---|---|---|---|
| 300a | | | >= 99% | - | - |

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## 4 FIRST-AID MEASURES

**Inhalation:** Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Eye contact:** Flush thoroughly with water. If irritation occurs, get medical assistance.

**Skin contact:** Wash contact areas with soap and water.

**Ingestion:** Rinse mouth thoroughly. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Inappropriate extinguishing media:** Not applicable.

**Special fire fighting procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual fire & explosion hazards:** During fire, gases hazardous to health may be formed.

**Hazardous combustion products:** Carbon oxides, Hydrogen fluoride

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Store in closed original container in a dry place. Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limit values:** No exposure limits noted for ingredient(s).

**Engineering controls:** Use explosion-proof ventilation equipment. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.

**Respiratory protection:** In case of inadequate ventilation use suitable respirator. Use respiratory equipment with combination filter, type A2/P2. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Risk of contact: Wear approved safety glasses or goggles.

**Hand protection:** Risk of contact: Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Colourless
**Odour:** No data available.
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** No data available.
**Freezing point:** No data available.
**Boiling Point:** 48°C (118°F)
**Relative density:** No data available.
**Vapour pressure:** No data available.
**Vapour density (air=1):** No data available.
**Evaporation rate:** No data available.
**Solubility in water:** Insoluble
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** Not applicable
**Flash point:** No data available.
**Autoignition temperature:** No data available.

**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Oxidizing agents.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** No data available.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 09

## 14 TRANSPORT INFORMATION

**ADR/RID** Not regulated.

**IMDG** Not regulated.

**IATA** Not regulated.

## 15 REGULATORY INFORMATION

The product has not been classified as dangerous according to the legislation in force.

## 16 OTHER INFORMATION

**Wording of the R-phrases in sections 2 and 3:** None

**Inventory status:** All substances are listed on EINECS.

**Issue date:** 21-Aug-2008
**Supercedes date:**
**SDS No.:** 1014904
**Disclaimer:** This MSDS has been prepared using information from sources considered technically reliable. It should not be relied upon as a product specification. The company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other chemical substances. Every user of the product is responsible for evaluating its own processes and conditions of use and selecting appropriate protective measures for employee exposure.

## 2 HAZARDS IDENTIFICATION

The product has been classified according to the legislation in force.

**Classification:** | Xi; R36/37/38 |

The full text for all R-phrases is displayed in Section 16.

**Potential health effects**

**Inhalation:** Irritating to respiratory system.

**Eye contact:** Irritating to eyes. Eye may become red, tear, and become painful.

**Skin contact:** Irritating to skin. May cause pain, redness and itching.

**Ingestion:** May cause discomfort if swallowed.

**Other health effects:** The toxicological properties of this compound have not been fully investigated.

**Potential physical / chemical effects:** This product is not flammable.

**Environment:** The product components are not classified as environmentally hazardous. However, this does not

exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## 3 COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name | EC No. | CAS-No. | Concentration * | Classification | Notes |
|---|---|---|---|---|---|
| 400b | | | >= 99% | Xi;R36/37/38 | - |

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

The full text for all R-phrases is displayed in Section 16.

## 4 FIRST-AID MEASURES

**Inhalation:** Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Eye contact:** Flush thoroughly with water for at least 15 minutes. Get medical assistance.

**Skin contact:** Wash contact areas with soap and water. Get medical attention promptly if symptoms occur after washing.

**Ingestion:** Rinse mouth thoroughly with water and give large amounts of milk or water to people not unconscious. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Inappropriate extinguishing media:** Not applicable.

**Special fire fighting procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual fire & explosion hazards:** During fire, gases hazardous to health may be formed.

**Hazardous combustion products:** Carbon oxides, Hydrogen fluoride

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by

permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Wear approved safety glasses or goggles.

**Hand protection:** Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** Wear suitable protective clothing.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Pale yellow
**Odour:** No data available.
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** -55°C (-67°F)
**Freezing point:** No data available.
**Boiling Point:** 101°C (214°F)
**Relative density:** No data available.
**Vapour pressure:** No data available.
**Vapour density (air=1):** No data available.

**Evaporation rate:** No data available.
**Solubility in water:** Not miscible
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** Not applicable
**Flash point:** No data available.
**Autoignition temperature:** No data available.
**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Strong oxidising agents.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** Irritating to respiratory system.

**Eye contact:** Irritating to eyes. Eye may become red, tear, and become painful.

**Skin contact:** Irritating to skin. May cause pain, redness and itching.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** The product is insoluble in water.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 08*

## 14 TRANSPORT INFORMATION

**ADR/RID** Not regulated.

**IMDG** Not regulated.

**IATA** Not regulated.

## 15 REGULATORY INFORMATION

Irritant.

R36/37/38; Irritating to eyes, respiratory system and skin.

S23; Do not breathe vapor or spray. S24/25; Avoid contact with skin and eyes. S26; In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S60; This material and its container must be disposed of as hazardous waste.

## 16 OTHER INFORMATION

**Wording of the R-phrases in sections 2 and 3:** R36; Irritating to eyes. R37; Irritating to respiratory system. R38; Irritating to skin.

**Inventory status:** All substances are listed on EINECS.

## 2 HAZARDS IDENTIFICATION

Not classified as dangerous according to directive 1999/45/EC. The toxicological properties of this compound have not been fully investigated.

**Potential health effects**

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Other health effects:** The toxicological properties of this compound have not been fully investigated.

**Potential physical / chemical effects:** This product is not flammable.

**Environment:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## 3 COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name | EC No. | CAS-No. | Concentration * | Classification | Notes |
|---|---|---|---|---|---|
| 412 | | | >= 99% | - | - |

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## 4 FIRST-AID MEASURES

**Inhalation:** Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Eye contact:** Flush thoroughly with water. If irritation occurs, get medical assistance.

**Skin contact:** Wash contact areas with soap and water.

**Ingestion:** Rinse mouth thoroughly with water and give large amounts of milk or water to people not unconscious. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Inappropriate extinguishing media:** Not applicable.

**Special fire fighting procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual fire & explosion hazards:** During fire, gases hazardous to health may be formed.

**Hazardous combustion products:** Carbon oxides, Hydrogen fluoride

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Store in closed original container in a dry place. Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limit values:** No exposure limits noted for ingredient(s).

**Engineering controls:** Use explosion-proof ventilation equipment. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.

**Respiratory protection:** In case of inadequate ventilation use suitable respirator. Use respiratory equipment with combination filter, type A2/P2. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Risk of contact: Wear approved safety glasses or goggles.

**Hand protection:** Risk of contact: Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Colourless
**Odour:** Odourless
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** No data available.
**Freezing point:** No data available.
**Boiling Point:** 121°C (250°F)
**Relative density:** No data available.
**Vapour pressure:** No data available.
**Vapour density (air=1):** No data available.
**Evaporation rate:** No data available.
**Solubility in water:** Not miscible
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** Not applicable
**Flash point:** No data available.

**Autoignition temperature:** No data available.
**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Oxidizing agents.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** No data available.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 09

## 14 TRANSPORT INFORMATION

**ADR/RID** Not regulated.

**IMDG** Not regulated.

**IATA** Not regulated.

## 15 REGULATORY INFORMATION

The product has not been classified as dangerous according to the legislation in force.

## 16 OTHER INFORMATION

**Wording of the R-phrases in sections 2 and 3:** None

**Inventory status:** Not all substances are listed on EINECS.

**Issue date:** 21-Aug-2008
**Supercedes date:**
**SDS No.:** 1015406
**Disclaimer:** This MSDS has been prepared using information from sources considered technically reliable. It should not be relied upon as a product specification. The company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other chemical substances. Every user of the product is responsible for evaluating its own processes and conditions of use and selecting appropriate protective measures for employee exposure.

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Avoid inhalation of vapours and spray mist and contact with skin and eyes. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Store in closed original container in a dry place. Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limit values:** No exposure limits noted for ingredient(s).

**Engineering controls:** Use explosion-proof ventilation equipment. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.

**Respiratory protection:** In case of inadequate ventilation use suitable respirator. Use respiratory equipment with combination filter, type A2/P2. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Risk of contact: Wear approved safety glasses or goggles.

**Hand protection:** Risk of contact: Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Colourless
**Odour:** Odourless
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** No data available.
**Freezing point:** No data available.
**Boiling Point:** 127°C (261°F)
**Relative density:** No data available.
**Vapour pressure:** No data available.
**Vapour density (air=1):** No data available.
**Evaporation rate:** No data available.
**Solubility in water:** Not miscible
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** 2.28 mPa.s
**Flash point:** No data available.

**Autoignition temperature:** No data available.
**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Potassium Sodium. Lithium. Calcium. Barium.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** No data available.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 09

## 14 TRANSPORT INFORMATION

**ADR/RID** Not regulated.

**IMDG** Not regulated.

**IATA** Not regulated.

## 15 REGULATORY INFORMATION

The product has not been classified as dangerous according to the legislation in force.

## 16 OTHER INFORMATION

**Wording of the R-phrases in sections 2 and 3:** None

**Inventory status:** All substances are listed on EINECS.

**Issue date:** 21-Aug-2008
**Supercedes date:**
**SDS No.:** 1015373
**Disclaimer:** This MSDS has been prepared using information from sources considered technically reliable. It should not be relied upon as a product specification. The company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other chemical substances. Every user of the product is responsible for evaluating its own processes and conditions of use and selecting appropriate protective measures for employee exposure.

# SAFETY DATA SHEET

## 1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**Product name:** 462a

**Supplier:**
Tracerco
PO Box 1
Belasis Hall Technology Park
Billingham
Cleveland
TS23 1LB
UK
Tel: +44 (0)1642 375500 Fax: +44 (0)1642 370704
www.tracerco.com

**Emergency telephone:**
+44 (0)1642 375500

**Intended use:** Diagnostic services

**Contact person:**
Peter.Scaife@matthey.com

## 2 HAZARDS IDENTIFICATION

The product has been classified according to the legislation in force.

**Classification:** | R10 |

The full text for all R-phrases is displayed in Section 16.

**Potential health effects**

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Other health effects:** The toxicological properties of this compound have not been fully investigated.

**Potential physical / chemical effects:** The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures.

**Environment:** The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

## 3 COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical name | EC No. | CAS-No. | Concentration * | Classification | Notes |
|---|---|---|---|---|---|
| 462a | | | >= 99% | R10 | - |

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## 4 FIRST-AID MEASURES

**General:** Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital.

**Inhalation:** Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Eye contact:** Flush thoroughly with water. If irritation occurs, get medical assistance.

**Skin contact:** Wash contact areas with soap and water.

**Ingestion:** Rinse mouth thoroughly with water and give large amounts of milk or water to people not unconscious. Get medical attention if any discomfort continues.

## 5 FIRE-FIGHTING MEASURES

**Extinguishing media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Inappropriate extinguishing media:** Not applicable.

**Special fire fighting procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual fire & explosion hazards:** During fire, gases hazardous to health may be formed.

**Hazardous combustion products:** Carbon oxides, Hydrogen fluoride

**Protective measures:** Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

## 6 ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Do not smoke, use open fire or other sources of ignition. Avoid inhalation of vapours and spray mist and contact with skin and eyes. Provide adequate ventilation. Wear suitable protective clothing. See Section 8 for personal protective equipment.

**Spill cleanup methods:** Remove sources of ignition. Beware of the explosion danger. Absorb in vermiculite, dry sand or earth and place into containers. For waste disposal, see section 13.

**Environmental precautions:** Avoid discharge into drains, water courses or onto the ground unless authorized by permit.

**Notification procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

## 7 HANDLING AND STORAGE

**Handling:** Local exhaust is recommended. Avoid inhalation of vapours and spray mist and contact with skin and eyes. Do not smoke and do not spray near a naked flame or other sources of ignition. The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures. Wear appropriate personal protective equipment. See Section 8 for personal protective equipment.

**Storage:** Follow rules for flammable liquids. Keep away from heat, sparks and open flame. Store in a cool and well-ventilated place. Keep containers tightly closed. Store away from incompatible materials.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limit values:** No exposure limits noted for ingredient(s).

**Engineering controls:** Use explosion-proof ventilation equipment. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.

**Respiratory protection:** In case of inadequate ventilation use suitable respirator. Use respiratory equipment with combination filter, type A2/P2. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

**Eye protection:** Risk of contact: Wear approved safety glasses or goggles.

**Hand protection:** Risk of contact: Wear protective gloves. Neoprene, nitrile, polyethylene or PVC. The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material.

**Skin protection:** If prolonged or repeated contact is likely, chemical resistant clothing is recommended.

**Hygiene measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid
**Colour:** Colourless
**Odour:** No data available.
**Odour threshold:** No data available.
**pH:** Not applicable
**Melting point:** -10°C (14°F)
**Freezing point:** No data available.

**Boiling Point:** 142°C (288°F)
**Relative density:** No data available.
**Vapour pressure:** No data available.
**Vapour density (air=1):** 17.5
**Evaporation rate:** No data available.
**Solubility in water:** No data available.
**Solubility (other):** No data available.
**Partition coefficient (n-octanol/water):** No data available.
**Viscosity:** Not applicable
**Flash point:** 48°C (118°F)
**Autoignition temperature:** No data available.
**Flammability limit - lower(%):** No data available.
**Flammability limit - upper (%):** No data available.

## 10 STABILITY AND REACTIVITY

**Stability:** This product is stable under expected conditions of use.

**Conditions to avoid:** Heat, sparks, flames.

**Incompatible materials:** Oxidizing agents.

**Hazardous decomposition products:**

| | |
|---|---|
| At elevated temperatures: | Carbon oxides, Hydrogen fluoride |

**Possibility of hazardous reactions:** Will not occur.

## 11 TOXICOLOGICAL INFORMATION

**Inhalation:** In high concentrations, vapours may be irritating to the respiratory system.

**Eye contact:** May cause minor irritation on eye contact.

**Skin contact:** Mildly irritating to skin with prolonged exposure.

**Ingestion:** May cause discomfort if swallowed.

**Sensitisation:** None known.

**Listed carcinogens:** None

**Mutagenesis:** No data available.

**Reproductive toxicity:** No data available.

**Other effects:** The toxicological properties of this compound have not been fully investigated.

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** The product components are not classified as environmentally hazardous. However, this does not

exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Mobility:** No data available.

**Persistence and degradability:** No data available.

**Bioaccumulation potential:** No data available.

## 13 DISPOSAL CONSIDERATIONS

**Disposal methods:** Dispose of waste and residues in accordance with local authority requirements.

**European waste codes**
**Unused product:** 16 05 08*

## 14 TRANSPORT INFORMATION

**ADR/RID**
**UN No.:** UN1993
**Proper shipping name:** Flammable liquid, n.o.s. (Perfluorodecalin)
**Class:** 3
**Packing group:** III
**Label(s):** 3

**IMDG**
**UN No.:** UN1993

# MATERIAL SAFETY DATA SHEET

## IDENTIFICATION

| | |
|---|---|
| PRODUCT NAME | **IRIDIUM ZERO WASH® BEAD TRACER** |
| RADIONUCLIDE | **IRIDIUM-192 (IR-192)** |
| CHEMICAL FORM | **IRIDIUM OXIDE** |
| PHYSICAL FORM | **SOLID** |

## TOXICITY HAZARDS

IRIDIUM 192 Bead Tracer has short term toxicity hazards if ingested. Data on lethal concentrations and doses are not presently available.

## HEALTH HAZARD DATA

***ACUTE EFFECTS***

May cause Eye and Mucous membrane irritation.
ZERO WASH particle is too large to inhale. Ingestion is the only method of internal consumption.

**PREGNANT WOMEN SHOULD NOT BE ALLOWED TO WORK WITH RADIOACTIVE MATERIAL OR BE IN THE EXPOSURE AREA.**

***FIRST AID***

**IF SWALLOWED, OBTAIN COMPETENT MEDICAL ATTENTION IMMEDIATELY.** The physician should be qualified in Nuclear Medicine and/or Health Physics.

In case of skin contact, wash area with water and a detergent. SURVEY skin area with a Geiger-Mueller instrument and end-window G-M probe to determine cleaning effectiveness. Survey all personnel who may have come in contact with ZERO WASH Bead Tracer. Locate the ZERO WASH bead using GM survey instrument. Use adhesive tape to remove bead from clothing. Treat tape containing bead as RAD WASTE. If numerous beads are found on clothing, remove and place in a container for later cleaning or disposal. SURVEY THE AREA near the spill and the areas the worker has been transferred to for the presence of radioactive material.

In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure that adequate flushing occurs by separating eyelids with fingers. Obtain services of a qualified physician.

## PHYSICAL DATA

| | |
|---|---|
| SPECIFIC GRAVITY | 1.25 grams/ml - Low Density ZERO WASH bead |
| | 2.65 grams/ml - ZERO WASH bead |

| | |
|---|---|
| WASHOFF | < 0.005% Washoff |
| APPEARANCE | black/dark brown (low density ZW) and gray to beige spheres (ZW) |
| ODOR | no odor |
| HALF LIFE | 74.2 Days |

## FIRE AND EXPLOSION HAZARD DATA

Fire and Explosion Hazard is Negligible
Autoignition Temperature not Applicable
EXTINGUISHING MEDIA - Carbon Dioxide or Halon (This reduces the spread of radioactive material).

***SPECIAL FIRE FIGHTING PROCEDURES***
Self Contained Breathing Apparatus and fire protective clothing is sufficient when extinguishing a fire involving this product.

***UNUSUAL FIRE AND EXPLOSION HAZARDS***
NONE

## REACTIVITY DATA

STABILITY - STABLE
CONDITION TO AVOID - NONE
INCOMPATIBILITIES - NONE

HAZARDOUS COMBUSTION OR DECOMPOSITION PRODUCTS – IRIDIUM 192 MAY CONTAIN VAPORS OR PARTICULATES

HAZARDOUS POLYMERIZATIONS - NONE

## SPILL AND LEAK PROCEDURES

***SPILL PROCEDURES***
CONTROL THE AREA. Do Not Move Personnel from the area until they have been surveyed using a G-M survey instrument. The personnel may survey themselves and if no radioactive material is indicated they may leave the area. This will help eliminate spread of radioactive material. **WEAR PROTECTIVE CLOTHING, SAFETY EYEWEAR, IMPERVIOUS BOOTS, AND RUBBER GLOVES.** Clean up spill area by scooping up spilled material and transfer to a container. It may be necessary to remove some soil or other items indicating the presence of radioactive material. If clothing indicates the presence of radioactive material, remove the bead with adhesive tape, hold tape containing bead for decay in proper storage area and treat as RAD WASTE. If numerous beads are found on clothing, remove clothing and place in a container for later cleaning or disposal. Contain all spilled material and treat as radioactive waste as per regulatory requirements.

# Safety Data Sheet
## High Temperature Expanding Additive D176

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** High Temperature Expanding Additive D176
**Product code** D176

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Magnesium oxide

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Magnesium oxide | 215-171-9 | 1309-48-4 | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**3.2 Mixtures**

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid dust formation. Do not breathe dust. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid dust formation Avoid contact with: Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Magnesium oxide | 10 mg/m³ TWA | 10mg/m³TWAfume | 10 mg/m³ TWA |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Magnesium oxide | Not determined | 10 mg/m³ TWA | Not determined |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Magnesium oxide | Not determined | Not determined | 10 mg/m³ TWA |
| Crystalline silica (impurity) | 1 mg/m³ MAC | Not determined | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Magnesium oxide | 10 mg/m³ TWA | 15 mg/m³ TWA | 4 mg/m³ MAC |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance<br>glass;regulated under Quartz 1123, 1124 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Magnesium oxide | Not determined | 5 mg/m³ TWA<br>10 mg/m³ STEL | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Butyl Rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules |
| **Odor** | Odorless |
| **Color** | Light yellow Brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 10.5 | @ 10% (H2O) |
| **Melting / freezing point** | >2093 °C/ 3799 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |

| | |
|---|---|
| **Specific gravity** | 3.19 g/cm³ |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Insoluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation.

**10.5 Incompatible materials**

Strong acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system. Repeated or prolonged inhalation of crystalline silica dust can cause delayed lung injury, and other diseases, including silicosis and lung cancer.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Magnesium oxide | No data available | No data available | No data available |
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|

| | | | |
|---|---|---|---|
| Magnesium oxide | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Magnesium oxide | Inorganic compound |
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Magnesium oxide | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Magnesium oxide | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Magnesium oxide | No information available |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |
| **Supersedes Date:** | 31-Jul-2015 |
| **Revision date** | 17-Jul-2018 |
| **Version** | 10 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. |

**The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.**

HALLIBURTON

# SAFETY DATA SHEET

# BARITE

**Revision Date:** 08-Jan-2019 **Revision Number:** 53

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BARITE

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000105

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Weight Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Carcinogenicity | Category 1A - H350 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 2 - H373 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled
H350i - May cause cancer by inhalation

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P281 - Use personal protective equipment as required

**Response**
P314 - Get medical attention/advice if you feel unwell
P308 + P313 - IF exposed or concerned: Get medical advice/attention

**Storage**
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Crystalline silica, quartz | 14808-60-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | 1 - 5% | Carc. 1A (H350)<br>STOT RE 1 (H372) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

None anticipated

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store in a well ventilated area. Keep container closed when not in use. Store locked up. Store in a cool, dry location. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | TWA: 0.1 mg/m$^3$ | TWA: 0.025 mg/m$^3$ |

**Appropriate engineering controls**

**Engineering Controls** Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product. |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | Pink to tan to gray |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 4.23 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 233.4 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**

Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | > 15000 mg/kg (human) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** None known.

**Ingestion** None known.

**Chronic Effects/Carcinogenicity** Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).

**Exposure Levels**

No data available

**Interactive effects**

Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|

| | | |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the eye No information available |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not regarded as mutagenic. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | EC50(72 h)=440 mg/L (Pseudokirchneriella subcapitata) | LL0(96 h)=10000 mg/L (Danio rerio) | No information available | LL50(24 h)>10000 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

The methods for determining biodegradability are not applicable to inorganic substances.

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**
Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**
Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

## 16. Other information

**Date of preparation or review**

**Revision Date:** 08-Jan-2019

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H350 - May cause cancer by inhalation
H372 - Causes damage to organs through prolonged or repeated exposure
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

**End of Safety Data Sheet**

HALLIBURTON

# SAFETY DATA SHEET

# BENTONITE

**Revision Date:** 28-Jan-2020 **Revision Number:** 51

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BENTONITE

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000126

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Weight Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Carcinogenicity | Category 2 - H351 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 2 - H373 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:**
H351 - Suspected of causing cancer
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P281 - Use personal protective equipment as required

**Response**
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P314 - Get medical attention/advice if you feel unwell

**Storage**
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Crystalline silica, quartz | 14808-60-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | 1 - 5% | Carc. 1A (H350)<br>STOT RE 1 (H372) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Rinse mouth with water many times. Get medical attention, if symptoms occur

**Symptoms caused by exposure**
Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**
None anticipated

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**
None known.

**6.3. Methods and material for containment and cleaning up**
Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**
This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**
Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | TWA: 0.1 mg/m$^3$ | TWA: 0.025 mg/m$^3$ |

**Appropriate engineering controls**

**Engineering Controls** Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Dust/mist respirator. (N95, P2/P3) |
| **Hand Protection** | Use gloves which are suitable for the chemicals present in this product as well as other environmental factors in the workplace. |
| **Skin Protection** | Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | Various |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9.9 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.65 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

### 10.5. Incompatible materials

Hydrofluoric acid.

### 10.6. Hazardous decomposition products

Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

### Information on routes of exposure

**Principle Route of Exposure** Eye or skin contact, inhalation.

### Symptoms related to exposure

**Most Important Symptoms/Effects**

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

### Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | > 15000 mg/kg (human) | No data available | No data available |

### Immediate, delayed and chronic health effects from exposure

**Inhalation** Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** None known.

**Ingestion** May act as obstruction if swallowed.

**Chronic Effects/Carcinogenicity** This product contains a suspected carcinogen. May cause damage to organs through prolonged or repeated exposure. Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

### Exposure Levels

No data available

### Interactive effects

Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust.

### Data limitations

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the eye No information available |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not regarded as mutagenic. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | EC50(72 h)=440 mg/L (Pseudokirchneriella subcapitata) | LL0(96 h)=10000 mg/L (Danio rerio) | No information available | LL50(24 h)>10000 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable

of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not applicable

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Carcinogenicity | Category 1A - H350 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 2 - H373 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H350i - May cause cancer by inhalation
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P281 - Use personal protective equipment as required

**Response**
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P314 - Get medical attention/advice if you feel unwell

**Storage**
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Crystalline silica, quartz | 14808-60-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | 1 - 5% | Carc. 1A (H350)<br>STOT RE 1 (H372) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | TWA: 0.1 mg/m$^3$ | TWA: 0.025 mg/m$^3$ |

**Appropriate engineering controls**

**Engineering Controls** Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product. |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | Light tan |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 8 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.7 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong acids. Prolonged contact with aluminum. Ammonium salts.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide. Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite

(1470 C).

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | > 15000 mg/kg (human) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).

Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** None known.

**Ingestion** None known.

**Chronic Effects/Carcinogenicity** Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2). There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

**Exposure Levels**

No data available

**Interactive effects**

Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be

exposed to quartz dust.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the eye No information available |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not regarded as mutagenic. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | EC50(72 h)=440 mg/L (Pseudokirchneriella subcapitata) | LL0(96 h)=10000 mg/L (Danio rerio) | No information available | LL50(24 h)>10000 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 29-Oct-2018

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H350 - May cause cancer by inhalation
H372 - Causes damage to organs through prolonged or repeated exposure if inhaled
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury

# SAFETY DATA SHEET

# GASCON 469

**Revision Date:** 30-Apr-2020 **Revision Number:** 33

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** GASCON 469

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000753

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Cement Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Not applicable

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store in a cool well ventilated area. Keep from excessive heat. Keep from freezing. Keep container closed when not in use. Store in non-rusting containers. Product has a shelf life of 12 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Dust/mist respirator. (N95, P2/P3)
**Hand Protection** None known.
**Skin Protection** Normal work coveralls.
**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Liquid
**Color** Transparent
**Odor:** Odorless
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 10 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100 °C / 212 °F |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.1 |
| **Water Solubility** | Soluble in water (10g/100ml) |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** 80

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers. Strong acids.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| substances in concentrations above cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** None known.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** May cause mild skin irritation.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations. Incineration recommended in approved incinerator according to federal, state, and local regulations. Substance should NOT be deposited into a sewage facility.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Rinse mouth with water many times. Get medical attention, if symptoms occur

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store in a cool, dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Use gloves which are suitable for the chemicals present in this product as well as other environmental factors in the workplace.
**Skin Protection** Wear protective clothing appropriate for the work environment.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White to off white |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**
Oxides of nitrogen. Oxides of sulfur. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |

| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List** | All components listed on inventory or are exempt. |

**(DSL)**

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 23-Jul-2018

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

HALLIBURTON

# SAFETY DATA SHEET

# HALAD® 344 CEMENT ADDITIVE

**Revision Date:** 01-Feb-2021 **Revision Number:** 45

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** HALAD® 344 CEMENT ADDITIVE

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000816

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Fluid Loss Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | NF | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store in a cool, dry location. Store away from oxidizers. Keep container closed when not in use. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Dust/mist respirator. (N95, P2/P3)

**Hand Protection** None known.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Powder
**Color** White to off white
**Odor:** Odorless
**Odor Threshold:** No information available

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | No data available | |
| **Freezing Point / Range** | -8 °C | |
| **Melting Point / Range** | No data available | |
| **Pour Point / Range** | No data available | |
| **Boiling Point / Range** | No data available | |
| **Flash Point** | No data available | |
| **Evaporation rate** | No data available | |
| **Vapor Pressure** | No data available | |
| **Vapor Density** | No data available | |
| **Specific Gravity** | 1.22 | |
| **Water Solubility** | Soluble in water | |
| **Solubility in other solvents** | No data available | |
| **Partition coefficient: n-octanol/water** | No data available | |
| **Autoignition Temperature** | No data available | |
| **Decomposition Temperature** | No data available | |
| **Viscosity** | No data available | |
| **Explosive Properties** | No information available | |
| **Oxidizing Properties** | No information available | |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | > 600 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**
Oxides of nitrogen. Carbon monoxide and carbon dioxide. Oxides of sulfur.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** None known.

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** Not irritating to skin in rabbits.

**Ingestion** No adverse health effects are expected from swallowing.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

None known.

**Data limitations**

No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

Not readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in | NA | No information available |

| | | |
|---|---|---|
| concentrations above cut-off values according to the competent authority | | |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

### Safe handling and disposal methods

Bury in a licensed landfill according to federal, state, and local regulations. Substance should NOT be deposited into a sewage facility.

### Disposal of any contaminated packaging

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

### Environmental regulations

Not applicable

## 14. Transport Information

### Transportation Information

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Wash with soap and water. Get medical attention if irritation persists. |
| **Ingestion** | Under normal conditions, first aid procedures are not required. |

**Symptoms caused by exposure**

No significant hazards expected.

**Medical Attention and Special Treatment**

| | |
|---|---|
| **Notes to Physician** | Treat symptomatically |

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Product has a shelf life of 24 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.
Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Liquid
**Color** Brown-black
**Odor:** Sweet
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 7.5 |

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | Product contains one or more components not listed on the inventory. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 07-May-2018

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# HR-25L

**Revision Date:** 01-Feb-2021 **Revision Number:** 41

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** HR-25L

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000893

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Cement Retarder

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Acute Aquatic Toxicity | Category 3 - H402 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H318 - Causes serious eye damage
H402 - Harmful to aquatic life

**Precautionary Statements**

**Prevention**
P273 - Avoid release to the environment
P280 - Wear eye protection/face protection

**Response**
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Storage** None

**Disposal** P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Tartaric acid | 87-69-4 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Tartaric acid | 87-69-4 | 30 - 60% | Eye Corr. 1 (H318)<br>Aquatic Acute 3 (H402) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Causes severe eye irritation which may damage tissue.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Neutralize to pH of 6-8. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**
Store away from alkalis. Store away from oxidizers. Store in a cool well ventilated area. Keep container closed when not in use. Product has a shelf life of 60 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Tartaric acid | 87-69-4 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an

| | |
|---|---|
| | industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Dust/mist respirator. (N95, P2/P3) |
| **Hand Protection** | Impervious rubber gloves. |
| **Skin Protection** | Rubber apron. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system. |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Light yellow-green |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 1.7 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 103 °C / 219 °F |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.2 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong oxidizers. Strong alkalis.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue.

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Tartaric acid | 87-69-4 | 2000 - 5000 mg/kg (Rat) | > 2000 mg/kg (Rat) | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Not irritating to skin in rabbits.

**Ingestion** Irritation of the mouth, throat, and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

Skin disorders.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Tartaric acid | 87-69-4 | Non-irritating to the skin (Rabbit) (in vitro) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Tartaric acid | 87-69-4 | Causes severe eye irritation (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Tartaric acid | 87-69-4 | Did not cause sensitization on laboratory animals (mouse) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Tartaric acid | 87-69-4 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Tartaric acid | 87-69-4 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Tartaric acid | 87-69-4 | Did not show carcinogenic effects in animal experiments (Rat) (similar substances) |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Tartaric acid | 87-69-4 | Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Tartaric acid | 87-69-4 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Tartaric acid | 87-69-4 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Tartaric acid | 87-69-4 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Tartaric acid | 87-69-4 | E(B)C50 2575.2 mg/L (Skeletonema costatum)<br>E(R)C50 1198 mg/L (Skeletonema costatum)<br>EC50 791.25 mg/L (Skeletonema costatum)<br>EC50 (72h) 51.4043 mg/L (Pseudokirchnerella subcapitata) | LC50 250 mg/L (Scophthalmus maximus)<br>LC50 (96h) > 100 mg/L (Danio rerio) | EC50 (3h) > 1000 mg/L (Activated sludge) | TLM96 330-1000 ppm (Crangon crangon)<br>EC50 46.04 - 165.37 mg/L (Ceriodaphnia dubia)<br>LC50 3753.85 (Acartia tonsa)<br>EC50 (48h) 93.313 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

Readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Tartaric acid | 87-69-4 | Readily biodegradable (85% @ 28d) |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Tartaric acid | 87-69-4 | -1 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Tartaric acid | 87-69-4 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

| | |
|---|---|

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally necessary.

**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**
**Physical State:** Liquid
**Color** Dark brown
**Odor:** Molasses
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9.5 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |

**Revision Date:** 10-Mar-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# KWIK SEAL ADDITIVE

**Revision Date:** 30-Apr-2020 **Revision Number:** 23

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** KWIK SEAL ADDITIVE

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM000976

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Lost Circulation Material

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Rinse mouth with water many times. Get medical attention, if symptoms occur

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**

None known.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid creating or inhaling dust. Ensure adequate ventilation. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store in a cool, dry location.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)

**Hand Protection** Use gloves which are suitable for the chemicals present in this product as well as other environmental factors in the workplace.

**Skin Protection** Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** Brown
**Odor:** Woody
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 0.3 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Flush skin with large amounts of water. If irritation persists, get medical attention.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Slippery when wet. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Slippery when wet. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 24 months. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

# SAFETY DATA SHEET

# SCR-100L

**Revision Date:** 28-Jan-2020 **Revision Number:** 43

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** SCR-100L

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM001254

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Retarder

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a dry location. Keep container closed when not in use.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Blue |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 3 - 4 (28%) |
| **Freezing Point / Range** | -4 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | > 93 °C / > 200 °F (PMCC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.16 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 520 °C |
| **Decomposition Temperature** | No data available |
| **Viscosity** | 15-30 cP @ 25°C |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | ~60% |
| **Liquid Density** | 9.66 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Oxides of nitrogen. Oxides of sulfur. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** Irritation of the mouth, throat, and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill or burn in an approved incinerator according to federal, state, and local regulations. Substance should NOT be deposited into a sewage facility.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or |

| | |
|---|---|
| **Chemicals** | assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 28-Jan-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Flush skin with large amounts of water. If irritation persists, get medical attention.

**Ingestion** Rinse mouth with water many times. Get medical attention, if symptoms occur

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Not applicable

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
None known. Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Keep container closed when not in use. Product has a shelf life of 24 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Dark gray |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6- 8 |
| **Freezing Point / Range** | 0 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100 °C / 212 °F |
| **Flash Point** | 100 °C / > 212 °F |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | 22.9 |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.37 |
| **Water Solubility** | Miscible with water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Liquid Density** | 11.64 lbs/gal |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**
Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye and skin contact.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Sodium chloride | 7647-14-5 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Sodium chloride | 7647-14-5 | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
**Skin** Wash with soap and water. Get medical attention if irritation persists.
**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
Causes mild eye irritation. May be harmful if swallowed.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
None anticipated

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust.

**6.2. Environmental precautions**
None known.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store in a cool, dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Sodium chloride | 7647-14-5 | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**
**Physical State:** Solid
**Color** White
**Odor:** Odorless
**Odor Threshold:** No information available

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | No data available | |

| | |
|---|---|
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | 801 °C / 1473.8 °F |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.16 |
| **Water Solubility** | Very soluble |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive. Stable under normal conditions

**10.2. Chemical stability**

Stable under normal conditions

**10.3. Possibility of hazardous reactions**

None known

**10.4. Conditions to avoid**

None known.

**10.5. Incompatible materials**

None known.

**10.6. Hazardous decomposition products**

None known.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes mild eye irritation. May be harmful if swallowed.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Sodium chloride | 7647-14-5 | 3000 mg/kg-bw (rat) | >10,000 mg/kg bw (rabbit) | No data available |

**Immediate, delayed and chronic health effects from exposure**

| | |
|---|---|
| **Inhalation** | May cause mild respiratory irritation. |
| **Eye Contact** | Causes mild eye irritation. |
| **Skin Contact** | May cause mild skin irritation. |
| **Ingestion** | May be harmful if swallowed. |

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**
None known.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Sodium chloride | 7647-14-5 | Not a dermal irritant |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Sodium chloride | 7647-14-5 | Causes mild eye irritation. |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Sodium chloride | 7647-14-5 | Not confirmed to cause skin or respiratory sensitization. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Sodium chloride | 7647-14-5 | Not confirmed to cause skin or respiratory sensitization. |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Sodium chloride | 7647-14-5 | No information available |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Sodium chloride | 7647-14-5 | Based on available data, the classification criteria are not met. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Sodium chloride | 7647-14-5 | Based on available data, the classification criteria are not met. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Sodium chloride | 7647-14-5 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Sodium chloride | 7647-14-5 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Sodium chloride | 7647-14-5 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Sodium chloride | 7647-14-5 | No information available | LC50 (96h) 9675 mg/L | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Sodium chloride | 7647-14-5 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Sodium chloride | 7647-14-5 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Sodium chloride | 7647-14-5 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

If practical, recover and reclaim, recycle, or reuse by the guidelines of an approved local reuse program. Should contaminated product become a waste, dispose of in a licensed industrial landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |

| | |
|---|---|
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 30-Apr-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
CLP – REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on Classification, Labelling and Packaging of substances and mixtures
EC – European Commission
EC10 – Effective Concentration 10%
EC50 – Effective Concentration 50%
EEC – European Economic Community
ErC50 – Effective Concentration growth rate 50%
IBC Code – International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL0 – Lethal Loading 0%
LL50 – Lethal Loading 50%
MARPOL – International Convention for the Prevention of Pollution from Ships
mg/kg – milligram/kilogram
mg/L – milligram/liter
NIOSH – National Institute for Occupational Safety and Health
NOEC – No Observed Effect Concentration
NTP – National Toxicology Program
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
PC – Chemical Product category
PEL – Permissible Exposure Limit
ppm – parts per million
PROC – Process category
REACH – REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals

STEL – Short Term Exposure Limit
SU – Sector of Use category
TWA – Time-Weighted Average
UN – United Nations
VOC – Volatile Organic Carbon
vPvB – very Persistent and very Bioaccumulative
VLA-ED - time-weighted average values for a whole work shift [Spain valores límite ambientales para la exposición diaria]

HALLIBURTON

# SAFETY DATA SHEET

# SODA ASH

**Revision Date:** 24-Apr-2017 **Revision Number:** 42

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** SODA ASH

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM001822

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Buffer

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 2 - H319 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:** H319 - Causes serious eye irritation

**Precautionary Statements**

**Prevention**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear eye protection/face protection

**Response**
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Storage** None

**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Sodium carbonate | 497-19-8 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Sodium carbonate | 497-19-8 | 60 - 100% | Eye Irrit. 2 (H319) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Causes eye irritation

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from acids. Store in a cool, dry location. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Sodium carbonate | 497-19-8 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area. Localized ventilation should be used to control dust levels.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be

performed by an Industrial Hygienist or other qualified professional.

| | |
|---|---|
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Dust proof goggles. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Powder | **Color** | White |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 11.5 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | 851 °C |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.5 |
| **Water Solubility** | Partly soluble |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 105.99 g/mole |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Causes eye irritation

## Numerical measures of toxicity

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Sodium carbonate | 497-19-8 | 4090 mg/kg (Rat)<br>2800 mg/kg (Rat) | 2210 mg/kg (Mouse)<br>> 2000 mg/kg (Rabbit) | 2.3 mg/L (Rat) 2h |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** Causes eye irritation.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** Irritation of the mouth, throat, and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Sodium carbonate | 497-19-8 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Sodium carbonate | 497-19-8 | Irritating to eyes |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Sodium carbonate | 497-19-8 | Not classified |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Sodium carbonate | 497-19-8 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Sodium carbonate | 497-19-8 | In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Sodium carbonate | 497-19-8 | No information available |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Sodium carbonate | 497-19-8 | Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Sodium carbonate | 497-19-8 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Sodium carbonate | 497-19-8 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Sodium carbonate | 497-19-8 | Not applicable |

# 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Sodium carbonate | 497-19-8 | EC50 242 mg/L (Nitzschia) | TLM24 385 mg/L (Lepomis macrochirus) LC50 310-1220 mg/L (Pimephales promelas) LC50 (96h) 300 mg/L (Lepomis macrochirus) | No information available | EC50 265 mg/L (Daphnia magna) EC50 (48h) 200 – 227 mg/L (Ceriodaphnia sp.) |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Sodium carbonate | 497-19-8 | The methods for determining biodegradability are not applicable to inorganic substances. |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Log Pow |
|---|---|---|
| Sodium carbonate | 497-19-8 | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Sodium carbonate | 497-19-8 | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IATA/ICAO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable

| | |
|---|---|
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply |
| **Basel Convention - Hazardous Waste:** | Does not apply |

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Not applicable

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from acids. Store in a dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

| | |
|---|---|
| **Engineering Controls** | A well ventilated area to control dust levels. Local exhaust ventilation should be used in areas without good cross ventilation. |

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | Not normally needed. But if significant exposures are possible then the following respirator is recommended:<br>Dust/mist respirator. (N95, P2/P3) |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system. |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 8 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.16 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong acids.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** None known.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|

| | | |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 30-Apr-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

HALLIBURTON

# SAFETY DATA SHEET

# CEMENT - CLASS G

**Revision Date:** 02-Aug-2018 **Revision Number:** 38

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** CEMENT - CLASS G

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM001839

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Cement

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Skin Corrosion/Irritation | Category 2 - H315 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Skin Sensitization | Category 1 - H317 |
| Carcinogenicity | Category 1A - H350 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 3 - H335 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 2 - H373 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation
H350 - May cause cancer by inhalation
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves/eye protection/face protection
P281 - Use personal protective equipment as required

**Response**
P302 + P352 - IF ON SKIN: Wash with plenty of water.
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P312 - Call a POISON CENTER/doctor/physician if you feel unwell
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P314 - Get medical attention/advice if you feel unwell

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Portland cement | 65997-15-1 |
| Crystalline silica, quartz | 14808-60-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Portland cement | 65997-15-1 | 60 - 100% | Skin Irrit. 2 (H315) |

| | | | |
|---|---|---|---|
| | | | Eye Corr. 1 (H318)<br>Skin Sens. 1 (H317)<br>STOT SE 3 (H335) |
| Crystalline silica, quartz | 14808-60-7 | 1 - 5% | Carc. 1A (H350)<br>STOT RE 1 (H372) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Get medical attention.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes skin irritation. May cause allergic skin reaction. May cause respiratory irritation. Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

None - does not burn.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Not applicable

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Evacuate all persons from the area.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**

Store in a cool well ventilated area. Keep container closed when not in use. Store locked up. Store in a cool, dry location. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Product has a shelf life of 24 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

### Control parameters - exposure standards, biological monitoring

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Portland cement | 65997-15-1 | TWA: 10 mg/m³ | TWA: 1 mg/m³ |
| Crystalline silica, quartz | 14808-60-7 | TWA: 0.1 mg/m³ | TWA: 0.025 mg/m³ |

### Appropriate engineering controls

**Engineering Controls** Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

### Personal protective equipment (PPE)

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product.

**Hand Protection** Impervious rubber gloves.

**Skin Protection** Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

**Physical State:** Solid
**Color** Gray
**Odor:** Odorless
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 12.4 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 3.14 |

| | |
|---|---|
| **Water Solubility** | No data available |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

Keep away from any contact with water.

**10.5. Incompatible materials**

Hydrofluoric acid.

**10.6. Hazardous decomposition products**

Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue. Causes skin irritation. May cause allergic skin reaction. May cause respiratory irritation. Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Portland cement | 65997-15-1 | > 2000 mg/kg (Rat) | > 2000 mg/kg | > 1 mg/L (Rat) 4h |
| Crystalline silica, quartz | 14808-60-7 | > 15000 mg/kg (human) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Causes moderate respiratory irritation. Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).

Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Causes skin irritation. May cause alkali burns with confined contact. May cause an allergic skin reaction. Can dry skin.

**Ingestion** Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2). There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

**Exposure Levels**
No data available

**Interactive effects**
Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Portland cement | 65997-15-1 | Irritating to skin. (Rabbit) |
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Portland cement | 65997-15-1 | Corrosive to eyes |
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the eye No information available |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Portland cement | 65997-15-1 | May cause sensitization by skin contact |
| Crystalline silica, quartz | 14808-60-7 | No information available. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Portland cement | 65997-15-1 | No information available |
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Portland cement | 65997-15-1 | No data of sufficient quality are available. |
| Crystalline silica, quartz | 14808-60-7 | Not regarded as mutagenic. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Portland cement | 65997-15-1 | No data of sufficient quality are available. |
| Crystalline silica, quartz | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|

| | | |
|---|---|---|
| Portland cement | 65997-15-1 | No data of sufficient quality are available. |
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Portland cement | 65997-15-1 | May cause respiratory irritation. |
| Crystalline silica, quartz | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Portland cement | 65997-15-1 | No data of sufficient quality are available. |
| Crystalline silica, quartz | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Portland cement | 65997-15-1 | Not applicable |
| Crystalline silica, quartz | 14808-60-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Portland cement | 65997-15-1 | No information available | No information available | No information available | No information available |
| Crystalline silica, quartz | 14808-60-7 | EC50(72 h)=440 mg/L (Pseudokirchneriella subcapitata) | LL0(96 h)=10000 mg/L (Danio rerio) | No information available | LL50(24 h)>10000 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Portland cement | 65997-15-1 | The methods for determining biodegradability are not applicable to inorganic substances. |
| Crystalline silica, quartz | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Portland cement | 65997-15-1 | No information available |
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Portland cement | 65997-15-1 | No information available |
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations. Substance should NOT be deposited into a sewage facility.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 02-Aug-2018

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation
H350 - May cause cancer by inhalation
H372 - Causes damage to organs through prolonged or repeated exposure if inhaled
H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

**Additional information**

# SAFETY DATA SHEET

# NF-6

**Revision Date:** 11-Feb-2021 **Revision Number:** 41

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** NF-6

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM001971

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Defoamer

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Carbon dioxide, dry chemical, foam.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Use water spray to cool fire exposed surfaces. Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** A well ventilated area to control dust levels. Local exhaust ventilation should be used in areas without good cross ventilation.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Organic vapor respirator with a dust/mist filter. (A2P2/P3)
**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Polyvinylchloride gloves. (>= 8 mm thickness)
This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in

| | |
|---|---|
| | practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system. |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Yellow |
| **Odor:** | Mild | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 182 °C / 360 °F |
| **Flash Point** | > 170 °C / > 340 °F |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 0.93 |
| **Water Solubility** | Dispersible |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 385 °C / 725 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Liquid Density** | 7.70 lbs/gal |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Hydrocarbons. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** None known.

**Skin Contact** None known.

**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

None known.

**Data limitations**

No data available

## 12. Ecological Information

**Ecotoxicity**

**Product Ecotoxicity Data**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Dispose in accordance with local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | No information available |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. (similar substances) |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | No information available |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | Aspiration into the lungs may cause chemical pneumonitis including coughing, difficulty breathing, wheezing, coughing up blood and pneumonia, which can be fatal. |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | EC50 (72h) > 1000 mg/L (Selenastrum capicomutum) (similar substance) | LL50 (96h) > 1000 mg/L (Oncorhynchus mykiss) (similar substance)<br>LL50 (96h) > 10000 mg/L (Scopthalmus maximus) (similar substance) | No information available | EC50 (48h) > 1000 mg/L (Daphnia magna) (similar substance) |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | Readily biodegradable (77 - 81% @ 28d) |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | > 7 |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Alkenes, C15-C18 | 93762-80-2 | KOC >5 |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations. Incineration recommended in approved incinerator according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**

None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 07-Nov-2019

**Revision Note**

SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**

H304 - May be fatal if swallowed and enters airways
EUH066 - Repeated exposure may cause skin dryness or cracking

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour

mg/m$^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

**End of Safety Data Sheet**

HALLIBURTON

# SAFETY DATA SHEET

# BaraCor® 100

**Revision Date:** 18-Jun-2020 **Revision Number:** 61

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BaraCor® 100

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003391

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Corrosion Inhibitor

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute Oral Toxicity | Category 4 - H302 |
| Skin Corrosion/Irritation | Category 2 - H315 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Skin Sensitization | Category 1 - H317 |
| Carcinogenicity | Category 2 - H351 |
| Reproductive Toxicity | Category 1B - H360 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 1 - H370 |
| Flammable liquids. | Category 3 - H226 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H226 - Flammable liquid and vapor
H302 - Harmful if swallowed
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H351 - Suspected of causing cancer
H360 - May damage fertility or the unborn child
H370 - Causes damage to organs

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233 - Keep container tightly closed
P240 - Ground and bond container and receiving equipment.
P241 - Use explosion-proof electrical/ventilating/lighting/equipment
P242 - Use only non-sparking tools
P243 - Take action to prevent static discharges.
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves/eye protection/face protection
P281 - Use personal protective equipment as required

**Response**
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P302 + P352 - IF ON SKIN: Wash with plenty of water.
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P363 - Wash contaminated clothing before reuse
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P307 + P311 - IF exposed: Call a POISON CENTER or doctor/physician
P370 + P378 - In case of fire: Use water spray for extinction

**Storage**
P403 + P235 - Store in a well-ventilated place. Keep cool
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 |
| Methanol | 67-56-1 |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 |

**Other hazards which do not result in classification**

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | 10 - 30% | Skin Irrit. 2 (H315)<br>Eye Corr. 1 (H318)<br>Skin Sens. 1 (H317) |
| Methanol | 67-56-1 | 10 - 30% | Acute Tox. 3 (H301)<br>Acute Tox. 3 (H311)<br>Acute Tox. 3 (H331)<br>STOT SE 1 (H370)<br>Flam. Liq. 2 (H225) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | 1 - 5% | Acute Tox. 4 (H302)<br>Eye Irrit. 2A (H319)<br>Carc. 2 (H351) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** Remove person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, get immediate medical attention.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 30 minutes. Remove contact lenses after the first 5 minutes and continue washing. Seek immediate medical attention/advice. Suitable emergency eye wash facility should be immediately available

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Get medical attention.

**Ingestion** Following ingestion, onset of symptoms may be delayed by 12 to 24 hours. Admission to hospital should be the first priority even if symptoms are absent. Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Obtain immediate medical attention.

**Symptoms caused by exposure**

Harmful if swallowed. Harmful in contact with skin. Harmful if inhaled. Causes skin irritation. Causes severe eye irritation which may damage tissue. May cause allergic skin reaction. Potential carcinogen. May cause damage to internal organs.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
Do NOT spray pool fires directly with water. A solid stream of water directed into hot burning liquid can cause splattering.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Ensure adequate ventilation. Use appropriate protective equipment. Do not breathe dust/fume/gas/mist/vapors/spray. Remove sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas. Consult local authorities.

**6.3. Methods and material for containment and cleaning up**
Dike far ahead of liquid spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. Remove ignition sources and work with non-sparking tools.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Do not breathe dust/fume/gas/mist/vapors/spray. Ensure adequate ventilation. Use appropriate protective equipment. Remove sources of ignition. Ground and bond containers when transferring from one container to another. Avoid contact with eyes, skin, or clothing.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store in a cool well ventilated area. Keep from heat, sparks, and open flames.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Not applicable | Not applicable |
| Methanol | 67-56-1 | TWA: 200 ppm<br>TWA: 262 mg/m$^3$<br>STEL: 250 ppm<br>STEL: 328 mg/m$^3$ | TWA: 200 ppm<br>STEL: 250 ppm |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Ensure adequate ventilation, especially in confined areas

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Positive pressure self-contained breathing apparatus. |
| **Hand Protection** | Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Neoprene gloves. Nitrile gloves. Butyl rubber gloves. This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types. Impervious gloves |
| **Skin Protection** | Rubber apron. Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system. |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Brown |
| **Odor:** | Alcohol | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9-11 |
| **Freezing Point / Range** | -23 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100 °C / 212 °F |
| **Flash Point** | 33 °C / 92 °F (PMCC) |
| **Upper flammability limit** | 36% |
| **Lower flammability limit** | 6% |
| **Evaporation rate** | 1.6 |
| **Vapor Pressure** | No data available |
| **Vapor Density** | > 1 |
| **Specific Gravity** | 1.01 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | -0.84 |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
Keep away from heat, sparks and flame.
**10.5. Incompatible materials**
Strong oxidizers. Strong acids. Strong alkalis.
**10.6. Hazardous decomposition products**
Ammonia. Oxides of nitrogen. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Harmful if swallowed. Harmful in contact with skin. Harmful if inhaled. Causes skin irritation. Causes severe eye irritation which may damage tissue. May cause allergic skin reaction. Potential carcinogen. May cause damage to internal organs.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | 3816 mg/kg-bw (rat) | > 2000 mg/kg (Rat) | No toxicity at saturation (rat, 8 h, vapour) |
| Methanol | 67-56-1 | 300 mg/kg-bw (human)<br>< 790 to 13,000 mg/kg (rat) | 1000 mg/kg-bw (human)<br>17,100 mg/kg (rabbit) | 10 mg/L (human, vapor, 4h) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | 1740 mg/kg (Rat) | > 2000 mg/kg (Rabbit) | > 5 mg/L (Rat, Aerosol, 4h) |

**Immediate, delayed and chronic health effects from exposure**
**Inhalation** May cause central nervous system depression including headache, dizziness, drowsiness, incoordination, slowed reaction time, slurred speech, giddiness and unconsciousness. Harmful if inhaled.
**Eye Contact** Causes serious eye damage.
**Skin Contact** Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.
**Ingestion** Ingestion of this product may cause blindness due to the presence of methanol. Harmful if swallowed.

**Chronic Effects/Carcinogenicity** Contains known or suspected carcinogens. Contains nitrilotriacetic acid or its salts, which is NTP Classification 2 (Reasonably Anticipated to be a Human Carcinogen) and IARC Classification 2B (a Possible Human Carcinogen)

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Eye ailments.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Causes moderate skin irritation. (Rabbit) Skin, rabbit: |
| Methanol | 67-56-1 | Non-irritating to the skin (Rabbit) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Non-irritating to the skin (Rabbit) Not irritating to skin in rabbits. Skin, rabbit: |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Causes eye burns Causes severe eye irritation. Will damage tissue. |
| Methanol | 67-56-1 | Non-irritating to the eye (Rabbit) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Irritating to eyes (Rabbit) Eye, rabbit: Causes moderate eye irritation |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | May cause sensitization by skin contact (mouse) |
| Methanol | 67-56-1 | Did not cause sensitization on laboratory animals (guinea pig) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Did not cause sensitization on laboratory animals (guinea pig) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | No information available |
| Methanol | 67-56-1 | No information available |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. |
| Methanol | 67-56-1 | The weight of evidence from available in vitro and in vivo studies indicates that this substance is not expected to be mutagenic. |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Not regarded as mutagenic. In vivo tests did not show mutagenic effects. In vitro tests did not show mutagenic effects |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | No information available |
| Methanol | 67-56-1 | No data of sufficient quality are available. |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Contains nitrilotriacetic acid or its salts, which is listed as a suspect carcinogen of the urinary tract and kidneys by NTP, based on feeding studies with laboratory animals. According to the ACGIH guidelines, NTA would "not be considered an occupational carcinogen of any significance." IARC cancer review classification: 2B (Possibly Carcinogenic to Humans)<br>Available data indicate that this substance is a suspected carcinogen. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |
| Methanol | 67-56-1 | Based on available data, the classification criteria are not met. Experiments have shown reproductive toxicity effects on laboratory animals |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Methanol | 67-56-1 | May cause disorder and damage to the Central Nervous System (CNS) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Methanol | 67-56-1 | No data of sufficient quality are available. |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Not applicable |
| Methanol | 67-56-1 | Not applicable |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |

**12.2. Persistence and degradability**

Not readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | (10.2% @ 28d) |
| Methanol | 67-56-1 | Readily biodegradable (95% @ 20d) |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | Readily biodegradable (100% @ 14d) Marine water Persistent (6.6% @ 28d) |

### 12.3. Bioaccumulative potential

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | Log Pow <1 |
| Methanol | 67-56-1 | Not Bioaccumulative; BCF=1 |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | -2.62 (calculated) |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Ethanol, 2,2'-oxybis-, reaction products with ammonia, morpholine derivatives residues | 68909-77-3 | No information available |
| Methanol | 67-56-1 | No information available |
| Nitrilotriacetic acid, trisodium salt monohydrate | 5064-31-3 | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** UN1993
**UN proper shipping name:** Flammable Liquid, N.O.S. (Contains Methanol)
**Transport Hazard Class(es):** 3
**Packing Group:** III
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** UN1993
**UN proper shipping name:** Flammable Liquid, N.O.S. (Contains Methanol)
**Transport Hazard Class(es):** 3
**Packing Group:** III
**Environmental Hazards:** Not applicable
**EMS:** EmS F-E, S-E

**IATA/ICAO**

**UN Number** UN1993
**UN proper shipping name:** Flammable Liquid, N.O.S. (Contains Methanol)
**Transport Hazard Class(es):** 3
**Packing Group:** III
**Environmental Hazards:** Not applicable

**Special precautions during transport**

None

**HazChem Code**

•3Y

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**

S6

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 18-Jun-2020

**Revision Note**

SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**

H225 - Highly flammable liquid and vapor
H226 - Flammable liquid and vapor
H301 - Toxic if swallowed
H302 - Harmful if swallowed
H311 - Toxic in contact with skin
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H319 - Causes serious eye irritation
H331 - Toxic if inhaled
H332 - Harmful if inhaled
H351 - Suspected of causing cancer
H370 - Causes damage to organs

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%

LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

HALLIBURTON

# SAFETY DATA SHEET

# CON DET®

**Revision Date:** 09-Sep-2020 **Revision Number:** 28

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**
**Product Name** CON DET®

**Other means of Identification**
**Synonyms** None
**Hazardous Material Number:** HM003454

**Recommended use of the chemical and restrictions on use**
**Recommended Use** Anionic Surfactant
**Uses advised against** No information available

**Supplier's name, address and phone number**
**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300
**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**
+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 2 - H319 |
| Acute Aquatic Toxicity | Category 3 - H402 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:**
H319 - Causes serious eye irritation
H402 - Harmful to aquatic life

**Precautionary Statements**

**Prevention**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P273 - Avoid release to the environment
P280 - Wear eye protection/face protection

**Response**
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Storage** None

**Disposal** P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 |
| Isopropanol | 67-63-0 |
| Potassium pyrophosphate | 7320-34-5 |
| Potassium hydroxide | 1310-58-3 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| **Substances** | **CAS Number** | **PERCENT (w/w)** | **GHS Classification - Australia** |
|---|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | 5 - 10% | Skin Irrit. 2 (H315)<br>Eye Corr. 1 (H318)<br>Aquatic Acute 2 (H401)<br>Aquatic Chronic 2 (H411) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | 1 - 5% | Eye Irrit. 2 (H319) |
| Isopropanol | 67-63-0 | 1 - 5% | Eye Irrit. 2 (H319)<br>STOT SE 3 (H336)<br>Flam. Liq. 2 (H225) |
| Potassium pyrophosphate | 7320-34-5 | 1 - 5% | Eye Irrit. 2A (H319) |
| Potassium hydroxide | 1310-58-3 | 0.1 - 1% | Acute Tox. 4 (H302)<br>Skin Corr. 1 (H314)<br>Eye Corr. 1 (H318)<br>STOT SE 3 (H335)<br>Met. Corr. 1 (H290) |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Flush skin with large amounts of water. If irritation persists, get medical attention. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**

Causes mild skin irritation. Causes eye irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Keep container closed when not in use. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Not applicable | Not applicable |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Not applicable | Not applicable |
| Isopropanol | 67-63-0 | TWA: 400 ppm<br>TWA: 983 mg/m$^3$<br>STEL: 500 ppm<br>STEL: 1230 mg/m$^3$ | TWA: 200 ppm<br>STEL: 400 ppm |
| Potassium pyrophosphate | 7320-34-5 | Not applicable | Not applicable |
| Potassium hydroxide | 1310-58-3 | Not applicable | Ceiling: 2 mg/m$^3$ |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Organic vapor respirator.

**Hand Protection** Impervious rubber gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Liquid
**Color** Transparent Red
**Odor:** Alcohol
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9.5 @ 1% |
| **Freezing Point / Range** | -2.2 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | 99 °C / 210 °F (PMCC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.025 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Causes mild skin irritation. Causes eye irritation.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | >5000 mg/kg-bw (rat) | >2000 mg/kg-bw (rabbit) | No data available |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | 7200 mg/kg (Rat)<br>> 7000 mg/kg (Rat) | >2000 mg/kg (Rabbit) | >6.41 mg/L (Rabbit) 3.87h (similar substance) |
| Isopropanol | 67-63-0 | 4700 mg/kg-bw (rat) | 12870 mg/kg-bw (rabbit) | 72.6 mg/L (Rat, 4h, vapor) |
| Potassium pyrophosphate | 7320-34-5 | 2440 mg/kg (Rat) (similar substance) | 4640 mg/kg (Rabbit)<br>> 2000 mg/kg (Rat) | > 1.1 mg/L (Rat) 4h (saturated concentration) |
| Potassium hydroxide | 1310-58-3 | 333 mg/kg (Rat) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**
**Inhalation** May cause mild respiratory irritation.
**Eye Contact** Causes eye irritation.
**Skin Contact** Causes mild skin irritation.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Irritating to skin. (Rabbit) |
| Benzenesulfonic acid, | 1300-72-7 | Not irritating to skin in rabbits. |

| | | |
|---|---|---|
| dimethyl-, sodium salt | | |
| Isopropanol | 67-63-0 | Non-irritating to the skin (Rabbit) |
| Potassium pyrophosphate | 7320-34-5 | Not irritating to skin in rabbits. |
| Potassium hydroxide | 1310-58-3 | Corrosive to skin (Rabbit) |

| **Substances** | **CAS Number** | **Serious eye damage/irritation** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Causes severe eye irritation (Rabbit) (similar substances) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Eye, rabbit: Causes moderate eye irritation |
| Isopropanol | 67-63-0 | Causes moderate eye irritation (Rabbit) |
| Potassium pyrophosphate | 7320-34-5 | Eye, rabbit: Causes moderate eye irritation |
| Potassium hydroxide | 1310-58-3 | Corrosive to eyes (Rabbit) |

| **Substances** | **CAS Number** | **Skin Sensitization** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Did not cause sensitization on laboratory animals (guinea pig) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Did not cause sensitization on laboratory animals (guinea pig) (similar substances) |
| Isopropanol | 67-63-0 | Did not cause sensitization on laboratory animals (guinea pig) |
| Potassium pyrophosphate | 7320-34-5 | Did not cause sensitization on laboratory animals (mouse) (similar substances) |
| Potassium hydroxide | 1310-58-3 | Did not cause sensitization on laboratory animals (guinea pig) |

| **Substances** | **CAS Number** | **Respiratory Sensitization** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | No information available |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | No information available |
| Isopropanol | 67-63-0 | No information available |
| Potassium pyrophosphate | 7320-34-5 | No information available |
| Potassium hydroxide | 1310-58-3 | No information available |

| **Substances** | **CAS Number** | **Mutagenic Effects** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | In vitro tests did not show mutagenic effects Some in vivo tests have shown mutagenic effects. |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | While some in vitro tests were positive and/or equivocal, in vivo results were negative. (similar substances) |
| Isopropanol | 67-63-0 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. |
| Potassium pyrophosphate | 7320-34-5 | In vitro tests did not show mutagenic effects In vivo tests did not show mutagenic effects. (similar substances) |
| Potassium hydroxide | 1310-58-3 | Not regarded as mutagenic. |

| **Substances** | **CAS Number** | **Carcinogenic Effects** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | No data of sufficient quality are available. |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Did not show carcinogenic effects in animal experiments (Rat) |
| Isopropanol | 67-63-0 | Did not show carcinogenic effects in animal experiments |
| Potassium pyrophosphate | 7320-34-5 | No information available |
| Potassium hydroxide | 1310-58-3 | No data of sufficient quality are available. |

| **Substances** | **CAS Number** | **Reproductive toxicity** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Did not show teratogenic effects in animal experiments. |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Did not show teratogenic effects in animal experiments. |
| Isopropanol | 67-63-0 | Animal testing did not show any effects on fertility. |
| Potassium pyrophosphate | 7320-34-5 | Did not show teratogenic effects in animal experiments. (similar substances) |
| Potassium hydroxide | 1310-58-3 | Not applicable due to corrosivity of the substance. |

| **Substances** | **CAS Number** | **STOT - single exposure** |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |
| Isopropanol | 67-63-0 | May cause headache, dizziness, and other central nervous system effects. |

| | | |
|---|---|---|
| Potassium pyrophosphate | 7320-34-5 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Potassium hydroxide | 1310-58-3 | May cause respiratory irritation. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | No data of sufficient quality are available. |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |
| Isopropanol | 67-63-0 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |
| Potassium pyrophosphate | 7320-34-5 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |
| Potassium hydroxide | 1310-58-3 | Not applicable due to corrosivity of the substance. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Not applicable |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | Not applicable |
| Isopropanol | 67-63-0 | Not applicable |
| Potassium pyrophosphate | 7320-34-5 | Not applicable |
| Potassium hydroxide | 1310-58-3 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | EC50(72h) 2.2 mg/L (Scenedesmus subspicatus) | LC50(96h) 3.6 mg/L (Brachydanio rerio) NOEC(28d)=0.32 mg/L (Oncorhynchus mykiss) | No information available | EC50(48h) 2.25 mg/L (Ceriodaphnia dubia) NOEC(21d) 0.07 mg/L (Daphnia magna) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | EC50 (96h) >230 mg/L (Pseudokirchnerella subcapitata) | LC50 (96h) >1580 mg/L (Oncorhynchus mykiss) | EC10 (3h) > 1000 mg/L (Activated sludge, domestic) | EC50 (48h) >1000 mg/L (Daphnia magna) |
| Isopropanol | 67-63-0 | EC50 (72h) > 1000 mg/L (Desmodesmus subspicatus) EC50 (7d) 1800 mg/L (meanextinction value)(Scenedesmus quadricauda) | LC50 (96h) 9640 mg/L (Pimephales promelas) LC50 (7d) 7060 mg/L (Poecilia reticulata) | TT (16h) 1050 mg/L (Pseudomonas putida) | EC50 (48 h)=2285 mg/L (Daphnia sp.) EC50 (24h) > 10,000 mg/L (Daphnia magna) |
| Potassium pyrophosphate | 7320-34-5 | EC50 (72h) > 100 mg/L (Desmodesmus subspicatus) | LC50 (96h) > 100 mg/L (Oncorhynchus mykiss) (similar substance) | No information available | EC50 (48h) > 100 mg/L (Daphnia magna) |
| Potassium hydroxide | 1310-58-3 | No information available | NOEC (24h) 28 mg/L (Lepomis macrochirus) | No information available | EC100 (48h) > 10 mg/L (Dreissena polymorpha)(similar substance) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Readily biodegradable (92.5% @ 28d) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | (84% @ 28d) |
| Isopropanol | 67-63-0 | Readily biodegradable (53% @ 5d) |
| Potassium pyrophosphate | 7320-34-5 | The methods for determining biodegradability are not applicable to inorganic substances. |
| Potassium hydroxide | 1310-58-3 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | Not Bioaccumulative; BCF=65.4 L/kg (similar substance) |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | -3.12 |
| Isopropanol | 67-63-0 | LogPow < 4.5 |
| Potassium pyrophosphate | 7320-34-5 | No information available |
| Potassium hydroxide | 1310-58-3 | Not Bioaccumulative |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Amides, coco, N,N-bis (hydroxyethyl) | 68603-42-9 | No information available |
| Benzenesulfonic acid, dimethyl-, sodium salt | 1300-72-7 | KOC = 1.0 (estimated) |
| Isopropanol | 67-63-0 | No information available |
| Potassium pyrophosphate | 7320-34-5 | Soluble in water |
| Potassium hydroxide | 1310-58-3 | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IATA/ICAO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable

**Special precautions during transport**

None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 09-Sep-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H272 - May intensify fire; oxidizer
H290 - May be corrosive to metals
H225 - Highly flammable liquid and vapor
H314 - Causes severe skin burns and eye damage
H315 - Causes skin irritation
H318 - Causes serious eye damage
H319 - Causes serious eye irritation
H335 - May cause respiratory irritation
H336 - May cause drowsiness or dizziness
H401 - Toxic to aquatic life
H412 - Harmful to aquatic life with long lasting effects

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%

LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# BARABLOK™

**Revision Date:** 30-Apr-2020 **Revision Number:** 28

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BARABLOK™

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003477

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Fluid Loss Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)

**Hand Protection** Normal work gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Powder | **Color** | Black |
| **Odor:** | Asphalt | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 5.8 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | 315 °C / 599 °F Cleveland Open Cup (COC) |
| **Lower flammability limit** | 0.02 oz/ft3 |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.05 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | 1.7-1.9 |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | 2800 cPs |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | 2% |
| **Bulk Density** | 30 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide. Toxic fumes.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| concentrations above cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers. Strong acids. Avoid halogens. Prolonged contact with aluminum.
**10.6. Hazardous decomposition products**
Metal oxides.

## 11. Toxicological Information

**Information on routes of exposure**

| | |
|---|---|
| **Principle Route of Exposure** | Eye or skin contact, inhalation. |

**Symptoms related to exposure**

**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

**Immediate, delayed and chronic health effects from exposure**

| | |
|---|---|
| **Inhalation** | May cause mild respiratory irritation. |
| **Eye Contact** | May cause mechanical irritation to eye. |
| **Skin Contact** | Not irritating to skin in rabbits. |
| **Ingestion** | May cause abdominal pain, vomiting, nausea, and diarrhea. |

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Allergic skin and/or respiratory reaction. Liver and kidney disorders.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

**12.2. Persistence and degradability**

**12.3. Bioaccumulative potential**

**12.4. Mobility in soil**

**12.6. Other adverse effects**
**Endocrine Disruptor Information**
This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**
Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**
Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

| | |

SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%

mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

HALLIBURTON

# SAFETY DATA SHEET

# BaraCor® 95

**Revision Date:** 18-Jun-2020 **Revision Number:** 49

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BaraCor® 95

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003499

**Recommended use of the chemical and restrictions on use**

**Recommended Use** pH Control

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute Oral Toxicity | Category 4 - H302 |
| Acute toxicity - Dermal | Category 4 - H312 |
| Acute inhalation toxicity - vapor | Category 4 - H332 |
| Skin Corrosion/Irritation | Category 1 - H314 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 3 - H335 |
| Acute Aquatic Toxicity | Category 3 - H402 |
| Chronic Aquatic Toxicity | Category 3 - H412 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H302 - Harmful if swallowed
H312 - Harmful in contact with skin
H314 - Causes severe skin burns and eye damage
H318 - Causes serious eye damage
H332 - Harmful if inhaled
H335 - May cause respiratory irritation
H402 - Harmful to aquatic life
H412 - Harmful to aquatic life with long lasting effects

**Precautionary Statements**

**Prevention**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection

**Response**
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P302 + P352 - IF ON SKIN: Wash with plenty of water.
P312 - Call a POISON CENTER/doctor/physician if you feel unwell
P363 - Wash contaminated clothing before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P391 - Collect spillage

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Monoethanolamine | 141-43-5 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Monoethanolamine | 141-43-5 | 60 - 100% | Acute Tox. 4 (H302)<br>Acute Tox. 4 (H312)<br>Acute Tox. 4 (H332)<br>Skin Corr. 1B (H314)<br>Eye Corr. 1 (H318)<br>STOT SE 3 (H335)<br>Aquatic Acute 2 (H401)<br>Aquatic Chronic 3 (H412)<br>Flam. Liq. 4 (H227) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, move victim to fresh air and seek medical attention.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

**Skin** In case of contact, immediately flush skin with plenty of soap and water for at least 30 minutes and remove contaminated clothing, shoes and leather goods immediately. Get medical attention immediately.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes severe skin burns and eye damage. May cause respiratory irritation. Harmful if inhaled. Harmful in contact with skin. Harmful if swallowed.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Use water spray to cool fire exposed surfaces. Closed containers may explode in fire. Decomposition in fire may produce harmful gases. Do not allow runoff to enter waterways.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation. Evacuate all persons from the area.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas. Consult local authorities.

### 6.3. Methods and material for containment and cleaning up

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

### 7.1. Precautions for safe handling

**Handling Precautions**

Use appropriate protective equipment. Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**

Store away from acids. Store away from oxidizers. Store in a cool well ventilated area. Keep container closed when not in use. Product has a shelf life of 36 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

### Control parameters - exposure standards, biological monitoring

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Monoethanolamine | 141-43-5 | TWA: 3 ppm<br>TWA: 7.5 mg/m$^3$<br>STEL: 6 ppm<br>STEL: 15 mg/m$^3$ | TWA: 3 ppm<br>STEL: 6 ppm |

### Appropriate engineering controls

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation.

### Personal protective equipment (PPE)

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. In high concentrations, supplied air respirator or a self-contained breathing apparatus. (EN137:2006, 2)

**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. (>= 8 mm thickness)

This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Rubber apron. Rubber boots.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Liquid
**Color** Colorless
**Odor:** Amine
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 12 |
| **Freezing Point / Range** | -13 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 130 °C / 266 °F |
| **Flash Point** | 96 °C / 205 °F (PMCC) |
| **Evaporation rate** | 0.1 |
| **Vapor Pressure** | 0.2 mmHg @ 20°C |
| **Vapor Density** | 2.1 (air = 1) |
| **Specific Gravity** | 1.02 |
| **Water Solubility** | Miscible with water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | -1.9 |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids. Strong oxidizers.
**10.6. Hazardous decomposition products**
Ammonia. Carbon monoxide and carbon dioxide. Hydrocarbons.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe skin burns and eye damage. May cause respiratory irritation. Harmful if inhaled. Harmful in contact with skin. Harmful if swallowed.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Monoethanolamine | 141-43-5 | 1089 mg/kg-bw (rat) | 1025 mg/kg-bw (rabbit) | >1.3 mg/L (rat, 6 h, vapor) (saturated) |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Harmful if inhaled. Causes severe respiratory irritation.
**Eye Contact** Causes eye damage.
**Skin Contact** Harmful in contact with skin. Causes severe burns.
**Ingestion** Harmful if swallowed. Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Lung disorders. Liver and kidney disorders.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Monoethanolamine | 141-43-5 | Skin, rabbit: Corrosive to skin Causes severe skin burns |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Monoethanolamine | 141-43-5 | Eye, rabbit: Corrosive to eyes Causes severe eye irritation. Will damage tissue. |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Monoethanolamine | 141-43-5 | Did not cause sensitization on laboratory animals (guinea pig) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Monoethanolamine | 141-43-5 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Monoethanolamine | 141-43-5 | In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Monoethanolamine | 141-43-5 | No data of sufficient quality are available. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Monoethanolamine | 141-43-5 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Monoethanolamine | 141-43-5 | May cause respiratory irritation. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Monoethanolamine | 141-43-5 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Monoethanolamine | 141-43-5 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Monoethanolamine | 141-43-5 | EC50 (72 h) =2.5 mg/L (Pseudokirchneriella subcapitata)<br>EC50 (72 h) =24.7 mg/L | LC50 (96 h) =170 mg/L (Carassius auratus)<br>NOEC (14 d) >100 mg/L (Oryzias latipes) | No information available | EC50 (48 h) =65 mg/L (Daphnia magna)<br>NOEC (21 d) =0.85 mg/L (Daphnia magna) |

| | | | | | |
|---|---|---|---|---|---|
| | | (Phaeodactylum tricornutum) | | | |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Monoethanolamine | 141-43-5 | Readily biodegradable (92% @ 28d) |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Monoethanolamine | 141-43-5 | Log Pow =-1.91 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Monoethanolamine | 141-43-5 | KOC = 0.2725<br>KOC = 1.167 |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** UN2491
**UN proper shipping name:** Ethanolamine Solution
**Transport Hazard Class(es):** 8
**Packing Group:** III
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** UN2491
**UN proper shipping name:** Ethanolamine Solution
**Transport Hazard Class(es):** 8
**Packing Group:** III
**Environmental Hazards:** Not applicable
**EMS:** EmS F-A, S-B

**IATA/ICAO**

**UN Number** UN2491
**UN proper shipping name:** Ethanolamine Solution
**Transport Hazard Class(es):** 8
**Packing Group:** III
**Environmental Hazards:** Not applicable

**Special precautions during transport**

None

**HazChem Code**
2X

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
None known

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists. Remove contaminated clothing and launder before reuse.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Keep floors clean of spills.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use. Product has a shelf life of 36 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally necessary.

**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Clear colorless to pale yellow |
| **Odor:** | Mild sweet | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |

| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | > 182 °C / > 357 °F (PMCC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | < 0.01 mmHg |
| **Vapor Density** | > 1 |
| **Specific Gravity** | 1 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

Keep away from heat, sparks and flame.

**10.5. Incompatible materials**

Strong oxidizers. Isocyanates. Strong acids.

**10.6. Hazardous decomposition products**

Aldehydes. Ketones. Organic acid vapors. Hydrocarbons. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

| | |
|---|---|
| **Inhalation** | Heated vapors may cause respiratory irritation. |
| **Eye Contact** | May cause mild eye irritation. |
| **Skin Contact** | Prolonged or repeated contact may cause skin irritation. |
| **Ingestion** | None known. |

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |

| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**

None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 10-Apr-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
None

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# BARAZAN® D PLUS

**Revision Date:** 30-Apr-2020 **Revision Number:** 33

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BARAZAN® D PLUS

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003535

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Viscosifier

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Slippery when wet. Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 24 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Powder | **Color** | White to off white |
| **Odor:** | Slight | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 7 (1%) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.6 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 204 °C / 400 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 1000000 |
| **VOC Content (%)** | No data available |
| **Bulk Density** | 52.4 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May impede respiration.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

# SAFETY DATA SHEET

# BAROFIBRE®

**Revision Date:** 30-Apr-2020 **Revision Number:** 34

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BAROFIBRE®

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003539

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Lost Circulation Material

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** Under normal conditions, first aid procedures are not required. Move person to fresh air.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
**Skin** Under normal conditions, first aid procedures are not required.
**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid creating and breathing dust. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a dry location. Product has a shelf life of 36 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Safety glasses.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid Powder | **Color** | Tan |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 4.9 (1%) |
| **Freezing Point / Range** | 190 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | 193 °C / 380 °F (PMCC) |
| **Lower flammability limit** | 0.29 |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.3 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Bulk Density** | 24-31 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|

| | | | | |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to | NA | No information available |

| | | |
|---|---|---|
| the competent authority | | |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

**Australian AICS Inventory** All components are listed on the AICS or are subject to a relevant exemption, permit, or

| | |
|---|---|
| | assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 1 - H318 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:** H318 - Causes serious eye damage

**Precautionary Statements**

**Prevention** P280 - Wear eye protection/face protection
**Response** P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 |
| Isopropanol | 67-63-0 |

**Other hazards which do not result in classification**
None known

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | 10 - 30% | Acute Tox. 4 (H302)<br>Eye Corr. 1 (H318) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | 5 - 10% | Acute Tox. 4 (H302)<br>Eye Corr. 1 (H318)<br>STOT RE 2 (H373)<br>Met. Corr. 1 (H290) |
| Isopropanol | 67-63-0 | 1 - 5% | Eye Irrit. 2 (H319)<br>STOT SE 3 (H336)<br>Flam. Liq. 2 (H225) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, move victim to fresh air and seek medical attention.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 30 minutes. Remove contact lenses after the first 5 minutes and continue washing. Seek immediate medical attention/advice. Suitable emergency eye wash facility should be immediately available
**Skin** Wash with soap and water. Get medical attention if irritation persists. Remove contaminated clothing and launder before reuse.
**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes mild skin irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid breathing vapors.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Keep container closed when not in use. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Not applicable | Not applicable |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Not applicable | Not applicable |
| Isopropanol | 67-63-0 | TWA: 400 ppm<br>TWA: 983 mg/m$^3$<br>STEL: 500 ppm<br>STEL: 1230 mg/m$^3$ | TWA: 200 ppm<br>STEL: 400 ppm |

**Appropriate engineering controls**

| | |
|---|---|
| **Engineering Controls** | Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation. |

**Personal protective equipment (PPE)**

| | |
|---|---|
| **Personal Protective Equipment** | If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | Not normally needed. But if significant exposures are possible then the following respirator is recommended:<br>Organic vapor respirator. |
| **Hand Protection** | Impervious rubber gloves. |
| **Skin Protection** | Rubber apron. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Clear blue |
| **Odor:** | Slight Alcohol | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9.5 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | > 100 °C / > 212 °F |
| **Flash Point** | > 104 °C / > 219 °F Cleveland Open Cup (COC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.025 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong oxidizers.

**10.6. Hazardous decomposition products**

Oxides of sulfur. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue. Causes mild skin irritation.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | 500 mg/kg (Rat) | 2000 - 5000 mg/kg (similar substances) | No data available |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | 1658 mg/kg-bw (Rat) | No information available | >1 mg/L (rat, saturated mist, 4hr) (similar substances) |
| Isopropanol | 67-63-0 | 4700 mg/kg-bw (rat) | 12870 mg/kg-bw (rabbit) | 72.6 mg/L (Rat, 4h, vapor) |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Causes mild skin irritation.

**Ingestion** May cause headache, dizziness, nausea, vomiting, gastrointestinal irritation and central nervous system depression.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

Skin disorders.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Skin, rabbit: Causes mild skin irritation |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Not irritating to skin in rabbits. (40 - 80 % solution) |
| Isopropanol | 67-63-0 | Non-irritating to the skin (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Causes severe eye irritation which may damage tissue. |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Eye, rabbit: Causes serious eye damage (87 % solution) |
| Isopropanol | 67-63-0 | Causes moderate eye irritation (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Did not cause sensitization on laboratory animals (guinea pig) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Did not cause sensitization on laboratory animals (guinea pig) (similar substances) |
| Isopropanol | 67-63-0 | Did not cause sensitization on laboratory animals (guinea pig) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | No information available |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | No information available |
| Isopropanol | 67-63-0 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | In vivo tests did not show mutagenic effects. In vitro tests did not show mutagenic effects (similar substances) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | In vivo tests did not show mutagenic effects. In vitro tests did not show mutagenic effects (similar substances) |
| Isopropanol | 67-63-0 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Did not show carcinogenic effects in animal experiments (similar substances) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Did not show carcinogenic effects in animal experiments (similar substances) |
| Isopropanol | 67-63-0 | Did not show carcinogenic effects in animal experiments |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Not regarded as a reproductive and developmental toxicant. (similar substances) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. (similar substances) |
| Isopropanol | 67-63-0 | Animal testing did not show any effects on fertility. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | No information available |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | May cause respiratory irritation. (similar substances) No significant toxicity observed in animal studies at concentration requiring classification. |
| Isopropanol | 67-63-0 | May cause headache, dizziness, and other central nervous system effects. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Causes damage to organs through prolonged or repeated exposure if inhaled: Respiratory system |
| Isopropanol | 67-63-0 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Not applicable |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Not applicable |
| Isopropanol | 67-63-0 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | EC50 0.5 - 3.8 mg/L | LC50 (96h) 3900 mg/L (Pimephales promelas) | No information available | EC50 (96h) 2100 ug/L (Daphnia magna) |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | EC50 (72 h) >100 mg/L (Desmodesmus subspicatus) | LC50 (96 h) 121 mg/L (Lepomis macrochirus) NOAEL (96 h) 24 mg/L (Lepomis macrochirus) | No information available | EC50 (24 h) 610 mg/L (Daphnia magna) |

| | | | | | |
|---|---|---|---|---|---|
| Isopropanol | 67-63-0 | EC50 (72h) > 1000 mg/L (Desmodesmus subspicatus) EC50 (7d) 1800 mg/L (meanextinction value)(Scenedesmus quadricauda) | LC50 (96h) 9640 mg/L (Pimephales promelas) LC50 (7d) 7060 mg/L (Poecilia reticulata) | TT (16h) 1050 mg/L (Pseudomonas putida) | EC50 (48 h)=2285 mg/L (Daphnia sp.) EC50 (24h) > 10,000 mg/L (Daphnia magna) |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | No information available |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | (10% @ 28d) |
| Isopropanol | 67-63-0 | Readily biodegradable (53% @ 5d) |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | Log Kow = 4 |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | Log Pow Weighted average3.4 |
| Isopropanol | 67-63-0 | LogPow < 4.5 |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Polyethylene glycol monoundecyl | 34398-01-1 | No information available |
| Ethylenediaminetetraacetic acid, tetrasodium salt | 64-02-8 | No information available |
| Isopropanol | 67-63-0 | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 13-Apr-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H225 - Highly flammable liquid and vapor
H302 - Harmful if swallowed
H318 - Causes serious eye damage
H319 - Causes serious eye irritation
H336 - May cause drowsiness or dizziness
H373 - May cause damage to organs through prolonged or repeated exposure

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# CAUSTIC SODA

**Revision Date:** 09-May-2017 **Revision Number:** 34

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** CAUSTIC SODA

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003599

**Recommended use of the chemical and restrictions on use**

**Recommended Use** pH Control

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Skin Corrosion/Irritation | Category 1 - H314 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 3 - H335 |
| Substances/mixtures corrosive to metal. | Category 1 - H290 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H290 - May be corrosive to metals
H314 - Causes severe skin burns and eye damage
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary Statements**

**Prevention**
P234 - Keep only in original packaging.
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P280 - Wear protective gloves/eye protection/face protection

**Response**
P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P363 - Wash contaminated clothing before reuse
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P390 - Absorb spillage to prevent material damage
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up
P406 - Store in corrosive resistant container with a resistant inner liner.

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Sodium hydroxide | 1310-73-2 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Sodium hydroxide | 1310-73-2 | 60 - 100% | Skin Corr. 1A (H314)<br>Eye Corr. 1 (H318)<br>STOT SE 3 (H335)<br>Met. Corr. 1 (H290) |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, move victim to fresh air and seek medical attention. |
| **Eyes** | Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention. |
| **Skin** | In case of contact, immediately flush skin with plenty of soap and water for at least 30 minutes and remove contaminated clothing, shoes and leather goods immediately. Get medical attention immediately. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause respiratory irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

May form explosive mixtures with strong acids. Reaction with steel and certain other metals generates flammable hydrogen gas.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid creating and breathing dust. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas. Consult local authorities.

**6.3. Methods and material for containment and cleaning up**

Neutralize to pH of 6-8. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from acids. Store in a cool, dry location. Store locked up.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Sodium hydroxide | 1310-73-2 | 2 mg/m³ | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area. Localized ventilation should be used to control dust levels.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product.

**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. Butyl rubber gloves. (>= 0.7 mm thickness)
This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Full protective chemical resistant clothing. Rubber boots

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** White to off white
**Odor:** Odorless
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 14 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Boiling Point / Range** | 1390 °C / 2535 °F |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.13 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**Molecular Weight** 40

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Contact with acids. Peroxides. Halogenated compounds. Prolonged contact with aluminum, lead, or zinc may liberate flammable hydrogen.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Causes severe eye irritation which may damage tissue. Causes severe skin irritation with tissue destruction. May cause respiratory irritation.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Sodium hydroxide | 1310-73-2 | Not applicable due to corrosivity of the substance. | Not applicable due to corrosivity of the substance. | Not applicable due to corrosivity of the substance. |

**Immediate, delayed and chronic health effects from exposure**
**Inhalation** Causes severe respiratory irritation.
**Eye Contact** Causes severe eye irritation which may damage tissue.
**Skin Contact** Causes severe burns.
**Ingestion** Causes burns of the mouth, throat and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | Causes severe burns |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | Causes severe eye burns (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | Did not cause sensitization on laboratory animals (guinea pig) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | Did not show mutagenic effects in animal experiments In vitro tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No data of sufficient quality are available. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | May cause respiratory irritation. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No significant toxicity observed in animal studies at concentration requiring classification. Not applicable due to corrosivity of the substance. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Sodium hydroxide | 1310-73-2 | No information available | LC50(48h) 189 mg/L (Leuciscus idus melanotus)<br>LLC50(48h) 189 mg/L (Leuciscus melanotus)<br>LC50(24h) 145 mg/L (Poecilia reticulate)<br>LC50(96h) 125 mg/L (Gambusia affinis)<br>LOEL(150 d) = 25 mg/L (Lebistes reticulatus) | No information available | EC50 (48h) 40.4 mg/L (Ceriodaphnia sp.) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Log Pow |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Sodium hydroxide | 1310-73-2 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**
Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**
Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

| | |
|---|---|
| **UN Number** | UN1823 |

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** None

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential. Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid creating and breathing dust. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Avoid dust accumulations. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 12 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.

**Hand Protection** Use gloves which are suitable for the chemicals present in this product as well as other environmental factors in the workplace.

**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Powder
**Color** White to off white
**Odor:** Musty
**Odor Threshold:** No information available

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | 10 | |
| **Freezing Point / Range** | No data available | |
| **Melting Point / Range** | No data available | |
| **Pour Point / Range** | No data available | |
| **Boiling Point / Range** | No data available | |
| **Flash Point** | No data available | |
| **Evaporation rate** | No data available | |
| **Vapor Pressure** | No data available | |
| **Vapor Density** | No data available | |
| **Specific Gravity** | 1.5 | |
| **Water Solubility** | Soluble in water | |
| **Solubility in other solvents** | No data available | |
| **Partition coefficient: n-octanol/water** | No data available | |
| **Autoignition Temperature** | No data available | |
| **Decomposition Temperature** | No data available | |
| **Viscosity** | No data available | |
| **Explosive Properties** | No information available | |
| **Oxidizing Properties** | No information available | |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
Keep away from heat, sparks and flame.
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Oxides of sulfur. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|

| | | | | |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to | NA | No information available |

| | | |
|---|---|---|
| the competent authority | | |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

**Australian AICS Inventory** All components are listed on the AICS or are subject to a relevant exemption, permit, or

| | |
|---|---|
| | assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

HALLIBURTON

# SAFETY DATA SHEET

**Product Trade Name:** **DRIL-N-SLIDE™**

**Revision Date:** 27-Jun-2018 **Revision Number:** 20

## 1. Identification

### 1.1. Product Identifier

| | |
|---|---|
| **Product Trade Name:** | DRIL-N-SLIDE™ |
| **Synonyms** | None |
| **Chemical Family** | Fatty Acid Ester |
| **Internal ID Code** | HM003622 |

### 1.2 Recommended use and restrictions on use

| | |
|---|---|
| **Application** | Lubricant |
| **Uses advised against** | No information available |

### 1.3 Manufacturer's Name and Contact Details

Halliburton Energy Services, Inc.
645 - 7th Ave SW Suite 1800
Calgary, AB
T2P 4G8
Canada
Telephone: 1-403-231-9300

**Manufacturer/Supplier**
Baroid Fluid Services
Product Service Line of Halliburton Energy Services, Inc.
P.O. Box 1675
Houston, TX 77251
Telephone: (281) 871-4000

**Prepared By**
Chemical Stewardship
Telephone: 1-281-871-6107
e-mail: fdunexchem@halliburton.com

### 1.4. Emergency telephone number

**Emergency Telephone Number** 1-866-519-4752 or 1-760-476-3962
Global Incident Response Access Code: 334305
Contract Number: 14012

## 2. Hazard Identification

### 2.1 Classification of the substance or mixture

**As adopted by the competent authority, this product does not require an SDS or hazard warning label.**

Not classified

### 2.2. Label Elements

**Hazard Pictograms**

**Signal Word:** Not Classified

**Hazard Statements** Not Hazardous

**Precautionary Statements**

| | |
|---|---|
| **Prevention** | None |
| **Response** | None |
| **Storage** | None |
| **Disposal** | None |

### 2.3 Other hazards which do not result in classification

None known

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Canada | HMIRA Registry Number | Filing Date | Decision Granted Date |
|---|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 80 - 100% | Not classified | Not applicable | Not applicable | Not applicable |

The exact percentage (concentration) of the composition has been withheld as proprietary.

## 4. First aid measures

### 4.1. Description of first aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water.

**Ingestion** Get medical attention! If vomiting occurs, keep head lower than hips to prevent aspiration. Rinse mouth. Never give anything by mouth to an unconscious person.

### 4.2 Most important symptoms/effects, acute and delayed

No significant hazards expected.

### 4.3. Indication of any immediate medical attention and special treatment needed

**Notes to Physician** Treat symptomatically.

## 5. Fire-fighting measures

### 5.1. Extinguishing media

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

### 5.2 Specific hazards arising from the substance or mixture

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

### 5.3 Special protective equipment and precautions for fire-fighters

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.
See Section 8 for additional information

### 6.2. Environmental precautions

Prevent from entering sewers, waterways, or low areas.

### 6.3. Methods and material for containment and cleaning up

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and Storage

### 7.1. Precautions for safe handling

**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage Information**
Keep container closed when not in use. Product has a shelf life of 36 months.

## 8. Exposure Controls/Personal Protection

### 8.1 Occupational Exposure Limits

| Substances | CAS Number | OSHA PEL-TWA | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

### 8.2 Appropriate engineering controls

**Engineering Controls** Use in a well ventilated area.

### 8.3 Individual protection measures, such as personal protective equipment

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally necessary.

**Hand Protection** Impervious rubber gloves. Nitrile gloves. Neoprene gloves. Butyl rubber gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Safety glasses.
**Other Precautions** None known.

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

**Physical State:** Liquid **Color** Yellowish
**Odor:** Bland **Odor** No information available

| Property<br>Remarks/ - Method | Values<br>**Threshold:** |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | < -30 °C / < -22 °F |
| **Melting Point / Range** | No data available |
| **Boiling Point / Range** | 240 °C / 464 °F |
| **Flash Point** | 147 °C / 296 °F PMCC |
| **Flammability (solid, gas)** | No data available |
| **Upper flammability limit** | No data available |
| **Lower flammability limit** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 0.86 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | 1.69 |
| **Autoignition Temperature** | 240 °C / 464 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | 0% |
| **Liquid Density** | 7.18 lbs/gal |
| **Bulk Density** | 53.69 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.

**10.2. Chemical stability**
Stable

**10.3. Possibility of hazardous reactions**
Will Not Occur

**10.4. Conditions to avoid**
None anticipated

**10.5. Incompatible materials**
Strong oxidizers.

**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**11.1 Information on likely routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**11.2 Symptoms related to the physical, chemical and toxicological characteristics**
**Acute Toxicity**
**Inhalation** May cause mild respiratory irritation.

**Eye Contact** May cause mild eye irritation.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** Not determined

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

## 11.3 Toxicity data

### Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | |

## 12. Ecological Information

### 12.1. Toxicity

**Product Ecotoxicity Data**

No data available

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Log Pow |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.5 Other adverse effects

No information available

## 13. Disposal Considerations

**13.1. Waste treatment methods**

**Disposal methods** Bury in a licensed landfill according to federal, state, and local regulations.
**Contaminated Packaging** Follow all applicable national or local regulations.

## 14. Transport Information

**Canadian TDG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**US DOT**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IATA/ICAO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not applicable
**Special Precautions for User** None

## 15. Regulatory Information

### Canadian Regulations

**Canadian Domestic Substances List (DSL)** All components listed on inventory or are exempt.

### US Regulations

**US TSCA Inventory** All components listed on inventory or are exempt.

**TSCA Significant New Use Rules - S5A2**

| Substances | CAS Number | TSCA Significant New Use Rules - S5A2 |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable |

**EPA SARA Title III Extremely Hazardous Substances**

| Substances | CAS Number | EPA SARA Title III Extremely Hazardous Substances |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable |

**EPA SARA (311,312) Hazard Class**
None

**EPA SARA (313) Chemicals**

| Substances | CAS Number | Toxic Release Inventory (TRI) - Group I | Toxic Release Inventory (TRI) - Group II |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**EPA CERCLA/Superfund Reportable Spill Quantity**

| Substances | CAS Number | CERCLA RQ |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable |

**EPA RCRA Hazardous Waste Classification**
If product becomes a waste, it does NOT meet the criteria of a hazardous waste as defined by the US EPA.

**NFPA Ratings:** Health 0, Flammability 0, Reactivity 0
**HMIS Ratings:** Health 0, Flammability 0, Physical Hazard 0 , PPE: B

# SAFETY DATA SHEET

# EZ-MUD®

**Revision Date:** 09-Sep-2020 **Revision Number:** 44

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** EZ-MUD®

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003643

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Shale Inhibitor

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 |
| Ethoxylated branched C13 alcohol | 78330-21-9 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | 10 - 30% | Asp. Tox. 1 (H304) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | 1 - 5% | Acute Tox. 4 (H302)<br>Skin Irrit. 2 (H315)<br>Eye Corr. 1 (H318)<br>Aquatic Acute 2 (H401)<br>Aquatic Chronic 3 (H412) |

## 4. First aid measures

**Description of necessary first aid measures**
**Inhalation** If inhaled, move victim to fresh air and seek medical attention.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
**Skin** Wash with soap and water. Get medical attention if irritation persists. Remove contaminated shoes and discard.
**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Causes mild skin irritation.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Use water spray to cool fire exposed surfaces.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Use appropriate protective equipment. Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use. Store locked up. Product has a shelf life of 12 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Not applicable | Not applicable |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** A well ventilated area to control dust levels. Local exhaust ventilation should be used in areas without good cross ventilation.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. Organic vapor respirator with a dust/mist filter. (A2P2/P3) In high concentrations, supplied air respirator or a self-contained breathing apparatus.
**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact

| | |
|---|---|
| | (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. (>= 8 mm thickness)<br>This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types. |
| **Skin Protection** | Rubber apron. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system. |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | White to gray |
| **Odor:** | Mild hydrocarbon | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6-8 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 175 °C / 347 °F |
| **Flash Point** | > 93 °C / > 200 °F (PMCC) |
| **Evaporation rate** | < 1 |
| **Vapor Pressure** | 0.002 mmHg |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1 |
| **Water Solubility** | Partly soluble |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | > 200 °C / 392 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
Keep away from heat, sparks and flame.
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Ammonia. Oxides of nitrogen. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes mild skin irritation.

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | >5000 mg/kg-bw (rat) (similar substance) | >2000 mg/kg-bw (rabbit) (similar substance) | >5.2 mg/L (rat, 4 h, vapor) (similar substance) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | 1600 mg/kg-bw (rat) (similar substance) | >2000 mg/kg-bw (rabbit) (similar substance) | >0.22 mg/L (rat, 4h, aerosol, saturated) (similar substance) |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** In vitro tests indicate that the product is not an eye irritant.

**Skin Contact** Causes mild skin irritation.

**Ingestion** May cause mild gastric distress.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

Lung disorders.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Non-irritating to the skin (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Skin, rabbit: Causes moderate skin irritation. (similar substances) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Non-irritating to rabbit's eye (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Eye, rabbit: Causes severe eye irritation which may damage tissue. (similar substances) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Did not cause sensitization on laboratory animals (guinea pig) (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Did not cause sensitization on laboratory animals (guinea pig) (similar substances) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Based on available data, the classification criteria are not met. |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Based on available data, the classification criteria are not met. |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. (similar substances) |
| Ethoxylated branched C13 | 78330-21-9 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. (similar |

| | | |
|---|---|---|
| alcohol | | substances) |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Did not show carcinogenic effects in animal experiments (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Did not show carcinogenic effects in animal experiments (similar substances) |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. (similar substances) |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Ethoxylated branched C13 alcohol | 78330-21-9 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Aspiration into the lungs may cause chemical pneumonitis including coughing, difficulty breathing, wheezing, coughing up blood and pneumonia, which can be fatal. |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Based on available data, the classification criteria are not met. |

## 12. Ecological Information

### Ecotoxicity

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | ErL50(72 h)>10000 mg/L (Skeletonema costatum) | LC50(96 h)>10000 mg/L (Scophthalmus maximus) NOELR(28 d)>1000 mg/L (fish) | No information available | LC50(48 h)>10000 mg/L (Acartia tonsa) NOELR(21 d)=1000 mg/L (Daphnia magna) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | IC50(72 h)=1-10 mg/L (Desmodesmus subspicatus) | LC50(96 h)=1-10 mg/L (Cyprinus carpio) | No information available | EC50(48 h)=1-10 mg/L (Daphnia magna) NOAEC (21d) 0.77 mg/L (Daphnia magna) |

### 12.2. Persistence and degradability

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | Readily biodegradable (68.1% @ 28d) |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Readily biodegradable (> 60% @ 28d) |

### 12.3. Bioaccumulative potential

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | No information available |
| Ethoxylated branched C13 alcohol | 78330-21-9 | Not Bioaccumulative; BCF = 12.7 - 237 L/Kg |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|

| | | |
|---|---|---|
| Hydrotreated light petroleum distillate | 64742-47-8 | No information available |
| Ethoxylated branched C13 alcohol | 78330-21-9 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations. Incineration recommended in approved incinerator according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or |

| | |
|---|---|
| **Chemicals** | assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 09-Sep-2020

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H302 - Harmful if swallowed
H304 - May be fatal if swallowed and enters airways
H315 - Causes skin irritation
H318 - Causes serious eye damage
H412 - Harmful to aquatic life with long lasting effects

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%

HALLIBURTON

# SAFETY DATA SHEET

# EZ-MUD® DP

**Revision Date:** 20-Nov-2020 **Revision Number:** 28

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** EZ-MUD® DP

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003644

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Shale Inhibitor

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Slippery when wet.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment. Slippery when wet.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a cool, dry location. Product has a shelf life of 24 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White |
| **Odor:** | Mild | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6-8 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 0.8 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Bulk Density** | 40 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Ammonia. Oxides of nitrogen. Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|

# GEM™ CP

**Revision Date:** 15-Mar-2017 **Revision Number:** 21

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** GEM™ CP

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003659

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Shale stabilizer

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier**

Multi-Chem Mintech
1 Ward Road
East Rockingham
WA 6168
Australia

Telephone Number: 61 (08) 9419 5300
Fax Number: 61 (08) 9439 1055
Emergency Telephone Number: + 61 1 800 686 951

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute inhalation toxicity - vapor | Category 4 - H332 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:** H332 - Harmful if inhaled

**Precautionary Statements**

**Prevention** P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P271 - Use only outdoors or in a well-ventilated area

**Response** P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P312 - Call a POISON CENTER/doctor/physician if you feel unwell

**Storage** None

**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 |

**Other hazards which do not result in classification**

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | 60 - 100% | Acute Tox. 4 (H332) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult give oxygen. Get medical attention.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Harmful if inhaled.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Evacuate all persons from the area.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid breathing vapors. Avoid breathing mist. Ensure adequate ventilation. Avoid contact with eyes, skin, or clothing. Use appropriate protective equipment. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store away from acids. Store away from alkalis. Keep container closed when not in use. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Organic vapor respirator with a dust/mist filter. (A2P2/P3)

**Hand Protection** Impervious rubber gloves. Polyvinylchloride gloves. Neoprene gloves.

| | |
|---|---|
| **Skin Protection** | Rubber apron. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | Do not allow material to contaminate ground water system |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Clear light yellow |
| **Odor:** | Mild | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 5-7.5 (10%) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | > 93 °C / > 200 °F PMCC |
| **Evaporation rate** | < 0.1 |
| **Vapor Pressure** | < 0.01 mmHg |
| **Vapor Density** | > 1 |
| **Specific Gravity** | 1.02 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | |
| **Autoignition Temperature** | 370 °C / 698 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 405 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers. Strong acids. Strong alkalis.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Harmful if inhaled.

**Numerical measures of toxicity**

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | >5000 mg/kg-bw (rat) | >8000 mg/kg-bw (rabbit) | >1 - <5 mg/L (rat, 4 h, aerosol) |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Harmful if inhaled.
**Eye Contact** Non-irritating to rabbit's eye
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** Irritation of the mouth, throat, and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders. Eye ailments.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | Not a dermal irritant Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | Non-irritating to the eye |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No sensitization responses were observed (similar substances) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No information available |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | Did not show carcinogenic effects in animal experiments (similar substances) |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No data of sufficient quality are available. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No data of sufficient quality are available. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Methyloxirane polymer with | 9038-95-3 | Not applicable |

| | | |
|---|---|---|
| oxirane, monbutyl ether | | |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | EC50(72 h)=465 mg/L (Skeletonema costatum) | LC50(96 h)=3200 mg/L (Pimephales promelas)<br>LC50(96 h)>1800 mg/L (Scophthalmus maximus) | No information available | EC50(48 h)=4400 mg/L (Daphnia magna)<br>LC50(48 h)=356 mg/L (Acartia tonsa) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | (24% @ 20d) |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Log Pow |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | Log Pow=0.353 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Methyloxirane polymer with oxirane, monbutyl ether | 9038-95-3 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply |
| **Basel Convention - Hazardous Waste:** | Does not apply |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 15-Mar-2017

**Revision Note**
SDS sections updated: 2

**Full text of H-Statements referred to under sections 2 and 3**
H332 - Harmful if inhaled

**Additional information** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%

LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

**Revision Date:** 20-Jul-2020 **Revision Number:** 50

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** GEM™ GP

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003660

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Shale stabilizer

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 1 - H318 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:** H318 - Causes serious eye damage

**Precautionary Statements**

**Prevention** P280 - Wear eye protection/face protection
**Response** P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | 60 - 100% | Eye Corr. 1 (H318) |

## 4. First aid measures

**Description of necessary first aid measures**
**Inhalation** If inhaled, move victim to fresh air and seek medical attention.
**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.
**Skin** Wash with soap and water. Get medical attention if irritation persists.
**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Causes severe eye irritation which may damage tissue.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Wash hands after use. Launder contaminated clothing before reuse. Ensure adequate ventilation. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store away from acids. Keep container closed when not in use.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area. Local exhaust ventilation should be used in areas without good cross ventilation.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be

| | |
|---|---|
| | performed by an Industrial Hygienist or other qualified professional. Organic vapor respirator. |
| **Hand Protection** | Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. (>= 8 mm thickness)<br>This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types. |
| **Skin Protection** | Rubber apron. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | Eyewash fountains and safety showers must be easily accessible. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Yellow to brown |
| **Odor:** | Mild | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6.5 - 9 |
| **Freezing Point / Range** | -45 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 126 °C / 260 °F |
| **Flash Point** | 166 °C / 330 °F (PMCC) |
| **Upper flammability limit** | 3.8 % |
| **Lower flammability limit** | 0.8 % |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | 0.002 mmHg |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.012 |
| **Water Solubility** | Miscible with water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 203 °C / 397.4 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | 10-11 cP @ 20°C |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

Keep away from heat, sparks and flame.

**10.5. Incompatible materials**

Strong oxidizers. Mineral acids.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes severe eye irritation which may damage tissue.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | > 5000 mg/kg (Rat)<br>> 2000 mg/kg (Rat) | 6540 mg/kg (Rat)<br>3540 mg/kg (Rabbit) (similar substance)<br>> 2000 mg/kg (Rat) (similar substance) | > 2.6 mg/L (Rat) 4h (similar substance)<br>> 2000 mg/L (Rat) 1h (similar substance) |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** Causes severe eye irritation which may damage tissue.

**Skin Contact** Not irritating to skin in rabbits.

**Ingestion** Irritation of the mouth, throat, and stomach. May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

Lung disorders. Skin disorders.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Non-irritating to the skin (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Eye, rabbit: Causes severe eye irritation which may damage tissue. |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Did not cause sensitization on laboratory animals (guinea pig) (similar substances) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | In vivo tests did not show mutagenic effects. In vitro tests did not show mutagenic effects. (similar substances) |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|

| | | |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | No information available |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Not regarded as a reproductive and developmental toxicant. Did not show teratogenic effects in animal experiments. (similar substances) |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | No significant toxicity observed in animal studies at concentration requiring classification. (similar substances) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | EC50(72h): 391 mg/L (growth rate) (Skeletonema costatum) | EC50: 475 ppm (Abra alba)<br>LC50(96h): >1800 mg/L (Scophthalmus maximus) | IC50(16h): > 5000 mg/L (Growth inhibition, Activated sludge) (similar substance – 2-(2-(2-butoxyethoxy)ethoxy)ethanol)<br>EC10(30m): > 1995 mg/L (respiration rate, activated sludge) (similar substance – 2-(2-(2-butoxyethoxy)ethoxy)ethanol) | TLM48: 310 mg/l (Acartia tonsa)<br>EC50(48h): > 3200 mg/L (Daphnia magna) (similar substance – ethanol, 2-butoxy-, manufacture of, by-products from) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Readily biodegradable (68% @ 28d) |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | 0.436 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Polyethylene glycol butyl ether | 9004-77-7 | Log Kow < 4.5 |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**
Follow all applicable national or local regulations.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

# SAFETY DATA SHEET

# SOURSCAV®

**Revision Date:** 09-Sep-2020 **Revision Number:** 31

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** SOURSCAV®

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003675

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Hydrogen Sulfide Scavenger

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
May be harmful if swallowed.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid creating and breathing dust. Ensure adequate ventilation.

**6.2. Environmental precautions**
None known.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from acids. Store away from oxidizers. Store in a cool, dry location. Keep container closed when not in use. Store away from direct sunlight. Product has a shelf life of 24 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** A well ventilated area to control dust levels.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** Light yellow-green
**Odor:** Mild burnt sugar
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 4-5.5 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.73 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers. Strong acids.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide. Metal oxides.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
May be harmful if swallowed.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** May be harmful if swallowed. May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**
Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Skin Corrosion/Irritation | Category 2 - H315 |
| Serious Eye Damage/Irritation | Category 1 - H318 |
| Specific Target Organ Toxicity - (Single Exposure) | Category 3 - H335 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H315 - Causes skin irritation
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary Statements**

**Prevention**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P280 - Wear protective gloves/eye protection/face protection

**Response**
P302 + P352 - IF ON SKIN: Wash with plenty of water.
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash before reuse
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P312 - Call a POISON CENTER/doctor/physician if you feel unwell
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Storage**
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P405 - Store locked up

**Disposal**
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Calcium hydroxide | 1305-62-0 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Calcium hydroxide | 1305-62-0 | 60 - 100% | Skin Irrit. 2 (H315)<br>Eye Corr. 1 (H318)<br>STOT SE 3 (H335) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 30 minutes. Seek prompt medical attention.

| | |
|---|---|
| **Skin** | Remove contaminated clothing and launder before reuse. In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Get medical attention. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**

Causes severe eye irritation which may damage tissue. Causes skin irritation. May cause respiratory irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Not applicable

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Use appropriate protective equipment. Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from acids. Store in a cool, dry location. Store locked up.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Calcium hydroxide | 1305-62-0 | TWA: 5 mg/m³ | TWA: 5 mg/m³ |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.
Dust/mist respirator. (N95, P2/P3)

**Hand Protection** Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. (>= 0.35 mm thickness)
This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Rubber apron.

**Eye Protection** Chemical goggles; also wear a face shield if splashing hazard exists.

**Other Precautions** Eyewash fountains and safety showers must be easily accessible.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** White
**Odor:** Odorless
**Odor Threshold:** No information available

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | 12.2 | |
| **Freezing Point / Range** | No data available | |
| **Melting Point / Range** | No data available | |
| **Boiling Point / Range** | No data available | |
| **Flash Point** | No data available | |
| **Evaporation rate** | No data available | |
| **Vapor Pressure** | No data available | |
| **Vapor Density** | No data available | |
| **Specific Gravity** | 2.24 | |
| **Water Solubility** | Partly soluble | |
| **Solubility in other solvents** | No data available | |
| **Partition coefficient: n-octanol/water** | No data available | |
| **Autoignition Temperature** | No data available | |
| **Decomposition Temperature** | No data available | |
| **Viscosity** | No data available | |
| **Explosive Properties** | No information available | |
| **Oxidizing Properties** | No information available | |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 74.1 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
Causes severe eye irritation which may damage tissue. Causes skin irritation. May cause respiratory irritation.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Calcium hydroxide | 1305-62-0 | 7340 mg/kg-bw (rat) | >2500 mg/kg-bw (rabbit) | No data available |

**Immediate, delayed and chronic health effects from exposure**
**Inhalation** Causes moderate respiratory irritation.
**Eye Contact** Causes severe eye irritation which may damage tissue.
**Skin Contact** Causes skin irritation.
**Ingestion** Irritation of the mouth, throat, and stomach.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Causes moderate skin irritation. (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Causes severe eye irritation (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Not regarded as a sensitizer. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | No data of sufficient quality are available. |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | In vitro tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Did not show carcinogenic effects in animal experiments (similar substances) |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. (similar substances) |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | May cause respiratory irritation. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Calcium hydroxide | 1305-62-0 | No information available | LC50 (96 h) =50.6 mg/L (Oncorhynchus mykiss)<br>LC50 (96 h) =457 mg/L (Gasterosteus aculeatus) | No information available | EC50 (48 h) =49.1 mg/L (Daphnia magna)<br>EC50 (96 h) =158 mg/L (Crangon septemspinosa)<br>NOAEC (14 d) =32 mg/L (Crangon septemspinosa) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Log Pow |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Calcium hydroxide | 1305-62-0 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Empty container completely. Transport with all closures in place. Return for reuse or dispose in a sanitary landfill according to

national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply |
| **Basel Convention - Hazardous Waste:** | Does not apply |

## 16. Other information

**Date of preparation or review**

**Revision Date:** 21-Apr-2017

**Revision Note**
SDS sections updated:
2

**Full text of H-Statements referred to under sections 2 and 3**
H315 - Causes skin irritation
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**
bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# SAFETY DATA SHEET

# N-DRIL® HT PLUS

**Revision Date:** 30-Apr-2020 **Revision Number:** 33

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** N-DRIL® HT PLUS

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003699

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Fluid Loss Additive

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | NF | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential. Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid dust accumulations. Ensure adequate ventilation. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a cool, dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White |
| **Odor:** | Starch | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.5 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Bulk Density** | 30-35 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
Keep away from heat, sparks and flame.
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** None known.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |

# SAFETY DATA SHEET

# Potassium Chloride

**Revision Date:** 30-Mar-2017 **Revision Number:** 20

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** Potassium Chloride

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003741

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Brine

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

| | |
|---|---|
| **Prevention** | None |
| **Response** | None |
| **Storage** | None |
| **Disposal** | None |

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | NF | Not Applicable |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Wash with soap and water. Get medical attention if irritation persists. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**

No significant hazards expected.

**Medical Attention and Special Treatment**

| | |
|---|---|
| **Notes to Physician** | Treat symptomatically |

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Not applicable

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Not applicable

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store in a cool, dry location. Product has a shelf life of 60 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White to gray |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 9.2 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.99 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 74.5 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Numerical measures of toxicity**

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| concentrations above cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** None known.
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**
The methods for determining biodegradability are not applicable to inorganic substances.

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Log Pow |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Acute Oral Toxicity | Category 4 - H302 |
| Serious Eye Damage/Irritation | Category 2 - H319 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:**
H302 - Harmful if swallowed
H319 - Causes serious eye irritation

**Precautionary Statements**

**Prevention**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P280 - Wear eye protection/face protection

**Response**
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Storage** None

**Disposal** P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Sodium acid pyrophosphate | 7758-16-9 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | 60 - 100% | Acute Tox. 4 (H302)<br>Eye Irrit. 2A (H319) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, or suspected contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention immediately after flushing.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**
Causes eye irritation. Harmful if swallowed.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Not applicable

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 223.96 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**

Oxides of phosphorus.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes eye irritation. Harmful if swallowed.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | 1800 mg/kg (Rat)<br>2650 mg/kg (Mouse)<br>3600 mg/kg (Rat) | > 2000 mg/kg (Rat)<br>> 7940 mg/kg (Rabbit) | 0.58 mg/L (Rat) 4h<br>> 0.58 mg/L (Mouse) 4h |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** Causes eye irritation.

**Skin Contact** May cause mild skin irritation.

**Ingestion** Harmful if swallowed.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

None known.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | Non-irritating to the skin (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | Irritating to eyes (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | Did not cause sensitization on laboratory animals (mouse) |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | In vitro tests did not show mutagenic effects. In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No data of sufficient quality are available. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No information available |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No information available | LC50 (48h) > 1500 mg/L (Goldorfen) | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Sodium acid pyrophosphate | 7758-16-9 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |

| **Environmental Hazards:** | Not applicable |

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not applicable

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

# SAFETY DATA SHEET

# STEELSEAL®

**Revision Date:** 11-Dec-2019 **Revision Number:** 31

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** STEELSEAL®

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM003768

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Lost Circulation Material

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Obtain immediate medical attention.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Combustible dust when in finely divided and highly suspended state.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid creating or inhaling dust. Avoid dust accumulations. Wet activated carbon removes oxygen from air causing a severe hazard to workers inside carbon vessels and enclosed or confined spaces. Before entering such an area, sampling and dark procedures for low oxygen levels should be taken to ensure ample oxygen availability. Ensure adequate ventilation. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Store in a dry location. Keep from heat, sparks, and open flames. Product has a shelf life of 60 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** A well ventilated area to control dust levels.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** Dark gray
**Odor:** Odorless
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | No data available |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 4200 °C / 7592 °F |
| **Flash Point** | > 356 °C / > 673 °F |
| **Lower flammability limit** | 0.07-0.12 oz/ft3 |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | 1 |
| **Vapor Density** | 0.4 |
| **Specific Gravity** | 1.75 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |
| **Bulk Density** | 38-45 lbs/ft3 |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids. Strong alkalis.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| substances in concentrations above cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** May cause mild gastric distress.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
Skin disorders.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**
This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

### Safe handling and disposal methods

Dispose in accordance with local regulations.

### Disposal of any contaminated packaging

Follow all applicable national or local regulations.

### Environmental regulations

Not applicable

## 14. Transport Information

### Transportation Information

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 2 - H319 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:** H319 - Causes serious eye irritation

**Precautionary Statements**

**Prevention** P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear eye protection/face protection

**Response** P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Storage** None

**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Citric acid | 77-92-9 |

**Other hazards which do not result in classification**

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Citric acid | 77-92-9 | 60 - 100% | Eye Irrit. 2A (H319) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Skin** For skin contact, wipe away excess material with dry towel. Then wash affected areas with plenty of water, and soap if available, for several minutes. Get medical attention if irritation occurs.

**Ingestion** Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention.

**Symptoms caused by exposure**

Causes eye irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store in a cool, dry location. Product has a shelf life of 60 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Citric acid | 77-92-9 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

| | |
|---|---|
| **Respiratory Protection** | If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.<br>Dust/mist respirator. (N95, P2/P3) |
| **Hand Protection** | Chemical-resistant protective gloves (EN 374) Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374): Nitrile gloves. (>= 0.35 mm thickness)<br>This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced. Manufacturer's directions for use should be observed because of great diversity of types. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White |

| Citric acid | 77-92-9 | -1.61 to -1.80 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Citric acid | 77-92-9 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |

# SAFETY DATA SHEET

# BARACARB

**Revision Date:** 07-Aug-2018 **Revision Number:** 37

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** BARACARB

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM004943

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Bridging Agent

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton/Baroid Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Carcinogenicity | Category 1A - H350 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:** H350 - May cause cancer by inhalation

**Precautionary Statements**

**Prevention**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P281 - Use personal protective equipment as required

**Response** P308 + P313 - IF exposed or concerned: Get medical advice/attention

**Storage** P405 - Store locked up

**Disposal** P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Crystalline silica, quartz | 14808-60-7 |

**Other hazards which do not result in classification**
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | 0.1 - 1% | Carc. 1A (H350)<br>STOT RE 1 (H372) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Not applicable

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Not applicable

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Evacuate all persons from the area.

**6.2. Environmental precautions**
None known.

**6.3. Methods and material for containment and cleaning up**
Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from acids. Store in a cool, dry location. Store locked up. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container. Product has a shelf life of 60 months.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | TWA: 0.1 mg/m$^3$ | TWA: 0.025 mg/m$^3$ |

**Appropriate engineering controls**
**Engineering Controls** Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an

| | |
|---|---|
| | industrial hygienist or other qualified professional based on the specific application of this product. |
| **Respiratory Protection** | Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product. |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing. |
| **Eye Protection** | Wear safety glasses or goggles to protect against exposure. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid Powder | **Color** | White |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 8-9 |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 2.7 |
| **Water Solubility** | Insoluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide. Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | > 15000 mg/kg (human) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).

Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** None known.

**Ingestion** None known.

**Chronic Effects/Carcinogenicity** Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2). There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

**Exposure Levels**

No data available

**Interactive effects**

Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the skin |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Non-irritating to the eye No information available |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not regarded as mutagenic. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | EC50(72 h)=440 mg/L (Pseudokirchneriella subcapitata) | LL0(96 h)=10000 mg/L (Danio rerio) | No information available | LL50(24 h)>10000 mg/L (Daphnia magna) |

**12.2. Persistence and degradability**

The methods for determining biodegradability are not applicable to inorganic substances.

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

Does not bioaccumulate.

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Crystalline silica, quartz | 14808-60-7 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**
This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**
Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**
Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**
**Australia ADG**

| | |

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

| | |
|---|---|
| **Prevention** | None |
| **Response** | None |
| **Storage** | None |
| **Disposal** | None |

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Wash with soap and water. Get medical attention if irritation persists. |
| **Ingestion** | Under normal conditions, first aid procedures are not required. |

**Symptoms caused by exposure**

No significant hazards expected.

**Medical Attention and Special Treatment**

| | |
|---|---|
| **Notes to Physician** | Treat symptomatically |

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

Water fog, carbon dioxide, foam, dry chemical.

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Ensure adequate ventilation.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid breathing vapors. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Not normally necessary.

**Hand Protection** Nitrile gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Liquid | **Color** | Brown-black |
| **Odor:** | Characteristic | **Odor Threshold:** | No information available |

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | 9 - 11.3 | |
| **Freezing Point / Range** | -7 °C | |
| **Melting Point / Range** | No data available | |
| **Boiling Point / Range** | 100 °C / 212 °F | |
| **Flash Point** | No data available | |
| **Evaporation rate** | No data available | |
| **Vapor Pressure** | < 18 mmHg | |
| **Vapor Density** | No data available | |
| **Specific Gravity** | 1.17 - 1.2 | |
| **Water Solubility** | Soluble in water | |
| **Solubility in other solvents** | No data available | |
| **Partition coefficient: n-octanol/water** | No data available | |
| **Autoignition Temperature** | No data available | |
| **Decomposition Temperature** | No data available | |
| **Viscosity** | No data available | |
| **Explosive Properties** | No information available | |
| **Oxidizing Properties** | No information available | |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong oxidizers.

**10.6. Hazardous decomposition products**

Oxides of sulfur.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No data available | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** May cause mechanical irritation to eye.

**Skin Contact** None known.

**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Log Pow |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**
No information available

**Endocrine Disruptor Information**
This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**
Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**
Follow all applicable national or local regulations.

**Environmental regulations**
Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AICS or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | Product contains one or more components not listed on inventory. |
| **EINECS (European Inventory of Existing Chemical Substances)** | This product, and all its components, complies with EINECS |
| **US TSCA Inventory** | Product contains one or more components not listed on the inventory. |
| **Canadian Domestic Substances List (DSL)** | Product contains one or more components not listed on the inventory. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

# SAFETY DATA SHEET

# SODIUM FLUORESCEIN POWDER

**Revision Date:** 23-Mar-2017 **Revision Number:** 4

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** SODIUM FLUORESCEIN POWDER

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM007136

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Dye

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

| | |
|---|---|
| **Prevention** | None |
| **Response** | None |
| **Storage** | None |
| **Disposal** | None |

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Sodium fluorescein | 518-47-8 |

**Other hazards which do not result in classification**
None known

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Sodium fluorescein | 518-47-8 | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Wash with soap and water. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
All standard fire fighting media
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases.

**Special protective equipment and precautions for fire fighters**
**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust.

**6.2. Environmental precautions**
None known.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from acids. Store in a cool, dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Sodium fluorescein | 518-47-8 | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** Dust/mist respirator. (N95, P2/P3)
**Hand Protection** Normal work gloves.
**Skin Protection** Normal work coveralls.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Solid
**Color** Red-orange
**Odor:** Odorless
**Odor Threshold:** No information available

| Property | Values | Remarks/ - Method |
|---|---|---|
| **pH:** | No data available | |
| **Freezing Point / Range** | No data available | |
| **Melting Point / Range** | No data available | |
| **Boiling Point / Range** | 290 °C / 554 °F | |

| | |
|---|---|
| **Flash Point** | No data available |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | No data available |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 376.28 |
| **VOC Content (%)** | No data available |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
Strong acids.
**10.6. Hazardous decomposition products**
Hydrogen fluoride.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Numerical measures of toxicity**

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Sodium fluorescein | 518-47-8 | 6721 mg/kg (Rat)<br>2500 mg/kg (Rabbit)<br>4738 mg/kg (Mouse) | No data available | No data available |

**Immediate, delayed and chronic health effects from exposure**

| | |
|---|---|
| **Inhalation** | May cause mild respiratory irritation. |
| **Eye Contact** | May cause mild eye irritation. |
| **Skin Contact** | Prolonged or repeated contact may cause slight skin irritation. |
| **Ingestion** | May cause damage to bones and teeth. |

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Sodium fluorescein | 518-47-8 | Substance may cause slight skin irritation |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Sodium fluorescein | 518-47-8 | May cause mild eye irritation. |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Sodium fluorescein | 518-47-8 | No information available |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Sodium fluorescein | 518-47-8 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Sodium fluorescein | 518-47-8 | In vitro tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Sodium fluorescein | 518-47-8 | No data of sufficient quality are available. |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Sodium fluorescein | 518-47-8 | Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Sodium fluorescein | 518-47-8 | No data of sufficient quality are available. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Sodium fluorescein | 518-47-8 | No data of sufficient quality are available. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Sodium fluorescein | 518-47-8 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Sodium fluorescein | 518-47-8 | No information available | LC50 (96h) 997 mg/L (Psetta maxima)<br>LC50 (96h) 1372 mg/L (Oncorhynchus mykiss)<br>LC50 (96h) 2267 mg/L (Ictalurus punctatus)<br>LC50 (96h) 3433 mg/L (Lepomis macrochirus) | No information available | LC50 (48h) 337 mg/L (Daphnia pulex) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Sodium fluorescein | 518-47-8 | Readily biodegradable (100% @ 20d) |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Log Pow |
|---|---|---|

| | | |
|---|---|---|
| Sodium fluorescein | 518-47-8 | Log Kow = -0.67 (estimated) |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Sodium fluorescein | 518-47-8 | KOC = < 2 |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
Dust can form an explosive mixture in air
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
**Skin** Wash with soap and water. Get medical attention if irritation persists.
**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid creating or inhaling dust. Avoid dust accumulations. Slippery when wet. Avoid contact with eyes, skin, or clothing. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Store away from oxidizers. Store in a dry location. Product has a shelf life of 36 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** A well ventilated area to control dust levels. Local exhaust ventilation should be used in areas without good cross ventilation.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Not normally needed. But if significant exposures are possible then the following respirator is recommended:
Dust/mist respirator. (N95, P2/P3)

**Hand Protection** Normal work gloves.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White to off white |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6.5-9 (1%) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | 221 °C / 430 °F |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.6 |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 400 °C / 752 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

Strong oxidizers.

**10.6. Hazardous decomposition products**

Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous substances in concentrations above | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** Non-irritating to the skin
**Ingestion** None known.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**
Readily biodegradable

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Bury in a licensed landfill according to federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IMDG/IMO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable

**Special precautions during transport**

None

**HazChem Code**

None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |

| | |
|---|---|
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |

# SAFETY DATA SHEET

# SA-1015

**Revision Date:** 28-Jan-2020 **Revision Number:** 24

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** SA-1015

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** HM007221

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Suspending Agent

**Uses advised against** No information available

**Supplier's name, address and phone number**

**Manufacturer/Supplier** Halliburton Australia Pty. Ltd.
15 Marriott Road, Jandakot, WA 6164
Australia
ACN Number: 009 000 775
Telephone Number: + 61 1 800 686 951
Fax Number: 61 (08) 9455 5300

**E-mail Address** fdunexchem@halliburton.com

**Emergency phone number**

+ 61 1 800 686 951
Global Incident Response Access Code: 334305
Contract Number: 14012

**Australian Poisons Information Centre**
24 Hour Service: - 13 11 26
Police or Fire Brigade: - 000 (exchange): - 1100

## 2. Hazard Identification

**Statement of Hazardous Nature** Non-Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

Not classified

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** Not Hazardous

**Hazard Statements:** Not Classified

**Precautionary Statements**

**Prevention** None
**Response** None
**Storage** None
**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA |

**Other hazards which do not result in classification**
Dust can form an explosive mixture in air
This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | 60 - 100% | Not classified |

## 4. First aid measures

**Description of necessary first aid measures**
**Inhalation** Move person to fresh air.
**Eyes** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
**Skin** Wash with soap and water. Get medical attention if irritation persists.
**Ingestion** Under normal conditions, first aid procedures are not required.

**Symptoms caused by exposure**
No significant hazards expected.

**Medical Attention and Special Treatment**
**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**
**Suitable Extinguishing Media**
Water fog, carbon dioxide, foam, dry chemical.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**
**Special exposure hazards in a fire**
Decomposition in fire may produce harmful gases. Organic dust in the presence of an ignition source can be explosive in high concentrations. Good housekeeping practices are required to minimize this potential.

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Use appropriate protective equipment. Avoid creating and breathing dust. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Isolate spill and stop leak where safe. Scoop up and remove. Do NOT spread spilled product with water.

## 7. Handling and storage

**7.1. Precautions for safe handling**
**Handling Precautions**
Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. Avoid dust accumulations. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment. Slippery when wet.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**
**Storage Information**
Store away from oxidizers. Keep container closed when not in use. Store in a dry location.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**
**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | Not applicable | Not applicable |

**Appropriate engineering controls**
**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**
**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.
**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional.
**Hand Protection** Use gloves which are suitable for the chemicals present in this product as well as other environmental factors in the workplace.
**Skin Protection** Wear impervious protective clothing, including boots, gloves, lab coat, apron, rain jacket, pants or coverall, as appropriate, to prevent skin contact.
**Eye Protection** Wear safety glasses or goggles to protect against exposure.
**Other Precautions** None known.
**Environmental Exposure Controls** Do not allow material to contaminate ground water system.

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Powder
**Color** White to tan
**Odor:** Slight
**Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 7 (1%) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | > 93 °C / > 200 °F (PMCC) |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | No data available |
| **Water Solubility** | Forms gel |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | 204 °C / 400 °F |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
Keep away from heat, sparks and flame.
**10.5. Incompatible materials**
Strong oxidizers.
**10.6. Hazardous decomposition products**
Carbon monoxide and carbon dioxide.

## 11. Toxicological Information

**Information on routes of exposure**
**Principle Route of Exposure** Eye and skin contact.

**Symptoms related to exposure**
**Most Important Symptoms/Effects**
No significant hazards expected.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Contains no hazardous | NA | No data available | No data available | No data available |

| | | | | |
|---|---|---|---|---|
| substances in concentrations above cut-off values according to the competent authority | | | | |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** Not irritating to skin in rabbits.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**
No data available

**Interactive effects**
None known.

**Data limitations**
No data available

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available | No information available | No information available | No information available |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.4. Mobility in soil

| Substances | CAS Number | Mobility |
|---|---|---|
| Contains no hazardous substances in concentrations above cut-off values according to the competent authority | NA | No information available |

### 12.6. Other adverse effects

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Follow all applicable community, national or regional regulations regarding waste management methods.
Substance should NOT be deposited into a sewage facility.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

**Environmental regulations**

Not applicable

## 14. Transport Information

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 3rd Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Not classified | |
| Respiratory Sensitization | Category 1 - H334 |
| Skin Sensitization | Category 1 - H317 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** DANGER

**Hazard Statements:**
H317 - May cause an allergic skin reaction
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

**Precautionary Statements**

**Prevention**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P272 - Contaminated work clothing should not be allowed out of the workplace
P280 - Wear protective gloves
P285 - In case of inadequate ventilation wear respiratory protection

**Response**
P302 + P352 - IF ON SKIN: Wash with plenty of water.
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P363 - Wash contaminated clothing before reuse
P304 + P341 - IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing
P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician

**Storage** None

**Disposal** P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Glutaraldehyde | 111-30-8 |

**Other hazards which do not result in classification**
This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).
This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 0.1 - 1% | Acute Tox. 3 (H301)<br>Acute Tox. 2 (H330)<br>Skin Corr. 1B (H314)<br>Eye Corr. 1 (H318)<br>Resp. Sens. 1 (H334)<br>Skin Sens. 1 (H317)<br>STOT SE 3 (H335)<br>Aquatic Acute 1 (H400)<br>Aquatic Chronic 2 (H411) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

| | |
|---|---|
| **Eyes** | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| **Skin** | Flush skin with large amounts of water. If irritation persists, get medical attention. |
| **Ingestion** | Do NOT induce vomiting. Give nothing by mouth. Obtain immediate medical attention. |

**Symptoms caused by exposure**

May cause allergic skin reaction. May cause allergic respiratory reaction.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**

Not applicable

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**

None known. Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Isolate spill and stop leak where safe. Contain spill with sand or other inert materials. Scoop up and remove.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**

Avoid contact with eyes, skin, or clothing. Ensure adequate ventilation. Wash hands after use. Launder contaminated clothing before reuse. Use appropriate protective equipment.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**

Keep container closed when not in use. Product has a shelf life of 24 months.

**Other Guidelines**

No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable | Ceiling: 0.05 ppm |

**Appropriate engineering controls**

**Engineering Controls** Use in a well ventilated area.

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** Not normally necessary.

**Hand Protection** Impervious gloves Manufacturer's directions for use should be observed because of great diversity of types.

**Skin Protection** Normal work coveralls.

**Eye Protection** Wear safety glasses or goggles to protect against exposure.

**Other Precautions** None known.

**Environmental Exposure Controls** No information available

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

**Physical State:** Liquid **Color** Dark gray

**Odor:** Odorless **Odor Threshold:** No information available

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 6- 8 |
| **Freezing Point / Range** | 0 °C |
| **Melting Point / Range** | No data available |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | 100 °C / 212 °F |
| **Flash Point** | 100 °C / > 212 °F |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | 22.9 |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.37 |
| **Water Solubility** | Miscible with water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

**VOC Content (%)** No data available

**Liquid Density** 11.64 lbs/gal

## 10. Stability and Reactivity

**10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical stability**

Stable

**10.3. Possibility of hazardous reactions**

Will Not Occur

**10.4. Conditions to avoid**

None anticipated

**10.5. Incompatible materials**

None known.

**10.6. Hazardous decomposition products**

Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye and skin contact.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

May cause allergic skin reaction. May cause allergic respiratory reaction.

**Toxicology data for the components**

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | 50 mg/kg (Guinea Pig) | 560 µL/kg (Rabbit) | 0.28-0.5 mg/L (Rat) 4h |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause allergic respiratory reaction.
**Eye Contact** May cause mechanical irritation to eye.
**Skin Contact** May cause an allergic skin reaction.
**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

None known.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe skin irritation with tissue destruction. (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Causes severe eye irritation which may damage tissue. (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Skin sensitizer in guinea pig. |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause sensitization by inhalation |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | In vivo tests did not show mutagenic effects. |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Did not show carcinogenic effects in animal experiments |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not a confirmed teratogen or embryotoxin. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|

| | | |
|---|---|---|
| Glutaraldehyde | 111-30-8 | No information available |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Glutaraldehyde | 111-30-8 | May cause disorder and damage to the Kidney |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Glutaraldehyde | 111-30-8 | EC50(72h): 0.61 mg/L (Desmodesmus subspicatus)<br>EC50(72h): 0.5 mg/L (Skeletonema costatum) | LC50(96h): 10 mg/L (Lepomis macrochirus)<br>NOEC(97d): 1.6 mg/L (Oncorhynchus mykiss)<br>LC50(96h): 3.5 mg/L (Oncorhynchus mykiss)<br>LC50(96h): 60 mg/L (Scophthalmus maximus) | EC50 (17h) 6.65 mg/L (Pseudomonas putida) | EC50(48h): 0.35 mg/L (Daphnia magna)<br>EC50(48h): 0.7 mg/L (Acartia tonsa)<br>NOEC(21d): 0.13 mg/L (Daphnia magna)<br>EC50(48h): 0.1 mg/L (Acartia tonsa) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Readily biodegradable (75% @ 28d) |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Glutaraldehyde | 111-30-8 | -0.36 |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Glutaraldehyde | 111-30-8 | Potential for mobility in soil is high (Koc between 50 and 150). Given its very low Henry'sconstant (3.3E-08 atm*m3/mole; 25 °C Measured), volatilization from natural bodies of water or moist soil is not expected to be an important fate process. |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |

**Full text of H-Statements referred to under sections 2 and 3**
H317 - May cause an allergic skin reaction
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

**Additional information**

For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# Safety Data Sheet
## HP Lite Extender D195

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** HP Lite Extender D195
**Product code** D195

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid generating or breathing dust. Take up mechanically and collect in suitable container for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders<br>Use protective gloves made of: Neoprene Rubber Nitrile<br>Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation, wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | None |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | Not applicable | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | Not applicable | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 0.57 - 0.63 g/cm³ |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust contact with the eyes can lead to mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
The product is insoluble and floats on water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## IDCAP* D

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** IDCAP* D
**Product code** PID2179

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale control agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Polymer

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Polymer | Listed | Proprietary | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Suspended dust may present a dust explosion hazard.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Avoid dust formation. Material becomes slippery when wet. Use caution if wet. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Oxidizing agents Protect from moisture

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust. No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Polymer | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Polymer | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Polymer | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Polymer | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Polymer | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Granules Dust |
| **Odor** | Mild |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6.0 ± 1.00 | @ 1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.40 - 1.55 | @ 68°F / 20 °C |
| **Bulk density** | 750 kg/m³ | |

| | |
|---|---|
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | Soluble |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid contact with heat, sparks, open flame, and static discharge. Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. |
| **Eye contact** | Dust may cause mechanical irritation. |

**Skin contact** Prolonged contact may cause redness and irritation. Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Polymer | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Polymer | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Product is not biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 05-Sep-2016 |
| **Revision date** | 22-Oct-2018 |
| **Version** | 7 |
| **This SDS has been revised in the following section(s)** | 2, 6, 7, 8, 9, 10, 11, 15, 16 No changes with regard to classification have been made. |

NEWPARK DRILLING FLUIDS

# SAFETY DATA SHEET

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

### 1.1 Product identifier

**Product name** **IDCIDE-20**

**Synonyms** IDCIDE 20

### 1.2 Uses and uses advised against

**Uses** BIOCIDE ● DRILLING FLUID ADDITIVE ● WATER TREATMENT

### 1.3 Details of the supplier of the product

**Supplier name** **NEWPARK DRILLING FLUIDS (AUSTRALIA) LTD**

**Address** 11 Alacrity Place, Henderson, WA, 6166, AUSTRALIA

**Telephone** +61 8 9410 8200

**Fax** +61 8 9410 8299

**Website** www.newpark.com

### 1.4 Emergency telephone numbers

**Emergency** 1800 127 406 (Australia); +64 4 917 9888 (International)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA

**Physical Hazards**

Not classified as a Physical Hazard

**Health Hazards**

Acute Toxicity: Oral: Category 4
Skin Corrosion/Irritation: Category 2
Skin Sensitisation: Category 1
Serious Eye Damage / Eye Irritation: Category 2A

**Environmental Hazards**

Not classified as an Environmental Hazard

### 2.2 GHS Label elements

**Signal word** **WARNING**

**Pictograms**

**Hazard statements**

| | |
|---|---|
| H302 | Harmful if swallowed. |
| H315 | Causes skin irritation. |
| H317 | May cause an allergic skin reaction. |
| H319 | Causes serious eye irritation. |

**Prevention statements**

| | |
|---|---|
| P261 | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| P264 | Wash thoroughly after handling. |
| P270 | Do not eat, drink or smoke when using this product. |
| P272 | Contaminated work clothing should not be allowed out of the workplace. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |

**Response statements**

| | |
|---|---|
| P301 + P312 | IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. |
| P302 + P352 | IF ON SKIN: Wash with plenty of soap and water. |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P321 | Specific treatment is advised - see first aid instructions. |
| P330 | Rinse mouth. |
| P333 + P313 | If skin irritation or rash occurs: Get medical advice/attention. |
| P362 | Take off contaminated clothing and wash before re-use. |

**Storage statements**

None allocated.

**Disposal statements**

| | |
|---|---|
| P501 | Dispose of contents/container in accordance with relevant regulations. |

### 2.3 Other hazards

No information provided.

## 3. COMPOSITION/ INFORMATION ON INGREDIENTS

### 3.1 Substances / Mixtures

| Ingredient | CAS Number | EC Number | Content |
|---|---|---|---|
| TETRAKIS(HYDROXYMETHYL)PHOSPHONIUM SULPHATE(2:1) | 55566-30-8 | 259-709-0 | 18 to 25% |
| WATER | 7732-18-5 | 231-791-2 | Remainder |

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

**Eye** If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation** If inhaled, remove from contaminated area. To protect rescuer, use a Type A (Organic vapour) respirator or an Air-line respirator (in poorly ventilated areas). Apply artificial respiration if not breathing.

**Skin** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Continue flushing with water until advised to stop by a Poisons Information Centre or a doctor.

**Ingestion** For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once).

**First aid facilities** Eye wash facilities should be available.

### 4.2 Most important symptoms and effects, both acute and delayed

See Section 11 for more detailed information on health effects and symptoms.

### 4.3 Immediate medical attention and special treatment needed

Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### 5.1 Extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

### 5.2 Special hazards arising from the substance or mixture

Non flammable. May evolve carbon oxides and hydrocarbons when heated to decomposition. May evolve carbon oxides, sulphur oxides and phosphates when heated to decomposition.

### 5.3 Advice for firefighters

Treat as per requirements for surrounding fires. Evacuate area and contact emergency services. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.

### 5.4 Hazchem code

None allocated.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear Personal Protective Equipment (PPE) as detailed in section 8 of the SDS. Clear area of all unprotected personnel. Ventilate area where possible. Contact emergency services where appropriate.

### 6.2 Environmental precautions

Prevent product from entering drains and waterways.

### 6.3 Methods of cleaning up

Contain spillage, then cover / absorb spill with non-combustible absorbent material (vermiculite, sand, or similar), collect and place in suitable containers for disposal.

### 6.4 Reference to other sections

See Sections 8 and 13 for exposure controls and disposal.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well ventilated area, removed from incompatible substances, heat or ignition sources and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Large storage areas should have appropriate ventilation systems.

### 7.3 Specific end uses

No information provided.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters

**Exposure standards**

No exposure standards have been entered for this product.

**Biological limits**

No biological limit values have been entered for this product.

### 8.2 Exposure controls

**Engineering controls** Avoid inhalation. Use in well ventilated areas. Where an inhalation risk exists, mechanical extraction ventilation is recommended.

**PPE**

| | |
|---|---|
| **Eye / Face** | Wear splash-proof goggles. |
| **Hands** | Wear PVC or rubber gloves. |
| **Body** | Wear coveralls. In a laboratory situation, wear a laboratory coat. |
| **Respiratory** | Where an inhalation risk exists, wear a Type A (Organic vapour) respirator. |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Appearance** | COLOURLESS TO PALE YELLOW LIQUID |
| **Odour** | SLIGHT ODOUR |
| **Flammability** | NON FLAMMABLE |
| **Flash point** | NOT RELEVANT |
| **Boiling point** | > 100°C |
| **Melting point** | < 0°C |
| **Evaporation rate** | AS FOR WATER |
| **pH** | 3.0 to 3.5 |
| **Vapour density** | NOT AVAILABLE |
| **Specific gravity** | 1.08 |
| **Solubility (water)** | SOLUBLE |
| **Vapour pressure** | 18 mm Hg @ 20°C |
| **Upper explosion limit** | NOT RELEVANT |
| **Lower explosion limit** | NOT RELEVANT |
| **Partition coefficient** | NOT AVAILABLE |
| **Autoignition temperature** | NOT AVAILABLE |
| **Decomposition temperature** | NOT AVAILABLE |
| **Viscosity** | NOT AVAILABLE |
| **Explosive properties** | NOT AVAILABLE |
| **Oxidising properties** | NOT AVAILABLE |
| **Odour threshold** | NOT AVAILABLE |

### 9.2 Other information

| | |
|---|---|
| **% Volatiles** | > 60 % (Water) |

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

Carefully review all information provided in sections 10.2 to 10.6.

### 10.2 Chemical stability

Stable under recommended conditions of storage.

### 10.3 Possibility of hazardous reactions

Polymerization is not expected to occur.

### 10.4 Conditions to avoid

Avoid heat, sparks, open flames and other ignition sources.

### 10.5 Incompatible materials

Incompatible with oxidising agents (e.g. hypochlorites), acids (e.g. nitric acid), heat and ignition sources.

### 10.6 Hazardous decomposition products

May evolve carbon oxides and hydrocarbons when heated to decomposition.

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

**Acute toxicity** Harmful if swallowed.

**Information available for the ingredients:**

| Ingredient | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|---|---|---|---|
| TETRAKIS(HYDROXYMETHYL)PHOSPHONIUM SULPHATE(2:1) | 248 mg/kg (rat) | > 2000 mg/kg (rat) | 5.5 mg/L/4hrs (rat) |

**Additional ingredient toxicity values:**

TETRAKIS(HYDROXYMETHYL)PHOSPHONIUM SULPHATE(2:1) (55566-30-8)

TDLo (oral) 650 mg/kg/13 weeks - intermittent (rat)

**Skin** Contact may result in irritation, redness, pain and rash.

| | |
|---|---|
| **Eye** | Contact may result in irritation, lacrimation, pain and redness. |
| **Sensitisation** | May cause an allergic skin reaction. This product is not classified as a respiratory sensitiser. |
| **Mutagenicity** | Not classified as a mutagen. |
| **Carcinogenicity** | Not classified as a carcinogen. |
| **Reproductive** | Not classified as a reproductive toxin. |
| **STOT - single exposure** | Over exposure may result in respiratory irritation, nausea, dizziness, drowsiness and headache. |
| **STOT - repeated exposure** | Not classified as causing organ damage from repeated exposure. |
| **Aspiration** | Not classified as causing aspiration. |

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity

75% TETRAKIS(HYDROXYMETHYL)PHOSPHONIUM SULPHATE (55566-30-8):
LC50 (Rainbow Trout) = 119 mg/L/96 hr
LC50(Bluegill Sunfish) = 93 mg/L/ 96 hr
EC50 (Daphnia Magna) = 19 mg/L/48 hr
LC50 (Brown Shrimp) = 340 mg/L/96 hr
LC50 (Mysid Shrimp ) = 9.5 mg/L/96 hr
LC50 (Sheepshead Minnow) = 94 mg/L/96 hr
LC50 (Jevenile Plaice) = 86 mg/L/96 hr

Waste Water management
EC50 (Activated Sludge) = 24 mg/L/3 hr

### 12.2 Persistence and degradability

This product is readily biodegradable.

### 12.3 Bioaccumulative potential

No information provided.

### 12.4 Mobility in soil

No information provided.

### 12.5 Other adverse effects

No information provided.

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Waste disposal** For small amounts, absorb with sand, vermiculite or similar and dispose of to an approved landfill site. For large quantities, contact the manufacturer/supplier for additional information. Prevent contamination of drains and waterways as aquatic life may be threatened and environmental damage may result.

**Legislation** Dispose of in accordance with relevant local legislation.

## 14. TRANSPORT INFORMATION

**NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA**

| | LAND TRANSPORT (ADG) | SEA TRANSPORT (IMDG / IMO) | AIR TRANSPORT (IATA / ICAO) |
|---|---|---|---|
| **14.1 UN Number** | None allocated. | None allocated. | None allocated. |
| **14.2 Proper Shipping Name** | None allocated. | None allocated. | None allocated. |
| **14.3 Transport hazard class** | None allocated. | None allocated. | None allocated. |
| **14.4 Packing Group** | None allocated. | None allocated. | None allocated. |

### 14.5 Environmental hazards

No information provided.

### 14.6 Special precautions for user

**Hazchem code** None allocated.

## 15. REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**Poison schedule** A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

**Classifications** Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

**Inventory listings** **AUSTRALIA: AICS (Australian Inventory of Chemical Substances)**
All components are listed on AICS, or are exempt.

## 16. OTHER INFORMATION

**Additional information**

RESPIRATORS: In general the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered or air supplied respirators should be considered where prolonged or repeated use is necessary.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:
The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as form of product, method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE:
It should be noted that the effects from exposure to this product will depend on several factors including: form of product; frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

**Abbreviations**

| | |
|---|---|
| ACGIH | American Conference of Governmental Industrial Hygienists |
| CAS # | Chemical Abstract Service number - used to uniquely identify chemical compounds |
| CNS | Central Nervous System |
| EC No. | EC No - European Community Number |

**Report status**

This document has been compiled by RMT on behalf of the manufacturer, importer or supplier of the product and serves as their Safety Data Sheet ('SDS').

It is based on information concerning the product which has been provided to RMT by the manufacturer, importer or supplier or obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer, importer or supplier.

While RMT has taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, RMT accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS.

# Safety Data Sheet
## KCl BRINE w/GLYDRIL MC

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KCl BRINE w/GLYDRIL MC
**Product code** 141788

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale inhibitor.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 500-012-0 | 9004-77-7 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Strong acids Strong alkalies.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard

present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Mild |
| **Color** | Clear |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 7 - 9 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -10 °C / 14 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |

| | | |
|---|---|---|
| **Vapor density** | No information available | |
| **Specific gravity** | 1.12 - 1.15 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong acids. Strong alkalies.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | 2630 mg/kg (Rat) | 3540 mg/kg bw (Rabbit) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|

| | | | |
|---|---|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | LC50 >1800 mg/l, 96h Scophthalmus maximus OECD 203 | EC50: 2490 mg/l, 72h Selenastrum capricornutum OECD 201 | EC50 >3200 mg/l, 48h Daphnia magna OECD 202 |

### 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | OECD 301D 76% |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | log Kow 0.44@20°C |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Poly(oxy-1,2-ethanediyl), a-butyl-omega-hydroxy | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 02-Sep-2016 |
| **Revision date** | 11-Feb-2020 |
| **Version** | 3 |
| **This SDS has been revised in the following section(s)** | 3, 8, 11, 12, 15, 16 No changes with regard to classification have been made. Updated according to GHS/CLP. |

**Key literature references and sources for data**

# Safety Data Sheet
## KCl/NaBr BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KCl/NaBr BRINE
**Product code** 142053
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Sodium bromide

Potassium Chloride

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium bromide | Not applicable | 7647-15-6 | 30-60 |
| Potassium Chloride | 231-211-8 | 7447-40-7 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Bromine, bromine oxides and hydrogen bromide, Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**

Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium bromide | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Potassium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium bromide | Not determined | Not determined | 3 mg/m³ MAC |

| | | | |
|---|---|---|---|
| Potassium Chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium bromide | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Neoprene Nitrile Butyl<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | ~ 7 | |
| **Melting / freezing point** | No information available | |

| | |
|---|---|
| **Boiling point/range** | > 100 °C / > 212 °F |
| **Flash point** | No information available |
| **Evaporation rate (BuAc =1)** | No information available |
| **Flammability (solid, gas)** | Not applicable |
| **Flammability Limit in Air** | |
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | No information available |
| **Vapor density** | No information available |
| **Specific gravity** | No information available |
| **Bulk density** | No information available |
| **Relative density** | 1.30 - 1.44 s.g |
| **Water solubility** | Miscible with water. |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium bromide | = 3500 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | No data available |
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

## 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Sodium bromide
Schedule 4
Potassium Chloride
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 03-Oct-2012 |

# Safety Data Sheet
## KCL/POLYMER SYSTEM

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KCL/POLYMER SYSTEM
**Product code** PID16782

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Barite

Potassium Chloride

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Barite | 236-664-5 | 13462-86-7 | 60-100 |
| Potassium Chloride | 231-211-8 | 7447-40-7 | 10-30 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 1-5 |

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

The product contains other ingredients which do not contribute to the overall classification.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth

to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply. No biological limit allocated

**Component Information**

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC Butyl
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P3. At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Mild |
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 7 - 11 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 1.1 - 2.0 | @ 20°C. |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**

Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Barite | No information available | No information available | No information available |
| Potassium Chloride | 750 - 1020 mg/L LC50 Pimephales promelas 96 h = 1060 mg/L LC50 Lepomis macrochirus 96 h | = 2500 mg/L EC50 Desmodesmus subspicatus 72 h | = 83 mg/L EC50 Daphnia magna 48 h = 825 mg/L EC50 Daphnia magna 48 h |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Barite | Inorganic compound |
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Barite | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**

The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Barite | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Barite | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium Chloride
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## KLA-GARD*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KLA-GARD*
**Product code** PID857

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale control agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Ammonia.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Ammonia or amines may be released when this component is heated or exposed to high pH.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Oxidizing agents Acids Bases |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Contains no substances with occupational exposure limit values No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Repeated or prolonged contact Impervious gloves made of: Nitrile Neoprene<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient |

| | |
|---|---|
| | ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Chemical respirator with ammonia and amines cartridge (K/P2, green filter). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Local authorities should be advised if significant spillages cannot be contained See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Amine |
| **Color** | Clear - Blue |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6.5 - 8.5 | (1% solution) |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 125 °C / 257 °F | |
| **Flash point** | > 99 °C / > 210 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 sg | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Ammonia or amines may be released when this component is heated or exposed to high pH.

### 10.5 Incompatible materials

Oxidizing agents. Acids. Bases.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Readily biodegradable. (ECHA data) (PRODUCT).

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely. (ECHA data) (PRODUCT).

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## KLA-HIB*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KLA-HIB*
**Product code** PID17728

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale inhibitor.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Dermal | Category 4 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Category 1 |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

## 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P310 - Immediately call a POISON CENTER or doctor/physician
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P273 - Avoid release to the environment
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P330 - Rinse mouth
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse
P363 - Wash contaminated clothing before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine*

Hydrochloric acid

Hexane-1,6-diamine

Cyclohex-1,2-ylenediamine

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | 907-605-7 | RM1003118 | 10-30 |
| Hydrochloric acid | 231-595-7 | 7647-01-0 | 10-30 |
| Hexane-1,6-diamine | 204-679-6 | 124-09-4 | 10-30 |
| Cyclohex-1,2-ylenediamine | 211-776-7 | 694-83-7 | 5-10 |

**Comments**
Hydrochloric acid added for pH adjustment.

H314 does not apply as studies have been performed confirming this substance is an Irritant and not Corrosive to Skin.

The product contains other ingredients which do not contribute to the overall classification.

*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention at once.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek immediate medical attention/advice.

**Eye Contact** — Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Seek medical attention at once.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not breathe vapors or spray mist. Use personal protective equipment. Do not get on skin or clothing. Wash thoroughly after handling. See also section 8.

### 6.2 Environmental precautions

Do not allow material to contaminate ground water system.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands before eating, drinking or smoking Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Isocyanates Aldehydes Ketones Anhydrides. Phenols Nitrates Acids Halogenated compounds

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Neoprene Rubber PVC
Break through time >480 minutes
Glove thickness 0.5 mm Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Pungent |
| **Color** | Dark brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9-11 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | ~ 100 °C / 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.0 - 1.10 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |

| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents. Isocyanates. Aldehydes. Ketones. Anhydrides. Phenols. Nitrates. Acids. Halogenated compounds.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** Skin corrision: Not corrosive. - By analogy to product with similar composition.

**Inhalation** May cause respiratory irritation.

**Eye contact** Causes serious eye damage.

**Skin contact** Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Components of the product may be absorbed into the body through the skin.

**Ingestion** Harmful if swallowed.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No data available | No data available | No data available |
| Hydrochloric acid | 238 - 277 mg/kg ( Rat ) | > 5010 mg/kg ( Rabbit ) | = 1.68 mg/L ( Rat ) 1 h |
| Hexane-1,6-diamine | = 750 mg/kg ( Rat ) | = 1110 mg/kg ( Rabbit ) | No data available |
| Cyclohex-1,2-ylenediamine | = 4556 mg/kg ( Rat ) | No data available | > 3.23 mg/L ( Rat ) 4 h |

**Sensitization** May cause sensitization by skin contact.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Ingestion. Eye contact. Skin contact. Inhalation.

| | |
|---|---|
| **Routes of entry** | Ingestion. Eye contact. Skin contact. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Category 3 |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Target organ effects** | Respiratory system. Lungs. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No information available | No information available | No information available |
| Hydrochloric acid | = 282 mg/L LC50 Gambusia affinis 96 h | No information available | No information available |
| Hexane-1,6-diamine | = 62 mg/L LC50 Leuciscus idus 96 h = 1825 mg/L LC50 Pimephales promelas 96 h > 56 mg/L LC50 Lepomis macrochirus 96 h | = 14.8 mg/L EC50 Pseudokirchneriella subcapitata 96 h = 15 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 23.4 mg/L EC50 Daphnia magna 48 h |
| Cyclohex-1,2-ylenediamine | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Product is biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | Readily biodegradable |
| Hydrochloric acid | Readily biodegradable |
| Hexane-1,6-diamine | Readily biodegradable |
| Cyclohex-1,2-ylenediamine | Readily biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

| Chemical Name | Bioaccumulation |
|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No information available |
| Hydrochloric acid | Does not bioaccumulate |
| Hexane-1,6-diamine | Does not bioaccumulate |
| Cyclohex-1,2-ylenediamine | No information available |

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | Easily soluble |
| Hydrochloric acid | Soluble in water |
| Hexane-1,6-diamine | Easily soluble |
| Cyclohex-1,2-ylenediamine | Soluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No information available |
| Hydrochloric acid | Not expected to adsorb on soil |
| Hexane-1,6-diamine | Not expected to adsorb on soil |
| Cyclohex-1,2-ylenediamine | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

This product was tested in accordance with the IATA Dangerous Goods Classification Procedures, Test Method for Corrosive Substances. The test results has determined that this product is not Corrosive.

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

Hydrochloric acid
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Does not comply |
| **Canada (DSL)** | Complies Does not comply |
| **Philippines (PICCS)** | Does not comply |

| | |
|---|---|
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

CAS Number 68411-90-5 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

# Safety Data Sheet
## KLA-SHIELD* PREMIX

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KLA-SHIELD* PREMIX
**Product code** SYS00015
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Pre-mix for Drilling Fluid. Water based.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H318 - Causes serious eye damage

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse

**Contains**
Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | - | 9046-10-0 | < 3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the

drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits**

Contains no substances with occupational exposure limit values
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |

| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | No information available |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | 2885 mg/kg ( Rat )<br>OECD 401 | 2979 mg/kg ( Rabbit )<br>OECD 402 | > 0.74 mg/l ( Rat )<br>OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

| | |
|---|---|
| **Routes of Exposure** | Skin contact. Eye contact. |
| **Routes of entry** | None known. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | LC50 >700 mg/l 96h | EC50 >700 mg/l 72h | EC50 >1001 mg/l 48h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code.
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |

# Safety Data Sheet
## KLA-SHIELD* SYSTEM

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KLA-SHIELD* SYSTEM
**Product code** PID16312

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium Chloride

Crystalline silica (impurity)

Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine*

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium Chloride | 231-598-3 | 7647-14-5 | 10-30 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | 907-605-7 | RM1003118 | <1 |

**Comments**
*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation

develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits**
Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium Chloride | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Butyl
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Amine |
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 10-11 | Conc.solution |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 17 - 23.8 mbar | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 - 2.0 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

**Inhalation** Vapors may irritate throat and respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |
| Reaction mass of 7-azatridecane-1,13-diamine | No data available | No data available | No data available |

| | | | |
|---|---|---|---|
| and hexamethylenediamine* | | | |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium Chloride | = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |
| Reaction mass of 7-azatridecane-1,13-diamine and | No information available | No information available | No information available |

| | | | |
|---|---|---|---|
| hexamethylenediamine* | | | |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | Readily biodegradable |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No information available |

## 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | Easily soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |
| Reaction mass of 7-azatridecane-1,13-diamine and hexamethylenediamine* | No information available |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

## 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code.

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances**

**[NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

CAS Number 68411-90-5 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

## 16. Other Information

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 1 Subcategory 1C |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H314 - Causes severe skin burns and eye damage

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P303 + P361 + P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P363 - Wash contaminated clothing before reuse

**Contains**
Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of toxic and corrosive gases/vapors

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | - | 9046-10-0 | 60-100 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** Move the exposed person to fresh air at once. If breathing is difficult, (trained personnel should) give oxygen. If not breathing, give artificial respiration. Seek medical attention at once.

**Ingestion** Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Get immediate medical attention.

**Skin contact** Promptly wash contaminated skin with soap or mild detergent and water. Promptly remove clothing if soaked through and wash as above. Burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Chemical burns must be treated by a physician.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention at once.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** Seek medical attention for all burns, regardless how minor they may seem. The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

**Hazchem code ADG** 2X

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Keep people away from and upwind of spill/leak. Do not get on skin or clothing. Wash thoroughly after handling. Avoid contact with eyes. Do not breathe vapors or spray mist. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin or on clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Strong acids |
| **Storage class** | Corrosive storage. |

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes
Chemical splash goggles and/or face shield

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene Rubber
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Ammoniacal |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 9.2 - 10.2 | @ 5% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 93 °C / > 200 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.03 - 1.075 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 80 - 120 cP | @ 24 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Corrosive.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Not known.

### 10.4 Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition.

### 10.5 Incompatible materials

Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system. Inhaled corrosive substances can lead to a toxic edema of the lungs.

**Eye contact** Causes burns. May cause irreversible damage to eyes.

**Skin contact** Causes severe skin burns.

**Ingestion** Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | 2885 mg/kg ( Rat )<br>OECD 401 | 2979 mg/kg ( Rabbit )<br>OECD 402 | > 0.74 mg/l ( Rat )<br>OECD 403 |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Inhalation. |
| **Routes of entry** | Skin contact. Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | LC50 >700 mg/l 96h | EC50 >700 mg/l 72h | EC50 >1001 mg/l 48h |

### 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Not biodegradable |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

**UN/ID No. (ADR/RID/ADN/ADG)** UN2735
**UN No. (IMDG/ANTAQ)** UN2735
**UN No. (ICAO/ANAC)** UN2735

### 14.2. UN proper shipping name

AMINES, LIQUID, CORROSIVE, N.O.S. (contains Reaction products of propane-1,2-diol, propoxylated by amination of the terminal hydroxyl groups)

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** 8

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | 8 |
| **ICAO/ANAC Hazard class/division** | 8 |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | III |
| **IMDG/ANTAQ Packing group** | III |
| **ICAO/ANAC Packing group** | III |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

| | |
|---|---|
| **Hazard identification no (ADR)** | 80 |
| **EmS (IMDG)** | F-A, S-B |
| **Emergency Action Code (EAC)** | 2X |
| **Tunnel restriction code** | (E) |
| **Hazchem code ADG** | 2X |

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002491 |
| **Group number** | 8.3A, 8.2C |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 08-Feb-2019 |
| **Revision date** | 21-Feb-2019 |
| **Version** | 9 |
| **This SDS has been revised in the following section(s)** | 1, 2, 3, 5, 7, 8, 10, 11, 12, 15, 16 No changes with regard to classification have been made. |

# Safety Data Sheet
## KLEEN UP*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** KLEEN UP*
**Product code** PID859

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Detergent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Alcohols, C11-14-iso-, C13-rich, ethoxylated

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | polymer | 78330-21-9 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Seek medical attention at once.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store at room temperature Do not freeze Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| | | | |
|---|---|---|---|
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** No information available
**Odor** Slight
**Color** Off-white
**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | 7.0 - 8.5 | ASTM E70 (as supplied) |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | ~ 100 °C / ~ 212 °F | |
| **Flash point** | > 100 °C / > 212 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | ~ 1.02 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | </= 0°C |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Store at room temperature. Do not freeze.

**10.5 Incompatible materials**

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**LD50 Oral** > 2000 mg/kg (rat) (based on components) (MIXTURE)

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Alcohols, C11-14-iso-, C13-rich, ethoxylated | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002503 |
| **Group number** | 8.3A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances**

**[NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## Light Weight Extender D188S

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Light Weight Extender D188S
**Product code** D188S

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Silicon Dioxide

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Silicon Dioxide | 231-545-4 | 7631-86-9 | <=3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
None known

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Avoid dust formation. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Silicon Dioxide | Not determined | 2mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Silicon Dioxide | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Silicon Dioxide | 1 mg/m³ MAC<br>2 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Silicon Dioxide | Not determined | Not determined | 3 mg/m³ STEL<br>6 mg/m³ STEL<br>1 mg/m³ TWA<br>2 mg/m³ TWA<br>Fibrogenic substance in the form of condensation aerosol containing it >60% 1121, 1122<br>Fibrogenic substance also vitreous, in the form of disintegration aerosol 1123 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Silicon Dioxide | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 0.38 - 0.42 | |
| **Bulk density** | No information available | |
| **Relative density** | 0.97-1.01 kg/cm3 | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |

| | |
|---|---|
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Silicon Dioxide | > 5000 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.2 mg/L ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation. Ingestion.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Silicon Dioxide | = 5000 mg/L LC50 Brachydanio rerio 96 h | = 440 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 7600 mg/L EC50 Ceriodaphnia dubia 48 h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

**12.4 Mobility**

**Mobility**
The product is insoluble and floats on water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |

**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Liquid Accelerator D77

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Liquid Accelerator D77
**Product code** D077

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

–

**Contains**
Calcium chloride

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium chloride | 233-140-8 | 10043-52-4 | 30 - 60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Chlorine, chlorine oxides, hydrogen chloride.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Strong reducing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Calcium chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Calcium chloride | Not determined | Not determined | 2 mg/m³ MAC (aerosol) |

| Chemical Name | Thailand | Vietnam | Turkey |
|---|---|---|---|
| Calcium chloride | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene Nitrile rubber
Break through time >480 minutes
Glove thickness 0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type B/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Odorless |
| **Color** | Colorless |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6.5 - 7.5 | |
| **pH @ dilution** | No information available | |

| | | |
|---|---|---|
| **Melting / freezing point** | -14 °C / 7 °F | |
| **Boiling point/range** | > 100 °C / >212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | 9 mmHg | @ 20 °C |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | 1.01 - 1.41 | @ 20 °C |
| **Bulk density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |
| **Explosive properties** | Not applicable | |
| **Oxidizing properties** | None known. | |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**Hazardous Reactions**
None known.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Oxidizing agents. Strong reducing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium chloride | = 1000 mg/kg ( Rat ) | > 5000 mg/kg ( Rabbit ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Neurological effects** None known.

**Target organ effects** None known.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**

This product is not considered toxic to algae.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium chloride | = 10650 mg/L LC50 Lepomis macrochirus 96 h | No information available | 2,400 mg/L EC50 (Daphnia magna) = 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Calcium chloride | Inorganic compound |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Calcium chloride | Inorganic compound |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Calcium chloride | Soluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Calcium chloride | After release, disperses through ground water |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Proper Shipping Name : Calcium Chloride Solution (less than 35%) Ship Type:- 3. Pollution Category:- Z.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Classified

**HSNO approval no.** Calcium Chloride - HSR003389
Calcium chloride, >25% in a non hazardous diluent - HSR006565

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk (IBC Code) with amendments.MARPOL 73/78; Marine Environmental Protection Committee (MEPC) Circulars.**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

# Safety Data Sheet
## Liquid Anti-Settling Agent D162

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Liquid Anti-Settling Agent D162
**Product code** D162

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards**

| | |
|---|---|
| Flammable Liquids | Category 4 |

### 2.2 Label elements

**Signal word**

WARNING

**Hazard Statements**
H227 - Combustible liquid

**Precautionary statements**
P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

_

**Contains**
Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics*

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Distillates, petroleum, hydrotreated light | 265-149-8 | 64742-47-8 | 60-100 |

**Comments**
The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
P378 - Use dry sand, dry chemical or alcohol-resistant foam for extinction.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
combustible liquid. Vapors are heavier than air and may spread along floors. Vapors may form explosive mixture with air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with heat, sparks, open flame, and static discharge. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges. Ground and bond containers when transferring material.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Oil mist (mineral) workplace exposure limits are currently under review by legislative authorities. This workplace exposure limit (WEL) standard is applicable to highly refined mineral oils and is provided as a guidance limit only LT. EXP = 5mg/m$^3$ and ST. EXP = 10mg/m$^3$.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Impervious gloves made of: Butyl rubber Nitrile<br>Break through time >480 minutes<br>Glove thickness 0.38 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No protective equipment is needed under normal use conditions In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Solution |
| **Odor** | Slight Petroleum solvent |
| **Color** | Amber |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 7 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | 208 °C / 406 °F | |

| | | |
|---|---|---|
| **Flash point** | 77 °C / 171 °F | ASTM D 93 |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | 0.87 | |
| **Bulk density** | No information available | |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | > 20.5 mm2/s | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | No information available | |
| **Explosive properties** | No information available | |
| **Oxidizing properties** | No information available | |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Combustible liquid.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | >5000 mg/kg (Rat) | No data available | >5000 mg/m³ (Rat, 8h)<br>>5000 mg/kg (Rabbit) |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available | 1000 mg/l (Oncorhynchus mykiss, 96h | 1000 mg/l (Daphnia magna), 48h |

### 12.2 Persistence and degradability

Product is biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Readily biodegradable |

### 12.3 Bioaccumulative potential

No product level data available.

| Chemical Name | Bioaccumulation |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
Slightly soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics* | No information available |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Do not burn, or use a cutting torch on, the empty drum. Empty containers may contain flammable or explosive vapors. Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Additives, Process Chemicals and Raw Materials (Combustible) Group Standard 2020

**HSNO approval no.** HSR002490

**Group number** 3.1D

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |

| | |
|---|---|
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

**Version** 4
**Revision date** 12-May-2020
**Supersedes Date:** 27-Mar-2018

# Safety Data Sheet
## Liquid Retarder D81

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Liquid Retarder D81
**Product code** D081

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Store away from incompatibles, Strong acids Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. |

**Notes**
No biological limit allocated

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing |

before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Of burnt sugar / Slight |
| **Color** | Dark brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 3.5 - 5.1 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.24 - 1.26 | @ 27 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 400 °C / 752 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 350 mPa.s | @ 20 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from direct sunlight.

### 10.5 Incompatible materials

Strong oxidizing agents. Strong acids.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Inhalation. |
| **Routes of entry** | No route of entry noted. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Liquid Trifunctional Additive D194

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Liquid Trifunctional Additive D194
**Product code** D194

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Mild |
| **Color** | Brown |
| **Odor threshold** | No information available |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -2 °C / 28.4 °F | |
| **Boiling point/range** | 104 °C / 219.2 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 14.2 mmHg | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.30 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | <600 cst | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Inhalation. Ingestion. Eye contact. |
| **Routes of entry** | Ingestion. Inhalation. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## LITEFIL* D124 Extender

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** LITEFIL* D124 Extender
**Product code** D124

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Ashes (residues), cenospheres

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ashes (residues), cenospheres | Listed | Proprietary | 60-30 |

**3.2 Mixtures**

Not applicable

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
None known

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Extremely slippery when spilled.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Hydrofluoric acid (HF)

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** The product does not contain any hazardous materials with occupational exposure limits established.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Ashes (residues), cenospheres | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Ashes (residues), cenospheres | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Ashes (residues), cenospheres | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Ashes (residues), cenospheres | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Ashes (residues), cenospheres | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**
**Eye protection** Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields
**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Neoprene Nitrile Rubber Frequent change is advisable

| | |
|---|---|
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Ceramic Microspheres |
| **Odor** | Earthy |
| **Color** | Gray White Off-white Brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | 1200-1400 °C / 2192-2552 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | 384 kg/m³ | |
| **Relative density** | 0.60 - 0.85 g/cc | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation.

### 10.5 Incompatible materials

Hydrofluoric acid (HF).

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ashes (residues), cenospheres | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Inhalation. Ingestion. Eye contact. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ashes (residues), cenospheres | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**

The product is insoluble and floats on water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not applicable

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ashes (residues), cenospheres
Schedule 4
Schedule 6
Schedule 5

| | |
|---|---|
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Does not comply |
| **Canada (DSL)** | Does not comply |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Losseal* W / O D097

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Losseal* W / O D097
**Product code** D097

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Mica

Glass fibers

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Mica | 601-648-2 | 12001-26-2 | 30-60 |
| Glass fibers | 262-373-8 | 60676-86-0 | 10-30 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Seek medical attention if irritation occurs.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep

powder dry.

**Methods for cleaning up**
Avoid generating or breathing dust. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not breathe dust. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Mica | 3 mg/m³ TWA | 2.5mg/m³TWAinspirable | Not determined |
| Glass fibers | 0.1 mg/m³ TWA | Not determined | Not determined |

| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Mica | 3 mg/m³ TWA | Not determined | Not determined |
| Glass fibers | Not determined | Not determined | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable

**Respiratory protection** No protective equipment is needed under normal use conditions In case of inadequate ventilation wear respiratory protection Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

**Physical state** Solid
**Appearance** Flakes
**Odor** Odorless
**Color** White - Amber

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |

| | |
|---|---|
| **pH @ dilution** | No information available |
| **Melting / freezing point** | No information available |
| **Boiling point/range** | No information available |
| **Flash point** | No information available |
| **Evaporation rate (BuAc =1)** | No information available |
| **Flammability** | Not applicable |
| **Explosion limits:** | |
| **Upper explosion limit** | No information available |
| **Lower explosion limit** | No information available |
| **Vapor pressure** | No information available |
| **Relative Vapor Density** | No information available |
| **Specific gravity** | 2.7 - 2.9 |
| **Bulk density** | No information available |
| **Water solubility** | Insoluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **Partition Coefficient (n-octanol/water)** | No information available |
| **Density and/or Relative Density** | No information available |
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** May cause skin irritation and/or dermatitis. Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Mica | No data available | No data available | No data available |
| Glass fibers | No data available | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Mica | No information available | No information available | No information available |
| Glass fibers | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Does not comply |
| **Canada (DSL)** | This product contains chemical(s) which is/are not listed on DSL but is/are listed on the NDSL. |

| | |
|---|---|
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Does not comply |

## 16. Other Information

# Safety Data Sheet
## Low Temperature Cement Set Enhancer D186

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Low Temperature Cement Set Enhancer D186
**Product code** D186

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H302 - Harmful if swallowed
H318 - Causes serious eye damage

**Precautionary statements**
P270 - Do not eat, drink or smoke when using this product
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P330 - Rinse mouth
P391 - Collect spillage

**Contains**
Calcium nitrate

2,2' -oxydiethanol

Calcium Bromide

2,2'-Methyliminodiethanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Calcium nitrate | 233-332-1 | 10124-37-5 | 10-30 |
| 2,2' -oxydiethanol | 203-872-2 | 111-46-6 | 1-5 |
| Calcium Bromide | 232-164-6 | 7789-41-5 | 1-5 |
| 2,2'-Methyliminodiethanol | 203-312-7 | 105-59-9 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting. If conscious, give 2 glasses of water. Get immediate medical attention. Never give anything by mouth to an unconscious person.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Thermal decomposition can lead to release of irritating gases and vapors.

**Hazardous combustion products**
Fire or high temperatures create: Ammonia, Nitrogen oxides (NOx), Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective gloves/clothing and eye/face protection. Avoid contact with eyes. Do not get on skin or clothing. Wash thoroughly after handling. See also section 8.

### 6.2 Environmental precautions

Prevent further leakage or spillage. The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Acids Bases Strong reducing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

| 2,2'-Methyliminodiethanol | Not determined | Not determined | Not determined |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile PVC
Break through time >480 minutes
Glove thickness 0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor/acid gas protection (E, yellow) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before breaks and immediately after handling the product

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | None |
| **Color** | Light green |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 8 - 10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -21 °C / -7 °F | |
| **Boiling point/range** | ~ 108 °C / 226 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | ~2 kPa | @ 25 °C |
| **Vapor density** | 1 (air = 1) | |
| **Specific gravity** | 1.4 | |
| **Bulk density** | No information available | |
| **Relative density** | 1.4 | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | 538 °C / 1000 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 2 mPa s | @ 15.5 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
None under normal processing.

### 10.4 Conditions to avoid

Do not allow liquid to evaporate. Dry material is a strong oxidizer.

### 10.5 Incompatible materials

Acids. Bases. Strong reducing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Irritating to skin. Substance may cause slight skin irritation.

**Ingestion** Harmful if swallowed.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Calcium nitrate | No data available | No data available | No data available |
| 2,2' -oxydiethanol | = 12565 mg/kg ( Rat ) | = 11890 mg/kg ( Rabbit ) | > 4600 mg/m³ ( Rat ) 4 h |
| Calcium Bromide | = 4100 mg/kg ( Rat ) | No data available | No data available |
| 2,2'-Methyliminodiethanol | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Skin contact. Eye contact. Inhalation. Ingestion. |
| **Routes of entry** | Skin contact. Eye contact. Inhalation. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Calcium nitrate | No information available | No information available | No information available |
| 2,2' -oxydiethanol | = 75200 mg/L LC50 Pimephales promelas 96 h | No information available | = 84000 mg/L EC50 Daphnia magna 48 h |
| Calcium Bromide | No information available | No information available | No information available |
| 2,2'-Methyliminodiethanol | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2,2' -oxydiethanol
Schedule 6
Schedule 5
Calcium Bromide
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## Low Temperature Dispersant D230

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Low Temperature Dispersant D230
**Product code** D230

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
Level 5, 10 Telethon Avenue
Perth WA 6000

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Heating of containers may cause pressure rise, with risk of bursting.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Protect from freezing |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Eye protection must conform to standard EN 166 Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Use protective gloves made of: Butyl rubber Nitrile rubber<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Aqueous solution |
| **Odor** | Characteristic |
| **Color** | Colorless |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 3.5 - 5.5 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | ~0 °C / ~32 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability** | Not applicable | |
| **Explosion limits:** | | |
| **Upper explosion limit** | No information available | |
| **Lower explosion limit** | No information available | |
| **Vapor pressure** | No information available | |
| **Relative Vapor Density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **Partition Coefficient (n-octanol/water)** | No information available | |
| **Density and/or Relative Density** | 1.006 - 1.046 g/ml | |
| **Explosive properties** | Not applicable | |
| **Oxidizing properties** | Not applicable | |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |

**Comments**

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from direct sunlight. Protect from freezing.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | None known. |
| **Routes of entry** | No route of entry noted. |

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |

### 11.2 Information on other hazards

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

The organic portion of this material is not biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Dispersible.

**Mobility in soil**
No information available.

### 12.5 Other adverse effects

None known.

### 12.6 Other information.

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Maritime transport in bulk according to IMO instruments**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required

**Group number** Not required

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG) ADG Code – Australian Dangerous Goods Code**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

# Safety Data Sheet
## Low-Temperature Extender D154

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Low-Temperature Extender D154
**Product code** D154

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Fumed silica

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Fumed silica | 273-761-1 | 69012-64-2 | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <0.1 |

**3.2 Mixtures**

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash skin thoroughly with soap and water. Call a physician if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Vacuum up. Avoid generating dust. Put into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid handling causing generation of dust.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep at temperatures above 0°C React with hydrofluoric acid (HF) forming toxic gas (SiF4)

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|

| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training<br>Repeated or prolonged contact Use protective gloves made of: Neoprene Nitrile rubber Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust) Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing and gloves Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Gray - Off-white |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | N/D | |
| **Melting / freezing point** | >1200 °C/ 2192 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Does not flash | |

| | | |
|---|---|---|
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.1 - 2.3 | |
| **Bulk density** | 17 - 28.1 lb/ft$^3$ | @ 20°C. |
| **Relative density** | No information available | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |
| **Particle Size (Micron)** | > 45-Microns = 2.5 wt% max |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Keep at temperatures above 0°C.

**10.5 Incompatible materials**

Hydrofluoric acid (HF).

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Repeated exposure may cause skin dryness or cracking.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Fumed silica | >5000 mg/kg bw | >5000 mg/kg bw | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen. Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Fumed silica | LC50>100 mg/l | LC50>323 mg/l (72h) | LC50>1003 mg/l |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Fumed silica | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Fumed silica | Not Applicable - Inorganic chemical. |
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
See component information below.

| Chemical Name | Mobility |
|---|---|
| Fumed silica | Slightly soluble |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## Low-Temperature Liquid Dispersant D145A

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Low-Temperature Liquid Dispersant D145A
**Product code** D145A

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Carcinogenicity | Category 1B |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H350 - May cause cancer

**Precautionary statements**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

–

**Contains**
Formaldehyde (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Formaldehyde (impurity) | 200-001-8 | 50-00-0 | < 0.2 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations.
Note D: Certain substances which are susceptible to spontaneous polymerisation or decomposition are generallyplaced on the market in a stabilised form. It is in this form that they are listed in Part 3.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

| | |
|---|---|
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash off immediately with soap and plenty of water. Remove contaminated clothing and shoes. Seek medical attention if irritation occurs. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, dry chemical, carbon dioxide ($CO_2$), or foam.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Do not get on skin or clothing. Wash thoroughly after handling. Use personal protective

equipment. Do not breathe vapors or spray mist. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Protect from freezing Avoid contact with: Strong acids Strong bases Strong oxidizing agents Strong reducing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Formaldehyde (impurity) | 0.3 ppm STEL<br>0.4 mg/m³ STEL | 2ppmSTEL<br>2.5mg/m³STEL<br>1ppmTWA<br>1.2mg/m³TWA | 0.3 ppm Ceiling<br>0.37 mg/m³ Ceiling<br>Suspected Human Carcinogen<br>0.3 ppm TWA |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Formaldehyde (impurity) | 2 ppm STEL | 0.3 ppm STEL | 0.2 ppm Ceiling |

| | | | |
|---|---|---|---|
| | 3 mg/m³ STEL<br>1.0 ppm TWA<br>1.5 mg/m³ TWA | 0.3 mg/m³ STEL | 0.24 mg/m³ Ceiling<br>Group 2 airway sensitizer<br>Group 1 skin sensitizer<br>0.1 ppm ACL<br>0.1 ppm OEL<br>0.12 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Formaldehyde (impurity) | 0.5 mg/m³ MAC | 0.016 ppm TWA<br>0.1 ppm STEL | 0.5 ppm TWA<br>0.33 ppm TWA<br>sensitiser<br>Confirmed carcinogen<br>1 ppm Ceiling |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Formaldehyde (impurity) | 0.3 ppm Ceiling<br>0.37 mg/m³ Ceiling | Not determined | 0.5 mg/m³ MAC (vapor) |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Formaldehyde (impurity) | 2 ppm STEL<br>0.75 ppm TWA | 0.5 mg/m³ TWA<br>1 mg/m³ STEL | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Butyl rubber Nitrile
Break through time >480 minutes
Glove thickness 0.7 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Characteristic |
| **Color** | No information available |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 9.0 - 11.4 | |
| **pH @ dilution** | No information available | Not applicable |
| **Melting / freezing point** | 0 °C / 32 °F | |
| **Boiling point/range** | ~ 100 °C / 212 °F | |
| **Flash point** | Non-flammable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 30 - 60 mm2/s | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.24 - 1.26 g/ml @ 20 °C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid excessive heat for prolonged periods of time. Protect from freezing.

### 10.5 Incompatible materials

Strong acids. Strong bases. Strong oxidizing agents. Strong reducing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Formaldehyde (impurity) | = 100 mg/kg ( Rat ) | = 270 mg/kg ( Rabbit ) | = 0.578 mg/L ( Rat ) 4 h |

**Sensitization** EUH208 - Contains ( Formaldehyde ). May produce an allergic reaction.

**Mutagenic effects** Contains an known or suspected mutagen.

**Carcinogenicity** Contains a known or suspected carcinogen. Formaldehyde is listed by IARC in Group 1 as carcinogenic to humans.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation. Skin contact. Eye contact.

**Routes of entry** Inhalation. Skin contact. Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Formaldehyde (impurity) | 23.2 - 29.7 mg/L LC50 Pimephales promelas 96 h 100 - 136 mg/L LC50 Oncorhynchus mykiss 96 h 0.032 - 0.226 mL/L LC50 Oncorhynchus mykiss 96 h = 41 mg/L LC50 Brachydanio rerio 96 h = 1510 µg/L LC50 Lepomis macrochirus 96 h 22.6 - 25.7 mg/L LC50 Pimephales promelas 96 h | No information available | 11.3 - 18 mg/L EC50 Daphnia magna 48 h = 2 mg/L LC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Formaldehyde (impurity) | Rapidly biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Formaldehyde (impurity) | Does not bioaccumulate log Pow =0.35 |

### 12.4 Mobility

**Mobility**
Soluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Formaldehyde (impurity) | Miscible in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Formaldehyde (impurity) | Henry's Law Constant 0.034 (in Pa m³/mol) @ 25 °C |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Formaldehyde (impurity)
Schedule 6

| | |
|---|---|
| **New Zealand Hazard Classification** | Classified |
| **HSNO approval no.** | HSR002512 |
| **Group number** | 6.7A |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Fumed silica

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Fumed silica | 273-761-1 | 69012-64-2 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place React with hydrofluoric acid (HF) forming toxic gas (SiF4) Store above 0°C Protect from freezing

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Fumed silica | 10 mg/m³ TWA<br>3 mg/m³ TWA<br>2 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Fumed silica | Not determined | 2 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Fumed silica | Not determined | Not determined | 2 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Fumed silica | 2 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Fumed silica | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Rubber<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of inadequate ventilation wear respiratory protection Respirator with combination filter for vapor/particulate Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Slurry |
| **Odor** | Odorless |
| **Color** | Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 5-7 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | Similar to water. | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.4 | 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |

| | | |
|---|---|---|
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 70 mPa s | @ 20 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | 50 |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Protect from freezing. Keep at temperatures above 0°C.

**10.5 Incompatible materials**

Hydrofluoric acid (HF).

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Product information** | Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply. |
| **Inhalation** | Breathing dried dust or spray mist may irritate respiratory tract. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Fumed silica | >5000 mg/kg bw | >5000 mg/kg bw | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Fumed silica | LC50>100 mg/l | LC50>323 mg/l (72h) | LC50>1003 mg/l |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Muriel Martin Beurel |
| **Supersedes Date:** | 12-Feb-2016 |
| **Revision date** | 13-Nov-2019 |
| **Version** | 4 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. |

# Safety Data Sheet
## LUBE 776*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** LUBE 776*
**Product code** PID12248

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lubricant

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Castor oil, sulfated, sodium salt

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Castor oil, sulfated, sodium salt | 269-123-7 | 68187-76-8 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Seek immediate medical attention/advice.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store at ambient conditions Avoid frost. Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Castor oil, sulfated, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Castor oil, sulfated, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Castor oil, sulfated, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |

| | | | |
|---|---|---|---|
| Castor oil, sulfated, sodium salt | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Castor oil, sulfated, sodium salt | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: PVC Neoprene Nitrile
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Slight |
| **Color** | Light yellow |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5 - 7 | @ 50g/l |
| **Melting / freezing point** | No information available | |

| | | |
|---|---|---|
| **Boiling point/range** | No information available | |
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.95 - 1.00 | @ 20°C. |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Store at ambient conditions. Avoid frost.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**LD50 Oral** > 2000 mg/kg (rat) Calculated (MIXTURE)

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Castor oil, sulfated, sodium salt | > 2000 mg/kg ( Rat ) | > 2000 mg/kg (Rat)24 h - similar substance | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Eye contact.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Castor oil, sulfated, sodium salt | > 100 mg/l (LC50) similar substance - 96 h | > 10 mg/l (LC50) similar substance - 72 h | ~ 100 mg/l (LC50) Suppliers data - 48 h |

### 12.2 Persistence and degradability

Readily biodegradable.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Dispersible in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by**

**Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

**Supersedes Date:** None

# Safety Data Sheet
## LUBE EXE*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** LUBE EXE*
**Product code** 143090
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lubricant

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 1 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H318 - Causes serious eye damage

**Precautionary statements**
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

-

**Contains**
2-[2-(2-butoxyethoxy)ethoxy]ethanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | 205-592-6 | 143-22-6 | 30-60 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Remove contact lenses, if worn. Immediately flush eyes with water for 15 minutes while holding eyelids open. Seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Do not eat, drink or smoke when using this product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |

| | | | |
|---|---|---|---|
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Neoprene PVC Rubber
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** No information available
**Odor** Slight
**Color** No information available
**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |

| | | |
|---|---|---|
| **Flash point** | > 100 °C / > 212 °F | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.95 - 1.05 | @ 20°C. |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye damage.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | = 5300 mg/kg (Rat)<br>Literature data | > 2000 mg/kg (Rabbit) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact.

**Routes of entry** Eye contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-[2-(2-butoxyethoxy)ethoxy]ethanol | 2200 - 4600 mg/L LC50 Leuciscus idus 96h<br>= 2400 mg/L LC50 Pimephales promelas 96h | > 500 mg/L EC50 Desmodesmus subspicatus 72h | > 500 mg/L EC50 Daphnia magna 48h |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**Marine pollutant**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Does not comply |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## LUBE-167*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** LUBE-167*
**Product code** PID926

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lubricant

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** , No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
May cause slight irritation

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |

| | |
|---|---|
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Mild |
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 8.8 - 9.2 | 1% solution |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 116 °C / 240 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | >10 | (Air = 1.0) |
| **Specific gravity** | 0.96 - 1.01 | 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |
| **LD50 Oral** | > 2000 mg/kg (rat) Calculated (PRODUCT) |
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |

| | |
|---|---|
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is not biodegradable.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 28-Oct-2015 |
| **Revision date** | 09-Jul-2018 |
| **Version** | 5 |

# SAFETY DATA SHEET

# CALCIUM CHLORIDE

**Revision Date:** 22-Jun-2021 **Revision Number:** 2

## 1. Product Identifier & Identity for the Chemical

**Statement of Hazardous Nature** Hazardous according to the criteria of the 7th Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**1.1. Product Identifier**

**Product Name** CALCIUM CHLORIDE

**Other means of Identification**

**Synonyms** None

**Hazardous Material Number:** MC600201

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Intermediate

**Uses advised against** Consumer use

**Supplier's name, address and phone number**

**Manufacturer/Supplier**

Multi-Chem
A Halliburton Energy Services, Inc. Company

## 2. Hazard Identification

**Statement of Hazardous Nature** Hazardous according to the criteria of the 7th Revised Edition of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS), Non-Dangerous Goods according to the criteria of ADG.

**Classification of the hazardous chemical**

| | |
|---|---|
| Serious Eye Damage/Irritation | Category 2 - H319 |

**Label elements, including precautionary statements**

**Hazard Pictograms**

**Signal Word** WARNING

**Hazard Statements:** H319 - Causes serious eye irritation

**Precautionary Statements**

**Prevention** P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear eye protection/face protection

**Response** P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Storage** None

**Disposal** None

**Contains**

| **Substances** | **CAS Number** |
|---|---|
| Calcium chloride | 10043-52-4 |

**Other hazards which do not result in classification**

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

*For the full text of the H-phrases mentioned in this Section, see Section 16*

## 3. Composition/information on Ingredients

| Substances | CAS Number | PERCENT (w/w) | GHS Classification - Australia |
|---|---|---|---|
| Calcium chloride | 10043-52-4 | 60 - 100% | Eye Irrit. 2A (H319) |

## 4. First aid measures

**Description of necessary first aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Eyes** Immediately flush eyes with large amounts of water for at least 15 minutes. Get immediate medical attention.

**Skin** Wash with soap and water. Get medical attention if irritation persists.

**Ingestion** Rinse mouth with water many times. Get medical attention, if symptoms occur

**Symptoms caused by exposure**

Causes eye irritation.

**Medical Attention and Special Treatment**

**Notes to Physician** Treat symptomatically

## 5. Fire Fighting Measures

**Suitable extinguishing equipment**

**Suitable Extinguishing Media**
None - does not burn.
**Extinguishing media which must not be used for safety reasons**
None known.

**Specific hazards arising from the chemical**

**Special exposure hazards in a fire**
None anticipated

**Special protective equipment and precautions for fire fighters**

**Special protective equipment for firefighters**
Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

## 6. Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
Ensure adequate ventilation. Use appropriate protective equipment. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**
Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**
Scoop up and remove. Pick up and transfer to properly labeled containers.

## 7. Handling and storage

**7.1. Precautions for safe handling**

**Handling Precautions**
Ensure adequate ventilation. Use appropriate protective equipment. Avoid contact with eyes, skin, or clothing.
**Hygiene Measures**
Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Information**
Store in a well ventilated area.
**Other Guidelines**
No information available

## 8. Exposure Controls/Personal Protection

**Control parameters - exposure standards, biological monitoring**

**Exposure Limits**

| Substances | CAS Number | Australia NOHSC | ACGIH TLV-TWA |
|---|---|---|---|
| Calcium chloride | 10043-52-4 | Not applicable | Not applicable |

**Appropriate engineering controls**

**Engineering Controls** Ensure adequate ventilation, especially in confined areas

**Personal protective equipment (PPE)**

**Personal Protective Equipment** If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

**Respiratory Protection** If engineering controls and work practices cannot keep exposure below occupational exposure limits or if exposure is unknown, wear a NIOSH certified, European Standard EN

| | |
|---|---|
| | 149, AS/NZS 1715:2009, or equivalent respirator when using this product. Selection of and instruction on using all personal protective equipment, including respirators, should be performed by an Industrial Hygienist or other qualified professional. |
| **Hand Protection** | Normal work gloves. |
| **Skin Protection** | Normal work coveralls. |
| **Eye Protection** | Chemical goggles; also wear a face shield if splashing hazard exists. |
| **Other Precautions** | None known. |
| **Environmental Exposure Controls** | No information available |

## 9. Physical and Chemical Properties

**9.1. Information on basic physical and chemical properties**

| | | | |
|---|---|---|---|
| **Physical State:** | Solid | **Color** | White |
| **Odor:** | Odorless | **Odor Threshold:** | No information available |

| Property<br>Remarks/ - Method | Values |
|---|---|
| **pH:** | 10 (1 % solution) |
| **Freezing Point / Range** | No data available |
| **Melting Point / Range** | 782 °C / 1439.6 °F |
| **Pour Point / Range** | No data available |
| **Boiling Point / Range** | No data available |
| **Flash Point** | Not applicable. |
| **Evaporation rate** | No data available |
| **Vapor Pressure** | No data available |
| **Vapor Density** | No data available |
| **Specific Gravity** | 1.8375 - 1.8625 (20 °C/68 °F) |
| **Water Solubility** | Soluble in water |
| **Solubility in other solvents** | No data available |
| **Partition coefficient: n-octanol/water** | No data available |
| **Autoignition Temperature** | No data available |
| **Decomposition Temperature** | No data available |
| **Viscosity** | No data available |
| **Explosive Properties** | No information available |
| **Oxidizing Properties** | No information available |

**9.2. Other information**

| | |
|---|---|
| **Molecular Weight** | 110.986 |
| **VOC Content (%)** | No data available |
| **Liquid Density** | 15.31 - 15.53 lbs/gal |
| **Bulk Density** | 1837 - 1863 kg/m$^3$ |

## 10. Stability and Reactivity

**10.1. Reactivity**
Not expected to be reactive.
**10.2. Chemical stability**
Stable
**10.3. Possibility of hazardous reactions**
Will Not Occur
**10.4. Conditions to avoid**
None anticipated
**10.5. Incompatible materials**
None known.
**10.6. Hazardous decomposition products**
None known.

## 11. Toxicological Information

**Information on routes of exposure**

**Principle Route of Exposure** Eye or skin contact, inhalation.

**Symptoms related to exposure**

**Most Important Symptoms/Effects**

Causes eye irritation.

## Toxicology data for the components

| Substances | CAS Number | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|---|
| Calcium chloride | 10043-52-4 | > 1000 mg/kg (Rat)<br>2301 mg/kg (Rat)<br>> 2000 mg/kg (Rat)<br>2240 mg/kg (Rat) | 5000 mg/kg (Rabbit) | No data available |

**Immediate, delayed and chronic health effects from exposure**

**Inhalation** May cause mild respiratory irritation.

**Eye Contact** Causes serious eye irritation.

**Skin Contact** May cause mild skin irritation.

**Ingestion** May cause abdominal pain, vomiting, nausea, and diarrhea.

**Chronic Effects/Carcinogenicity** No data available to indicate product or components present at greater than 0.1% are chronic health hazards.

**Exposure Levels**

No data available

**Interactive effects**

Skin disorders.

**Data limitations**

No data available

| Substances | CAS Number | Skin corrosion/irritation |
|---|---|---|
| Calcium chloride | 10043-52-4 | Causes mild skin irritation (Rabbit) |

| Substances | CAS Number | Serious eye damage/irritation |
|---|---|---|
| Calcium chloride | 10043-52-4 | Causes moderate eye irritation (Rabbit) |

| Substances | CAS Number | Skin Sensitization |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available |

| Substances | CAS Number | Respiratory Sensitization |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available |

| Substances | CAS Number | Mutagenic Effects |
|---|---|---|
| Calcium chloride | 10043-52-4 | Did not show mutagenic effects in animal experiments |

| Substances | CAS Number | Carcinogenic Effects |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available |

| Substances | CAS Number | Reproductive toxicity |
|---|---|---|
| Calcium chloride | 10043-52-4 | Animal testing did not show any effects on fertility. |

| Substances | CAS Number | STOT - single exposure |
|---|---|---|
| Calcium chloride | 10043-52-4 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances | CAS Number | STOT - repeated exposure |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available. |

| Substances | CAS Number | Aspiration hazard |
|---|---|---|
| Calcium chloride | 10043-52-4 | Not applicable |

## 12. Ecological Information

**Ecotoxicity**

**Product Ecotoxicity Data**

Product is not classified as hazardous to the environment.

**Substance Ecotoxicity Data**

| Substances | CAS Number | Toxicity to Algae | Toxicity to Fish | Toxicity to Microorganisms | Toxicity to Invertebrates |
|---|---|---|---|---|---|
| Calcium chloride | 10043-52-4 | ErC50 (72h) 2900 mg/L (Pseudokirchnerella subcapitata)<br>ErC50 (72h) 4000 mg/L (Pseudokirchnerella subcapitata) | LC50 (96h) 4630 mg/L (Pimephales promelas)<br>LC50 (48h) >6560 mg/L (Pimephales promelas)<br>LC50 (24h) >6660 mg/L (Pimephales promelas) | No information available | EC50 (48h) 2400 mg/L (Daphnia magna)<br>EC50 (21d) 610 mg/L (reproduction) (Daphnia magna) |

**12.2. Persistence and degradability**

| Substances | CAS Number | Persistence and Degradability |
|---|---|---|
| Calcium chloride | 10043-52-4 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

| Substances | CAS Number | Bioaccumulation |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available |

**12.4. Mobility in soil**

| Substances | CAS Number | Mobility |
|---|---|---|
| Calcium chloride | 10043-52-4 | No information available |

**12.6. Other adverse effects**

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

## 13. Disposal Considerations

**Safe handling and disposal methods**

Disposal should be made in accordance with federal, state, and local regulations.

**Disposal of any contaminated packaging**

Follow all applicable national or local regulations.

**Environmental regulations**

Not applicable

## 14. Transport Information

**Transportation Information**

**Australia ADG**

**UN Number** Not restricted
**UN proper shipping name:** Not restricted
**Transport Hazard Class(es):** Not applicable
**Packing Group:** Not applicable
**Environmental Hazards:** Not applicable

**IMDG/IMO**

**UN Number** Not restricted

| | |
|---|---|
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**IATA/ICAO**

| | |
|---|---|
| **UN Number** | Not restricted |
| **UN proper shipping name:** | Not restricted |
| **Transport Hazard Class(es):** | Not applicable |
| **Packing Group:** | Not applicable |
| **Environmental Hazards:** | Not applicable |

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not applicable

**Special precautions during transport**
None

**HazChem Code**
None Allocated

## 15. Regulatory Information

**Safety, health and environmental regulations specific for the product**

**International Inventories**

| | |
|---|---|
| **Australian AICS Inventory** | All components are listed on the AIIC or are subject to a relevant exemption, permit, or assessment certificate. |
| **New Zealand Inventory of Chemicals** | All components are listed on the NZIoC or are subject to a relevant exemption, permit, or assessment certificate. |
| **US TSCA Inventory** | All components listed on inventory or are exempt. |
| **Canadian Domestic Substances List (DSL)** | All components listed on inventory or are exempt. |

**Poisons Schedule number**
None Allocated

**International Agreements**

| | |
|---|---|
| **Montreal Protocol - Ozone Depleting Substances:** | Does not apply. |
| **Stockholm Convention - Persistent Organic Pollutants:** | Does not apply |
| **Rotterdam Convention - Prior Informed Consent:** | Does not apply. |
| **Basel Convention - Hazardous Waste:** | Does not apply. |

H319 - Causes serious eye irritation

**Additional information:** For additional information on the use of this product, contact your local Halliburton representative.

For questions about the Safety Data Sheet for this or other Halliburton products, contact Chemical Stewardship at 1-580-251-4335.

**Key abreviations or acronyms used**

bw – body weight
CAS – Chemical Abstracts Service
EC50 – Effective Concentration 50%
LC50 – Lethal Concentration 50%
LD50 – Lethal Dose 50%
LL50 – Lethal Loading 50%
mg/kg – milligram/kilogram
mg/L – milligram/liter
NOEC – No Observed Effect Concentration
OEL – Occupational Exposure Limit
PBT – Persistent Bioaccumulative and Toxic
ppm – parts per million
STEL – Short Term Exposure Limit
TWA – Time-Weighted Average
vPvB – very Persistent and very Bioaccumulative
h - hour
$mg/m^3$ - milligram/cubic meter
mm - millimeter
mmHg - millimeter mercury
w/w - weight/weight
d - day

# Safety Data Sheet
## M-I BAR* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** M-I BAR* (All Grades)
**Product code** PID938

**Synonyms** M-I BAR*, M-I BAR* FINE, M-I BAR* ULTRA FINE

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Weighting agent.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Barite

Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating gases and vapors

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Barite | 236-664-5 | 13462-86-7 | 60 - 100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 5 - <10 |

### 3.2 Mixtures

Not applicable

**Comments**
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Do not breathe dust. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid wet and humid conditions.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile PVC Frequent change is advisable

**Respiratory protection** In case of inadequate ventilation wear respiratory protection Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Solid
**Appearance** Powder Dust
**Odor** Odorless
**Color** Tan - Gray
**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |

| | |
|---|---|
| **Melting / freezing point** | No information available |
| **Boiling point/range** | No information available |
| **Flash point** | Not applicable |
| **Evaporation rate (BuAc =1)** | No information available |
| **Flammability (solid, gas)** | Not applicable |
| **Flammability Limit in Air** | |
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | No information available |
| **Vapor density** | No information available |
| **Specific gravity** | 4.2 g/cm³ (minimum) |
| **Bulk density** | 1.714-2.162 kg/m³ / 107-135 lb/ft3 |
| **Relative density** | No information available |
| **Water solubility** | Insoluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | No information available |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Avoid wet and humid conditions.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

Respirable quartz <0.3% . Report number: N0600517.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

## 12.1 Toxicity

Listed on PLONOR list of OSPAR

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Barite | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

## 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Barite | Inorganic compound |
| Crystalline silica (impurity) | Inorganic compound |

## 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Barite | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Barite | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Barite | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

CAS Number 7727-43-7 can be used to identify the substance mentioned in Section 3 for the International Inventories.

## 16. Other Information

# Safety Data Sheet
## M-I GEL* SUPREME

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** M-I GEL* SUPREME
**Product code** PID982

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% | Component information |
|---|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | 1-5 | STOT Rep. 2 (H373) |

**3.2 Mixtures**

Not applicable

**Comments**
Naturally occuring mineral.
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if

present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |

| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Light tan - Gray Green |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9-10 | |
| **pH @ dilution** | | |
| **Melting / freezing point** | No information available | |

| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |

| | | |
|---|---|---|
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.3 - 2.6 | 20 °C |
| **Bulk density** | 48-52 lb/ft³ / 769-833 kg/m³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues / unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand hazard classification** | Not classified. |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations**

**2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |

# Safety Data Sheet
## M-I GEL*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** M-I GEL*
**Product code** PID971

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | < 10 |

**3.2 Mixtures**

Not applicable

**Comments**
Naturally occuring mineral.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Crystalline silica (impurity) | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA<br>Confirmed carcinogen |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | Not determined | 3 mg/m³ STEL<br>1 mg/m³ TWA<br>Fibrogenic substance 1177, 1178 |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Local exhaust ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Neoprene Nitrile Frequent change is advisable |
| **Respiratory protection** | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Provide eyewash station. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Odorless |
| **Color** | Cream - Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 9-10 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 2.3 - 2.6 | @ 20 °C |

| | |
|---|---|
| **Bulk density** | 48 – 52 lb/ft³ (769 – 833 kg/m³) |
| **Relative density** | No information available |
| **Water solubility** | Insoluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Product information** | This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. |

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## M-I PAC* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** M-I PAC* (All Grades)
**Product code** 142408

**Synonyms** M-I PAC* ELV, M-I PAC* R, M-I PAC* SR, M-I PAC* SUL, M-I PAC* UL
Molecular weight 982.4 g/mol

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fluid loss reducer. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Polyanionic cellulose

### 2.3 Other hazards

Suspended dust may present a dust explosion hazard
Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Polyanionic cellulose | Listed | Proprietary | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Protect from moisture Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Polyanionic cellulose | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Polyanionic cellulose | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Polyanionic cellulose | 10 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Polyanionic cellulose | Not determined | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Polyanionic cellulose | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will

vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Protect from moisture. Keep away from direct sunlight.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Polyanionic cellulose | = 27000 mg/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Polyanionic cellulose | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Microfine Cement D163

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Microfine Cement D163
**Product code** D163

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 1 |
| Skin sensitization | Category 1B |
| Specific target organ toxicity - Single exposure | Category 3 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
DANGER

**Hazard Statements**
H315 - Causes skin irritation
H317 - May cause an allergic skin reaction
H318 - Causes serious eye damage
H335 - May cause respiratory irritation

**Precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310 - Immediately call a POISON CENTER or doctor/physician

**Supplementary precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P271 - Use only outdoors or in a well-ventilated area
P272 - Contaminated work clothing should not be allowed out of the workplace
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention
P362 + P364 - Take off contaminated clothing and wash it before reuse
P403 + P233 - Store in a well-ventilated place. Keep container tightly closed
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Portland Cement Clinker

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Portland Cement Clinker | 266-043-4 | 65997-15-1 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
The product itself does not burn, Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not get on skin or clothing. Wash thoroughly after handling. Avoid dust formation. Do not breathe dust. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Prevent dust cloud. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Pick up and transfer to properly labeled containers. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Do not breathe vapors/dust. Avoid contact with skin and eyes. Avoid handling causing generation of dust. Persons susceptible to allergic reactions should not handle this product.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Do not eat, drink or smoke when using this product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Provide appropriate exhaust ventilation at places where dust is formed. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Store away from incompatibles, Powdered aluminum Oxidizing agents Hydrofluoric acid (HF) Strong bases Strong acids |
| **Storage class** | Chemical storage. |

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Portland Cement Clinker | 10 mg/m³ TWA | 10 mg/m³ TWA | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Portland Cement Clinker | 10 mg/m³ TWA | 10 mg/m³ TWA | 4 mg/m³ OEL<br>1 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Portland Cement Clinker | Not determined | Not determined | 10 mg/m³ TWA |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Portland Cement Clinker | 10 mg/m³ TWA | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Portland Cement Clinker | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Butyl Neoprene Nitrile Rubber Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | None |
| **Color** | Gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 11.0 -13.5 | @ 10 g/l |
| **Melting / freezing point** | > 1250 °C / 2282 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | Not applicable | |
| **Specific gravity** | 2.75 - 3.20 g/cm$^3$ | |
| **Bulk density** | 1040 kg/m$^3$ | |
| **Relative density** | No information available | |
| **Water solubility** | Slightly soluble in water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

React with hydrofluoric acid (HF) forming toxic gas (SiF4).

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture.

### 10.5 Incompatible materials

Aluminium powder. Oxidizing agents. Strong acids. Strong bases. Hydrofluoric acid (HF).

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** May cause respiratory irritation. Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

**Eye contact** Causes serious eye damage.

**Skin contact** Causes skin irritation. Contact with moist skin may cause skin burns. May cause an allergic skin reaction.

**Ingestion** Ingestion may cause irritation to mucous membranes.

**Unknown acute toxicity** Not applicable.

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Portland Cement Clinker | No data available | No data available | No data available |

**Sensitization** May cause allergic skin reaction.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Category 3

**Specific target organ toxicity - Repeated exposure** Not classified.

**Target organ effects** Respiratory system. Lungs.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Portland Cement Clinker | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

| Chemical Name | Persistence and degradability |
|---|---|
| Portland Cement Clinker | Inorganic compound |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

| Chemical Name | Bioaccumulation |
|---|---|
| Portland Cement Clinker | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Slightly soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Portland Cement Clinker

Schedule 4
Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

_

**Contains**
2-methylpropan-2-ol

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-methylpropan-2-ol | 200-889-7 | 75-65-0 | <5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Ammonia, Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Avoid generating or breathing dust. Take precautionary measures against static discharges. Take up mechanically and collect in suitable container for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Do not breathe dust. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Avoid excessive heat for prolonged periods of time. Keep away from direct sunlight. Incompatible with oxidizing agents Strong acids

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2-methylpropan-2-ol | 100 ppm TWA<br>303 mg/m³ TWA | 150ppmSTEL<br>455mg/m³STEL<br>100ppmTWA<br>303mg/m³TWA | 100 ppm TWA<br>303 mg/m³ TWA |

| 2-methylpropan-2-ol | 100 ppm TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear gloves according to EN 374 to protect against skin effects from powders Impervious gloves made of: Rubber gloves Butyl Neoprene Nitrile Frequent change is advisable

**Respiratory protection** In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules |
| **Odor** | None |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 4 - 9 | @ 5 g/l |
| **Melting / freezing point** | > 250 °C / 482 °F | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |

| | |
|---|---|
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | Not applicable |
| **Vapor density** | Not applicable |
| **Specific gravity** | 1.15 - 1.35 |
| **Bulk density** | ~ 0.20 - 0.40 |
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | >150°C / >302° F |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid dust formation. Keep away from direct sunlight. Avoid excessive heat for prolonged periods of time. Keep away from open flames, hot surfaces and sources of ignition.

**10.5 Incompatible materials**

Incompatible with oxidizing agents. Strong acids.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-methylpropan-2-ol | = 2200 mg/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 10000 ppm ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact. Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-methylpropan-2-ol | 6130 - 6700 mg/L LC50 Pimephales promelas 96 h | > 1000 mg/L EC50 Desmodesmus subspicatus 72 h | 4607 - 6577 mg/L EC50 Daphnia magna 48 h = 933 mg/L EC50 Daphnia magna 48 h |

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
<0

### 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required

**Group number** Not required

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

**USA (TSCA)** Does not comply

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|

# Safety Data Sheet
## Mid-Range liquid FLAC D256

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Mid-Range liquid FLAC D256
**Product code** D256

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Ammonia, Sulfur oxides, Hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. If spilled, take caution, as material can cause surfaces to become very slippery. Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from direct sunlight. Avoid excessive heat for prolonged periods of time. Protect from freezing Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Butyl Neoprene Nitrile Rubber<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the |

work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Slight |
| **Color** | Light yellow |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 3 - 7 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < 5 °C / 41 °F | |
| **Boiling point/range** | > 100 °C / 212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | Similar to water. | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2.3 kPa @ 20°C | |
| **Vapor density** | Similar to water. | |
| **Specific gravity** | 1.0 - 1.3 | |
| **Bulk density** | No information available | |
| **Relative density** | 1.0-1.3 | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 100°C / 212°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from freezing. Keep away from direct sunlight. Avoid excessive heat for prolonged periods of time.

### 10.5 Incompatible materials

Incompatible with oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing >0.1%. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | Contains a known or suspected carcinogen. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards at concentrations >0.1%. |

| | |
|---|---|
| **Routes of Exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | Inhalation. Skin contact. Eye contact. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Large amounts will affect pH and harm aquatic organisms

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Product has a low potential to bioconcentrate.

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Does not comply |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## Mid-Temp Retarder-L D801

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Mid-Temp Retarder-L D801
**Product code** D801

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs. |
| **Skin contact** | Wash off immediately with soap and plenty of water. Remove contaminated clothing and shoes. Seek medical attention if irritation occurs. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothing. Avoid spills and splashing during use. Do not breathe vapors or spray mist.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place. |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Rubber Neoprene Nitrile<br>Break through time >480 minutes<br>Glove thickness >0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Opaque |
| **Odor** | Characteristic |
| **Color** | Dark brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 9 - 10 | @ 10% sol. |
| **Melting / freezing point** | - 2 °C / 28 °F | |
| **Boiling point/range** | ~ 101 °C / 214 °F | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Similar to water | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.2 g/cm$^3$ | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 242 °C / 468 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 500 mPa s | @ 20 °C |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |

| | |
|---|---|
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | None known. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known. Check for additional information in sect. 7.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues / unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
Not regulated

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand hazard classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|

# Safety Data Sheet
## M-I-X* II (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** M-I-X* II (All Grades)
**Product code** PID11307

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

–

**Contains**
Cellulose Fibre

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard
Product dust may be irritating to eyes, skin and respiratory system

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Cellulose | Listed | Proprietary | 60-100 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <2 |

**3.2 Mixtures**

Not applicable

**Comments**
Naturally occuring mineral.
This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly after handling. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal,

state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Suspended dust may present a dust explosion hazard Protect from moisture Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Cellulose Fibre | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Cellulose Fibre | Not determined | 10 mg/m³ TWA | Not determined |
| Crystalline silica (impurity) | Not determined | 0.1 mg/m³ TWA | 0.03 mg/m³ OEL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Cellulose Fibre | 2 mg/m³ MAC | Not determined | 10 mg/m³ TWA |
| Crystalline silica (impurity) | 1 mg/m³ MAC | 0.1 mg/m³ TWA | 0.1 mg/m³ TWA |

| | | | Confirmed carcinogen |
|---|---|---|---|
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |

| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Cellulose Fibre | Not determined | 10 mg/m³ TWA<br>5 mg/m³ TWA<br>20 mg/m³ STEL | Not determined |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation, wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** — Solid
**Appearance** — Powder Dust
**Odor** — Slight
**Color** — Tan
**Odor threshold** — Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.4 - 1.65 | 20 °C |
| **Bulk density** | 352-513 kg/m³ / 22-32 lb/ft³ | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** No information available

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** None
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition. Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Cellulose Fibre | > 5 g/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Contains a known or suspected carcinogen.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Cellulose Fibre | No information available | No information available | No information available |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

This product is expected to be readily biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

| Chemical Name | Bioaccumulation |
|---|---|
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
Insoluble in water.

| Chemical Name | Mobility |
|---|---|
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required |
| **Group number** | Not required |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
# MONOETHYLENE GLYCOL (MEG)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** MONOETHYLENE GLYCOL (MEG)
**Product code** PID1081

**Synonyms** MONOETHYLENE GLYCOL 100%, MEG 100%
Molecular weight 62.06 g/mol

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Commercial chemical

**Uses advised against** None known.

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Specific target organ toxicity - Repeated exposure | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H302 - Harmful if swallowed
H373 - May cause damage to organs through prolonged or repeated exposure

**Precautionary statements**
P260 - Do not breathe dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P330 - Rinse mouth
P314 - Get medical advice/attention if you feel unwell
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

–

**Contains**
Ethylene Glycol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ethylene Glycol | 203-473-3 | 107-21-1 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation

develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Extinguishing media - small fires, Dry powder,
, Extinguishing media - large fires, Water spray, fog or regular foam.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time. Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Use protective gloves made of: Nitrile Neoprene Butyl rubber
Break through time >480 minutes
Glove thickness 0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more

information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Mild |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6 - 7.5 | @ 10% |
| **Melting / freezing point** | < -12 °C / 10.4 °F | |
| **Boiling point/range** | 196 - 199 °C / 384.8 - 390.2 °F | |
| **Flash point** | 111 °C / 231.8 °F | Closed cup |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | 28 % | |
| **Lower flammability limit** | 3.2 % | |
| **Vapor pressure** | 0.007 kPa | @ 20 °C |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | 410 °C / 770 °F | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | 21 mPas | @ 20 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | -1.36 | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | 62.06 g/mol |
| **VOC content(%)** | None |
| **Density** | 1.11 ± 0.03 g/ml @ 25°C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid excessive heat for prolonged periods of time.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Vapors may irritate throat and respiratory system. May cause additional affects as listed under "Ingestion".

**Eye contact** Contact with eyes may cause irritation.

**Skin contact** May be absorbed through the skin in harmful amounts. Prolonged contact may cause redness and irritation.

**Ingestion** Harmful if swallowed. May cause damage to organs through prolonged or repeated exposure.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Ethylene Glycol | = 7712 mg/kg (Rat)<br>ECHA Data | > 3500 mg/kg (Mouse)<br>ECHA Data | > 2.5 mg/l (Rat) 6 hour<br>ECHA Data |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Ingestion. Inhalation.

**Routes of entry** Skin contact. Skin absorption. Ingestion.

**Specific target organ toxicity - Single exposure** Not classified

| | |
|---|---|
| **Specific target organ toxicity - Repeated exposure** | Category 2. |
| **Target organ effects** | Kidney. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

Listed on PLONOR list of OSPAR
The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Ethylene Glycol | 40000 - 60000 mg/L LC50 (Pimephales promelas) = 96 h<br><br>40761 mg/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>27540 mg/L LC50 (Lepomis macrochirus) = 96 h<br><br>14 - 18 mL/L LC50 (Oncorhynchus mykiss) = 96 h<br><br>16000 mg/L LC50 (Poecilia reticulata) = 96 h<br><br>41000 mg/L LC50 (Oncorhynchus mykiss) = 96 h | 6500 - 13000 mg/L EC50 (Pseudokirchneriella subcapitata) = 96 h | 46300 mg/L EC50 (Daphnia magna) = 48 h |

### 12.2 Persistence and degradability

See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Ethylene Glycol | Readily biodegradable |

### 12.3 Bioaccumulative potential

See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Ethylene Glycol | log Pow -1.36(Calculated) Not likely to bioaccumulate |

**log Pow**
-1.36

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| Ethylene Glycol | Completely soluble |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Ethylene Glycol | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
The product has been assessed and contained in Chapters 17/18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code.
Proper Shipping Name: Ethylene glycol. Ship Type:- 3. Pollution Category:- Y.

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
Australian Standard for the Uniform Scheduling of Drugs and Poisons
Ethylene Glycol
Schedule 6
Schedule 5

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

**Supersedes Date:** 06-Jul-2020

# Safety Data Sheet
## MUDPUSH* II Spacer D182

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** MUDPUSH* II Spacer D182
**Product code** D182

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
High volume water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sulphur oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Keep away from direct sunlight. Incompatible with oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide appropriate exhaust ventilation at places where dust is formed

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders<br>Use protective gloves made of: Rubber Neoprene Nitrile<br>Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder |
| **Odor** | Mild Sweet |
| **Color** | Red brown |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | ~8 | 650g/l (Soln) |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | Not applicable | |
| **Flash point** | | |
| **Evaporation rate (BuAc =1)** | Not applicable | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | Not applicable | |
| **Vapor density** | Not applicable | |
| **Specific gravity** | 1.3 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Partly soluble Gel in contact with water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 242 °C / 468 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid dust formation. Keep away from open flames, hot surfaces and sources of ignition. Keep away from direct sunlight. Take precautionary measures against static charges.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. |
| **Eye contact** | Dust contact with the eyes can lead to mechanical irritation. |
| **Skin contact** | Repeated exposure may cause skin dryness or cracking. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of Exposure** | Inhalation. Skin contact. Eye contact. |
| **Routes of entry** | No route of entry noted. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely.

### 12.4 Mobility

**Mobility**
Partly soluble. Gel in contact with water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

### 14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not classified |
| **Group number** | Not classified |

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Does not comply |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## Multi-Temperature Cement Retarder D161

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Multi-Temperature Cement Retarder D161
**Product code** D161

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518, Canada 001 613 996 6666

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Reproductive toxicity | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H361 - Suspected of damaging fertility or the unborn child

**Precautionary statements**
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P308 + P313 - IF exposed or concerned: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

–

**Contains**
Sodium pentaborate

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium pentaborate | 234-522-7 | 12007-92-0 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention if irritation occurs.

**Eye Contact** Remove contact lenses, if worn. Promptly wash eyes with lots of water while lifting eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Oxides of phosphorus, Carbon oxides (COx), Harmful organic chemical fumes.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Not to be used by pregnant workers and workers who have recently given birth or who are breastfeeding.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Store away from heat and sources of ignition Avoid extreme temperatures Store above 0°C Store away from incompatibles, Strong reducing agents Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Contains no substances with occupational exposure limit values

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium pentaborate | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium pentaborate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium pentaborate | Not determined | Not determined | Not determined |

| Chemical Name | Malaysia | Philippines | Russia |
|---|---|---|---|
| Sodium pentaborate | Not determined | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium pentaborate | Not determined | Not determined | Not determined |

**Notes**
No biological limit allocated

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Provide mechanical general and/or local exhaust ventilation to prevent release of vapor or mist into work environment.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile PVA PVC
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Slight |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | 6.9 | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | ~0 °C / 32 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | Non-flammable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | 1.073 - 1.077 g/ml @ 20 °C |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Avoid extreme temperatures. Do not freeze.

**10.5 Incompatible materials**

Strong oxidizing agents. Strong reducing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort. May cause damage to organs through prolonged or repeated exposure.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium pentaborate | No data available | LD50 > 2000 mg/kg bw | LC50 > 2.03 mg/l |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** Product is or contains a chemical which is a known or suspected reproductive hazard.

**Routes of Exposure** Skin contact. Eye contact. Ingestion.

**Routes of entry** Ingestion.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium pentaborate | LC50: 600 mg/l 96h | No information available | LC50: 86 mg/l 48h |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused** Dispose of in accordance with local regulations.

**products**

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
None

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies Volume restriction. |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **Eurasian Economic Union: Russian Inventory** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Poh Yue Cheong |
| **Supersedes Date:** | 11-Feb-2016 |
| **Revision date** | 15-Mar-2021 |
| **Version** | 6 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. |

**Key literature references and sources for data**
www.ChemADVISOR.com
Supplier
National Chemical Inventories

# Safety Data Sheet
## Mutual Solvent U66

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Mutual Solvent U66
**Product code** U066

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Solvent in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Acute toxicity - Oral | Category 4 |
| Acute toxicity - Dermal | Category 4 |
| Acute toxicity - Inhalation (Vapors) | Category 4 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H302 - Harmful if swallowed
H312 - Harmful in contact with skin
H315 - Causes skin irritation
H319 - Causes serious eye irritation
H332 - Harmful if inhaled

**Precautionary statements**
P280 - Wear protective gloves and eye/face protection
P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P362 - Take off contaminated clothing and wash before reuse

**Supplementary precautionary statements**
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray
P264 - Wash face, hands and any exposed skin thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P271 - Use only outdoors or in a well-ventilated area
P330 - Rinse mouth
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P337 + P313 - If eye irritation persists: Get medical advice/attention
P403 + P235 - Store in a well-ventilated place. Keep cool
P501 - Dispose of contents/ container to an approved waste disposal plant

**Contains**
2-butoxyethanol

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| 2-butoxyethanol | 203-905-0 | 111-76-2 | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. Get immediate medical attention.

**Skin contact** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Seek medical attention.

**Eye Contact** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Get medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Extinguish with carbon dioxide, dry chemical, foam or waterspray.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
When heated strongly or burned, oxides of carbon and harmful organic chemical fumes are released

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors or mists. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil. Keep out of waterways.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Ensure adequate ventilation. Avoid contact with skin and eyes. Avoid breathing vapors or mists. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing Do not eat, drink or smoke when using this product

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded Keep away from direct sunlight. Incompatible with oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

## 8.1 Control parameters

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| 2-butoxyethanol | 25 ppm TWA<br>121 mg/m³ TWA | 50ppmSTEL<br>242mg/m³STEL<br>20ppmTWA<br>96.9mg/m³TWA | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| 2-butoxyethanol | Not determined | 25 ppm TWA<br>121 mg/m³ TWA<br>Skin notation | 25 ppm ACL |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| 2-butoxyethanol | 5 mg/m³ MAC | Not determined | 25 ppm TWA<br>121 mg/m³ TWA<br>Possibility of significant uptake through the skin*1) |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| 2-butoxyethanol | 20 ppm TWA<br>96.7 mg/m³ TWA<br>Skin notation*3) | skin - potential for cutaneous absorption<br>50 ppm TWA<br>240 mg/m³ TWA | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| 2-butoxyethanol | 50 ppm TWA | Not determined | 50 ppm STEL<br>246 mg/m³ STEL<br>Skin*2)<br>20 ppm TWA<br>98 mg/m³ TWA |

**Notes**
No biological limit allocated

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Safety glasses with side-shields For spills and emergencies, also wear face shield Use eye protection according to EN 166, designed to protect against liquid splashes

**Hand protection**
Impervious gloves made of: Rubber PVC Neoprene Be aware that liquid may penetrate the gloves. Frequent change is advisable. Wear gloves according to EN 374 resistant to the solvent(s) in use
Butyl rubber
Break through time >480 minutes
Glove thickness 0.5 mm
or
Impervious gloves of Fluorinated rubber
Break through time >480 minutes
Glove thickness mm 0.4

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators In case of inadequate ventilation wear respiratory protection Use respirator with organic vapor protection (A, brown) At work in confined or poorly

ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear appropriate personal protective clothing to prevent skin contact Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information Local authorities should be advised if significant spillages cannot be contained

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Clear |
| **Odor** | Ether |
| **Color** | Colorless |
| **Odor threshold** | No information available |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | -70 °C / -94 °F | |
| **Boiling point/range** | ~170 °C / 338 °F | |
| **Flash point** | 66 °C / 150.8 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | 10.6 % | |
| **Lower flammability limit** | 1.1 % | |
| **Vapor pressure** | 0.1 kPa | @ 25 °C |
| **Vapor density** | 4.1 (air = 1) | |
| **Specific gravity** | 0.9 g/cm$^3$ | 25 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | ~ 240 °C / 464 °F | |
| **Decomposition temperature** | > 242°C / 467.6 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | 3 mPa s @25 °C | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | None known |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |

| | |
|---|---|
| **VOC content(%)** | 100 |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Keep away from direct sunlight.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Harmful by inhalation. |
| **Eye contact** | Causes serious eye irritation. |
| **Skin contact** | Harmful in contact with skin. May be absorbed through the skin in harmful amounts. Irritating to skin. |
| **Ingestion** | Harmful if swallowed. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| 2-butoxyethanol | 1200 mg/kg (Guinea pigs) | > 2000 mg/kg (Rat) | 400 ppm ( Rabbit) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |

| | |
|---|---|
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. Skin contact. Eye contact. Ingestion. |
| **Routes of entry** | Inhalation. Skin absorption. Eye contact. Skin contact. Ingestion. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Target organ effects** | Kidney. Central nervous system. Blood. Liver. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| 2-butoxyethanol | = 2950 mg/L LC50 Lepomis macrochirus 96 h = 1490 mg/L LC50 Lepomis macrochirus 96 h | No information available | = 1698 - 1940 mg/L (LC50; Daphnia magna) = 1720 mg/L (EC50; water flea) |

### 12.2 Persistence and degradability

Product is biodegradable.

| Chemical Name | Persistence and degradability |
|---|---|
| 2-butoxyethanol | Readily biodegradable |

### 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

| Chemical Name | Bioaccumulation |
|---|---|

| | |
|---|---|
| 2-butoxyethanol | Not likely to bioaccumulate |

**log Pow**
0.81

### 12.4 Mobility

**Mobility**
Soluble in water.

| Chemical Name | Mobility |
|---|---|
| 2-butoxyethanol | Soluble in water |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| 2-butoxyethanol | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**

No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**

Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

2-butoxyethanol
Schedule 6

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## NaCl COMPLETION BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** NaCl COMPLETION BRINE
**Product code** 143482

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Completion brine.

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

### Signal word

None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium Chloride

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium Chloride | 231-598-3 | 7647-14-5 | 10-30 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

| | |
|---|---|
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Oxides of:, Sodium, Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**

Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium Chloride | Not determined | Not determined | 5 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Sodium Chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile Butyl PVC<br>Break through time >480 minutes<br>Glove thickness =>0.5 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Slight |
| **Color** | Light amber |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |

| | |
|---|---|
| **Water solubility** | No data available |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

No materials to be especially mentioned.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium Chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |

| | | | |
|---|---|---|---|
| | 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | | |

### 12.2 Persistence and degradability

No product level data available.

### 12.3 Bioaccumulative potential

No product level data available.

### 12.4 Mobility

**Mobility**
No information available.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |

| | |
|---|---|
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Does not comply |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |

# Safety Data Sheet
## NaCl POLYMER SYSTEM

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** NaCl POLYMER SYSTEM
**Product code** 141991

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Water based system.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Barite

Sodium Chloride

Crystalline silica (impurity)

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Barite | 236-664-5 | 13462-86-7 | 30-60 |
| Sodium Chloride | 231-598-3 | 7647-14-5 | 1-5 |
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | < 3 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. Because this product is a liquid, under normal and recommended use, exposure to Respirable Crystalline Silica will not apply.

Drilling fluid is a highly complex and variable blend of several proprietary products. Each drilling fluid is designed to meet the drilling requirements of a specific well. During the drilling process the composition and physical properties of the drilling fluid are constantly changing; therefore, a complete disclosure of a particular fluid's composition is impractical.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

| | |
|---|---|
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing media appropriate for surrounding material.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection** — Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection** — Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Nitrile Neoprene PVC
Break through time >480 minutes
Glove thickness 0.5 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** — No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** — Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** — Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure** — Use appropriate containment to avoid environmental contamination See section 6 for more

information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Slight |
| **Color** | Light gray |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.2 - 1.6 | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

None known.

### 10.5 Incompatible materials

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Barite | > 15000 mg/kg ( Rat ) | No data available | No data available |
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |
| Crystalline silica (impurity) | No data available | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Barite | No information available | No information available | No information available |
| Sodium Chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Product is biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Barite | Inorganic compound |
| Crystalline silica (impurity) | Inorganic compound |

### 12.3 Bioaccumulative potential

Does not bioaccumulate. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Barite | Product/Substance is inorganic |
| Crystalline silica (impurity) | Product/Substance is inorganic |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Barite | Insoluble in water |
| Crystalline silica (impurity) | Insoluble in water |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Barite | Not expected to adsorb on soil |
| Crystalline silica (impurity) | Not expected to adsorb on soil |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code.
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

**Prepared by** Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse

**Supersedes Date:** 23-Dec-2016

| | |
|---|---|
| **Revision date** | 11-Jun-2020 |
| **Version** | 3 |
| **This SDS has been revised in the following section(s)** | All sections No changes with regard to classification have been made. Updated according to GHS/CLP. |

**Key literature references and sources for data**

# Safety Data Sheet
## NaCl/KCl BRINE

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** NaCl/KCl BRINE
**Product code** 143774
**Country Limitations** This SDS is not for use in the European Union (EU).

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive. Completion brine.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Sodium Chloride

Potassium Chloride

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Sodium Chloride | 231-598-3 | 7647-14-5 | 10-30 |
| Potassium Chloride | 231-211-8 | 7447-40-7 | 5-10 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the

length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Sodium oxides, Potassium oxides, Chlorides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply.
No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Sodium Chloride | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Sodium Chloride | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Sodium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| Potassium Chloride | 5 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Sodium Chloride | Not determined | Not determined | 5 mg/m³ MAC |
| Potassium Chloride | Not determined | Not determined | 5 mg/m³ MAC |

| Chemical Name | Thailand | Vietnam | Turkey |
|---|---|---|---|
| Sodium Chloride | Not determined | Not determined | Not determined |
| Potassium Chloride | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training
Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness =>0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Chemical respirator with inorganic vapour cartridge (Grey B). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Colorless |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | ~7 | |
| **pH @ dilution** | No information available | |

| | |
|---|---|
| **Melting / freezing point** | No information available |
| **Boiling point/range** | > 100 °C / > 212 °F |
| **Flash point** | No information available |
| **Evaporation rate (BuAc =1)** | No information available |
| **Flammability (solid, gas)** | Not applicable |
| **Flammability Limit in Air** | |
| **Upper flammability limit** | Not applicable |
| **Lower flammability limit** | Not applicable |
| **Vapor pressure** | No information available |
| **Vapor density** | No information available |
| **Specific gravity** | 1.15 - 1.21 |
| **Bulk density** | No information available |
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | No information available |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | No information available |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Sodium Chloride | = 3 g/kg ( Rat ) | > 10 g/kg ( Rabbit ) | > 42 g/m³ ( Rat ) 1 h |
| Potassium Chloride | = 2600 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** None known.

**Routes of entry** No route of entry noted.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Sodium Chloride | 4747 - 7824 mg/L LC50 Oncorhynchus mykiss 96 h 6420 - 6700 mg/L LC50 Pimephales promelas 96 h = 7050 mg/L LC50 Pimephales promelas 96 h 6020 - 7070 mg/L LC50 Pimephales promelas 96 h = 12946 mg/L LC50 Lepomis macrochirus 96 h 5560 - 6080 mg/L LC50 Lepomis macrochirus 96 h | No information available | 340.7 - 469.2 mg/L EC50 Daphnia magna 48 h = 1000 mg/L EC50 Daphnia magna 48 h |
| Potassium Chloride | 750 - 1020 mg/L LC50 Pimephales promelas 96 h = 1060 mg/L LC50 Lepomis macrochirus 96 h | = 2500 mg/L EC50 Desmodesmus subspicatus 72 h | = 83 mg/L EC50 Daphnia magna 48 h = 825 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

## 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

## 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Water-based muds containing mixtures of products listed in Chapters 17 and/or 18 of the IBC Code and the latest MEPC.2/Circular and is permitted to be carried under Annex II of MARPOL and resolution A.673 (16) Offshore Supply Vessel Code. Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium Chloride
Schedule 4

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in the European Union (EU).

# Safety Data Sheet
## Nano-Sealant D264

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** Nano-Sealant D264
**Product code** D264

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Used as a cementing additive in oilfield applications

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
Schlumberger Oilfield Australia Pty Ltd
ABN: 74 002 459 225
ACN: 002 459 225
256 St. Georges Terrace, Perth WA 6000
+47 5157 7424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 595 3518

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Silicon Dioxide

Ethylene Glycol

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Silicon Dioxide | 231-545-4 | 7631-86-9 | 10-30 |
| Ethylene Glycol | 203-473-3 | 107-21-1 | 1-5 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating and toxic gases and vapors

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away

traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid excessive heat for prolonged periods of time.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Keep airborne concentrations below exposure limits

**Personal protective equipment**

**Eye protection** Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles

**Hand protection** Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Butyl Nitrile
Break through time >480 minutes
Glove thickness 0.7 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection** No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with combination filter for vapour/particulate (EN 141) Type A/P2 At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before breaks and immediately after handling the product Remove and wash contaminated clothing before re-use

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** Aqueous solution
**Odor** Characteristic
**Color** Colorless - Milky white

**Odor threshold** Not applicable

| Property | Values | Remarks |
|---|---|---|
| **pH** | 9.0 - 10.5 | @ 25 °C |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | < -7 °C / -20 °F | |
| **Boiling point/range** | 100 °C / 212 °F | |
| **Flash point** | | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 23 hPa (@ 20°C) | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | @ 20 °C |
| **Bulk density** | No information available | |
| **Relative density** | 1.20-1.23 | @ 20°C. |
| **Water solubility** | Soluble | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | <10 mPa s | |
| **log Pow** | No information available | |

**Explosive properties** None known
**Oxidizing properties** None known.

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** No information available
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid excessive heat for prolonged periods of time.

**10.5 Incompatible materials**

No materials to be especially mentioned.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Silicon Dioxide | > 5000 mg/kg ( Rat ) | > 2000 mg/kg ( Rabbit ) | > 2.2 mg/L ( Rat ) 1 h |
| Ethylene Glycol | = 4700 mg/kg ( Rat ) | = 9530 µL/kg ( Rabbit ) = 10600 mg/kg ( Rat ) | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Skin contact. Eye contact. Inhalation. Ingestion.

**Routes of entry** Inhalation. Skin contact.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that

large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Silicon Dioxide | = 5000 mg/L LC50 Brachydanio rerio 96 h | = 440 mg/L EC50 Pseudokirchneriella subcapitata 72 h | = 7600 mg/L EC50 Ceriodaphnia dubia 48 h |
| Ethylene Glycol | 14 - 18 mL/L LC50 Oncorhynchus mykiss 96 h = 41000 mg/L LC50 Oncorhynchus mykiss 96 h = 16000 mg/L LC50 Poecilia reticulata 96 h 40000 - 60000 mg/L LC50 Pimephales promelas 96 h = 40761 mg/L LC50 Oncorhynchus mykiss 96 h = 27540 mg/L LC50 Lepomis macrochirus 96 h | 6500 - 13000 mg/L EC50 Pseudokirchneriella subcapitata 96 h | = 46300 mg/L EC50 Daphnia magna 48 h |

## 12.2 Persistence and degradability

No product level data available.

| Chemical Name | Persistence and degradability |
|---|---|
| Silicon Dioxide | No information available |

## 12.3 Bioaccumulative potential

No product level data available.

| Chemical Name | Bioaccumulation |
|---|---|
| Silicon Dioxide | Not likely to bioaccumulate |

## 12.4 Mobility

**Mobility**
The product is water soluble, and may spread in water systems.

**Mobility in soil**
No information available.

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Ethylene Glycol

Schedule 6
Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## NUT PLUG* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** NUT PLUG* (All Grades)
**Product code** PID1146

**Synonyms** NUT PLUG* FINE, NUT PLUG* MEDIUM, NUT PLUG* COARSE

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Lost circulation material.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Crystalline silica (impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Product dust may be irritating to eyes, skin and respiratory system
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Crystalline silica (impurity) | 238-878-4 | 14808-60-7 | <1 |

### 3.2 Mixtures

Not applicable

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis. IARC Monographs, Vol. 68, 1997, concludes that there is sufficient evidence that inhaled crystalline silica in the form of quartz or cristobalite from occupational sources causes cancer in humans. IARC Classification Group I.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Thermal decomposition can lead to release of irritating gases and vapors Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Take precautionary measures against static discharges. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Keep away from open flames, hot surfaces and sources of ignition Avoid contact with: Oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Crystalline silica (impurity) | 0.1 mg/m³ TWA | 0.1mg/m³TWArespirable dust | Not determined |

| | | | 1124 |
|---|---|---|---|
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Crystalline silica (impurity) | 0.025 mg/m³ TWA | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders<br>Use protective gloves made of: Neoprene Nitrile<br>Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | No information available |
| **Odor** | Odorless |
| **Color** | Tan - Brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | 193 °C / 380 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |

| | | |
|---|---|---|
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.1 - 1.4 | @ 20 °C |
| **Bulk density** | 577–641 kg/m³ / 36–40 lb/ft3 | |
| **Relative density** | No information available | |
| **Water solubility** | Insoluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | Not applicable | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static charges.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

**Product information** This product contains a small quantity of quartz, crystalline silica. Prolonged and repeated exposure to concentrations of crystalline silica exceeding the workplace exposure limit (WEL) may lead to chronic lung disease such as silicosis.

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Crystalline silica (impurity) | = 500 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** Crystalline silica dust is listed by IARC in Group 1 as known to cause lung cancer in humans, if inhaled.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Crystalline silica (impurity) | LC50 Danio rerio (zebra fish) : > 10000 mg/l 96h | EC50: > 1000 mg/l 72h | LC50 Daphnia manga (Water flea): > 10000 mg/l 24h |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical.

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical.

### 12.4 Mobility

**Mobility**
Insoluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

# Safety Data Sheet
## OS-1L*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** OS-1L*
**Product code** PID1163

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Oxygen Scavenger.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337 + P313 - If eye irritation persists: Get medical advice/attention
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

-

**Contains**
Water

Ammonium hydrogensulfite

Sulphur Dioxide (Impurity)

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Thermal decomposition can lead to release of irritating and toxic gases and vapors

### Australian statement of hazardous/dangerous nature
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Ammonium hydrogensulfite | 233-469-7 | 10192-30-0 | 40-70 |
| Water | 231-791-2 | 7732-18-5 | 30-60 |
| Sulphur Dioxide (Impurity) | 231-195-2 | 7446-09-5 | <1 |

**Comments**
Sulfur dioxide is not present as a substance. It is formed during decomposition.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** — Please see Section 11. Toxicological Information for further information.

**Eye contact** — Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** — Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Heating or fire can release toxic gas Sulphur dioxide, Nitrogen oxides (NOx), Oxides of:, Ammonia, Amines.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
This product slowly releases sulphur dioxide in contact with air. Use only in well-ventilated areas. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Strong oxidizing agents Acids Alkalis Keep at 5-30°C |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Exposure limit noted is for decomposition product Sulfur dioxide. |

No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators Respirator with combination filter for vapour/particulate (EN 141) Chemical respirator with ammonia and amines cartridge (K/P2, green filter). At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

**8.2.3 Environmental exposure controls**

**Environmental exposure** Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | No information available |
| **Odor** | Pungent Sulfur |
| **Color** | Colorless - Pale yellow |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | 4.5 - 5.5 | @ 20 °C |
| **pH @ dilution** | No information available | |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | ~ 100 °C / 212 °F | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.3 | |
| **Bulk density** | No information available | |
| **Relative density** | 1.25 - 1.30 kg/dm3 | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Reacts violently with oxidizers. Liberates poisonous sulfur dioxide gas on contact with acid.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Avoid heat, flames and other sources of ignition. Keep at temperatures between 5-30°C.

### 10.5 Incompatible materials

Strong oxidizing agents. Acids. Alkalis.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Product information** | Bisulfites may cause skin sensitization in sulfite sensitive persons. Bisulfites may also cause respiratory sensitization in asthmatics and sulfite sensitive persons. |
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Causes serious eye irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. |
| **Unknown acute toxicity** | Not applicable. |

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Water | > 90 mL/kg ( Rat ) | No data available | No data available |
| Ammonium hydrogensulfite | LD50= 2746 mg/kg - source: By analogy to product with similar composition. Notes: Related to male<br>LD50> 2150 mg/kg By analogy | LD50> 2000 mg/kg - Duration: 24h. Source: By analogy to product with similar composition | LC50 > 5.5 mg/l - Duration: 4h. Source: By analogy to product with similar composition. |

| | | | |
|---|---|---|---|
| | to product with similar composition. Notes: Related to female | | |
| Sulphur Dioxide (Impurity) | No data available | No data available | = 2500 ppm ( Rat ) 1 h |

**Sensitization** Repeated or prolonged contact may cause allergic reactions in very susceptible persons.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Eye contact. Inhalation.

**Routes of entry** Eye contact. Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Water | No information available | No information available | No information available |
| Ammonium hydrogensulfite | OECD 203 Fish LC50 > 464 mg/l - Duration h: 96 - Notes: By analogy to product with similar composition | Algae EC50 = 43.8 mg/l - Duration h: 72 - Notes: By analogy to product with similar composition. | Daphnia magna EC50 = 89 mg/l - Duration h: 48 - Notes: By analogy to product with similar composition |
| Sulphur Dioxide (Impurity) | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Ammonium hydrogensulfite | Not applicable |

### 12.3 Bioaccumulative potential

Not Applicable - Inorganic chemical. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Ammonium hydrogensulfite | No data available |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems.

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Ammonium hydrogensulfite | No data available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated
**New Zealand Hazard Classification** Classified

| | |
|---|---|
| **HSNO approval no.** | HSR002503 (Additives, Process Chemicals and Raw Materials (Subsidiary Hazard) Group Standard 2017. |
| **Group number** | 6.4A |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards**

| | |
|---|---|
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 2 |

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
WARNING

**Hazard Statements**
H315 - Causes skin irritation
H319 - Causes serious eye irritation

**Precautionary statements**
P264 - Wash face, hands and any exposed skin thoroughly after handling
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P332 + P313 - If skin irritation occurs: Get medical advice/attention
P337 + P313 - If eye irritation persists: Get medical advice/attention

**Supplementary precautionary statements**
P362 - Take off contaminated clothing and wash before reuse
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

**Contains**
Potassium hydroxide

### 2.3 Other hazards

Thermal decomposition can lead to release of irritating gases and vapors
Not classified as PBT/vPvB by current EU criteria

### Australian statement of hazardous/dangerous nature

Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Potassium hydroxide | 215-181-3 | 1310-58-3 | < 1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Do not induce vomiting without medical advice. Rinse mouth. Never give anything by mouth to an unconscious person. Get immediate medical attention. |
| **Skin contact** | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water spray, Carbon dioxide ($CO_2$).

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**

Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Because this product is a liquid, the dust-related Workplace Exposure Limits for the components do not apply. No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Potassium hydroxide | Not determined | Not determined | 2 mg/m³ Ceiling |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Potassium hydroxide | Not determined | 2 mg/m³ STEL | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Potassium hydroxide | Not determined | 2.0 mg/m³ STEL | 2 mg/m³ Ceiling |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Potassium hydroxide | 2 mg/m³ Ceiling | Not determined | Not determined |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Potassium hydroxide | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Neoprene Nitrile PVC
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

**Environmental exposure**
Use appropriate containment to avoid environmental contamination See section 6 for more information

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

**Physical state** Liquid
**Appearance** No information available
**Odor** Slight

| | |
|---|---|
| **Color** | Light brown |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 9.3 | @ 1% |
| **Melting / freezing point** | < /= -5 °C / </= 23 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | 88 °C / 190 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.02 | |
| **Bulk density** | No information available | |
| **Relative density** | No information available | |
| **Water solubility** | Dispersible | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | -37°C / -35°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

None known.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** Causes serious eye irritation.

**Skin contact** Causes skin irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Potassium hydroxide | = 284 mg/kg ( Rat ) | No data available | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of Exposure** Skin contact. Eye contact.

**Routes of entry** None known.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.

**Toxicity to daphnia and other aquatic invertebrates**
See component information below.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Potassium hydroxide | = 80 mg/L LC50 Gambusia affinis 96 h | No information available | No information available |

## 12.2 Persistence and degradability

Product is not biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Potassium hydroxide | Inorganic compound |

## 12.3 Bioaccumulative potential

The product contains potentially bioaccumulating substances. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Potassium hydroxide | Product/Substance is inorganic |

## 12.4 Mobility

**Mobility**
Dispersible in water. See component information below.

| Chemical Name | Mobility |
|---|---|
| Potassium hydroxide | Easily soluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Potassium hydroxide | Not expected to adsorb on soil |

## 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

## 12.6 Other adverse effects.

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**This safety data sheet complies with the requirements of:**
**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**

Potassium hydroxide
Schedule 6

Schedule 5

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Does not comply |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |
| **Supersedes Date:** | 11-Jul-2018 |
| **Revision date** | 13-Mar-2019 |
| **Version** | 8 |
| **This SDS has been revised in the following section(s)** | 1, 2, 15, 16 No changes with regard to classification have been made. Updated according to GHS/CLP. |

# Safety Data Sheet
## POLYPAC* (All Grades)

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLYPAC* (All Grades)
**Product code** 141381

**Synonyms** POLYPAC* ELV, R, UL & POLYPAC* SUPREME R, UL

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fluid loss reducer. Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Polyanionic cellulose

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Polyanionic cellulose | Listed | Proprietary | 60-100 |

### 3.2 Mixtures

Not applicable

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

| | |
|---|---|
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Use extinguishing agent suitable for type of surrounding fire.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Sodium oxides.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**

Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Keep away from heat and sources of ignition.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Avoid dust formation Protect from moisture Strong oxidizing agents

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** NUI = Nuisance dust, TWA 4mg/m³ Respirable Dust, 10mg/m³ Total Dust. No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Polyanionic cellulose | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Polyanionic cellulose | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Polyanionic cellulose | 10 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Polyanionic cellulose | Not determined | Not determined | 10 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Polyanionic cellulose | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard

present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Granules Powder |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 6.5 - 8 | @ 1% solution |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 - 1.6 | @ 25 °C |
| **Bulk density** | 400 - 800 kg/m³ | |

| | |
|---|---|
| **Relative density** | No information available |
| **Water solubility** | Soluble in water |
| **Solubility in other solvents** | No information available |
| **Autoignition temperature** | No information available |
| **Decomposition temperature** | > 230°C / 446°F |
| **Kinematic viscosity** | No information available |
| **Dynamic viscosity** | No information available |
| **log Pow** | Not determined |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Take precautionary measures against static charges. Avoid dust formation. Protect from moisture.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Polyanionic cellulose | = 27000 mg/kg ( Rat ) | > 2 g/kg ( Rabbit ) | > 5800 mg/m³ ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Listed on PLONOR list of OSPAR

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Polyanionic cellulose | No information available | No information available | No information available |

### 12.2 Persistence and degradability

Product is biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated

| | |
|---|---|
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

# Safety Data Sheet
## POLY-PLUS* 2000

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-PLUS* 2000
**Product code** PID10571
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier. Shale inhibitor. Fluid loss reducer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic

Alcohol, C11-14-iso-, C13-rich, ethoxylated

Hydrocarbons, C11-C12, isoalkanes, <2% aromatics

Naphtha (petroleum), hydrotreated heavy

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria
Contaminated surfaces will be extremely slippery

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | 610-193-9 | 445411-73-4 | <25 |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | Polymer | 78330-21-9 | <3 |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | 265-150-3 | 64742-48-9 | <10 |
| Naphtha (petroleum), hydrotreated heavy | 265-150-3 | 64742-48-9 | <10 |

**Comments**
The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

Based on test data - Eye Irritation (OECD 405), this product is not irritant.

The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

| | |
|---|---|
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

Fire or high temperatures create:, Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special**
Extremely slippery when spilled.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Do not flush with water. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use. Extremely slippery when spilled.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Keep away from direct sunlight. Protect from freezing Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Hydrocarbons, C11-C12, isoalkanes, <2% aromatics: OSHA: 400 mg/m³ (8 hrs) Naphtha (petroleum), hydrotreated heavy: OSHA: 400 mg/m³ (8 hrs)<br>No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | Not determined | Not determined | Not determined |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | Not determined | Not determined | Not determined |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | Not determined | Not determined | Not determined |
| Naphtha (petroleum), hydrotreated heavy | Not determined | Not determined | Not determined |

**8.2 Exposure controls**

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will

vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against liquid splashes Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: Nitrile Neoprene PVC<br>Break through time >480 minutes<br>Glove thickness >=0.4 mm<br>Be aware that liquid may penetrate the gloves. Frequent change is advisable. |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Faint hydrocarbon |
| **Color** | Milky |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5 - 8 | @ 5 g/l |
| **Melting / freezing point** | < 5 °C / < 41 °F | |
| **Boiling point/range** | > 100 °C / > 212 °F | |
| **Flash point** | Does not flash | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | 2.3 kPa | @ 20 °C |
| **Vapor density** | 0.804 g/litre | @ 20 °C |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |

| | | |
|---|---|---|
| **Relative density** | 1.0 - 1.2 | |
| **Water solubility** | Miscible with water. | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150°C / > 302°F | |
| **Kinematic viscosity** | > 20.5 cSt | @ 40 °C |
| **Dynamic viscosity** | No information available | |
| **log Pow** | Not determined | |

| | |
|---|---|
| **Explosive properties** | Not applicable |
| **Oxidizing properties** | Not applicable |

**9.2 Other information**

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Keep away from open flames, hot surfaces and sources of ignition. Keep away from direct sunlight. Protect from freezing.

**10.5 Incompatible materials**

Oxidizing agents.

**10.6 Hazardous decomposition products**

See Section 5.2.

## 11. Toxicological Information

**11.1 Information on toxicological effects**

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of vapors in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | > 5000 mg/kg (Rat) | > 2000 mg/kg (Rabbit) | > 2.3 mg/L (Rat) |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | > 2000 mg/kg (Rat) | > 2000 mg/kg (Rat) | No data available |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | > 6000 mg/kg ( Rat ) | > 3160 mg/kg ( Rabbit ) | > 8500 mg/m³ ( Rat ) 4 h |
| Naphtha (petroleum), hydrotreated heavy | > 6000 mg/kg ( Rat ) | > 3160 mg/kg ( Rabbit ) | > 8500 mg/m³ ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

**12.1 Toxicity**

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | No information available | No information available | No information available |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | No information available | No information available | No information available |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | = 2200 mg/L LC50 Pimephales promelas 96 h | No information available | = 2.6 mg/L LC50 Chaetogammarus marinus 96 h |
| Naphtha (petroleum), hydrotreated heavy | = 2200 mg/L LC50 Pimephales promelas 96 h | No information available | = 2.6 mg/L LC50 Chaetogammarus marinus 96 h |

## 12.2 Persistence and degradability

Not readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | Readily biodegradable OECD 301B 68.1% 28 days |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | Readily biodegradable |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | Inherently biodegradable |
| Naphtha (petroleum), hydrotreated heavy | OECD 301 : 31.5% 28 days |

## 12.3 Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | No information available |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | No information available |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | log Pow : 6.7-7.2 |
| Naphtha (petroleum), hydrotreated heavy | No information available |

## 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | No information available |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | Soluble in water |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | No data available |
| Naphtha (petroleum), hydrotreated heavy | No data available |

**Mobility in soil**
No information available.

| Chemical Name | Mobility in soil |
|---|---|
| Gas oils (petroleum), vacuum, hydrocracked, hydroisomerized, hydrogenated, C10-25, branched and cyclic | No information available |
| Alcohol, C11-14-iso-, C13-rich, ethoxylated | No information available |
| Hydrocarbons, C11-C12, isoalkanes, <2% aromatics | No information available |
| Naphtha (petroleum), hydrotreated heavy | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information

Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number

Not regulated

### 14.2. UN proper shipping name

The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)

**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

**ADR/RID/ADN/ADG Packing group** Not regulated
**IMDG/ANTAQ Packing group** Not regulated
**ICAO/ANAC Packing group** Not regulated

### 14.5 Environmental hazard

No

### 14.6 Special precautions

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

This SDS is not for use in EU/EEA.

# Safety Data Sheet
## POLY-PLUS* DRY

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-PLUS* DRY
**Product code** PID1236

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale stabilizer.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

**Contains** No hazardous components

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

| | |
|---|---|
| **Inhalation** | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. |
| **Ingestion** | Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

**4.2. Most important symptoms and effects, both acute and delayed**

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes extremely slippery when wet.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**

Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes extremely slippery when wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Keep away from open flames, hot surfaces and sources of ignition Suspended dust may present a dust explosion hazard Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Repeated or prolonged contact Use protective gloves made of: Nitrile Neoprene PVC Frequent change is |

| | |
|---|---|
| | advisable |
| **Respiratory protection** | No protective equipment is needed under normal use conditions In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Granular |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 5-9 | @ 5 g/l |
| **Melting / freezing point** | > 150 °C / 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.25 - 1.40 | 20 °C |
| **Bulk density** | 641-737 kg/m³ / 40 - 46 lb/ft³ | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150 °C / 302 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Take precautionary measures against static charges. Avoid dust formation. Keep away from open flames, hot surfaces and sources of ignition.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) (PRODUCT) |
| **LD50 Dermal** | > 5000 mg/kg (rat) (PRODUCT) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.

**Toxicity to fish**
This product is not considered toxic to fish.

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.

### 12.2 Persistence and degradability

Product is not biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

### 12.4 Mobility

**Mobility**

Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**

Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

**New Zealand Hazard Classification** Not classified

**HSNO approval no.** Not required.

**Group number** Not required.

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

# Safety Data Sheet
## POLY-PLUS* EHV

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-PLUS* EHV
**Product code** PID11709

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Viscosifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** , No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

This product does not contain any hazardous ingredients, or ingredients with national workplace exposure limits.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** — Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Large spills released to the environment may disturb the natural chemical balance of soil/fresh water.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**

Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. If spilled, take caution, as material can cause surfaces to become very slippery.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Protect from moisture Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | The product does not contain any hazardous materials with occupational exposure limits established.<br>No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

| | |
|---|---|
| **Personal protective equipment** | |
| **Eye protection** | Tightly fitting safety goggles Safety glasses with side-shields |
| **Hand protection** | Repeated or prolonged contact Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |

**Skin and body protection** Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures** Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Granules Dust |
| **Odor** | None |
| **Color** | White |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 6.0 - 8.0 | @ 1% solution |
| **Melting / freezing point** | > 150 °C / > 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | No information available | |
| **Bulk density** | No information available | |
| **Relative density** | 0.8 sg (50 lbs./cu. Ft.) | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150°C / 302°F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

| | |
|---|---|
| **Explosive properties** | No information available |
| **Oxidizing properties** | No information available |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | No information available |
| **Density** | No information available |

**Comments**

The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

No specific reactivity hazards associated with this product.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Protect from moisture.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | May cause slight irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) |
| **LD50 Dermal** | > 5000 mg/kg (rat) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |

| | |
|---|---|
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
IC50/Scenedesmus subspicatus/72 hrs > 100 mg/L (OECD201.

**Toxicity to fish**
LC50/Danio rerio/96 hrs > 100 mg/L (OECD203)
LC50/Oncorhynchus mykiss/96 hrs > 100 mg/L (OECD203).

**Toxicity to daphnia and other aquatic invertebrates**
EC50/Daphnia magna/48 hrs > 100 mg/L OECD202).

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**
-2

### 12.4 Mobility

**Mobility**
Soluble in water.

**Mobility in soil**

No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |

**Supersedes Date:** 26-Oct-2016

# Safety Data Sheet
## POLY-PLUS* RD

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-PLUS* RD
**Product code** PID1241

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Drilling fluid additive.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains** No hazardous components
**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
Suspended dust may present a dust explosion hazard
Contaminated surfaces will be extremely slippery

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

No classified ingredients, or those having occupational exposure limits, present above the level of disclosure.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if any discomfort continues.

**4.2. Most important symptoms and effects, both acute and delayed**

**General advice** — The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** — Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid) may be produced in the event of combustion in an oxygen deficient atmosphere.

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Contaminated surfaces will be extremely slippery.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Take precautionary measures against static discharges. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes extremely slippery when wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not smoke, eat or drink. Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. Take precautionary measures against static discharges. Keep airborne concentrations below exposure limits. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Suspended dust may present a dust explosion hazard Avoid heat, flames and other sources of ignition. Protect from moisture Avoid contact with: Oxidizing agents |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | NUI = Nuisance dust, TWA 4mg/m$^3$ Respirable Dust, 10mg/m$^3$ Total Dust. No biological limit allocated |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Use eye protection according to EN 166, designed to protect against powders and dusts Tightly fitting safety goggles Safety glasses with side-shields |

| | |
|---|---|
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene PVC Frequent change is advisable |
| **Respiratory protection** | In case of insufficient ventilation wear suitable respiratory equipment Suitable mask with particle filter P3 (European Norm 143) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

**8.2.3 Environmental exposure controls**

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Granules |
| **Odor** | Slight Hydrocarbon-like |
| **Color** | White |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | Not applicable | |
| **pH @ dilution** | 7.7 | @ 1% sol. |
| **Melting / freezing point** | > 150 °C / > 302 °F | |
| **Boiling point/range** | No information available | |
| **Flash point** | Not applicable | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.25 - 1.40 | 20 °C |
| **Bulk density** | 641–737 kg/m³ (40–46 lb/ft²) | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | > 150 °C / > 302 °F | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | -2 | |

| | |
|---|---|
| **Explosive properties** | Suspended dust may present a dust explosion hazard |
| **Oxidizing properties** | None known. |

### 9.2 Other information

| | |
|---|---|
| **Pour point** | No information available |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

### 10.1 Reactivity

Dust may form explosive mixture in air.

### 10.2 Chemical stability

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Take precautionary measures against static charges. Avoid heat, flames and other sources of ignition. Protect from moisture. Avoid dust formation.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

| | |
|---|---|
| **Inhalation** | Inhalation of dust in high concentration may cause irritation of respiratory system. |
| **Eye contact** | Dust may cause mechanical irritation. |
| **Skin contact** | Prolonged contact may cause redness and irritation. |
| **Ingestion** | Ingestion may cause stomach discomfort. |
| **Unknown acute toxicity** | Not applicable. |

| | |
|---|---|
| **LD50 Oral** | > 5000 mg/kg (rat) (MIXTURE) |
| **LD50 Dermal** | > 5000 mg/kg (rat) (MIXTURE) |

| | |
|---|---|
| **Sensitization** | This product does not contain any components suspected to be sensitizing. |
| **Mutagenic effects** | This product does not contain any known or suspected mutagens. |
| **Carcinogenicity** | This product does not contain any known or suspected carcinogens. |
| **Reproductive toxicity** | This product does not contain any known or suspected reproductive hazards. |
| **Routes of exposure** | Inhalation. |
| **Routes of entry** | Inhalation. |
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | Not applicable. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Toxicity to algae**
This product is not considered toxic to algae.
IC50/Scenedesmus subspicatus/72 hrs: > 100 mg/l (OECD 201).

**Toxicity to fish**
This product is not considered toxic to fish.
LV50/Danio rerio/96 hrs: > 100 mg/l (OECD 203)
LC50/Fathead minnow/96 hrs: > 100 mg/l (OECD 203).

**Toxicity to daphnia and other aquatic invertebrates**
This product is not considered toxic to invertebrates.
EC50/Daphnia magna/48 hrs.: > 100 mg/l (OECD202).

### 12.2 Persistence and degradability

Not readily biodegradable.

### 12.3 Bioaccumulative potential

Does not bioaccumulate.

**log Pow**

-2

**12.4 Mobility**

**Mobility**
Soluble in water.

**Mobility in soil**
No information available.

**12.5 Results of PBT and vPvB assessment**

Not classified as PBT/vPvB by current EU criteria.

**12.6 Other adverse effects.**

None known.

**12.7 Other information**
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

**13.1 Waste treatment methods**

| | |
|---|---|
| **Waste from residues/unused products** | Dispose of in accordance with local regulations. |
| **Contaminated packaging** | Empty containers should be taken for local recycling, recovery or waste disposal. |

## 14. Transport information

**14.1. UN number**
Not regulated

**14.2. UN proper shipping name**
The product is not covered by international regulation on the transport of dangerous goods

**14.3 Hazard class(es)**

| | |
|---|---|
| **ADR/RID/ADN/ADG Hazard class** | Not regulated |
| **IMDG/ANTAQ Hazard class** | Not regulated |
| **ICAO/ANAC Hazard class/division** | Not regulated |

**14.4 Packing group**

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

## 16. Other Information

# Safety Data Sheet
## POLY-PLUS*

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-PLUS*
**Product code** PID1231

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Shale control agent. Viscosifier. Friction reducer. Flocculating agent

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards** Not classified

**Physical Hazards** Not classified

### 2.2 Label elements

**Hazard Statements**
This product is not classified as hazardous therefore no (H) hazard statements assigned.

**Precautionary statements**
This product is not classified as hazardous therefore has no (P) precautionary statements assigned.

-

**Contains**
Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics*

Isotridecanol, ethoxylated

**2.3 Other hazards**

Not classified as PBT/vPvB by current EU criteria
May cause slight irritation

**Australian statement of hazardous/dangerous nature**
Classified as Non-Hazardous according to the criteria of NOHSC.
NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

**3.1 Substances**

Not applicable

**3.2 Mixtures**

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | 920-107-4 | RM1003179 | 30-60 |
| Isotridecanol, ethoxylated | NLP | 69011-36-5 | <3 |

**Comments**
OECD Test No. 437: Bovine Corneal Opacity and Permeability Test Method for Identifying i) Chemicals Inducing Serious Eye Damage and ii) Chemicals Not Requiring Classification for Eye Irritation or Serious Eye Damage: Not Irritant

The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply.

.

The product contains other ingredients which do not contribute to the overall classification.

*Substances which have an EC Number that begins with the number "9" is a Provisional List Number. The list numbers published by ECHA do not have any legal significance. The EC substance definition and related classification & labelling has been developed in the framework of the Regulation (EC) No 1907/2006 (REACH). For information about the related CAS number see section 15 of this SDS.

## 4. First Aid Measures

**4.1 First aid measures**

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Seek medical attention if irritation occurs.

| | |
|---|---|
| **Skin contact** | Wash skin thoroughly with soap and water. Get medical attention if irritation persists. |
| **Eye Contact** | Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues. |

### 4.2. Most important symptoms and effects, both acute and delayed

| | |
|---|---|
| **General advice** | The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible. |
| **Symptoms** | |
| **Inhalation** | Please see Section 11. Toxicological Information for further information. |
| **Ingestion** | Please see Section 11. Toxicological Information for further information. |
| **Skin contact** | Please see Section 11. Toxicological Information for further information. |
| **Eye contact** | Please see Section 11. Toxicological Information for further information. |

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
None known.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx), Nitrogen oxides (NOx), Hydrogen cyanide (hydrocyanic acid).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. See also section 8. If spilled, take caution, as material can cause surfaces to become very slippery.

### 6.2 Environmental precautions

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to applicable federal, state and local regulations.

**Environmental exposure controls**
Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up**
Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Do not breathe vapors or spray mist. Avoid spills and splashing during use.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. Do not eat, drink or smoke when using this product Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

| | |
|---|---|
| **Technical measures/precautions** | Ensure adequate ventilation. |
| **Storage precautions** | Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Keep away from direct sunlight. Avoid contact with: Oxidizing agents Protect from freezing Keep at >5 - <30°C |
| **Storage class** | Chemical storage. |
| **Packaging materials** | Use specially constructed containers only. |

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

| | |
|---|---|
| **Exposure limits** | Oil mist (mineral) workplace exposure limits are currently under review by legislative authorities. This workplace exposure limit (WEL) standard is applicable to highly refined mineral oils and is provided as a guidance limit only LT. EXP = 5mg/m$^3$ and ST. EXP = 10mg/m$^3$.<br>No biological limit allocated |

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |

## 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

**Eye protection**
Use eye protection according to EN 166, designed to protect against liquid splashes Tightly fitting safety goggles Safety glasses with side-shields

**Hand protection**
Wear chemically resistant gloves (tested to EN 374) in combination with 'basic' employee training Impervious gloves made of: PVC Nitrile Neoprene
Break through time >480 minutes
Glove thickness >=0.4 mm
Be aware that liquid may penetrate the gloves. Frequent change is advisable.

**Respiratory protection**
No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Respirator with a vapor filter (EN 141) Use respirator with organic vapor protection (A, brown) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used.

**Skin and body protection**
Wear suitable protective clothing Eye wash and emergency shower must be available at the work place.

**Hygiene Measures**
Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

| | |
|---|---|
| **Physical state** | Liquid |
| **Appearance** | Viscous |
| **Odor** | Hydrocarbon-like |
| **Color** | Milky |
| **Odor threshold** | Not applicable |

| **Property** | **Values** | **Remarks** |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 8.0 - 9.0 | @ 1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | > 93.3 °C / > 200 °F | PMCC |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |

|---|---|
| **Pour point** | -28.9°C / -20°F |
| **Molecular weight** | No information available |
| **VOC content(%)** | None |
| **Density** | No information available |

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

No specific reactivity hazards associated with this product.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

### 10.3 Possibility of Hazardous Reactions

**Hazardous polymerization**
Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Keep away from direct sunlight. Avoid frost. Keep at temperatures between >5-<30°C. Avoid heat, flames and other sources of ignition.

### 10.5 Incompatible materials

Oxidizing agents.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Product information** OECD Test No. 437: Bovine Corneal Opacity and Permeability Test Method for Identifying i) Chemicals Inducing Serious Eye Damage and ii) Chemicals Not Requiring Classification for Eye Irritation or Serious Eye Damage: Not Irritant.

**Inhalation** Inhalation of vapors in high concentration may cause irritation of respiratory system.

**Eye contact** May cause slight irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | > 5000 mg/kg (OECD 401), Rat | > 5000 mg/kg (OECD 402), Rabbit | = 4951 mg/kg (OECD 403) 4H, Rat |
| Isotridecanol, ethoxylated | 500-2000 mg/kg Rat | > 2000 mg/kg | No data available |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

| | |
|---|---|
| **Specific target organ toxicity - Single exposure** | Not classified |
| **Specific target organ toxicity - Repeated exposure** | Not classified. |
| **Aspiration hazard** | The viscosity of this product is high enough that it is not an aspiration risk and the H304 phrase does not apply. |
| **Other information** | Key literature references and sources for data. See Section 16 for more information. |

## 12. Ecological Information

### 12.1 Toxicity

The product component(s) are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
The product may affect the acidity (pH-factor) in water with risk of harmful effects to aquatic organisms.

**Toxicity to algae**
IC50- 72 hours: > 100 mg/l (PRODUCT).

**Toxicity to fish**
LC50 - Oncorhynchus mykiss - 96 hours: > 100 mg/l (PRODUCT).

**Toxicity to daphnia and other aquatic invertebrates**
EC50 - Daphina - 48 hours: > 100 mg/l (PRODUCT).

**Toxicology data for the components**

| Chemical Name | Toxicity to fish | Toxicity to algae | Toxicity to daphnia and other aquatic invertebrates |
|---|---|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | > 1000 mg/l (OECD 201) Oncorhynchus mykiss/96 hours | > 1000 mg/l (OECD 201) Pseudokirchneriella subcapitata/72 hours | > 1000 mg/l (OECD 202) Daphnia magna/48 hours |
| Isotridecanol, ethoxylated | = 1-10 mg/l (OECD 203) Cyprinus carpio/96 hours | = 1-10 mg/l (OECD 201) Desmodesmus subspicatus/72 hours | = 1-10 mg/l (OECD 202) Daphnia magna/72 hours |

### 12.2 Persistence and degradability

Readily biodegradable. See component information below.

| Chemical Name | Persistence and degradability |
|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | Readily biodegradable |
| Isotridecanol, ethoxylated | Readily biodegradable |

### 12.3 Bioaccumulative potential

Bioaccumulation is unlikely. See component information below.

| Chemical Name | Bioaccumulation |
|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | Does not bioaccumulate |
| Isotridecanol, ethoxylated | Does not bioaccumulate |

### 12.4 Mobility

**Mobility**
The product is miscible with water. May spread in water systems. See component information below.

| Chemical Name | Mobility |
|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | Insoluble |
| Isotridecanol, ethoxylated | Practically insoluble |

**Mobility in soil**
See component information below.

| Chemical Name | Mobility in soil |
|---|---|
| Hydrocarbons, C12-C15, n-alkanes, isoalkanes < 2% aromatics* | No information available |
| Isotridecanol, ethoxylated | No information available |

### 12.5 Results of PBT and vPvB assessment

Not classified as PBT/vPvB by current EU criteria.

### 12.6 Other adverse effects.

None known.

### 12.7 Other information
Key literature references and sources for data. See Section 16 for more information.

## 13. Disposal considerations

### 13.1 Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations.

**Contaminated packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. Transport information

### 14.1. UN number
Not regulated

### 14.2. UN proper shipping name
The product is not covered by international regulation on the transport of dangerous goods

### 14.3 Hazard class(es)
**ADR/RID/ADN/ADG Hazard class** Not regulated
**IMDG/ANTAQ Hazard class** Not regulated
**ICAO/ANAC Hazard class/division** Not regulated

### 14.4 Packing group

| | |
|---|---|
| **ADR/RID/ADN/ADG Packing group** | Not regulated |
| **IMDG/ANTAQ Packing group** | Not regulated |
| **ICAO/ANAC Packing group** | Not regulated |

**14.5 Environmental hazard**
No

**14.6 Special precautions**
Not applicable

**14.7 Transport in bulk according to Annex I/II of MARPOL 73/78 and the IBC Code**
Please contact SDS@slb.com for info regarding transport in Bulk.

## 15. Regulatory Information

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**The Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

**Australian Standard for the Uniform Scheduling of Drugs and Poisons**
No poisons schedule number allocated

| | |
|---|---|
| **New Zealand Hazard Classification** | Not classified |
| **HSNO approval no.** | Not required. |
| **Group number** | Not required. |

**National Code of Practice for the Preparation of Material Safety Data Sheets 2nd Edition [NOHSC: 2011 (2003)].**

**National Occupational Health and Safety Commission's Approved Criteria for Classifying Hazardous Substances [NOHSC:1008 (2004) 3rd Edition].**

**National Occupational Health and Safety Commission's Exposure Standards for Atmospheric Contaminants in the occupational Environment [NOHSC:1003 (1995)].**

**Safe Work Australia.**

**Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).**

**Not classified as dangerous goods in accordance with the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG)**

**Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 [P.U.(A) 310/2013] (CLASS Regulations)**
**The Industry Code of Practice on Chemical Classification and Hazard Communication 2014 [P.U. (B) 128/2014] (ICOP)**

**International inventories**

| | |
|---|---|
| **USA (TSCA)** | Complies |
| **Canada (DSL)** | Complies |
| **Philippines (PICCS)** | Complies |
| **Japan (ENCS)** | Complies |
| **China (IECSC)** | Complies |
| **Australia (AICS)** | Complies |

| | |
|---|---|
| **Korean (KECL)** | Complies |
| **New Zealand (NZIoC)** | Complies |

CAS Number 64742-47-8 can be used to identify the substance given a list number in section 3 in areas not subject to the REACH regulation.

## 16. Other Information

| | |
|---|---|
| **Prepared by** | Global Regulatory Compliance - Chemicals (GRC - Chemicals) , Anne Karin (Anka) Fosse |

# Safety Data Sheet
## POLY-SAL* HT

## 1. Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** POLY-SAL* HT
**Product code** PID170
**Country Limitations** This SDS is not for use in EU/EEA.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Filtration-control. / Rheology modifier.

**Uses advised against** Consumer use

### 1.3 Details of the supplier of the safety data sheet

**Supplier**
M-I Australia Pty Ltd
ABN: 67 009 214 162
Level 5
256 St. George Tce
Perth
WA 6000
T = +61 08 9440 2900
F = +61 08 9322 3080
+47 51577424

SDS@slb.com

### 1.4 Emergency Telephone Number

**Emergency telephone** - (24 Hour) Australia +61 2801 44558, Asia Pacific +65 3158 1074, China +86 10 5100 3039, Europe +44 (0) 1235 239 670, Middle East and Africa +44 (0) 1235 239 671, New Zealand +64 9929 1483, USA 001 281 561 1600

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

**GHS Classification**

**Health hazards** Not classified

**Environmental hazards**

| | |
|---|---|
| Chronic aquatic toxicity | Category 3 |

**Physical Hazards** Not classified

### 2.2 Label elements

**Signal word**
None

**Hazard Statements**
H412 - Harmful to aquatic life with long lasting effects

**Precautionary statements**
P273 - Avoid release to the environment
P280 - Wear protective gloves/protective clothing/eye protection/face protection

-

**Contains**
Starch

Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione

### 2.3 Other hazards

Not classified as PBT/vPvB by current EU criteria

**Australian statement of hazardous/dangerous nature**
Classified as Hazardous according to the criteria of NOHSC.
HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

## 3. Composition/information on Ingredients

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical Name | EC No | CAS No | Weight-% |
|---|---|---|---|
| Starch | Listed | Proprietary | 60-100 |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | 208-576-7 | 533-74-4 | < 1 |

**Comments**
The product contains other ingredients which do not contribute to the overall classification.

## 4. First Aid Measures

### 4.1 First aid measures

**Inhalation** — If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.

**Ingestion** — Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Skin contact** — Wash skin thoroughly with soap and water. Get medical attention if irritation persists.

**Eye Contact** — Promptly wash eyes with lots of water while lifting eye lids. Remove contact lenses, if worn. Get medical attention if any discomfort continues.

### 4.2. Most important symptoms and effects, both acute and delayed

**General advice** The severity of the symptoms described will vary dependant of the concentration and the length of exposure. If adverse symptoms develop, the casualty should be transferred to hospital as soon as possible.

**Symptoms**

**Inhalation** Please see Section 11. Toxicological Information for further information.

**Ingestion** Please see Section 11. Toxicological Information for further information.

**Skin contact** Please see Section 11. Toxicological Information for further information.

**Eye contact** Please see Section 11. Toxicological Information for further information.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## 5. Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable extinguishing media**
Water Fog, Alcohol Foam, $CO_2$, Dry Chemical.

**Extinguishing media which must not be used for safety reasons**
None known.

### 5.2. Special hazards arising from the substance or mixture

**Unusual fire and explosion hazards**
Dust may form explosive mixture in air.

**Hazardous combustion products**
Fire or high temperatures create: Carbon oxides (COx).

### 5.3 Advice for firefighters

**Special protective equipment for fire-fighters**
As in any fire, wear self-contained breathing apparatus and full protective gear.

**Special Fire-Fighting Procedures**
Containers close to fire should be removed immediately or cooled with water.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Use personal protective equipment. See also section 8. Material becomes slippery when wet. Use caution if wet.

### 6.2 Environmental precautions

The product should not be allowed to enter drains, water courses or the soil.

**Environmental exposure controls**
Avoid release to the environment. Local authorities should be advised if significant spillages cannot be contained.

### 6.3 Methods and material for containment and cleaning up

**Methods for containment**
Cover powder spill with plastic sheet or tarp to minimize spreading. Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up**
Sweep up and shovel into suitable containers for disposal. Take precautionary measures against static discharges. Avoid dust formation. After cleaning, flush away traces with water.

### 6.4 Reference to other sections

See section 13 for more information.

## 7. Handling and Storage

### 7.1 Precautions for safe handling

**Handling**
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid dust formation. Material becomes slippery when wet. Use caution if wet.

**Hygiene Measures**
Use good work and personal hygiene practices to avoid exposure. When using do not eat, drink, smoke, sniff Wash hands and face before breaks and immediately after handling the product Remove contaminated clothing

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/precautions** Ensure adequate ventilation. Keep airborne concentrations below exposure limits. Take precautionary measures against static discharges.

**Storage precautions** Keep containers tightly closed in a dry, cool and well-ventilated place Avoid heat, flames and other sources of ignition. Suspended dust may present a dust explosion hazard Protect from moisture Avoid contact with: Strong oxidizing agents Sulfuric acid.

**Storage class** Chemical storage.

**Packaging materials** Use specially constructed containers only.

## 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Exposure limits** No biological limit allocated

**Component Information**

| Chemical Name | Arabic | Australia | Egypt |
|---|---|---|---|
| Starch | 10 mg/m³ TWA | 10mg/m³TWAinhalable dust | Not determined |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | Not determined | Not determined | Not determined |
| **Chemical Name** | **India** | **Indonesian** | **Japan** |
| Starch | Not determined | 10 mg/m³ TWA | Not determined |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | Not determined | Not determined | Not determined |
| **Chemical Name** | **Kazakhstan** | **Kuwait** | **New Zealand** |
| Starch | Not determined | Not determined | 10 mg/m³ TWA |

| | | | |
|---|---|---|---|
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | 2 mg/m³ MAC | Not determined | Not determined |
| **Chemical Name** | **Malaysia** | **Philippines** | **Russia** |
| Starch | 10 mg/m³ TWA | Not determined | 10 mg/m³ MAC |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | Not determined | Not determined | 2 mg/m³ MAC |
| **Chemical Name** | **Thailand** | **Vietnam** | **Turkey** |
| Starch | Not determined | Not determined | Not determined |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | Not determined | Not determined | Not determined |

### 8.2 Exposure controls

All chemical Personal Protective Equipment (PPE) should be selected based on an assessment of both the chemical hazard present and the risk of exposure to those hazards. The PPE recommendations below are based on an assessment of the chemical hazards associated with this product. Where this product is used in a mixture with other products or fluids, additional hazards may be created and as such further assessment of risk may be required. The risk of exposure and need of respiratory protection will vary from workplace to workplace and should be assessed by the user in each situation.

**Engineering Controls**
Ensure adequate ventilation Mechanical ventilation or local exhaust ventilation is required.

**Personal protective equipment**

| | |
|---|---|
| **Eye protection** | Safety glasses with side-shields Tightly fitting safety goggles |
| **Hand protection** | Wear gloves according to EN 374 to protect against skin effects from powders Use protective gloves made of: Nitrile Neoprene Frequent change is advisable |
| **Respiratory protection** | No personal respiratory protective equipment normally required In case of insufficient ventilation wear suitable respiratory equipment Half mask with a particle filter P2 (European Norm EN 143 = former DIN 3181) At work in confined or poorly ventilated spaces, respiratory protection with air supply must be used. |
| **Skin and body protection** | Wear suitable protective clothing Eye wash and emergency shower must be available at the work place. |
| **Hygiene Measures** | Wash hands before eating, drinking or smoking Remove and wash contaminated clothing before re-use |

### 8.2.3 Environmental exposure controls

| | |
|---|---|
| **Environmental exposure** | Use appropriate containment to avoid environmental contamination See section 6 for more information |

## 9. Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Solid |
| **Appearance** | Powder Dust |
| **Odor** | Odorless |
| **Color** | Off-white |
| **Odor threshold** | Not applicable |

| Property | Values | Remarks |
|---|---|---|
| **pH** | No information available | |
| **pH @ dilution** | 4-7 | 1% |
| **Melting / freezing point** | No information available | |
| **Boiling point/range** | No information available | |
| **Flash point** | No information available | |
| **Evaporation rate (BuAc =1)** | No information available | |
| **Flammability (solid, gas)** | Not applicable | |
| **Flammability Limit in Air** | | |
| **Upper flammability limit** | Not applicable | |
| **Lower flammability limit** | Not applicable | |
| **Vapor pressure** | No information available | |
| **Vapor density** | No information available | |
| **Specific gravity** | 1.5 | |
| **Bulk density** | 300-700 kg/m³ (19-44 lb/ft3) | |
| **Relative density** | No information available | |
| **Water solubility** | Soluble in water | |
| **Solubility in other solvents** | No information available | |
| **Autoignition temperature** | No information available | |
| **Decomposition temperature** | No information available | |
| **Kinematic viscosity** | No information available | |
| **Dynamic viscosity** | No information available | |
| **log Pow** | No information available | |

**Explosive properties** Suspended dust may present a dust explosion hazard
**Oxidizing properties** No information available

**9.2 Other information**

**Pour point** No information available
**Molecular weight** No information available
**VOC content(%)** No information available
**Density** No information available

**Comments**
The data listed above are typical physical and chemical properties and should not be construed as product specification.

## 10. Stability and Reactivity

**10.1 Reactivity**

Dust may form explosive mixture in air.

**10.2 Chemical stability**

Stable under normal temperature conditions and recommended use.

**10.3 Possibility of Hazardous Reactions**

**Hazardous polymerization**
Hazardous polymerization does not occur.

**10.4 Conditions to avoid**

Avoid heat, flames and other sources of ignition. Take precautionary measures against static charges. Protect from moisture. Avoid dust formation.

**10.5 Incompatible materials**

Strong oxidizing agents. Sulfuric acid.

### 10.6 Hazardous decomposition products

See Section 5.2.

## 11. Toxicological Information

### 11.1 Information on toxicological effects

**Acute toxicity**

**Inhalation** Inhalation of dust in high concentration may cause irritation of respiratory system.

**Eye contact** Dust may cause mechanical irritation.

**Skin contact** Prolonged contact may cause redness and irritation.

**Ingestion** Ingestion may cause stomach discomfort.

**Unknown acute toxicity** Not applicable.

**Toxicology data for the components**

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|---|---|---|---|
| Starch | No data available | No data available | No data available |
| Tetrahydro-3,5-dimethyl-1,3,5-thiadiazine-2-thione | = 550 mg/kg ( Rat ) | = 7 g/kg ( Rabbit ) | = 8400 mg/m³ ( Rat ) 4 h |

**Sensitization** This product does not contain any components suspected to be sensitizing.

**Mutagenic effects** This product does not contain any known or suspected mutagens.

**Carcinogenicity** This product does not contain any known or suspected carcinogens.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**Routes of exposure** Inhalation.

**Routes of entry** Inhalation.

**Specific target organ toxicity - Single exposure** Not classified

**Specific target organ toxicity - Repeated exposure** Not classified.

**Aspiration hazard** Not applicable.

**Other information** Key literature references and sources for data. See Section 16 for more information.

## 12. Ecological Information

### 12.1 Toxicity

Harmful to aquatic life with long lasting effects

**Toxicity to algae**
See component information below.

**Toxicity to fish**
See component information below.
